

**2022 VIRTUAL NH  
IMMUNIZATION CONFERENCE**

**PREVENTING MISINFORMATION  
IN THE DIGITAL AGE**

**THURSDAY, NOVEMBER 10, 2022**

## WELCOME TO THE VIRTUAL NH IMMUNIZATION CONFERENCE!

Effects of the pandemic are visible everywhere, and nowhere more so than in healthcare, health data, and specifically, in vaccination efforts. In the face of increased public scrutiny, politicization of public health efforts, and widespread dissemination of vaccine misinformation and disinformation, you have continued to serve as the backbone of disease prevention in our state. Thanks to each of you for your dedication and continual efforts in striving for a healthier New Hampshire.

In addition to discussing travel vaccines, the state's COVID-19 mobile and home-based vaccination programs, and recommended adult vaccinations, today's conference "Preventing Misinformation in the Digital Age" will highlight the importance of technology in health promotion and communications in Immunization and Public Health in general. Our headliners will address topics that include:

- Combating Vaccine Myths and Mis-Information: In today's social media climate, vaccine misinformation can spread like wildfire and will often seem nearly impossible to combat. Today, we will tackle this tough topic and learn the value of having a community of vaccine partners to call on when things go awry in your online world.
- Addressing Vaccine Hesitancy: We will discuss ways to engage with patients, vet (or discredit) commonly shared vaccine information, and talk about how to have those difficult conversations around vaccination, both professionally and personally, with the goal of addressing concerns and promoting real behavior change.
- We'll also delve into how the pandemic illuminated the vital need for vaccine administration data and timely reporting for real-time data and trend monitoring to identify areas of need and ensure high vaccination coverage rates among NH individuals at highest risk of severe disease. To this end, we'll look at the NH Immunization Information System (NHIIS) that was launched in April 2021 during the peak of COVID-19 vaccine roll-out.

Enjoy the conference!

---

### CONTINUING EDUCATION CREDIT

Participants must attend their entire session and submit an evaluation for the session(s) they attend as well as an overall session evaluation in order to retrieve their certificate. An evaluation link will be sent to each participant following the event.

Attendance at sessions will be verified.

#### **Continuing Nursing Professional Development**

JSI Research & Training Institute, Inc. is an approved provider of continuing nursing education by the Northeast Multistate Division, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This activity has been approved for 4 contact hours. Nurses should only claim credit commensurate with the extent of their participation in the activity. Activity #IM2022

### **AMA PRA Category 1 Credit(s)<sup>TM</sup>**

The Maine Medical Education Trust designates this live activity for a maximum of 4.0 AMA PRA Category 1 Credit(s)<sup>TM</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The Maine Medical Education Trust is accredited by the Maine Medical Association's Committee on Continuing Medical Education and Accreditation to provide Continuing Medical Education (CME) to physicians.

### **Joint Providership Statement**

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Maine Medical Education Trust and the NH Medical Society and JSI Research & Training Institute Inc. The Maine Medical Education Trust is accredited by the Maine Medical Association Committee on Continuing Medical Education and Accreditation to provide continuing medical education for physicians.

### **American Association of Medical Assistants (AAMA)**

This conference has been approved by the American Association of Medical Assistants (AAMA) for 4 CEUs. Approval Number: 140923

## **New Hampshire Chapter**

INCORPORATED IN NEW HAMPSHIRE

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN®

### **Mission Statement**

The mission of the New Hampshire Chapter of the American Academy of Pediatrics (NHAAP) is to unite the pediatric community and the community at large around innovative solutions to the most critical challenges facing the children in New Hampshire, their families, and the pediatricians who care for them.

# AGENDA AT-A-GLANCE

## AGENDA AT-A-GLANCE

**Participants must log into their Whova account to access the sessions.**

8:30am-9:00am

### WELCOME, INTRODUCTIONS & AWARDS

9:00am-10:00am

### KEYNOTE PRESENTATION

**Vaccine Myths and their Impact on Vaccine Hesitancy**

*Karen Ernst, Director, Voices for Vaccines*

10:00am-10:30am

### MORNING EXHIBITOR SHOWCASE

Grab your coffee and a snack and join exhibitors as they showcase their latest and greatest products, services, and new programs LIVE.

Visit at least 2 hosted tables to be entered into the raffle drawing!

10:30am-11:30am

### CONCURRENT BREAKOUT SESSIONS

Select one to attend during this timeframe.

