SARAH Z DESIGNS

“We believe in doing the right thing, staying grounded, appreciating every opportunity, and taking full responsibility for our work.”

—SARAH ZOHAR

Sarah Zohar and the team transformed two separate condos into one seamless, contemporary biophilic masterpiece. The Bellini Project blends modern elegance with natural elements, creating a harmonious flow. Thoughtful design and organic materials bring the outdoors in, offering a refined, tranquil living space that embodies both luxury and

THE INSPIRATION

Growing up with a father who worked as a builder for over 60 years, I was immersed in the art of transforming raw materials into functional, beautiful interiors. Watching him work sparked my fascination with construction and design. I was inspired by how he brought spaces to life with precision, creativity, and care. His dedication and craftsmanship deeply influenced me, instilling a passion for creating meaningful, lasting environments that reflect both purpose and personality.

THE AESTHETIC

My aesthetic is shaped by the principles of Biophilic Design and guided by each client’s unique vision. I strive to create spaces that foster a deep connection to nature, integrating natural elements, light, and organic forms to promote well-being. Every project is a collaboration, where my design approach balances functionality with beauty, rooted in nature and personal expression. This harmony between client inspiration and biophilic influence defines the character and atmosphere of the environments I create.

THE MANTRA

At SZD, our work is grounded in core values that guide everything we do: integrity, humility, gratitude, accountability, and exceptional customer service. These principles

shape our relationships, our process, and the environments we create. We believe in doing the right thing, staying grounded, appreciating every opportunity, and taking full responsibility for our work. Above all, we are committed to delivering an outstanding client experience—one rooted in trust, respect, and genuine care for every detail.

THE IMPACT

My travels around the world have profoundly influenced my interior design journey, offering endless opportunities to learn, grow, and expand my creative perspective. Experiencing diverse cultures, architectural styles, and design traditions firsthand has deepened my appreciation for global aesthetics. Each destination has inspired me in unique ways—broadening my understanding of color, texture, form, and function. These cultural encounters continue to shape my design philosophy, enriching my work with depth, authenticity, and a worldly point of view.
