CORE VALUES

SAVESE embodies:

Production Excellence

Recognized for the excellence of its products, born out of high-quality Italian craftsmanship. Each creation is the result of a production process that ensures exceptional performance.

Environmental Sustainability

Committed to an environmental sustainability policy. The company utilizes eco-friendly materials and actively promotes practices that preserve the environment for future generations.

Continuous Innovation

A tradition of ongoing innovation research. The company is constantly seeking new ways to enhance its products, embracing the latest technologies and industry trends.

Customer Commitment

SaveSE always prioritizes its customers. The company is dedicated to providing world-class service and exceeding customer expectations on every occasion.

OUTSTANDING RESULTS, AMBITIOUS GOALS

Savese Looks to the Future with Determination

Savese, a **leading company** in the industry, has achieved outstanding results in its corporate journey, but its commitment to excellence knows no bounds.

Its **goals** are **ambitious**, aiming to maintain perfection by consistently offering high-quality products, promoting environmental sustainability, pushing the limits of innovation, and ensuring **maximum customer satisfaction**.

Made in Italy is a fundamental part of its identity, and certifications such as **ISO 9001:2015** and **MOCA** testify to the commitment to quality.

With unwavering dedication, Savese looks to the future with **determination**, ready to face challenges and opportunities with the same passion and devotion that have defined it from the beginning.

INNOVATION

Past, Present, and Future

The journey begins with an unwavering commitment to **innovation**.

Since its foundation, Saveese has embraced a pioneering approach in the development of **high-quality** beverage dispensing systems.

This dedication to innovation is ingrained in their DNA and continues to drive their **success**.

From the past to the present and beyond, Saveese has consistently pushed the boundaries of **innovation**, working tirelessly to enhance their products and processes.

PAST

2016

The establishment of the in-house Research and Development department allowed for the development of new ideas, products, and innovative projects, improving existing ones and ensuring competitiveness in the market.

2018

Foundation of the in-house Printing and Graphics Department.

2016 to Present

Expansion of the team, both in production and the commercial area.

PRESENT

TODAY

Investment in new technological facilities, including flatbed laser cutting, tube laser cutting, and bending machines, aiming for an internal production cycle increase of up to 95%.

Embarked on a path of digitization, rebranding, and marketing, leading to an increase in internal resources.

Participation in internal and external Management 4.0 courses led by industry professionals.

FUTURE

By 2024

Local Sourcing: It will be the primary key to supporting local development, sustainability, and strengthening local communities. The advantage lies in direct control over products, swift deliveries, and a reduction in environmental impact

By 2025

Production Increase: A target of +50% compared to the current level.

By 2030

Opening of New Eco-Friendly Facilities: Supporting company growth through the establishment of new environmentally sustainable facilities.

REDEFINING SUSTAINABILITY

Revitalization through Regeneration

In the context of its **sustainability-oriented** corporate strategy, SaveSe is launching the **Equipment Regeneration Campaign**.

This initiative aims to **promote environmental responsibility**: mitigating the environmental impact of its operations by endorsing sustainable practices in every aspect of its work.

The campaign is based on a simple yet powerful concept: taking care of the existing equipment originally provided by SaveSe instead of replacing it. This approach not only reduces environmental impact but also creates **added value** for our customers.

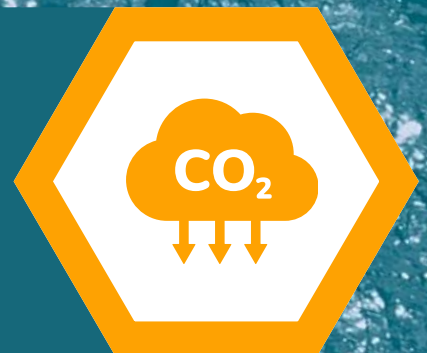

The **regeneration process** involves replacing worn components, repairing damaged parts, and undergoing a comprehensive revision process. The goal is to restore the equipment to its optimal functionality, significantly extending its **lifespan**.

Regenerated equipment becomes **sustainable** and cost-effective options for customers who aim to maintain high standards without expensive purchases.

This campaign represents our commitment to a **circular economy**, uniting excellence and sustainability.

The waste reduction policy has led to a significant **decrease in waste**, demonstrating a commitment to a cleaner environment.

The company exclusively utilizes **eco-friendly R290 refrigerant gas** for all produced refrigeration systems, contributing to a greener world.

DIGITAL TRANSFORMATION

Active E-commerce with Over +1,000 Products

Digital transformation is a fundamental pillar of Savese's **corporate strategy**.

