BRITISH DESIGNED & MANUFACTURING

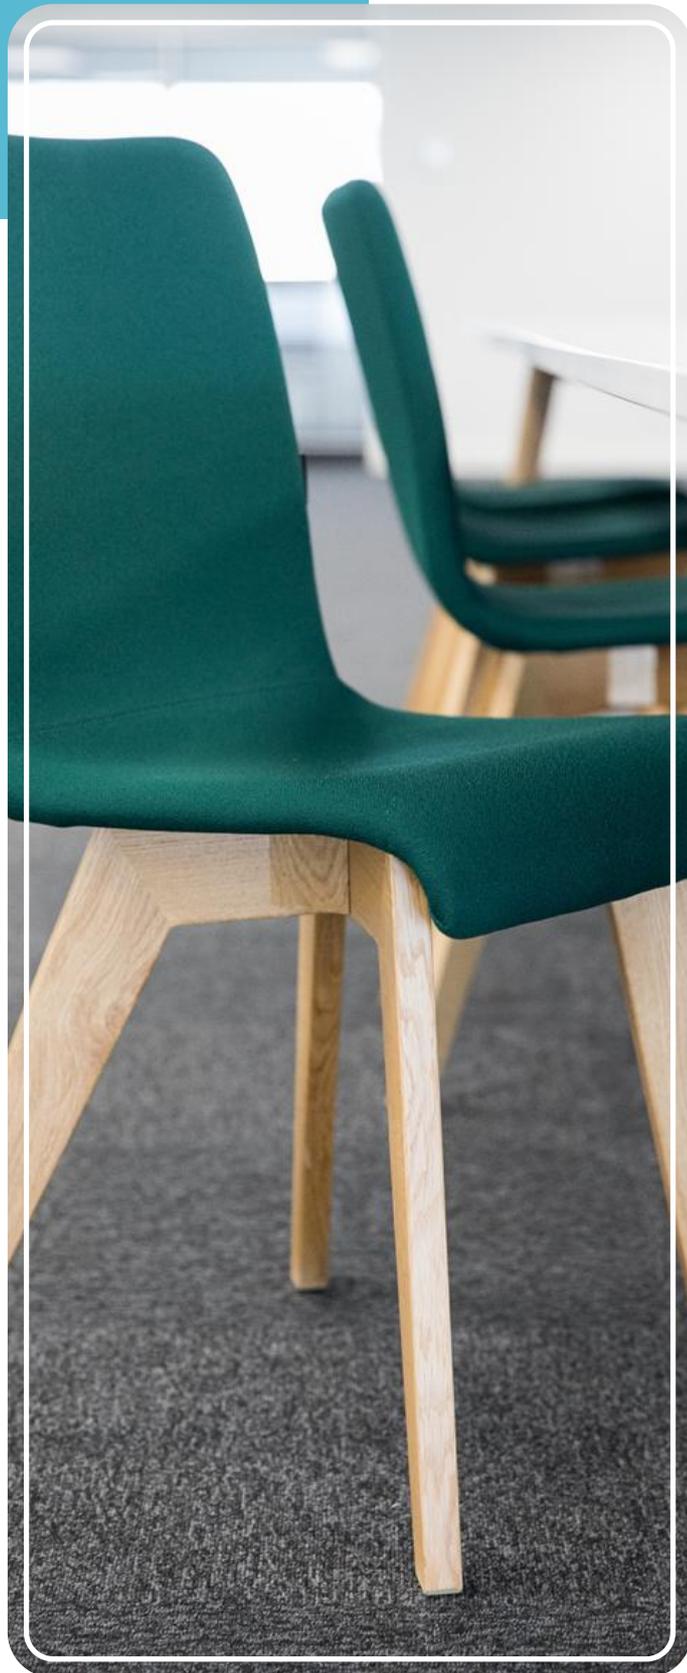

2

The majority of our Canteen & Breakout products are designed and manufactured in the UK. Every piece of furniture in our Canteen & Breakout range is made to order, with skilled precision and rigorous attention to detail. Our key industry knowledge and experience drives the highest levels of product quality, using the latest technology and high-grade materials that minimise any environmental impact and comply with UK and European quality standards.

Modern office environments call for stylish design in every aspect of their specification and our Canteen & Breakout product portfolio is more diversified than ever with unique product offerings that offer all the good looks and aesthetic choices to satisfy the latest trends and the most enduring designs. Transform the office environment into a modern, multi-functional workspace where people can meet, relax or dine in comfort.

