Connectivity

Connect without complexity and create productive workspaces

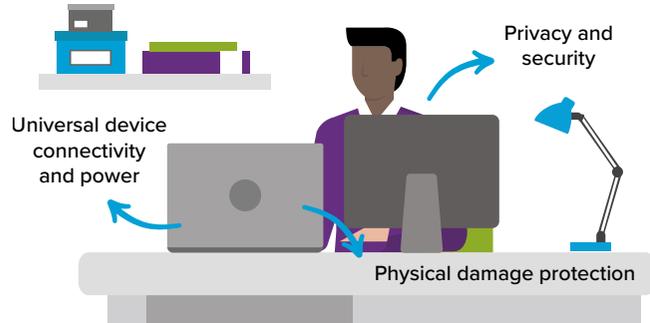

Over half of all companies (53%) **use more than one type of operating system** as standard, creating complexity for decision makers around tech compatibility.

95% of decision makers **state it is important** for their organisations to have **tech accessories that work for all types of computer models.**

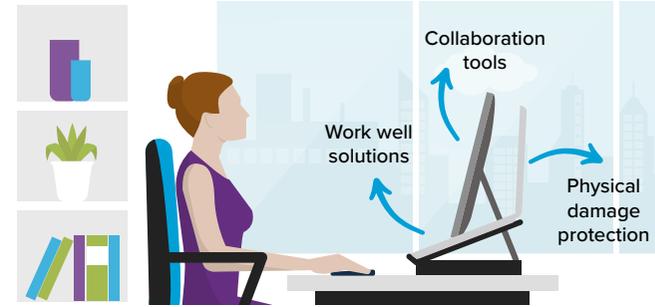

Work well anywhere

Flexible Workers

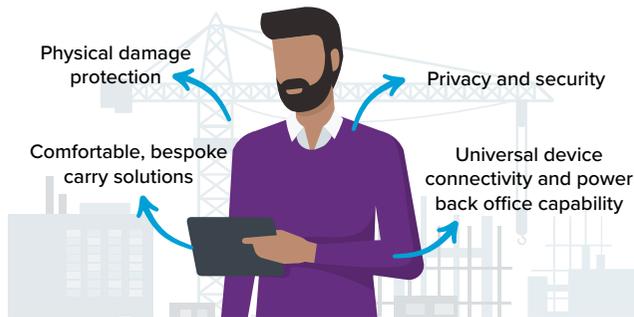

Those going to the office for only a few hours or days a week, most companies are adopting a hot-desking approach.

Home Workers

Facilitate remote work and deliver comfort, productivity and colleague collaboration as standard.

Non-deskbound

Technology is increasingly demanded in sectors such as emergency first-response, retail, manufacturing and construction.

Frequent Travellers

Staying comfortable, productive and professional whilst on the move is critical for the individual and reflects positively for the client.

SETTING UP YOUR WORKSPACE

Look **STRAIGHT AHEAD**: have your monitor at eye level or just below and an arm's length away. If using multiple monitors, angle them inwards to reduce neck rotation.

Give your **EYES** a break. Every 20 minutes, look 20 feet away for 20 seconds. 20-20-20.

ELBOWS and **FOREARMS** level with the desk surface, with shoulders down and relaxed. Adjust chair height or prop yourself up with additional cushions.

FEET planted on the floor. A footrest is ideal; alternatively, use a box.

Keyboard and mouse positioned close to the edge of the desk to avoid unnecessary stretching. Don't shrug **SHOULDERS** when typing and mousing; lower the work surface or adjust your chair height to avoid this.

Sit **BACK** taking full backrest support. Adjustable chairs are ideal. For more lumbar support, place a cushion or rolled up towel behind you.

Keep **THIGHS** parallel to the floor, knees slightly lower than the hips.

Regular **MOVEMENT** is key. Get up from your chair 2-3 times an hour for 30-60 seconds or 5-10 minutes every hour. Add dynamic stretches to daily routines as well as walking.

