## Identity

# WHO I AM ?

I am a French interior architect and designer with a Master's degree and five years of experience. I see design not merely as a discipline but as a language—one that brings emotion, art, and technique back together.

Since childhood, creativity has been my way of dreaming and exploring new worlds. My ambition is to design spaces where clients are not passive observers but active participants.

My influences are many: pop culture, music, fashion, comic art, video games, and science fiction, expressed through a bold, maximalist aesthetic focused on color and light:

My background in music and photography gives me a sensorial approach to space. I design environments that resonate and evoke emotion - not just function.

My ambition is simple: to push boundaries, redefine spaces, and create environments that leave a lasting impression—as memorable and unique as their inhabitants.

# THE STUDIO

Studio SeVe is a balance of technical mastery and creative vision, shaping distinctive and unconventional worlds.

My style is defined by strong visual and sensory elements, creating immersive and memorable experiences for my clients.

I place particular emphasis on a customer experience that goes beyond expectations at every stage of the process. Each project is a true collaboration, with a personalized service that reflects not only my technical expertise but also my ability to adapt to your creative aspirations.

Working with Studio SeVe means stepping into a world where innovation and quality meet meticulous attention to detail.

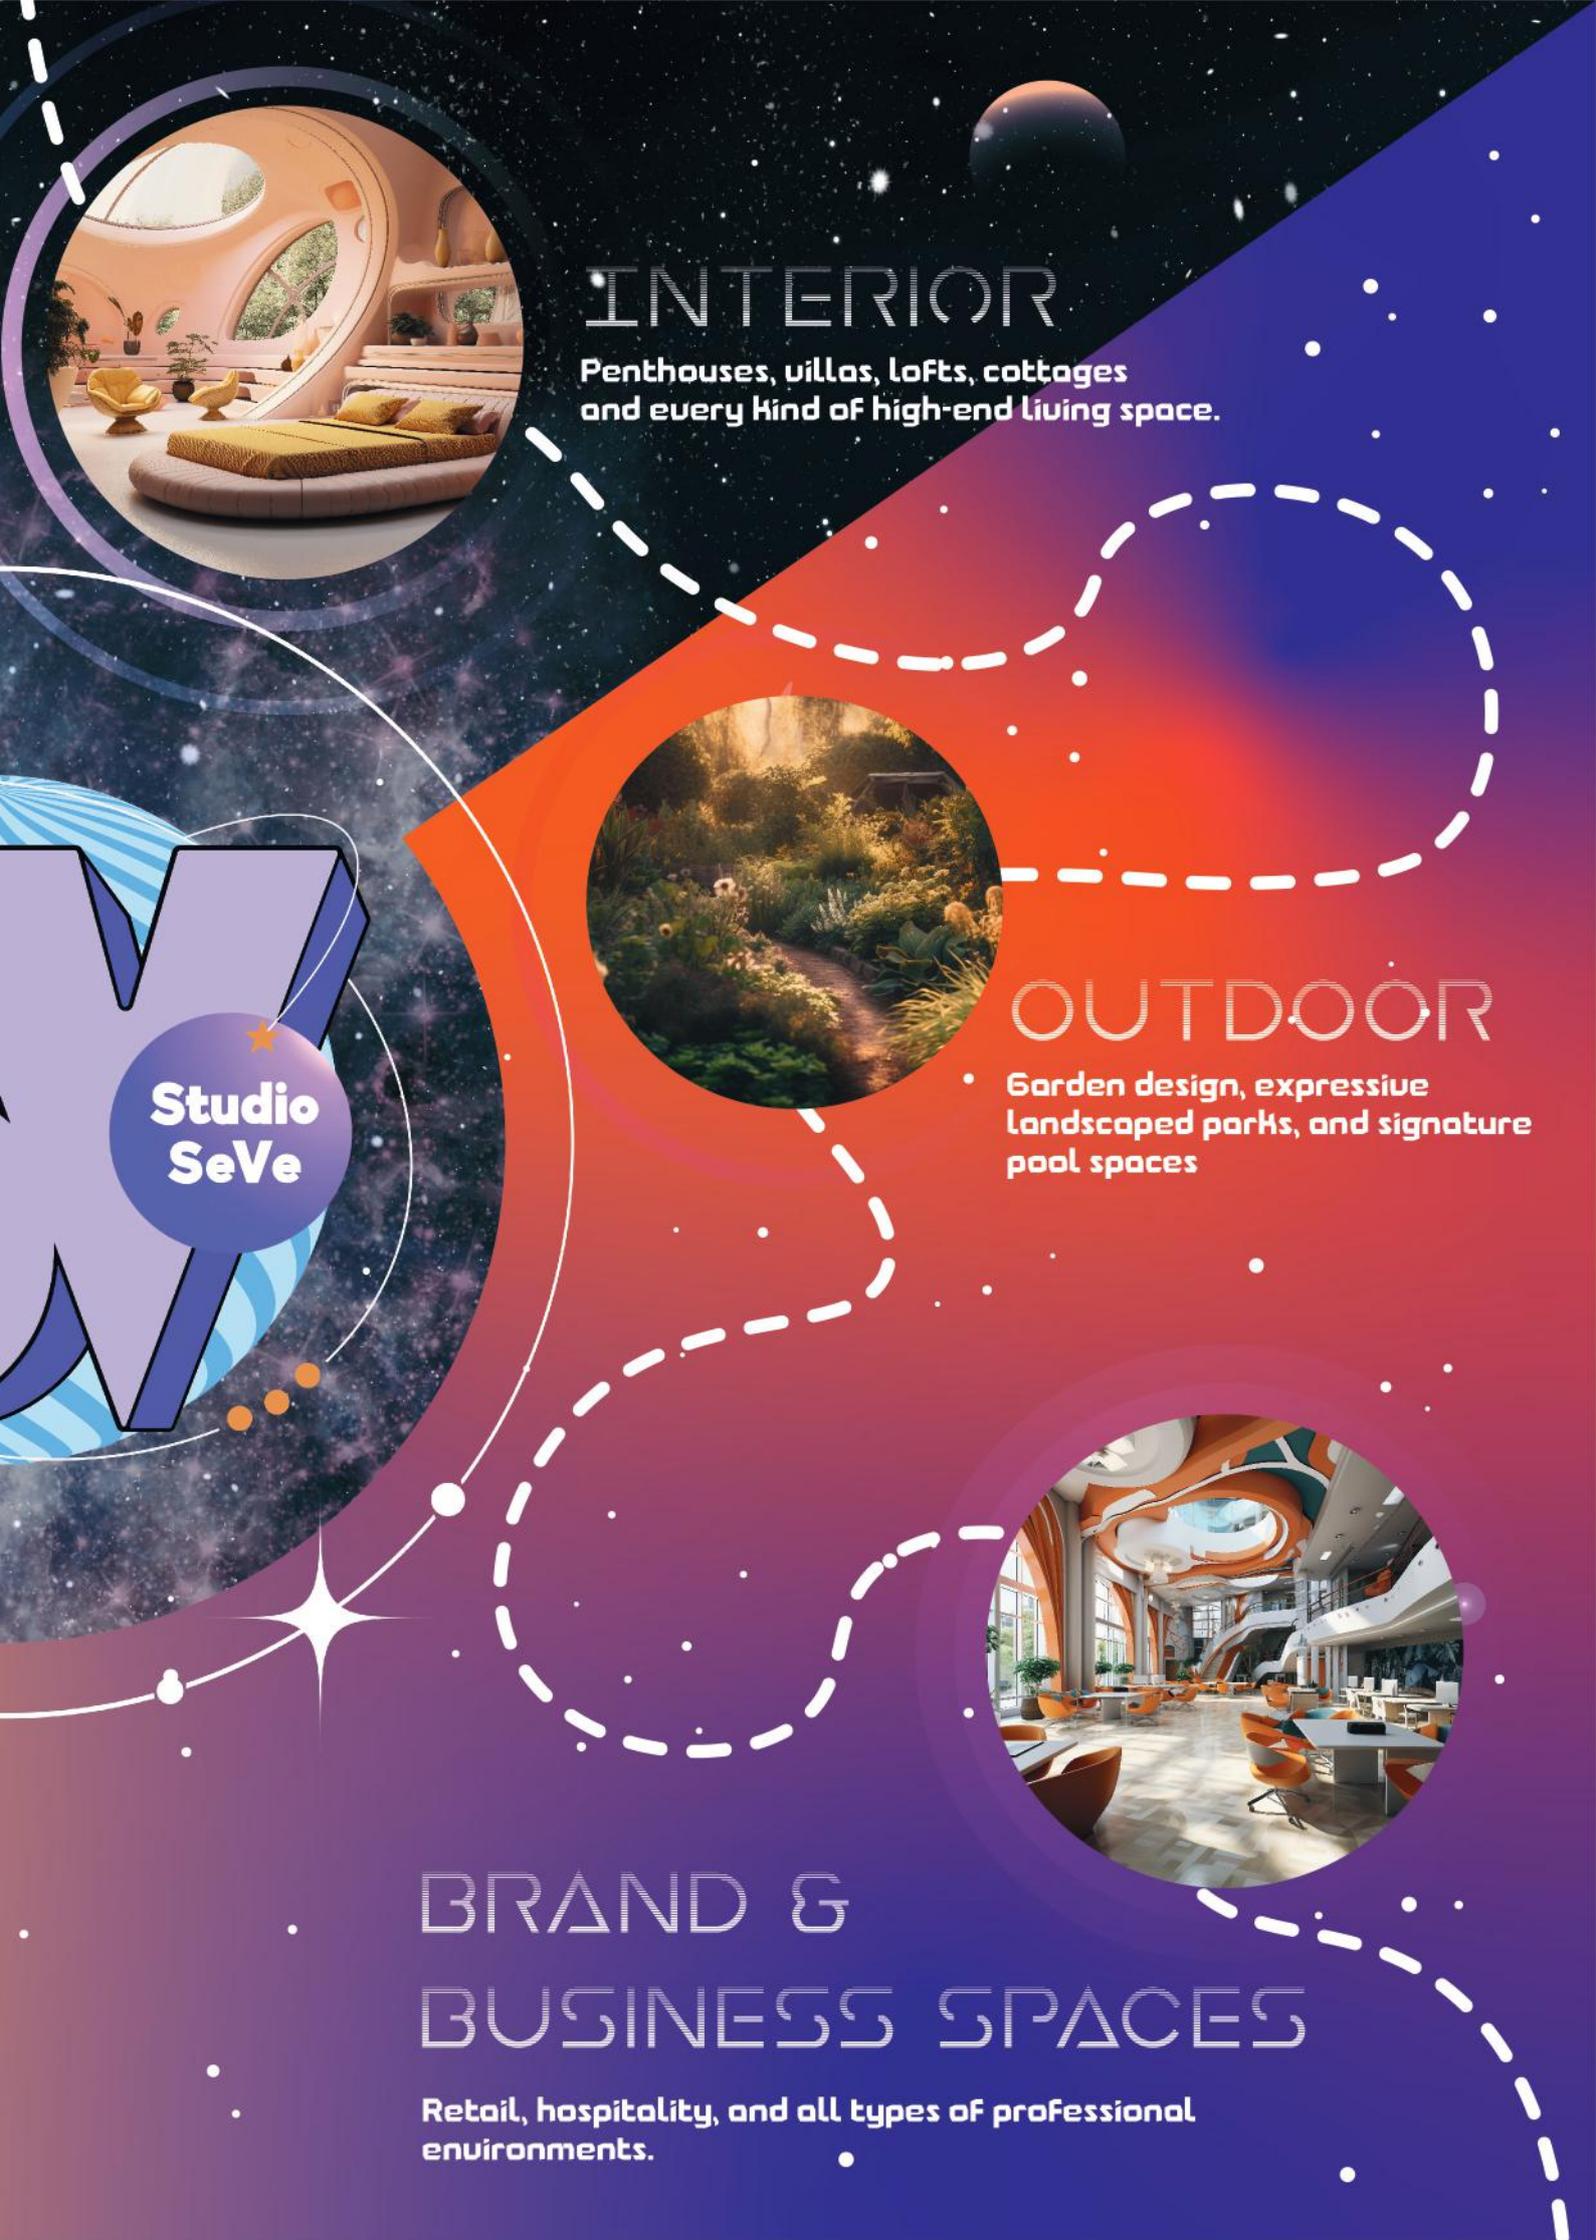

My goal is to create spaces and experiences that inspire, captivate, and enchant—leaving a lasting impression.

Studio SeVe is more than an interior architecture studio. I partner with you to bring your dreams and creative ambitions to life.

Whether you wish to design a unique commercial space, create a memorable event, or bring an innovative idea to reality, I am here to support and guide you every step of the way.

Every project becomes a world where imagination takes shape and emotion comes alive.

*EVERY PROJECT BECOMES A  
UNIVERSE WHERE IMAGINATION  
TAKES SHAPE AND EMOTION  
COMES ALIVE.*

# INTERIOR

Penthouses, villas, lofts, cottages and every kind of high-end living space.

# OUTDOOR

Garden design, expressive landscaped parks, and signature pool spaces

