MANOPLAS DE PIEL IGNÍFUGAS

Ref: **AO0616**

Ideales para hornos profesionales, panaderías, pastelerías, pizzerías, cocinas, para manipulación de bandejas, carros, rejillas y accesorios calientes.

Protección térmica elevada: soporta temperaturas aproximadamente de hasta 350°C durante al menos 15 segundos (EN 407:2020) - Calor por contacto.

Permiten trabajar con mayor destreza y agilidad.

Especialmente diseñados para la extracción de bandejas de hornos.

Buena resistencia para el desgaste perforación y desgarró (EN 388:2006+A1:2018).

- Pela, quita el corazón y corta en un sólo paso.
- Eficiencia: 5 manzanas en un minuto.
- Sin pérdidas: Peladuras finas.
- La cuchilla "Cortador" quita el corazón y corta en espiral mientras que la cuchilla "pelador" pela.
- Para obtener rebanadas: Cortar verticalmente un lado de la espiral.
- Para obtener medio rebanadas (Tarta de manzana): Cortar verticalmente un lado y el lado opuesto, de la espiral.
- Función zest cuando se quita la "Cuchilla cortadora".

- To peel, core and slice in one operation.
- Efficiency: 5 apples in a minute.
- No loss: Thin peelings.
- The "Cutting" blade cores and cuts in spiral while the "Peeling" blade peels.
- To get slices: Cut vertically one side of the spiral.
- To get half-slices (apple pie): Cut vertically one side and the opposite side, of the spiral.
- Zest function when taking off the "Cutting blade".

SEMIFRÍO SEMICOLD

Molde ideal para pastelería fría.
El molde se compone de:
* 1 Bandeja de 400x600x20h mm.
* 7 Moldes del mismo modelo.
Medida del pastel Ø 65 mm.
35 piezas por molde.

*Ideal mould for cold bakery.
The mould consist of:
* 1 Tray 400x600x20h mm.
* 7 Identical models.
Cake's size Ø 65 mm.
35 Pieces per mould.*

Cazos eléctricos. Electric coppers.

- Cazos eléctricos de cobre con baño de acero inoxidable.
- Resistencia exterior soldada en la parte inferior de los cazos, para una perfecta difusión del calor gracias al material de cobre proporcionando el mismo calor en la parte inferior que en la superior.
- Cable de conexión eléctrico desmontable de silicona.
- Asa plastificada y mango para uso directo al fuego.

- Electric copper saucepans with stainless steel bath.
- External resistance welded in the bottom of the buckets, for a perfect heat diffusion thanks to the copper material providing the same heat at the bottom as at the top.
- Detachable silicone electrical connection cable.
- Plasticized handle and handle for direct use on fire.

Freidora industrial.

Industrial fryer.

Fabricada en acero inoxidable. Con una cuba amplia embutida. Sus resistencias especiales de acero inoxidable de alta duración, alcanzan la temperatura de trabajo en un tiempo muy corto. Sus resistencias extra-grandes permiten un calentamiento más homogéneo del aceite, optimizando el rendimiento a una potencia determinada. Además hace posible trabajar sin quemar el aceite, obteniendo un ahorro de aceite de hasta el 60%.

Made of stainless steel. With a large embedded tank. Its special long-lasting stainless steel resistors reach working temperature in a very short time. Its extra-large resistances allow a more homogeneous heating of the oil, optimizing performance at a given power. It also makes it possible to work without burning the oil, obtaining an oil saving of up to 60%.

Freidora industrial para uso diario.

- Control de temperatura regulable.
- Resistencia blindada en tubos de acero.
- Grifo para vaciado.
- Tapa inoxidable.
- Cesta inoxidable con asas.
- Reja inoxidable para sumergir el producto.

Industrial fryer for daily use.

- Adjustable temperature control.
- Armored resistance in steel tubes.
- Drain tap.
- Stainless lid
- Stainless basket with handles.
- Stainless grill to submerge the product.