Our design team have a passion for office furniture, creating original, individual pieces and ranges to enhance any workplace. We design and make intelligent products that are manufactured to meet real needs of the office furniture industry, and whose life span is appropriate to their use. We're committed to bringing our clients unique product offerings that are sought after for their compelling design, superior quality, and exceptional value.

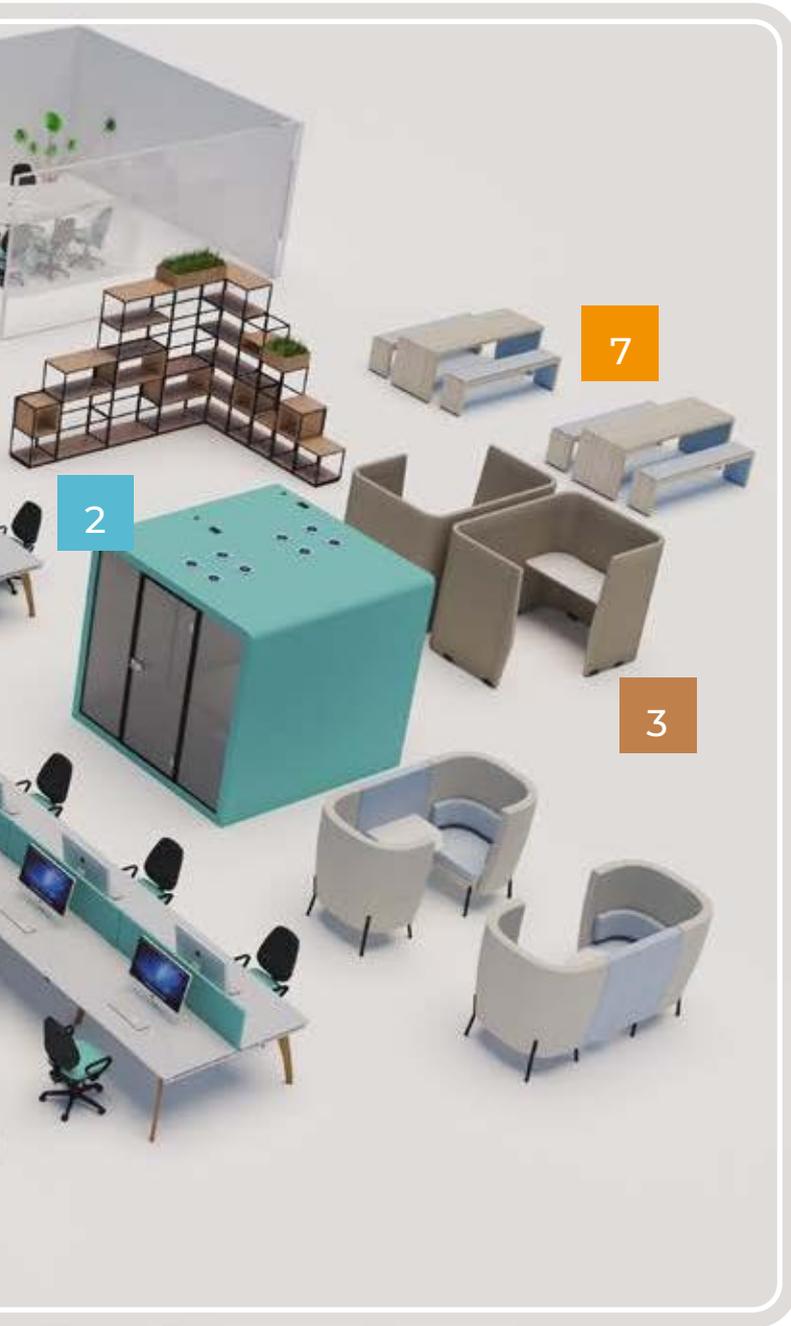

WORK SPACES

The wellbeing of employees in the workplace is becoming more vital, and office furniture can play a huge part in help to keep people happy and healthy when they're working. The most productive employees are those who feel at home when they're in the workplace. Companies that don't provide workers with the types of spaces they need to manage the demands of work will find this can have a negative impact on employee wellbeing.

The workplace has always been more than just a place to work. The most effective and modern office spaces are characterised by division into different zones that support employees as they perform particular tasks. An office should be adjusted to employees, not the other way round. A good solution to each of these problems is the right office space arrangement combined with the right choice of functional furniture solutions.