- **Data Quality and Integrity in the NHIIS - the Hows and Whys**
- **Retrospective Analysis of Mobile Vaccination Campaigns**
- **Emerging from the Pandemic: Lessons Learned & Future Strategy for COVID-19 Vaccination**
- **Informed Decision Making Regarding Meningitis B Vaccine**
- **Mythbusting Your VFC Compliance Visit - It's not as terrifying as you think**

11:30am-12:30pm

### EXHIBITOR SHOWCASE LIVE

Have lunch virtually exhibitors and colleagues!

Visit at least 3 hosted tables to be entered into the raffle drawing!

11:30am-12:45pm

### LUNCH BREAK

12:45pm-1:45pm

### CONCURRENT BREAKOUTS

Select one to attend during this timeframe.

- **Adult Vaccinations-Current Recommendations and Strategies to Ensure Adult Vaccines are Up-To-Date**
- **Top Issues about Travel Vaccines for Jetsetters and Homebodies Alike**
- **Vaccine Administration Refresher**
- **Data Quality and Integrity in the NHIIS - the Hows and Whys**
- **Mythbusting Your VFC Compliance Visit - It's not as terrifying as you think**

1:45pm-2:15pm

### AFTERNOON EXHIBITOR SHOWCASE

Grab a pick me up and join exhibitors and colleagues at the Exhibitor Showcase to hear about the latest and greatest products, services, and new programs LIVE.

Visit at least 2 hosted tables to be entered into the raffle drawing!

2:15pm-3:30pm

### AFTERNOON GENERAL SESSION

2:15pm-3:15pm

#### #VaccinationCommunication NH

*Todd Wolynn, CEO - Kids Plus Pediatrics, Cofounder Shots*

*Heard Round the World, Sr. Advisor - Public Good Projects, CEO/*

*Cofounder/Sr. Advisor*

3:15pm-3:30pm

### CLOSING & REFLECTIONS

**Raffle Winners Announced!**

Must be present to win!

# The COVID-19 updated boosters are here

**Make it yours.** We're all sick of COVID-19. But it was the 3rd leading cause of death in the US, and it's still making people really sick. That's why the updated boosters are designed to help protect against multiple variants—all in one shot.

Scan the code below to get the facts or visit  
[makeityourvaccine.com](https://makeityourvaccine.com)

The vaccine may not be for everyone. Please consult with your doctor.

# AGENDA

## AGENDA

**Participants must log into their Whova account to access the sessions.**

8:30am-9:00am

### **WELCOME, INTRODUCTIONS & AWARDS**

9:00am-10:00am

### **KEYNOTE PRESENTATION**

#### **Vaccine Myths and their Impact on Vaccine Hesitancy**

Vaccine myths are more of a misassessment of risk and less than a conspiracy theory, vaccine myths follow worn paths of lack of control, lack of autonomy, and perception of weakness that play into not only political ideology but also self-identity. We can build an information resilience in our communities by doing public education on how misinformation works, what fallacies are involved, how vaccines are made, how vaccines work with our bodies, and how vaccines are monitored.

Following this session, participants will be able to:

- Identify current prominent vaccine myths.
- Correlate these myths with the development of vaccine hesitancy.
- Develop a plan of action in their work to build confidence through good information.

Presented by:

Karen Ernst, Director, Voices for Vaccines

10:00am-10:30am

### **MORNING EXHIBITOR SHOWCASE**

Grab your coffee and a snack and join exhibitors as they showcase their latest and greatest products, services, and new programs LIVE. Visit at least 2 hosted tables to be entered into the raffle drawing!

10:30am-11:30am

### **CONCURRENT BREAKOUT SESSIONS**

#### **Data Quality and Integrity in the NHIIS - the Hows and Whys**

Since 2020, individuals across the United States, from government officials to frontline workers, are engaged in a tireless effort to ensure Americans have access to and are vaccinated against COVID-19. In the midst of this, New Hampshire Immunization Information System (NHIIS) played a crucial role in providing evidence and data-based guidance for this pandemic response. When it comes to Data, we always ask the question about its quality, reliability, and completeness. During the COVID-19 response, data quality has been a common cause of concern, and providers can play the role of "Guardians of Data." Let's hear from NHIIS how providers can increase the completeness of data, how to improve timeliness without decreasing accuracy and how this data can help providers inform and provide up to date information to their patients.