Quick Tip

We know that sometimes it is difficult to remember how much power or wattage the AC power adapter supplies to your laptop or smart device. Here's a rule of thumb:

- 5-20W – smartphones and tablets
- 45W – most 11.6 - 14 inch laptops
- 65W – most 14 - 15.6 inch laptops
- 90-100W – most 15.6+ inch laptops

Powering a new way of life

3 in 5 people (61%) carry a charger for their laptop, phone, or tablet every day

Targus PowerElite™ Chargers are safer, cooler and more efficient compared to conventional chargers. By using Gallium Nitride (GaN) and the latest USB-C protocol, Targus is able to enable smart, reliable power delivery universally across all your devices and in 140 countries.

Smart

Targus PowerElite™ Chargers provide super fast charging with up to 100W power for single device. Most modern smart devices have clever power management to control recharge speeds, which also aids battery longevity of the devices. Targus PowerElite™ Chargers leverage PPS (Programmable Power Supply) which dynamically meets power requirements of your device real-time, helping to maintain your device battery health.

Universal

Targus PowerElite™ Chargers integrates both USB-C and USB-A charging ports, which means you can charge practically anything from smart watches or headphones to smart devices to laptops. In addition, travel friendly adapters are included so the charger is able to work in over 140 countries.

Reliable

Safety is synonymous with Targus power products for decades. Carefully designed circuitry ensures complete compliance with the strictest of certifications across the globe, keeping you and your devices safe. Utilising latest USB-C PD (Power Delivery) and PPS (Programmable Power Supply) charging protocol, our PowerElite™ Chargers can synchronise with your devices to alter power delivered real time, protecting against over-voltage, over-current and over heating.

Empowering Security Anywhere

Privacy filters and security locks

Prevention is the best policy

Workforces are becoming hybrid, with workers at home, at the office and on the move. Employee expectations and behaviors are changing, and businesses must prepare themselves to protect their security and privacy.

Stay compliant

With the introduction of General Data Protection Regulation (GDPR) in the EU, workers must act responsibly when dealing with data protection and privacy. Whether you are responsible for data protection and privacy, Targus locks and privacy screens are very effective against visual hacking and device theft.

DID YOU KNOW?

A laptop computer has a **1-in-10 chance of being stolen*** and **98%** of stolen laptops are never recovered**.

Whether you are working, gaming or web-surfing on your laptop, don't forget locks are the simplest form of theft prevention.

95%

of respondents from a recent survey say **working privately is important to them*****.

Lock Solutions

Find the right security solution for you:

Universal locks

- Dynamic and interchangeable head mechanisms
- Keep it simple for your people to secure a wide variety of IT equipment

Key or Combination Locks

- No codes to recall and IT has ultimate control with a physical master key
- Combination Locks have no physical keys and unlock code can be easily stored digitally so it is never lost

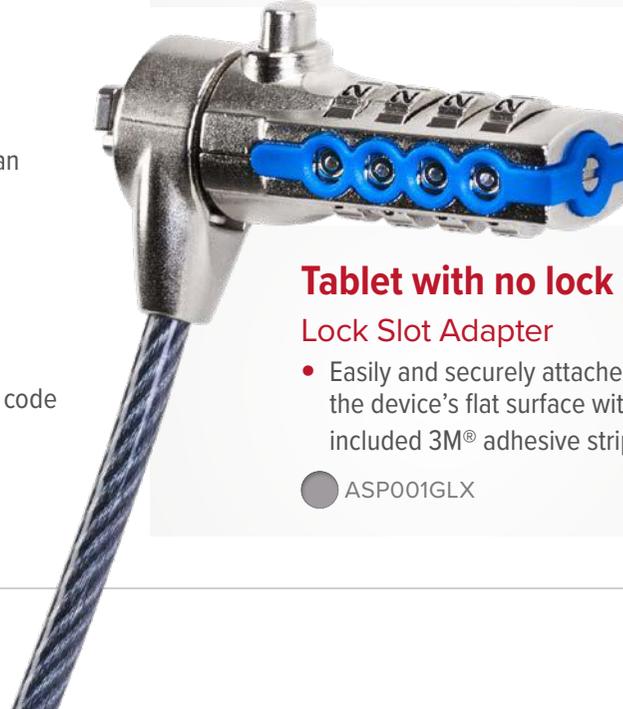

Serialised locks

- Supplied with a unique serial number and 4-digit combination code
- Unlock the Targus DEFCON Cloud portal, where IT can easily recall lost or forgotten codes

