Fingerpull + SQ Edge Design
Cut to Size Doors + Panels

Product Features

Pre-Finished Melamine Faced Board:

- Cost Efficient Alternative to Real Timber Veneer and Painted Products
- High Moisture Resistant, E0 - Low Emission Particle Board.
- Recycled Particle Board
- Textured 2 sides
- Anti-Microbial Surface

- Suitable for
General Cabinetry and Joinery
Decorative Vertical Surfaces
Workstation Tops

Matching High Pressure Laminate (HPL):

- Laboratory Grade Chemical Resistant
- Group 1 Fire Rated
- Stain, Graffiti, Scratch, Heat and UV Resistant

Matching HPL Pressed Panel:

- Suitable for areas that require High Impact, Scratch and Wear Resistance

Matching ABS Edging:

- Matching 1mm ABS Edging

FOR ALL DECORATIVE USES, WHICH YOU WANT TO MAKE FROM WOOD

Duropol Melamine, is the wood-based panel of choice for almost all tasks in furniture making and interior fixtures and finishes. It is made up of decor paper impregnated with melamine resin, which is pressed onto the core by heat and pressure. It is easy to work and thanks to variety of textures and decors, it is certain to be suitable for almost any area of use. With our F*** Eo rated High Moisture Resistant substrate, Pollutant-reduced integrated solutions for interior fitting and furniture in both private and public premises, such as hotels, schools, offices and administration buildings, especially when materials with exceptionally low emission and moisture resistant potential are required.

Silk Matt

PRODUCT AVAILABILITY

Melamine Faced Board:

- High Moisture Resistant, E0 - Low Emission Particle Board.
- Recycled Particle Board
- Textured 2 sides
- Sheet Size: 2650mm x 2100mm
- Thickness: 16mm

- ◆ Denotes Available also in
- Sheet Size: 2650mm x 1830mm
- Thickness: 16mm
- Thickness: 25mm *Recomended Dry Areas*

High Pressure Laminate (HPL):

- Sheet Size: 4100mm x 1300mm x 0.6mm

HPL Pressed Panel:

- Sheet Size: 3600mm x 1200mm x other substrate thickness & specification available on application.

ABS Edging:

- Matching 1mm ABS Edging

Anti-Microbial

F**** - Low Emission

* Matching Group 1 Fire Rating HPL

* Matching Chemical Resistant HPL *

Architect and Interiors:

LSA Architecture

An Extensive amount of work goes into selecting a range of products that will not only showcase the Interior Designers brief, but also consider the clients budgets.

Our Silk Matt texture from Duropal replicates the look and feel of satin paint finished door and cabinet products.

Products Used:

Pre Finished Melamine Board

- Duropal U1200SM Black
- Duropal U1027SM Icy White

Project/Product Requirements:

- Product was used as a value management alternative
- Product was used as aposed to real paint finish for Duropal's superior wear capabilities

RUSTICA

The depth and expression of this structure give striped woodgrains a embossed look. The gloss-matt effect and the natural irregularity of the grain make woodgrains look exceedingly more authentic.

Rustica

Cabrini Hospital Gandel Wing - Malvern

Architect and Interiors:
BATES SMART

The \$120 million building combines state of the art treatment, with the latest in technology providing an exemplar model of healthcare.

Bench Top City's Duropal High Pressure Laminate had to be considered as a new bench mark for healing rather than curing.

Over 2,000 HPL sheets was supplied to thoughtfully craft bespoke and durable joinery.

Products Used:

Pre Finished Melamine Board / Group 1 Fire Rated High Pressure Laminate

- Duropal R4284RU Natural Chalet Oak

Project/Product Requirements:

- Project required fire rated high pressure corridor & lift cart wall linings for high traffic considerations
- Project required a laminate to create robust curved joinery
- Product provided anti-microbial surfaces to the entire project

NATURAL WOOD

Naturalness and precision characterise this delicate wood structure. The fine surface texture looks freshly sanded. The pores appear irregular and linear. Their different depth and edge sharpness make them look extremely authentic. Natural Wood can be universally applied to many fine-pored woodgrains. It perfectly accentuates the Scandinavian style, but also exotic- or fruit woods are given a new feel with this structure. Natural Wood also works with plain colours, giving them a stained wood appearance.

VSBA Specialist School - Endeavour Hills

Architect and Interiors:

K2LD / Architectus

The project was delivered under a Design and Construct contract, with the new school constructed on the 55,000m² site of the former Endeavour Hills Secondary College, which includes five learning communities, a community hub with competition-grade gymnasium, and an administration building.

Our Duropal Jerusalem Pine was selected not only because it is identical in appearance to real birch ply wood, but because it is considerably more UV, stain, graffiti and impact resistant whilst still being a fraction of the cost of real birch.

Products Used:

Pre Finished Melamine Board / Group 1 Fire Rated

High Pressure Laminate

- Duropal R55064NW Jerusalem Pine

Project/Product Requirements:

- Project required fire rated high pressure wall linings for high traffic and safety considerations
- Project required a laminate reduce the cost compared to natural birch plywood
- Product provided graffiti and stain resistant surfaces

MONTANA

The generous, deep wood structure is particularly suited to expressive hardwoods and softwoods. It is characterised by a unique gloss/matt effect and offers tangible depth. Thus, large scale and flowery structured woodgrains appear particularly authentic with this structure.