Freidora profesional.

Professional fryer.

Fabricada en acero inoxidable. Con una cuba amplia embudida. Sus resistencias especiales de acero inoxidable de alta duración, alcanzan la temperatura de trabajo en un tiempo muy corto. Sus resistencias extra-grandes permiten un calentamiento más homogéneo del aceite, optimizando el rendimiento a una potencia determinada. Además hace posible trabajar sin quemar el aceite, obteniendo un ahorro de aceite de hasta el 60%.

Made of stainless steel. With a large embedded tank. Its special long-lasting stainless steel resistors reach working temperature in a very short time. Its extra-large resistances allow a more homogeneous heating of the oil, optimizing performance at a given power. It also makes it possible to work without burning the oil, obtaining an oil saving of up to 60%.

Freidora completa profesional para uso diario.

- Control de temperatura regulable.
- Resistencia blindada en tubos de acero.
- Grifo para vaciado.
- Tapa inoxidable.
- Cesta inoxidable con asas.

Industrial fryer for daily use.

- Adjustable temperature control.
- Armored resistance in steel tubes.
- Drain tap.
- Stainless lid
- Stainless basket with handles.

OPCIÓN DE REPUESTOS

Montadora de natas. *Whipped cream machine.*

Monta la nata entre 3 y 6 minutos, aumentando el volumen de la nata.

La nata debe de estar fría al incorporarla a la máquina.

Se aconseja que la máquina se utilice en el lugar más fresco del lugar de trabajo.

Pour the cream between 3 and 6 minutes, increasing the volume of the cream.

The cream must be cold when incorporated into the machine.

It is advisable to use the machine in the coolest place in the workplace.

Alisadora profesional.
Professional straightener.

Posee una estética moderna y atractiva con recubrimiento en polvo. Su espátula está hecha de acero inoxidable 304 y la plataforma es de alta calidad realizada en aleación de aluminio. Fácil de utilizar gracias a sus controles digitales, regulable en altura mediante control analógico, con un rendimiento extraordinario sin apenas ruido y de bajo consumo. El sentido de rotación puede ser cambiado de las agujas del reloj al sentido contrario. Ideal para alisar todo tipo de pasteles con diferentes coberturas suaves (merengues, glazas, natas, etc...).

It has a modern and attractive powder-coated aesthetic. Its spatula is made of 304 stainless steel and the platform is of high quality made of aluminum alloy. Easy to use thanks to its digital controls, adjustable in height by analog control, with extraordinary performance with little noise and low consumption. The direction of rotation can be changed from clockwise to counterclockwise. Ideal for smoothing all kinds of cakes with different soft toppings (meringues, glazes, creams, etc...).

Rociadora de gelatina.
Jelly sprinkler.

Apta para congelación.
Suitable for freezing.

Máquina de sobremesa ideal para rociar gelatina a gran velocidad reduciendo el tiempo del trabajo.
Con regulador de presión de 0,5 a 3,5 bar.
También se puede regular la temperatura digitalmente hasta los 90°C.
La rociadora aspira el producto de una caldera que calienta la gelatina ubicada en el interior de la máquina.
La rociadora emplea tubos calentados eléctricamente que, combinados con el control digital, mantienen constantemente la temperatura configurada.

*Ideal desktop machine for spraying gelatine at high speed reducing the time of work.
With pressure regulator from 0.5 to 3.5 bar.
The temperature can also be regulated digitally up to 90 °C.
The sprayer sucks the product from a boiler that heats the gelatine inside the machine.
The sprayer uses electrically heated tubes which, combined with the digital control, constantly maintain the set temperature.*

Atemperadores Digitales para chocolate con calor en seco. Digital chocolate melters with dry heat.