Targus DEFCON Cloud Portal

Each lock with its unique serial number and combination code can be registered to the Portal, offering simple, controlled access to combination codes. Combinations can be retrieved from anywhere in the world: perfect for the modern, dispersed business.

Tablet with no lock slot?

Lock Slot Adapter

- Easily and securely attaches to the device's flat surface with the included 3M® adhesive strip

The Ultimate Universal Lock

Introducing the DEFCON® ASP9 Series

The **DEFCON® ASP9 Series** removes the need to have different lock heads. The unique Targus patented design allows the user to simply adapt the lock to the right size to fit the device slot at a twist of a dial, offering truly universal compatibility.

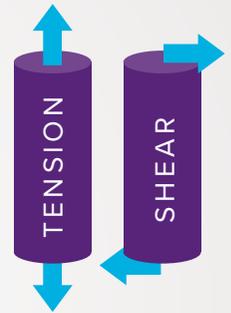

PRIVACY AND SECURITY

The ASP9 series is available in keyed or serialised combination format, fitting the needs of personal, SMB or enterprise users.

Engineered for peace of mind

Targus cable locks are all **tested to destruction** and can withstand at least 90Kg of direct pull force and 162Kg of shear force.

The ASP9 Series Adaptive Lock Head

Simply insert the jaws into the device lock slot and rotate the dial opening up the jaws until the adaptive lock head is engaged.

Zero Waste Backpack

Eco-friendly laptop protection

Minimizing Overall Waste: Reduce, Reuse, Recycle

Thoughtfully designed to minimise overall waste, this bag uses recycled materials in all elements of the product — including its packaging. Rather than discard the packaging, the box flattens into a rectangle and then slides easily into a pocket along the back panel. The packaging is secured in place with a fastened-flip closure and then doubles as structural support for your backpack.

EcoSmart® Zero Waste Backpack
For MacBook & Laptops up to 15.6"

- Dedicated compartment for laptops up to 15.6"
- Exterior packaging made from recycled plastic sits behind the laptop cradle providing structure and laptop hardware protection
- Ventilated shoulder straps

Find Your Backpack Anywhere

Apple Certified Cypress Hero Backpack with **Find My[®]** Locator

Lower the risk and reduce the anxiety of a lost or stolen backpack with the innovative Targus Cypress Hero Backpack with Find My[®] Locator. Featuring an integrated Apple Find My[®] compatible location module, this smart pack utilizes the Apple Find My[®] network to seamlessly locate your belongings and alert you when lost or stolen. Unlike other portable trackers that are easily removable, the tracker is highly integrated with the Targus Cypress Hero Backpack, making it difficult to remove.

Practical Protection

This backpack features the best of our Cypress Hero backpack with protective pockets and comfortable components for the everyday carry. With a spacious 22L capacity, comfortable top handle, and luggage pass-through trolley strap, this backpack makes for easy transport of the day's essentials.

Eco-Friendly Design

Using GRS-certified recycled materials, 26 plastic bottles were kept out of our waterways and landfills, shredded into small flakes, re-polymerized into plastic chips, and heated and spun into yarn that was stitched and sewn into the fabric of this bag.

Coastline Collection

Removing plastic waste from our coasts and waterways

Make waves with a bag that does more. Crafted from high-quality ocean-bound plastic, and featuring advanced laptop sling protection, the Coastline backpack safeguards your tech while empowering coastal communities and removing plastic from our global waterways.