Multi-functional work spaces are all about large areas and open spaces that provide plenty of room for movement and versatile seating arrangements. In the long-term, multi-functional spaces will be the reason why people enjoy coming into the office. These are the spaces where people can work according to their own needs and preferences and interact with the people around them to feel part of a community.

SERVICE & SUPPORT

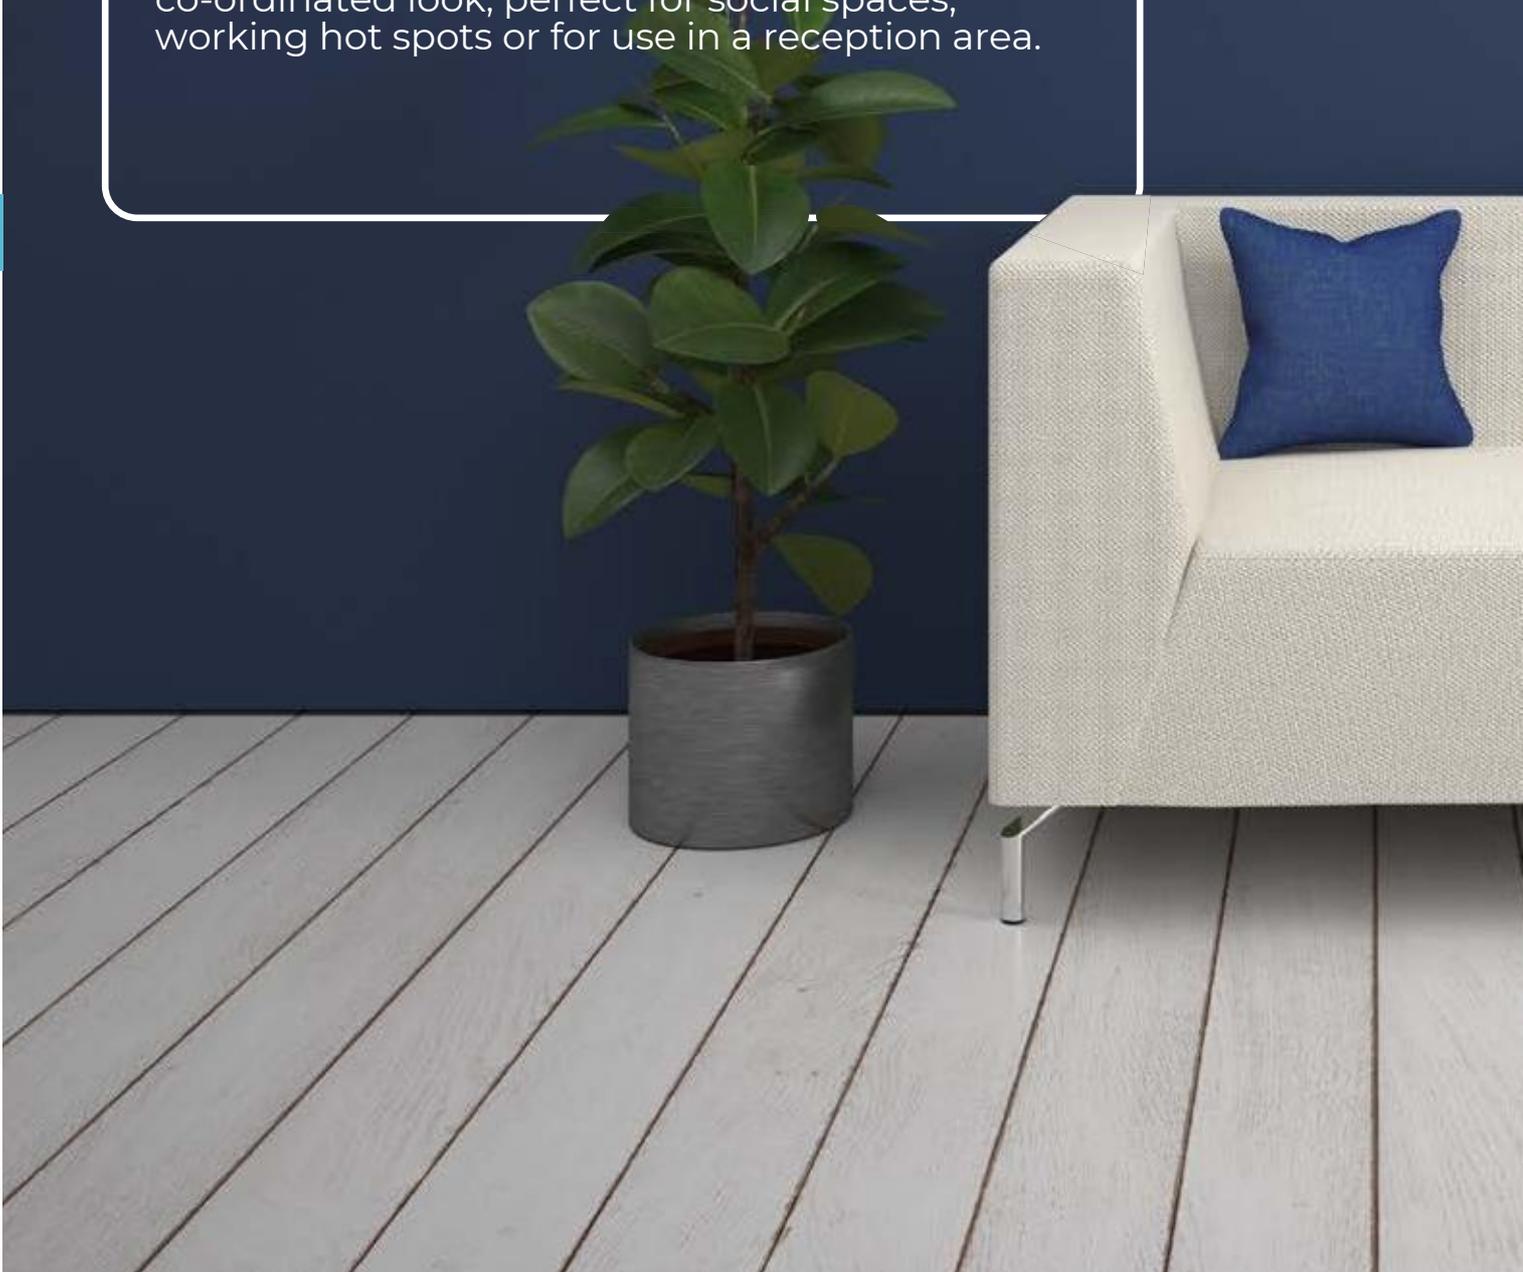

The look of your workplace can play a very important role in the success of the company. Having an aesthetically pleasing office can help with attracting customers and retaining top talent. You need to consider furniture that can match the aesthetic you are trying to achieve. Consideration for the finishes and fabrics used in your furniture will help make matching your look and feel for your office easier.

Our team of space planners and design experts can analyse your room, suggest the perfect furniture solutions for your space, and make recommendations on what fabrics will work the best for your business, with mood boards and photo-realistic static visuals. We will also evaluate your current and future office needs. Our goal is to create an interior that improves the office workflow, efficiency and amenities for your workplace, and that looks good too.

We can retro-fit your existing products, re-design your spaces, and help you re-imagine your new normal. Whatever that looks like, we will work with you to make sure your employees feel welcome, inspired, and are comfortable in their place of work. Contact our team today to find out more!

SOFT SEATING