# BRAND & BUSINESS SPACES

Retail, hospitality, and all types of professional environments.

# MY APPROACH

## ▲ PERSONALIZED AND INNOVATIVE APPROACH

At Studio SeVe, every project is a unique journey. I believe that interior architecture begins with people—their lifestyles, habits, and passions.

This is why I take the time to understand who you are, what inspires you, and how you experience your daily life. Your space should be a true reflection of who you are.

## ▲ UNDERSTANDING YOUR WORLD

From day one, I immerse myself in your universe—how you live, what inspires you, and what brings you comfort. Your habits and passions—from cooking to reading to well-being rituals—guide me in shaping a space that feels authentic and effortlessly intuitive. Beauty matters, but a great interior goes further: it enhances the way you live.

## ▲ STRUCTURED CREATIVE PROCESS

To guide each project with clarity and precision, my method is built around five key phases: initial meeting, concept sketch, detailed design, technical documentation, and construction follow-up.

This structure ensures that every stage is carefully managed, every decision intentional, and every detail aligned with your expectations—from the first idea to the final handover.

## ▲ COMMITMENT TO EXCELLENCE

Choosing Studio SeVe means choosing a thoughtful, tailored, and forward-thinking approach. By combining human understanding with a rigorous design process, I ensure that each project delivers both strong aesthetic impact and everyday functionality.

TOGETHER WE CREATE SPACES  
THAT TRULY REFLECT WHO YOU ARE

## ***INITIAL MEETING***

Establishment of the client brief.

## ***CONCEPT DESIGN PHASE***

First sketches to define  
the project's direction.

## ***DETAILED DESIGN PHASE***

Development of final and technical plans,  
prepared for the start of construction.

## ***CONTRACTOR CONSULTATION***

Research and consultation with  
professionals to carry out the work.

## ***CONSTRUCTION***

Execution of the works with site supervision  
until project handover.

At Studio SeVe, I create interiors as self-contained worlds-reflections of your passions, your identity, and the emotions that shape you.

Inspired by your dreams, habits, and way of living, I transform each space into a living canvas where imagination meets reality.

GUIDED BY EMOTION AND IMAGINATION, I DESIGN IMMERSIVE INTERIORS WHERE SPACE, LIGHT, AND MATERIALS COME TOGETHER TO CREATE MEANING.

