- COMMERCIAL

OUR PROMISE

From the foundation of the business our goal is to provide you with the best signs, decals and labeling by using the highest quality American made substrates on the market.

CREATIVE IDEAS

Whether it is your artwork or ours, our customer satisfaction comes first. We will work with you until you have exactly what you have envisioned.

TARGETED ART

Fire, Police, Emergency and Safety is what we do best and with over 80 years of experience you can depend on us to get the job done.

COLLABORATION

We value your input and suggestions so that we can continuously improve our products and services.

FIREFLY SIGNS

SINCE 1945

WE DO CREATIVE, YOU DO THE REST

Ordering Instructions

Categories of Product Offerings

Stock – *Standard Shapes / Styles are offered with titles from the indicated list, and with standard emblems where applicable. Colors and emblems available are shown on page 2. See Stock columns in price list.*

Personalized – *Same as stock above but with your choice of wording. See Personalized columns in price list.*

Custom – *Anything you need, such as custom emblems or logos added to personalized items, or completely new shapes and graphic designs. Call your Firefly Signs™ Distributor for a quote.*

Ordering Instructions

Specify item code, size, material type and color, ink colors, text and emblems. Templates are included with the Price List. A sketch on one of our templates is very helpful, especially for personalized and custom work. Look for additional ordering instructions throughout the catalog.

680-82	Ruby red (special order)	15
680-85	Black	30

3M™ Scotchlite™ Reflective Graphic Film

Standards 680 series

This information is important for applications that are regulated by ASTM or NFPA® standards, for example, traffic control signs, emergency vehicles and certain railroad graphics. The user is solely responsible for determining and complying with all current and applicable local, state and federal regulations regarding the use and application of graphics materials. ASTM D-4956: Standard Specification for Retro-reflective Sheeting for Traffic Control. ASTM D-4956 covers flexible, non-exposed glass bead lens and micro-prismatic, retro-reflective sheeting designed for use on traffic control signs, delineators, barricades, and other devices. For Type I sheeting, it specifically covers the following colors: White, Yellow, Orange, Green, Red, Blue, and Brown. As defined in ASTM D-4956, film series 680 is classified as Type I sheeting with a Class 3 adhesive. For the corresponding colors covered by ASTM D-4956, with the exception of Orange, film series 680 meets the requirements specified in section 6.1.1. NFPA® 1901: Standard for Automotive Fire Apparatus (2009 Edition) According to NFPA® 1901, section 15.9.3.3 specifies that all retro-reflective materials required by section 15.9.3.1 and 15.9.3.2 shall conform to the requirements of ASTM D4956, Standard Specification for Retro-reflective Sheeting for Traffic Control, Section 6.1.1 for Type I sheeting. Section 15.9.3.3.1 specifies that colors not listed in ASTM D4956 can be used on the front and sides of the fire apparatus as long as the sheeting has a minimum coefficient of retro-reflection of 10 when measured with an observation angle of 0.2° and an entrance angle of -4°.

Standards 5100 series

This information is important for applications that are regulated by ASTM or NFPA® standards, for example, traffic control signs, emergency vehicles and certain railroad graphics. The user is solely responsible for determining and complying with all current and applicable local, state and federal regulations regarding the use and application of graphics materials. ASTM D-4956: Standard Specification for Retro-reflective Sheeting for Traffic Control. ASTM D-4956 covers flexible, non-exposed glass bead lens and micro-prismatic, retro-reflective sheeting designed for use on traffic control signs, delineators, barricades, and other devices. For Type I sheeting, it specifically covers the following colors: White, Yellow, Orange, Green, Red, Blue, and Brown. WE DO CREATIVE, YOU DO THE REST

Standard Print Colors

Choose from one of ours or send us your CMYK codes with a branding guide.

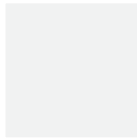

Printing on the 3M Reflective Vinyl does change colors slightly, as the green/grey hue of the reflective properties shines through the translucent inks. Also, the actual product color may vary from the images shown. Every monitor or mobile display has a different capability to display colors, and every individual may see these colors differently.