Realizado en material plástico termoresistente, así como una bandeja y una tapa extraíbles en acero inoxidable y un sensor térmico para la adecuada regulación de la temperatura del chocolate. La placa electrónica controla la temperatura interna asegurándose de conseguir los mejores resultados, además detecta la temperatura externa del chocolate mediante un sensor de temperatura dedicado a ayudarlo a templar el chocolate rápidamente y de un modo mucho más preciso. Posee un panel frontal para controlar de temperatura, el cual puede ser regulado manualmente mediante 3 programas diferentes dependiendo del tipo de chocolate que vaya a utilizar: blanco, con leche u oscuro. Las indicaciones en la pantalla le ayudará a controlar la temperatura y templar el chocolate.

Made of heat-resistant plastic material, as well as a removable tray, a stainless steel cover and a thermal sensor for the proper regulation of the chocolate's temperature. The electronic board controls the internal temperature ensuring the best results. It also detects the external temperature of the chocolate thanks to a thermal sensor dedicated to make quickly the chocolate milder and in a much more precise way. It has a front panel to control the temperature, which can be regulated manually by 3 different programs depending on the type of chocolate you are going to use: white, milk or dark. The indications on the screen will help you to control the temperature and temper the chocolate.

Atemperadora profesional de sobremesa para chocolate. Professional melter table top for chocolate.

Templadoras de mostrador, con capacidad de 5,5 y 11 Kg, que permiten templar el chocolate de modo profesional al igual que las máquinas más grandes, pero con inversiones y estorbos reducidos. Sólida estructura de acero inoxidable.

Dos motores independientes, uno para la còclea y uno para el agitador, para una mayor duración por largo tiempo.

Còclea removible de serie de acero inoxidable para facilitar la limpieza y para cambiar rápidamente el chocolate.

Posibilidad de controlar el flujo de chocolate mediante el pedal.

Pantalla táctil con diversas opciones:

- Dosificaciones automáticas para erogar la correcta cantidad de chocolate.

- Modalidad nocturna para mantener el chocolate fundido, limitando el consumo durante la noche.

- Rotación contraria de la còclea, útil durante la limpieza y para vaciar la boquilla.

Table top melters machines with a capacity of 5.5 and 11 Kg, that make it easy to temper chocolate in a professional manner as if using larger machines, but with a space efficient equipment and at lower costs. Robust stainless steel structure.

Two motors, one for the auger screw and the other for the stirrer, for enhanced motor life over the long-term.

Removable stainless steel auger screw as standard to facilitate cleaning the equipment and for a quick chocolate change.

Pedal to control the chocolate flow.

Touch-screen panel with different options:

- Automatic dosing to dispense the right amount of chocolate.

- Night-mode to keep chocolate melted and to keep consumption under control when the equipment is not used.

- Auger screw can rotate in the opposite direction, a highly useful function to clean and to empty the nozzle.

Rociadora profesional para chocolate. Professional chocolate sprayer.

Máquina para rociar chocolate, sucedáneo y manteca de cacao. Es la solución ideal para rociar chocolate en tartas, moldes, praliné, y para obtener en pocos minutos productos decorados perfectamente y con un aspecto atractivo.

Mediante la regulación de la presión, de la cantidad de chocolate y del ángulo del inyector es posible obtener diferentes efectos decorativos: terciopelo, nieve, piel de naranja, líneas, puntos, etc...
Cabineta porta pistola calentada a temperatura regulable para mantener el chocolate fundido en los lapsos de no empleo y evitar obstrucciones del inyector.

El compresor no está incluido, se suministra bajo pedido.

Machine for spraying chocolate, substitute and cocoa butter. It is the ideal solution to sprinkle chocolate on cakes, molds, praline, and to obtain in a few minutes perfectly decorated products with an attractive appearance.

By regulating the pressure, the amount of chocolate and the angle of the injector it is possible to obtain different decorative effects: velvet, snow, orange peel, lines, points, etc...

Gun carrier booth heated to adjustable temperature to keep molten chocolate in periods of non-use and avoid clogging of the injector.

The compressor is not included, it is supplied upon request.
