# Reduce classroom distraction and disruption

**Fresh guidance has been released for schools from the UK government (February 2024), providing invaluable strategies for managing the ever-present challenge of mobile phone usage among students.**

This empowers headteachers to take decisive action, including the prohibition of mobile phone use throughout the entire school day, including break times.

With this proactive approach, schools are fostering an environment conducive to deep learning, allowing students to thrive without the distractions of mobile devices.

Discover how successful schools are implementing innovative solutions, such as lockers equipped with charging points, ensuring phones remain outside classrooms, and productivity remains at its peak.

- With a robust polycarbonate door secured by a key held only by authorised personnel, our locker ensures the safety and security of students' phones throughout the school day.
- Sloping top, prevents litter cluttering the space. Cleanliness and orderliness are guaranteed, leaving your school corridors tidy and organised.
- Our charging version comes equipped with USB A and USB C sockets in each compartment, powered by a reliable IEC-C inlet connected to a 2-meter 'kettle lead' with a 10 amp fused RCD cable.

Antibacterial coating as standard

**UK  
CA**

**The only charging lockers in the UK market tested to BS EN ISO/IEC 17050-1:2010.**

Sloping top

Choice of 7 colours
