CLASSIC COLLECTION

THE FIRST EVER ORGANIZERS
WITH SOFT-GRIP LINING.

Since Devee McNally's creation of the **Original Junk Drawer Organizer®** in 1990, madesmart® has been a trail-blazer in the housewares industry with revolutionary ideas and designs.

With the invention of the CLASSIC COLLECTION in 2004, madesmart® brought to market the first full set of organizers to have revolutionary soft-grip lining, designed to keep items safe and in place while adding to the overall aesthetic of the organizers.

This collection remains as the signature product line of the madesmart® brand, and contains many best sellers. This collection offers bins and trays in a variety of sizes and expandable options—timeless style for every home.

Today, many knock-offs are on the market, but none will match the quality and attention to detail that madesmart® upholds.

PLANOGRAMS

COLLABORATION IS
IMPORTANT TO US.

Our team is committed to nurturing meaningful partnerships with everyone we are privileged to work with, from our retailers down the street to our manufacturers and factories on the other side of the world. We do our best to serve as a valuable resource for them in return, sharing our insights and knowledge of production capabilities, pricing, design, trend forecasts, merchandising solutions, and more.

At malesmart®, we are skilled merchandisers, well-versed in retail, and understand what catches consumers' eyes first. We love collaborating with our retailers on their planogram displays to ensure that our partnership is successful. Additionally, we provide other merchandising solutions including in-store signage, point-of-purchase displays, insights on product assortments, along with strategic marketing initiatives to help drive sales. Collaboration is at the core of what we do.