With every purchase you become part of a global movement, supporting local businesses and community leaders in building stronger collection networks for the future. This isn't just a backpack, it's a commitment to positive change, environmental responsibility, and leaving a lasting impact on the world's coastlines and oceans.

Making Waves:

EMPOWERING LOCAL COMMUNITIES by working with coastal communities and local businesses to gather and process our fabrics.

SUPPORTING CLIMATE ACTION by using low CO2 materials, efficient distribution practices and offering a Lifetime Limited Warranty.

PROTECTING OUR WATERWAYS by directly targeting ocean-bound plastics to remove it from our water system.

FIGHTING DEFORESTATION by using FSC certified packaging and paper to support sustainable forestry projects

PROMOTING RESPONSIBLE SUPPLY CHAINS by using OceanCycle certified materials and only working with ethical factories.

PERFORMANCE & FEATURES

Protecting Your Technology...

**MILITARY
STANDARD**

US MIL-STD-810G*

Every case features Military Standard drop protection

The MIL 810G 1.2m/4ft drop protection is a test standard set by the US Department of Defence and is generally accepted as the benchmark for ruggedised protection of mobile computers and equipment.

Tests include:

- 4ft/1.2m drop protection testing, 25 drops on concrete – no device damage
- Dust and water splash tests

STILL THE ORIGINAL AND BEST ROTATING TABLET CASE...

Patented rotating landscape/portrait view

Patented rotational viewing which allows users to easily rotate for landscape or portrait viewing angles, while the deep foam grooves provide angles for comfortable viewing and typing.

Unleash the Power of Mobile Devices

SAMSUNG DeX

Targus®

Creating great experiences

In our personal and professional lives, we have high expectations of technology – speed, accuracy, personalisation and security.

Technology needs to enhance the experience of both the user and the customer.

Rethinking traditions

People are increasingly working across multiple sites or in multiple workspaces.

With more mobile choice than ever, laptops are not always suitable for workers on the move such as those in the emergency services, construction sites, where desk space is in short supply.

What's the alternative?

Ensuring a seamless experience for workers is paramount. A tablet, or even a phone, can be a single, powerful work tool:

- Seamless connection from field to office.
- Simplify workflows and increase productivity.
- Easily integrate into existing workspaces.

Protect your people

Make it easier for staff to carry and use devices.

- Double hand straps reduce strain and meets on-the-ground safety standards.
- Comfortable to wear and ensures device is protected from drops and damage.
- Enable staff to work securely with physical privacy and security solutions.

Double hand straps reduce strain

Hold the tablet comfortably in one hand, controlling movement with the thumb and reduce strain on the arm

Comfortable to wear

By removing the need for a shoulder strap the holster helps avoid strain on the neck and shoulders

