**Chicken, Duck & Pheasant**  
for adult cats

## GUARANTEED COMPOSITION CONTAINING NO CHEMICALS, PRESERVATIVES, OR ARTIFICIAL COLOURANTS

We understand that the quality and nutritional composition of cat food has a significant impact on overall health and wellbeing. The natural feline diet contains no chemical substances or artificial additives, both of which can accumulate in the body and cause serious health problems.

## GRAIN-FREE POTATO-FREE

Cats are almost exclusively meat eaters. Their anatomy and metabolism have adapted to process food from animal sources. Neither grains nor potatoes are found in the natural feline diet.

## WILD-ORIGIN MEAT

Meat is an essential source of food for cats. The unconventional sources of proteins in Carnilove – salmon, turkey, pheasant, lamb, reindeer, wild boar, carp, trout and rabbit – are rich in nutrients, unsaturated fatty acids, and amino acids, all of which nourish the muscles and tissues. The meat and animal ingredients in Carnilove are selected with the greatest possible emphasis on quality and come from regulated farms in the Czech Republic, Germany, Sweden, Scotland, Norway, and Australia.