Following this session, participants will be able to:

- Identify, correct and maintain a good data quality.
- Improve timeliness without decreasing accuracy.
- Use the data to inform & provide up to date information to their patients.

Presented by:

Maureen Morrill, NHIIS Education & Training Coordinator, NH Immunization Program

Jacqueline Ramirez, NHIIS HL7 Onboarding Coordinator, NH Immunization Program

10:30am-11:30am

### **Retrospective Analysis of Mobile Vaccination Campaigns**

This presentation will provide an overview of the NH mobile and homebased COVID-19 vaccination program as well as provide outcomes from the initiative. The presentation will also include methods used by DPHS to focus mobile COVID-19 vaccination services on the most vulnerable populations and communities at highest risk of disease and negative outcomes. Furthermore, any trends, lessons learned, community feedback, and program challenges and successes will be discussed.

Presented by:

Stephanie Locke, MS, NREMT-P, NH Department of Health and Human Services, Division of Public Health Services, Bureau Chief

Ryan Tannian, PharmD, RPh, MBA, NH Department of Health and Human Services, Division of Public Health Services, Bureau of Infectious Disease Control, Bureau Chief

10:30am-11:30am

### **Emerging from the Pandemic: Lessons Learned & Future Strategy for COVID-19 Vaccination**

This session will review the safety and effectiveness of current COVID-19 vaccines (primarily focusing on the mRNA COVID-19 vaccines) and build off that base of information to understand current COVID-19 vaccine recommendations, discuss potential future vaccination strategies, and engage providers to continue to promote vaccination.

Following this session, participants will be able to:

- Describe COVID-19 vaccine safety and effectiveness, including the importance of booster dosing.
- Counsel patients and recommend COVID-19 vaccination based on current guidance and best practices.
- Describe and implement strategies to promote and increase COVID-19 vaccination.

Presented by:

Ben Chan, NH Department of Health and Human Services, NH State Epidemiologist

10:30am-11:30am

### **Informed Decision Making Regarding Meningitis B Vaccine**

Meningitis B outbreaks are increasing on college campuses. According to the CDC, 34 cases were diagnosed in 2018. 32% of those diagnosed with Meningitis B were college students. Meningitis B has negative health outcomes including brain damage, loss of limbs and death. Should college health centers require the Meningitis B vaccine? This presentation will cover the different meningitis vaccines including the challenges and successes that come with requiring these vaccines on a college campus.

Following this session, participants will be able to:

- Identify risk factors for Meningitis.
- Differentiate between the available Meningitis vaccines.
- Describe the steps to help with vaccine requirements and compliance on a college campus.

Presented by:

Laura Anderson, APRN, FNP-C, Concord School District - SAU 8, Health Coordinator

10:30am-11:30am

### **Mythbusting Your VFC Compliance Visit - It's not as terrifying as you think**

All healthcare providers enrolled with New Hampshire Immunization Program (NHIP) that receive and administer children's vaccine are required to participate in a Vaccine for Children (VFC) Program compliance site visit at least once every 24 months. These visits are to provide education and technical assistance as well as assess for any potential issues with vaccines accountability, storage/handling, and administration of publicly supplied vaccine. This session will provide you with the tools you need be ready when "the state" calls to arrange a visit or when they arrive unannounced to assess your storage and handling. This session will be visual/video and audio with a chance to speak with some of NHIP's experts about your future visit.

Following this session, participants will be able to:

- Prepared for a mandatory VFC compliance visit and meet compliance requirements.
- Describe, know where to access, and manage, be able to complete the documentation and verifiable processes that will be request during a VFC visit.
- Describe required temperature monitoring devices and documentation, maintain cold chain vaccine viability and manage vaccine inventory as well as understand vaccine costs and wastage.

Presented by:

Kristin Blair, NH Immunization Program, Vaccine Quality Specialist

Rachel Moon, NH Immunization Program, Vaccine Accountability Specialist

Lori Johnson, NH Immunization Program, Quality Assurance Program Manager

Lena Boulanger, NH Immunization Program, Vaccine Accountability Coordinator

11:30am-12:30pm

### **EXHIBITOR SHOWCASE LIVE**

Have lunch virtually with exhibitors and colleagues!

Visit at least 3 hosted tables to be entered into the raffle drawing!