Adjustable Belt

Holster waist belt is adjustable to ensure a comfortable fit for all employees

Protect your tech

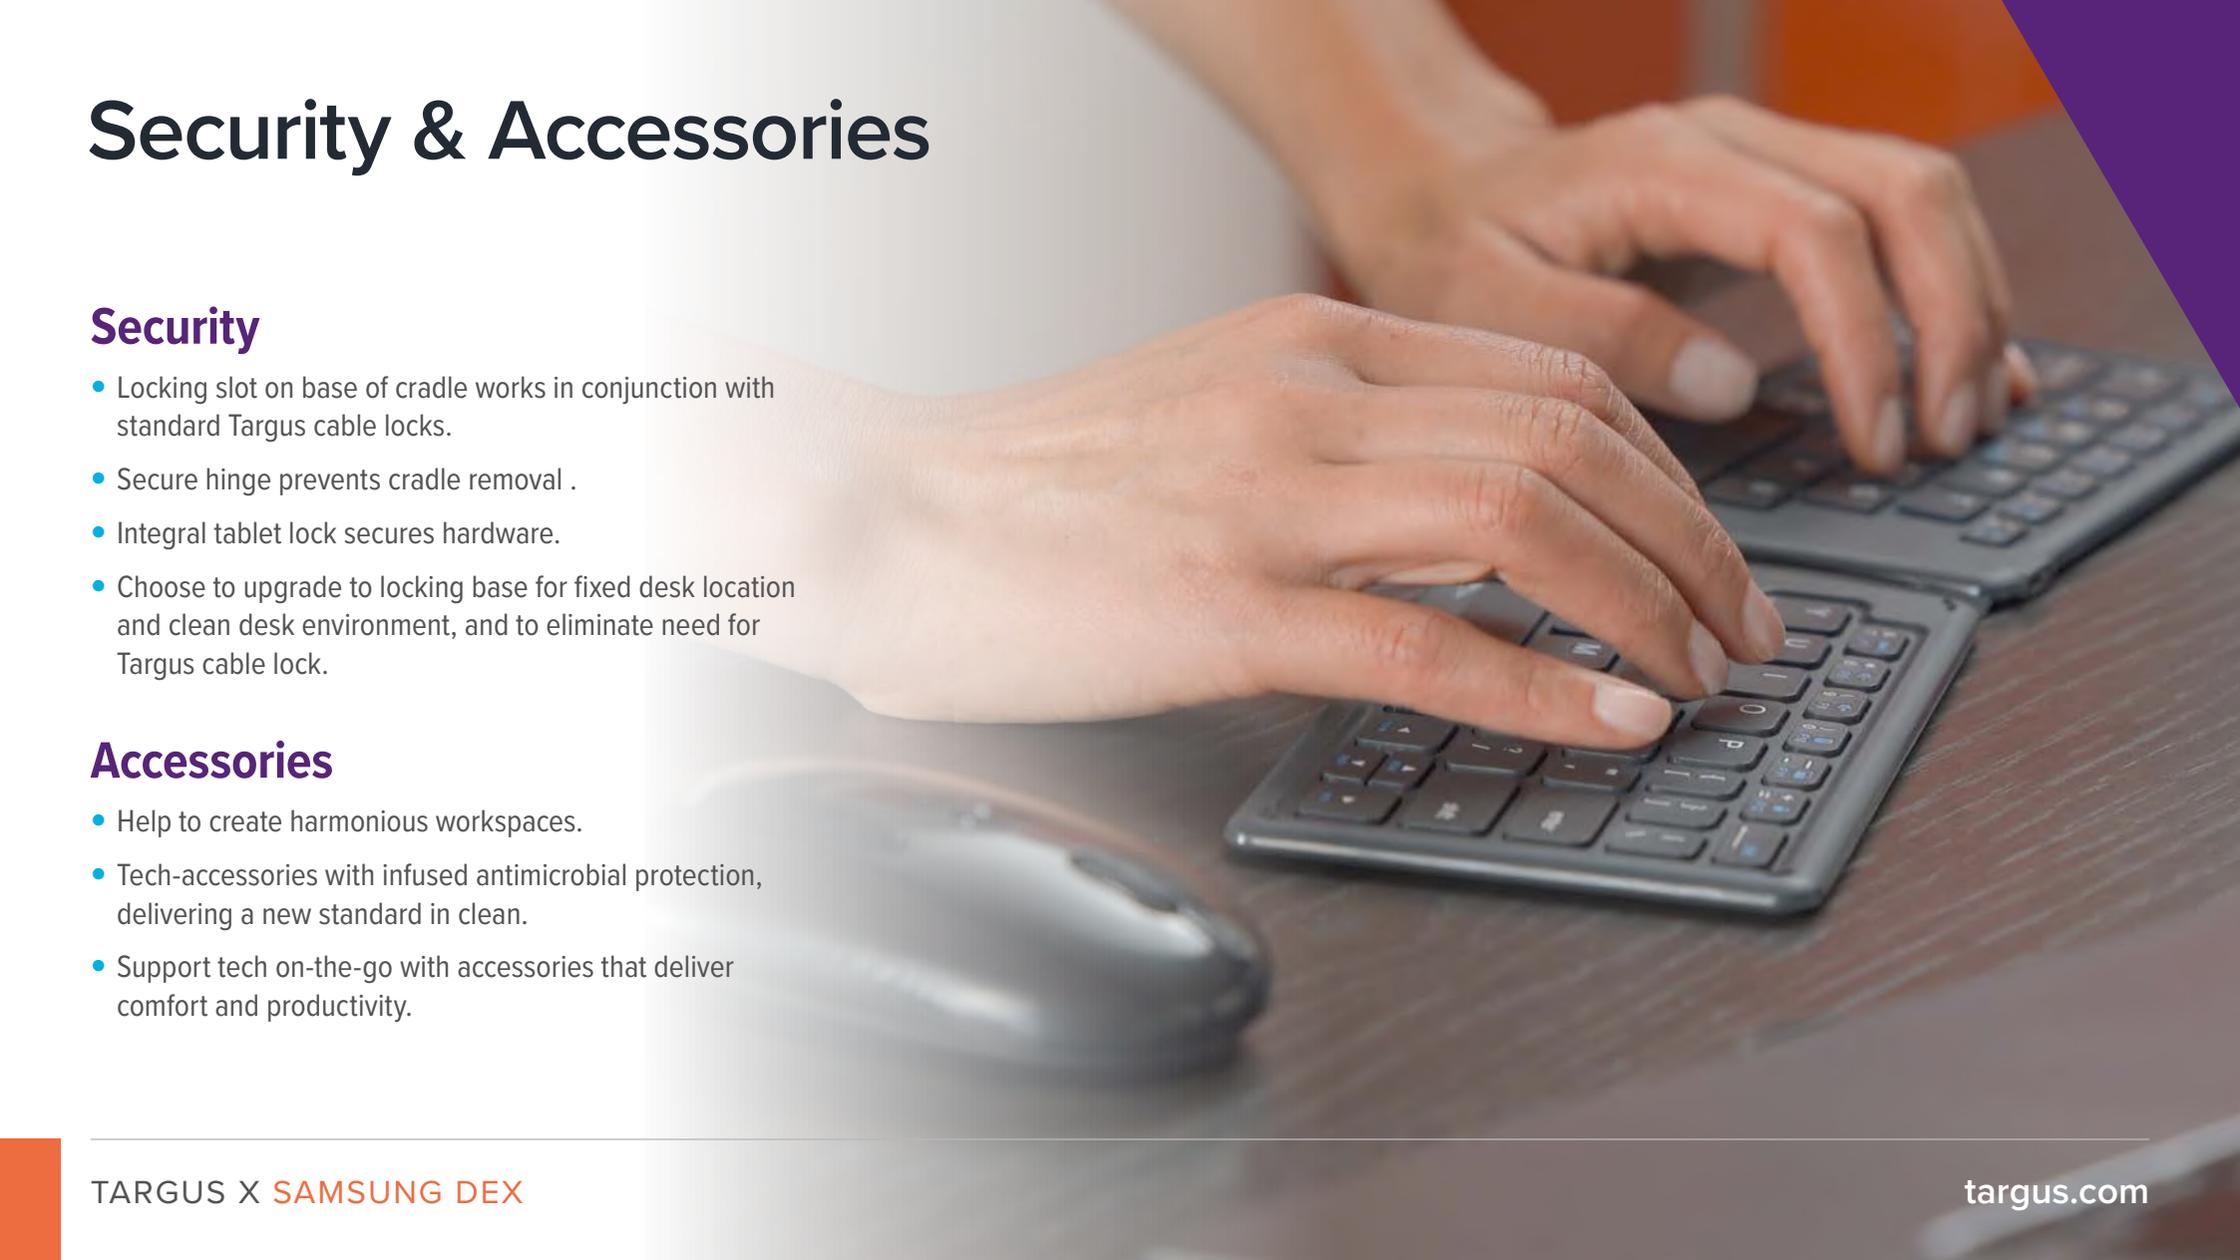

Shock-absorbing cases with reinforced edge protection, meeting advanced military grade standards.

