HEALTHCARE
WITHIN YOUR
WORKPLACE

Why Workplace Wellness?

When healthcare is integrated into the workplace, everyone benefits.

Business Wins

- Healthier teams = higher productivity
- Proactive healthcare reduces absenteeism
- Cost-effective wellness with measurable ROI
- Strengthen employer reputation as a people-first brand

Employee Wins

- Immediate medical attention, right where they work
- Personalised wellness and preventive programs
- Peace of mind for themselves and their families
- Greater trust and satisfaction with the organisation

Service Highlights

**Your On-Site
Medical Room**

**Doctors
Within Reach**

**Critical Response
Without Delay**

**Care Beyond Treatment,
Towards Holistic Health**

Your On-Site Medical Room

A Medanta Corporate Medical Room is the first line of healthcare within your premises — ready to support employees throughout the day. Each room is designed to provide immediate medical attention, reduce time lost in transit, and ensure a safer workplace environment.

It Includes

-  A fully equipped first-aid station
-  Essential medical devices and readily available OTC medications
-  Medanta-trained nursing staff
-  Flexible on-site coverage with day, night, or extended shift
-  Options to match your workforce needs

Doctors Within Reach

With Medanta doctors on-site, employees can access immediate care for minor illnesses or injuries. For specialised needs, they can seamlessly connect with Medanta's specialists through virtual consultations.

Our Offerings

On-site consultations for minor illnesses and injuries

Immediate prescriptions and treatment plans

Virtual access to Medanta specialists and super-specialists

Critical Response Without Delay

Medical emergencies demand swift action. Medanta ensures that employees have immediate support, backed by clear protocols and rapid escalation pathways. Our ambulance services provide seamless continuity of care from office to hospital.

This includes

-  Dedicated ambulances on site
-  Fully-equipped vehicles with trained paramedics
-  On-site first aid and stabilisation by trained staff
-  Clearly defined emergency management protocols
-  Safe and timely hospital transfers