The company has successfully embraced new technologies to maintain a cutting-edge position in the industry, bringing numerous **advantages**.

This progress has been a crucial step towards the goal of providing **increasingly efficient** and **effective** services to customers.

01

Complete Product Information

Each product comes with detailed information, including technical specifications, high-quality images, and details on availability.

02

Continuous and Constant Updates

The website is consistently updated with the latest news, special offers, projects, and information about products, including availability and pricing.

03

Multichannel Digital Marketing

By effectively implementing a marketing strategy across various channels, it creates targeted communication, reaching a broader and diversified audience.

04

Customized and Subjective Approvals

A distinctive strength is the option for industry clients to register and obtain special approvals. This allows them access to dedicated pricing.

05

Scalable Project in the EU

Having multiple languages is crucial for expansion within the EU. This capability positions it competitively in the European market.

DEDICATION TO EXCELLENCE WITH QUALITY SUPPLIER PARTNERS

The importance of careful selection of suppliers and their sustainability.

The company is committed to delivering products and services of **excellence**, and a fundamental part of this commitment is the collaboration with **highly qualified partner suppliers**.

These suppliers have been carefully chosen to ensure they meet the rigorous **standards of quality**, sustainability, and reliability set by the company itself.

Careful selection of suppliers is crucial to ensure that every component used in the products maintains the company's high-quality standards. Additionally, **supplier sustainability** has become an essential consideration as more consumers are sensitive to the environmental impact of businesses.

Collaborating with suppliers committed to sustainability is not only an ethical choice but can also lead to long-term economic benefits.

The company believes that supplier partners are a **key element** of its business ecosystem, contributing significantly to building **high-quality products and services** that uphold the highest standards.

PROTECTING ORIGINALITY

How to Make a Difference: PATENTS and DEPOSIT DESIGN

In the competitive world of beverages, Savese stands out for its dedication to **Exclusivity**, **Innovation**, and **Legal Protection**. The key to success lies in the constant pursuit of **Originality** through patents and design registrations that define the brand as a beacon of creativity in its industry.

The signature of each product is the result of an **unwavering commitment** to legal protection through patents, ensuring exclusivity and security, as well as **quality** and **uniqueness**.

The philosophy extends beyond mere protection, embracing **collaborations with exclusivity**, creating unique synergies that transform ideas into tangible solutions. This tailored approach strengthens the company's reputation as a reliable and **customer-oriented partner**.

EXCLUSIVITY FOR MULTINATIONALS

Exclusivity extends to collaborations with multinational corporations and world-renowned chains, offering personalized and exclusive solutions.

When a multinational chooses to collaborate, they not only receive a high-quality product but also a uniquely and legally protected one.

This ensures that no one else can access the same aesthetics and functionality, providing a unique competitive advantage in the industry.

LEGAL PROTECTION

Legal protection is a priority, with every new model being meticulously registered and legally safeguarded before entering the market.

This ensures that every detail, functionality, curve, and distinctive element is unique.

In addition to enjoying a unique creation, customers benefit from legal security that prevents third parties from copying or imitating the company's work.

KEY COLLABORATIONS

Partners and Suppliers by Savese

Savese holds **strong collaborations** and prepares for a future of growth and success.

As a global icon in refrigeration, it is our key partner as well as a client. Their excellence and high-quality systems make them a benchmark in the industry.

They produce a wide range of pressure reducers and solutions for industrial gas cylinders. A safe and reliable reference for many of Savese's applications.

Providing an extensive assortment of stainless steel products for Savese. With its extensive commercial network, it ensures availability and quality on a national and international scale, a quality partner.

The collaboration with CSM is a cornerstone of Savese's growth. With over 40 years of experience, CSM offers cutting-edge solutions for the production of resistors and stainless steel tubes.

This partnership is fundamental to Savese's offering. Offering a wide range of fittings and accessories, TIERRE covers all needs for the production and installation of systems.

The collaboration with JG represents a turning point for Savese, thanks to innovative push-fit technology. These fittings allow fast and secure connections up to 50%.

An extraordinary opportunity for companies, finding in this partnership the key to success through the development of software solutions applied to web technologies.

LOOKING TO THE FUTURE

Forward-Thinking Strategy: Investing in Cutting-Edge Projects

The future of Saveese unfolds as a fascinating realm of **opportunities** and **innovations**.

The company has a clear intention to continue **investing in cutting-edge projects**, aiming to further increase operational efficiency. ★★

Its primary commitment is to remain a **benchmark** in the industry: determined to grow and expand into new markets, oriented towards offering increasingly advanced solutions to meet the growing needs of customers. This is to solidify its **leadership** position in the sector.