INTERIOR  
DESIGN

# ERIOR SIGN

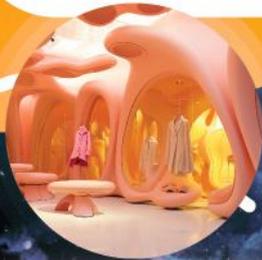

Inspired by music, visual culture, science fiction, fashion, and art in all its forms, this approach goes beyond trends to craft expressive and unconventional spatial narratives.

The maximalism I embrace is not about excess but about intensity—an exploration of emotions, textures, light, and contrasts—where every detail is designed to spark sensation, invite curiosity, and awaken the imagination.

bespoke environments are designed around those who inhabit them—spaces that evolve over time, adapting to lifestyles, desires, and life's moments. Space becomes an experience: living, sensory, and boldly expressive.

A confident design language that breaks away from convention—shaping new environments and creating the unexpected.

A confident design language that breaks away from convention, shaping new environments and creating the unexpected.

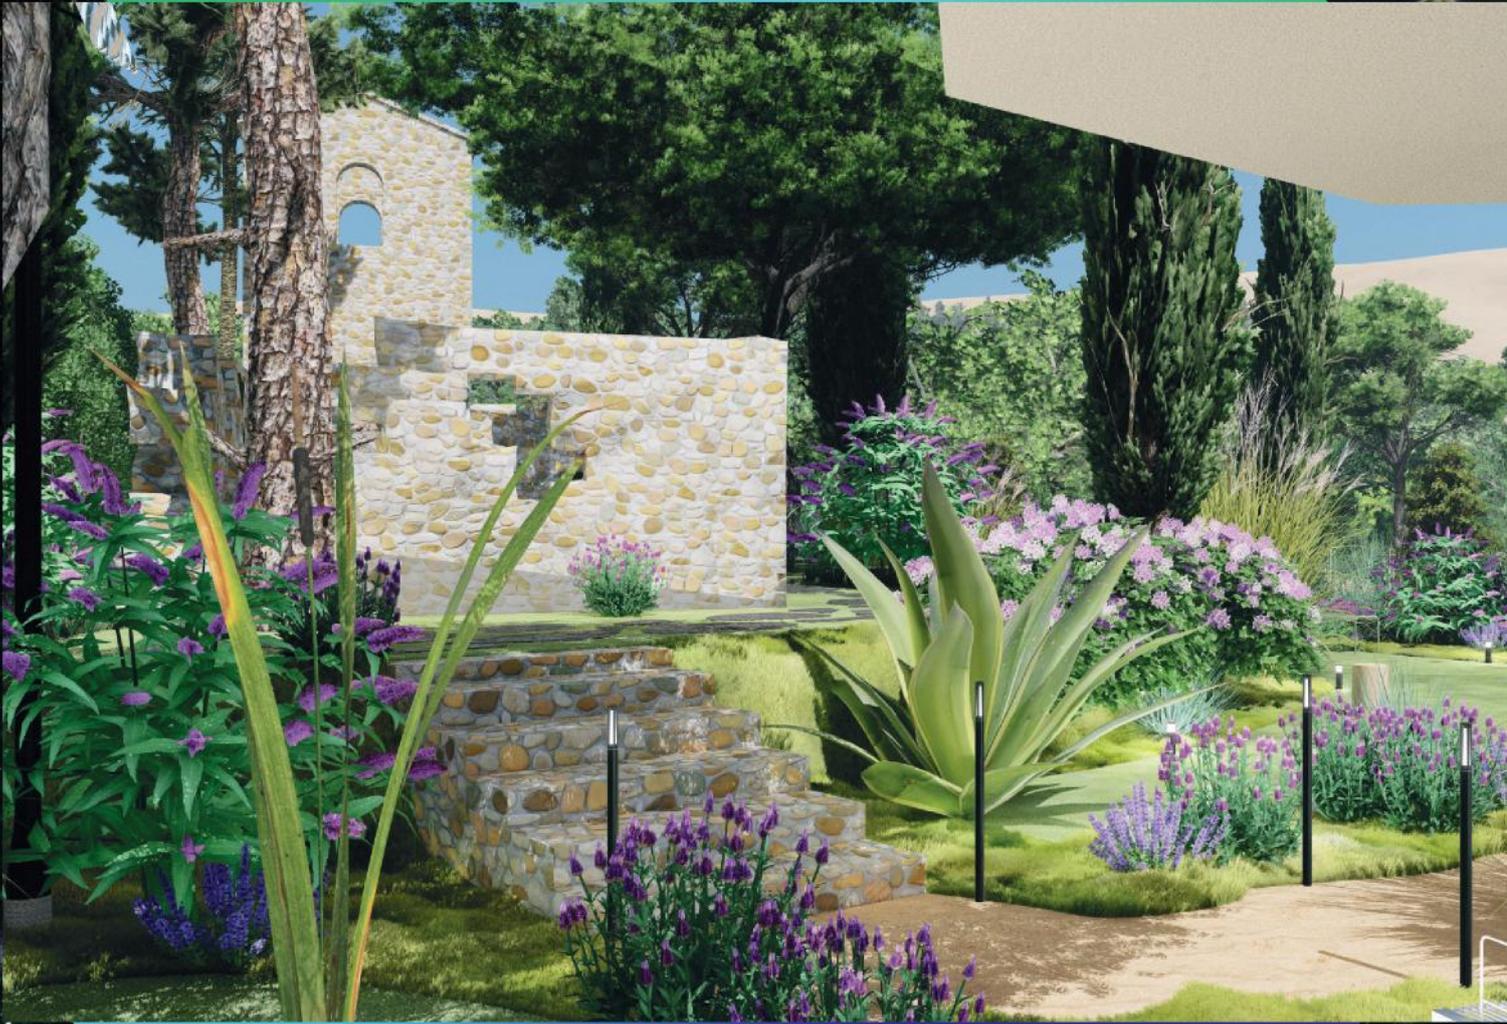

**INNOVATIVE**

**UNCONVENTIONAL**

**DISTINCTIVE**

**Landscape projects are conceived as a sequence of distinct outdoor environments. Each garden is structured into defined zones: spaces dedicated to cultivation, as well as places to relax and enjoy the outdoors throughout the seasons.**

**Layers of vegetation are carefully composed to bring depth, freshness, and rhythm to the landscape-creating shaded pockets and unique atmospheres throughout the garden.**

**While this approach has become a signature, attentive listening remains essential. Every project begins with your vision, desires, and way of life.**

**The result is a landscape shaped around you-where every walk becomes an experience, and every space reflects a distinct lifestyle and sense of place.**

# OUTDOOR DESIGN

Landscape design is a dialogue between space, nature, and movement.

Each project is carefully shaped to blend seamlessly with its surroundings, creating outdoor environments that feel both natural and intentional.

Through the thoughtful selection of vegetation and tree species, gardens are designed as living landscapes—places where every walk becomes a new discovery.

**YEAR-ROUND  
LIVABLE GARDEN**

**NATURALISTIC  
GARDEN**

**I design spaces for brands and professionals—from retail stores and restaurants to workplaces and a wide range of commercial environments. Aligned with current regulations, each project is developed with a strong focus on innovation, brand positioning, and competitive context.**

**My ambition is to create singular, distinctive interiors—spaces that leave a lasting impression and become part of the customer’s memory.**

**This is where my creative language truly comes into its own. I design immersive environments that go beyond function, shaping impactful customer experiences that resonate emotionally and endure over time.**

**By highlighting the essence of each profession, I craft bold, narrative-driven spaces that stand apart. Every project is conceived as a sensory journey—one that elevates brand identity, enhances services, and transforms interaction into experience.**