- Adjustable hand strap for safe drop free handheld use PLUS integrated kickstand for hands free viewing.
- Designed for docking with the Targus Tablet Cradle Workstation.

Security & Accessories

Security

- Locking slot on base of cradle works in conjunction with standard Targus cable locks.
- Secure hinge prevents cradle removal .
- Integral tablet lock secures hardware.
- Choose to upgrade to locking base for fixed desk location and clean desk environment, and to eliminate need for Targus cable lock.

Accessories

- Help to create harmonious workspaces.
- Tech-accessories with infused antimicrobial protection, delivering a new standard in clean.
- Support tech on-the-go with accessories that deliver comfort and productivity.

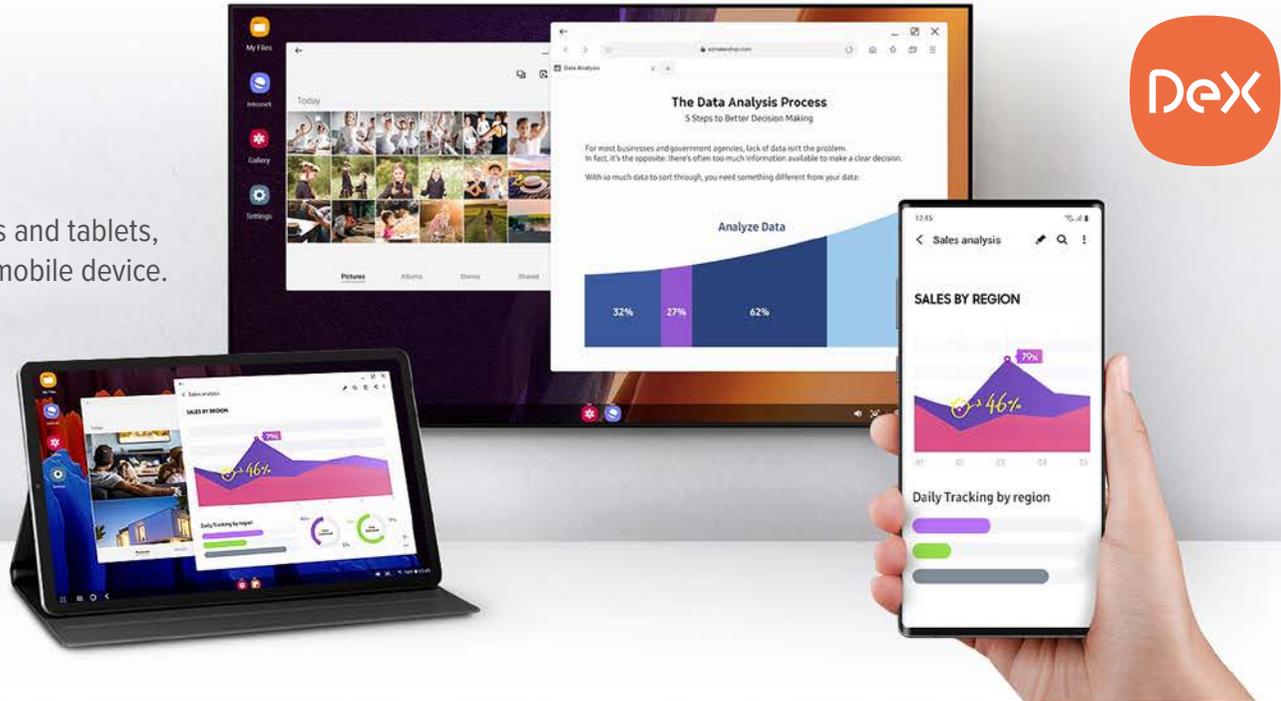

The mobile revolution is here!

Your smartphone and tablet are more capable than you know.

Samsung DeX is a platform built into the latest Samsung phones and tablets, allowing you to power a desktop-like experience through your mobile device. It's pushing the boundaries of your smartphone and tablet.
