MARCH

2026

Editor's Note

Two weeks ago, we hosted our Global Conference in Bangkok—thank you to all members who attended.

March 2026 has brought a significant shift in geopolitics, with the destruction of major oil and gas infrastructure in the Middle East. This development may have a more lasting impact on global oil supply than the temporary closure of the Strait of Hormuz. We remain hopeful that the overall impact will be limited.

What stood out to me at the conference was the shared sense of focus and resilience. Despite the uncertainty, the positive, forward-looking energy was both reassuring and motivating. Thank you for maintaining such a strong and proactive outlook.

Uppcoming chances to meet-up in person are as follows:

- Intermodal South America – Sao Paulo
- Breakbulk Europe – Rotterdam
- Breakbulk Americas – Houston

For Breakbulk Americas we are hosting a day of one-to-one meetings including a lunch.

The event is scheduled for the 21st of September, just before the Breakbulk Americas event. We are allowing two participants per member company to attend free of charge with a maximum number of companies set at 32.

One Day of Meetings
+
A Networking Lunch
@ THE HOUSTON CLUB HC
21st September 2026
(Ahead of Breakbulk Americas)
09:00 - 17:00
COMPLIMENTARY FOR MEMBERS
(MAX. 2 PARTICIPANTS PER COMPANY)
LIMITED TO 32 COMPANIES

Please register for the event [here](#).

Let us know if your company would like to sponsor the beverage service for the event.

As for our next Global Conference in 2027 we are looking at holding it somewhere in Europe but we will not rush the decision, we will keep you posted.

In network news we are happy to share member movements related to: China - Ukraine, China - Brazil, China - Europe, India, Pakistan, Brazil, Norway - Nigeria, plus a new member representing Paraguay and a Port Operator Service Provider in China

Herein find photos of meetings with members at WBX in Shanghai and the upcoming online one-to-one meeting schedule. Please [email Heidi](#) to reserver your spot

Star Shipping's heavy-lift team received an auto-transformer at Karachi Port on multi axle hydraulic 12-XL lines trailer and delivered the same to the Surjani Town Grid Station, Karachi through the busiest urban districts of Karachi wherein the usual traffic rush & abundance of electric wires prove to be the toughest challenge for such an OOG shipment movement.

Star Shipping's team successfully delivered the transformer main body to its destination (Surjani Grid) and also performed the manual unloading of the transformer to its foundation via rigging & skidding method ensuring the fulfillment of the stringent HSE requirement of the client at Power Grid Station.

Auto Transformer (Main-Body)

Weight 135 tons, Dimensions L-31' ft * W-14' ft * H-13' ft

Heavy & Oversize Movement within Karachi's Urban Districts Combining with Proper Engineering Solution to Unload at Site