SAVESE TELEMETRY

Operational Efficiency and Customer Service

The telemetry project revolutionizes beverage monitoring and management. Thanks to this innovative technology, operational efficiency can be enhanced, providing an even more advanced service.

HO.RE.CA LINE

Elevating the Experience with New Solutions

It offers high-quality products and solutions for the hospitality sector. We enhance customer experience in the hospitality industry with unique solutions for dispensing all kinds of juices and even multivitamins.

VIEW WITH AR

Augmented Reality: The New Frontier

Saveese's innovative high-tech green project revolutionizes product visualization with augmented reality. Personalize and view products in 3D to assess their footprint within the premises.

GENDER EQUALITY CERTIFICATION

Savese Adopts a UNI/PdR 125:2022 Inclusion and Sustainability Policy

Culture and Strategy

Governance

HR Processes

*Opportunities for
Growth and
Women's Inclusion*

*Gender Pay
Equity*

*Parental Support
and
Work-Life Balance*

Savese stands out by actively committing to **gender equality** following the **UNI/PdR 125:2022** guidelines, adopting a policy that promotes diversity, gender equality, and supports female empowerment.

Savese's commitment translates into **equal access to roles of responsibility** and **fair compensation** based on skills and experience. The promotion of family well-being through **flexible hours** and **agile work methods** highlights the company's holistic approach.

Employee training on gender equality, inclusive language, and stereotypes is a **priority**, and the company openly communicates its commitment both internally and externally.

Since July 10, 2023, Savese has implemented a **strategic plan** for the enforcement of its gender equality policy, incorporating specific indicators based on **UNI/PdR 125:2022** themes.

YOUNG AND DYNAMIC TEAM

The Engine Steering the Company Towards a Future of Continuous Growth and Success

Young and dynamic, with an average age of 36, our team embodies vitality. This energy translates into a fresh and innovative approach to business challenges. Comprising experts driven to achieve excellence in the industry, they collaborate to promote innovation, sustainability, and quality across every facet of the company.

A JOURNEY TOWARDS A FUTURE OF INNOVATION AND SUSTAINABILITY

SAVESE: Its history, its values, and its ambitions...

SaveSe is a company that places **innovation**, **sustainability**, and **quality** at the core of its operations.

Looking ahead, the company aims to grow and **expand** into **foreign markets**, providing advanced solutions to its customers. This commitment translates into constant monitoring of market trends and consumer needs, leading to the **development of innovative** and **sustainable products**.