HELMET CRESCENTS

FIREFLY SIGNS

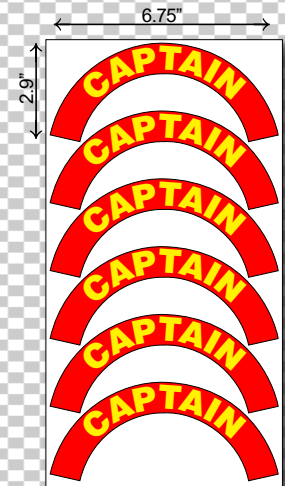

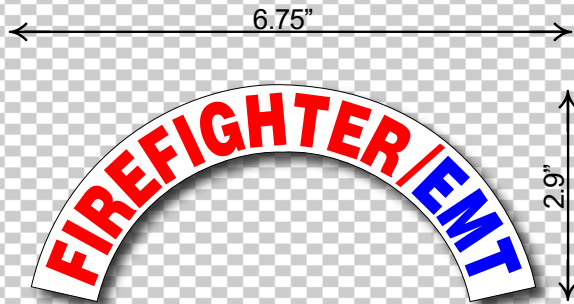

SINCE 1945

Printed on 3M® Reflective Vinyl

Save MONEY
by purchasing the CR6
(title must remain the same per sheet)

CRS - HELMET CRESCENT

CR6 - HELMET CRESCENT

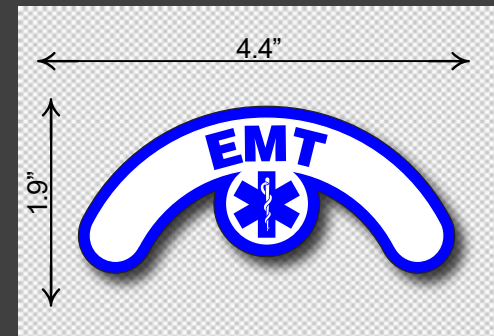

CA - HELMET CRESCENT

CJ - HELMET CRESCENT

EC - HELMET CRESCENT

Our Helmet Crescents are printed in a variety of styles and designed to fit the most common head protection gear. The CJ, CA and EC will fit under the standard Crescent (CR) for multiple title applications. Please see our list of stock titles*, although you are not limited to the stock title list; each crescent can display a person's name, title or the name of a department, city, state...

The Crescents are printed on and cut from 3M® Reflective vinyl with a scotchlite adhesive back, which gives you the most durable decal on the market.

*Stock Title List located with the pricing pages

Our Glow in the Dark Crescents are made from layering Glow in the Dark and 3M® Reflective (680) vinyls. This process provides your helmet with visibility no matter if there is a light source or not.

Our Velcro decals are printed in a variety of styles and designed to fit the most common gear. The decals are printed on and/or cut from 3M® Reflective vinyl with a scotchlite adhesive back and applied to Velcro brand hook and loop, which gives you the most durable decal on the market. We also offer the loop with an adhesive backing to match the style, to order the loop simply add an "L" after the item code(s).

WE ARE PROVIDING GLOW IN THE DARK!

There is no charge for sequential lettering or numbering.

Our Glow in the Dark FBR decals are made from layering Velcro Hook, Glow in the Dark and 3M® Reflective (680) colored vinyls. This process provides you and/or your customers with visibility no matter if there is a light source or not.

Your choice of text, vinyl colors and glow layout (inside glow or outside glow).

Dear Valued Customer,

I would like to take a moment to express my heartfelt gratitude for your continued support and trust in my company. It is customers like you who inspire us to strive for excellence every day, and I truly appreciate the opportunity to serve you.

Your loyalty and feedback help us improve our products and services, allowing us to better meet your needs and exceed your expectations. We are committed to delivering the highest quality and ensuring your satisfaction with every interaction.

Thank you once again for choosing us. We look forward to serving you in the future and continuing with a lasting relationship. If you have any suggestions or feedback, please do not hesitate to reach out. Your thoughts are invaluable to me.

Sincerely,

Pacific Reflex Signs