Upholstered soft seating helps to create relaxed working environments where people can go for some time away from their desk, meet and collaborate or bring their laptop with them to work away from the distractions of phones and colleagues. An extensive range of fabrics and finishes can add style, colour and interest by creating a relaxed and unique, fully co-ordinated look, perfect for social spaces, working hot spots or for use in a reception area.

DELIA

Delia is a family of components that can easily be crafted together to create formal or informal settings that support today's work-play-gather environments. Luxurious, elegant and classic, the smooth lines and inspiring colour combinations make Delia more of an artwork than a piece of furniture. The comfortable seat and separate backrest are incorporated in high sides that can play the role of screens and meet the needs of private communication.

ALBA

Designed with comfort in mind, Alba lounge seating's sculpted seat and back cushions make it both eye-catching and timeless. Alba seamlessly crosses the line between retro style and contemporary design. The high back chair, with provocative lines and curves, is ideal for when people need time to unwind and recharge, and the medium back is ideal for a relaxed or casual collaboration.

ACOUSTIC SOLUTIONS

We are all born with an ability to focus. But as much as we would like to retain that skill forever, life itself proves to be very loud, colourful and sometimes just too interesting for us to be able to avoid distractions forever. Being able to concentrate is something we need to fight for, especially in open offices. And the best weapon for winning that fight is not stronger coffee or cooler office perks, it's offering your employees a real chance to focus.