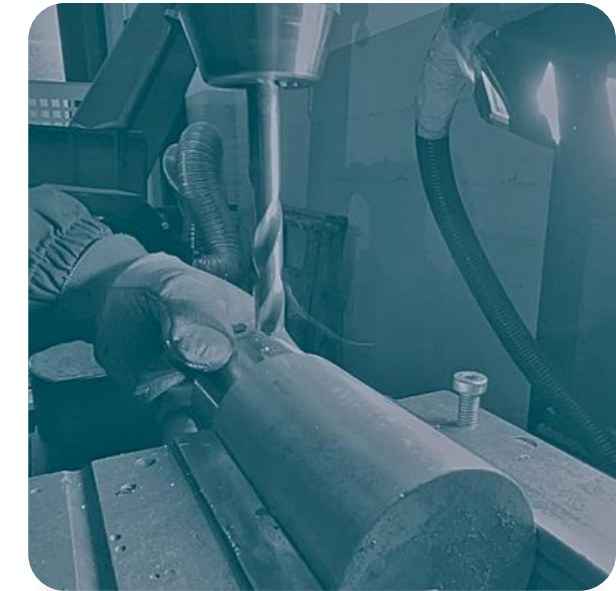

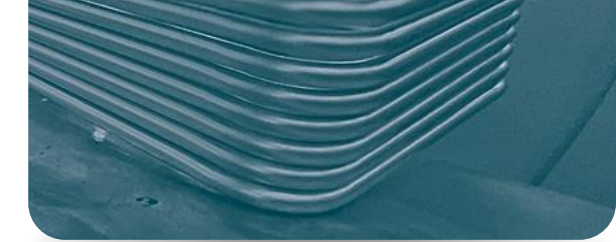

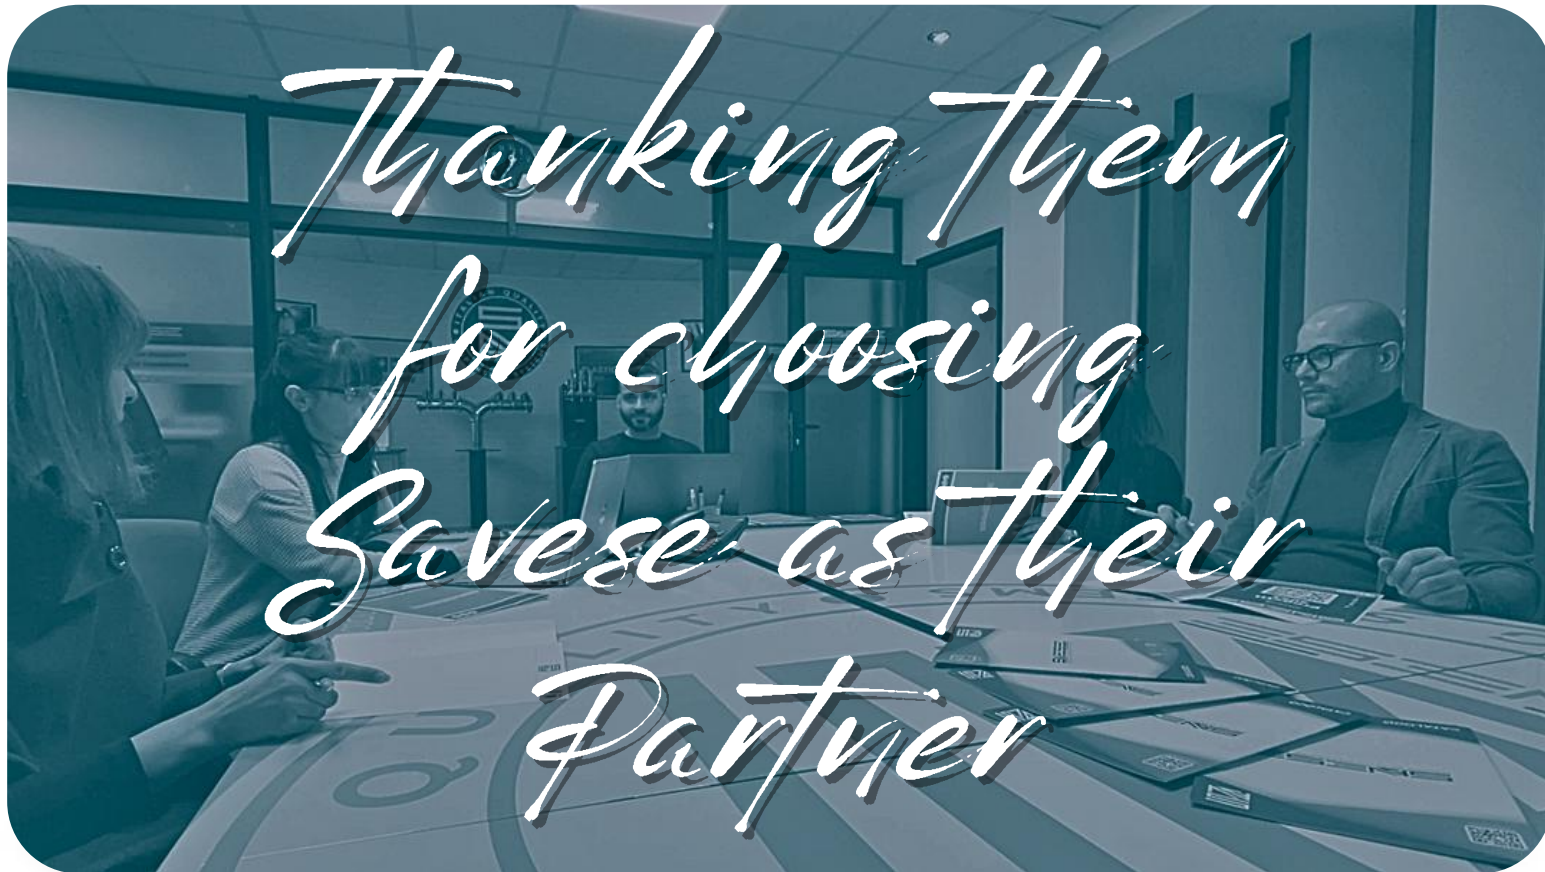

Research and **development** will remain a priority, ensuring that products meet customer expectations.

The company also intends to uphold its reputation as an **industry leader**, offering high-level customer service and maintaining elevated standards of quality and sustainability.