Acoustic Pods
Breeze Acoustics

PODS

Privacy can be difficult to find in a modern, open plan office. From the smallest hub, which is like a telephone booth and adequate for one person, to the largest which can accommodate groups, Acoustic Pods can be adapted and customised to fit your own office requirements, creating multiple working zones in one place. Acoustic Pods are perfect dividers for work and relaxation areas, and you can just activate the wheels and roll your private retreat easily wherever you're in the mood.

ROOM DIVIDERS

Inclusive office design is about accommodating choice and flexibility – a work environment that benefits everyone and where space can be artfully divided while adding colour, character, and personality. Contemporary open-plan environments can retain their flexibility by using room dividers to create different work zones, making it easy to create unique, inspiring and functional spaces where people can work according to their own needs and preferences.

Grid

Divide

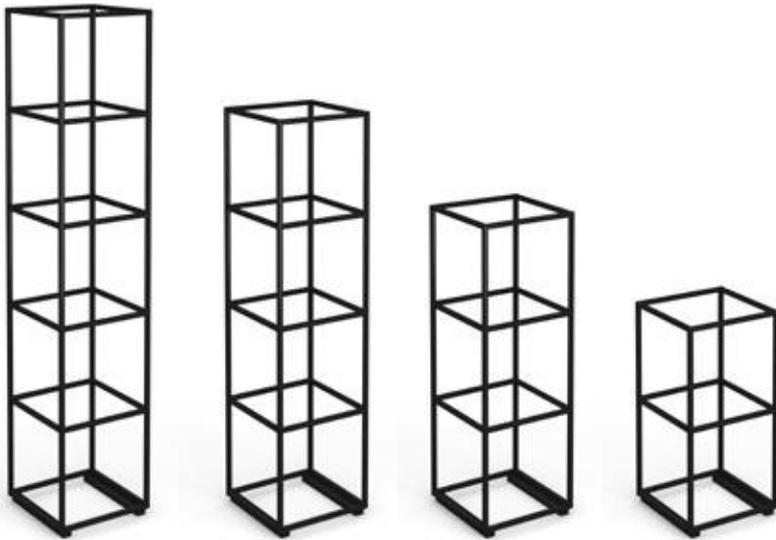

GRID

The Grid modular shelving system epitomises the future of adaptable, modern design. Grid has a capacitor for an infinite number of layout options and shapes to help create work zones in any space to promote privacy or transparency as needed. The crisp, clean aesthetic of the black frame allows you to break up the workplace landscape while bringing together a wide range of complementary components and products – and, never compromising on design.

COLLABORATIVE WORKING

Creating highly functional areas of the office for maximised use is what multi-functional, collaborative spaces are about. Agile workspaces aren't exactly new, but they have completely revolutionised the way we look at office spaces. Adaptable and tech-enabled, they're the spaces where teams gather for brain-storming, where employees can get together with their colleagues and enjoy exchanging ideas, and where people can have a quick chat in comfort.

LUX

Lux worktables transition the workplace from one that's fixed and formal to a space that suits a variety of preferences and working habits. Dining and poseur height tables are a creative, practical solution for any meeting area or breakout space, but components can be added and combined in limitless ways to create flexible, fluid work areas where people gather, keeping people connected to their technology and each other.

CENTRO

Contemporary offices are evolving as the trend shifts towards flexible working. Banks of desking still dominate the workplace however an increasing number of companies are adapting their office interiors to suit Agile working environments. The Centro A Frame tables are perfect for this new flexible environment, creating informal meeting areas to work on projects with both small and large teams. A choice of low desk height tables along with 1050mm poseur height tables in a range of sizes ensures we will have the right table for you.

KNOCK

Agile work environments are rapidly becoming the workplace norm with informal and quick meeting areas replacing the dull meeting room. The Knock tables complement our Centro A frame tables which have been incredibly popular; the panel end tables available here offer a more cost-effective option for those on a budget. Available at both desk height (740mm) and Poseur table height (1050mm). Bench seats are also available to accommodate the low tables - Great for breakout areas!

DIVIDE

The loss of private space and an inability to concentrate in an open plan work area has inspired the design of the Divide workstations which can be configured to specific needs and support individual work zones. The rich repertoire of geometric shapes can be positioned to suit defined spaces, allowing individuals to concentrate and complete focused tasks in a private space within the workplace environment.

MULTI-PURPOSE

Depending on your requirements, multi-purpose chairs and stools can serve many different purposes, offering a flexible solution when seating is required for various areas in the workspace. Not all companies have formal canteens and breakout spaces, but all companies need to get people away from their desks, so multi-purpose furniture provides the ideal solution for informal spaces within the office.