11:30am-12:45pm

### **LUNCH BREAK**

12:45pm-1:45pm

## CONCURRENT BREAKOUT SESSIONS

12:45pm-1:45pm

### **Adult Vaccinations-Current Recommendations and Strategies to Ensure Adult Vaccines are Up-To-Date**

Vaccination is an essential component of adult healthcare, however, most adults are not up-to-date with vaccines. This session will review the standards for adult immunization practice, current adult vaccine recommendations and strategies for increasing adult vaccination rates. It will highlight the importance of all healthcare professionals taking steps to help ensure that their adult patients are fully immunized. This presentation will provide an overview of the current ACIP-recommended schedule for adults and review the most updated guidance for pneumococcal, hepatitis B, zoster and influenza vaccination. It will provide best practices and strategies for healthcare providers to increase adult vaccination rates and will offer tools and resources to support up-to-date adult immunizations.

Following this session, participants will be able to:

- Utilize the Recommended Vaccine Schedule for Adults in their practice to advise their adult patients about which vaccines are recommended based on age and medical condition and to effectively screen their patients for any contraindications or precautions to the recommended vaccines.
- Describe how they will integrate the updated recommendations for pneumococcal, zoster, hepatitis B and influenza vaccines into their practice.
- Make a strong vaccine recommendation and increase adult vaccine rates in their practice using the standards for adult immunization practice and other strategies and best practices.

Presented by:

Xan Gallup, RN, RRT, NH Immunization Program, Public Health Nurse Specialist

Anne Lucey, RN, NH Immunization Program, Perinatal Hepatitis B Prevention Program, Public Health Nurse Specialist

12:45pm-1:45pm

### **Top Issues about Travel Vaccines for Jetsetters and Homebodies Alike**

Travel vaccine science is a dynamic space. Whether you are new to the science or need a quick review, or are considering developing clinical skills in this space, this session will help you counsel and manage your traveling patients safely and effectively.

Following this session, participants will be able to:

- Differentiate between required, recommended and routine vaccines.
- Demonstrate confidence in deciding between recommended and required Yellow Fever vaccine.
- Provide counsel to patients for the emerging infectious disease vaccination pipeline.

Presented by:

Elizabeth Talbot, NH Department of Health and Human Services, and Professor, Dartmouth Department of Medicine, Infectious Diseases and International Health, Deputy State Epidemiologist & Professor

12:45pm-1:45pm

### **Vaccine Administration Refresher**

This session will identify vaccine administration best practices to follow to administer vaccine safely and effectively. Topics to be discussed include preparation, administration, injection pain mitigation, and common vaccine administration errors and strategies to prevent these errors from happening.

Following this session, participants will be able to:

- Identify 3 vaccine preparation best practices.
- Identify 3 vaccine administration best practices.
- Identify 3 common vaccine administration errors and strategies to prevent them.

Presented by:

JoEllen Wolicki, Centers for Disease Control and Prevention,  
Nurse Educator

12:45pm-1:45pm

### **Data Quality and Integrity in the NHIIS - the Hows and Whys**

*Repeat session from this morning*

Since 2020, individuals across the United States, from government officials to frontline workers, are engaged in a tireless effort to ensure Americans have access to and are vaccinated against COVID-19. In the midst of this, New Hampshire Immunization Information System (NHIIS) played a crucial role in providing evidence and data-based guidance for this pandemic response. When it comes to Data, we always ask the question about its quality, reliability, and completeness. During the COVID-19 response, data quality has been a common cause of concern, and providers can play the role of “Guardians of Data.” Let’s hear from NHIIS how providers can increase the completeness of data, how to improve timeliness without decreasing accuracy and how this data can help providers inform and provide up to date information to their patients.

Following this session, participants will be able to:

- Identify, correct and maintain a good data quality.

## AFTERNOON GENERAL SESSION

### #VaccinationCommunication NH

What good are safe and effective vaccines if people don't trust them? This session will focus on Healthcare Professional's (HCP) lack of communication train, response to vaccine concerns and/or distrust and the utilization of Social Media as a vaccination advocacy 'best practice. In 2022 and beyond the use Healthcare utilization of Social Media is no longer optional. Training, promotion and support are necessary and it MUST be built upon the precious and critical trusted longitudinal relationship between families and their local HCP. Healthcare is the largest economic sector in the U.S. and has failed miserably to use what is the most powerful communication and behavior-change tool ever know. We have failed our collective community and their health has suffered as a result. This presentation will inform, educate and demonstrate a necessary path forward.

Following this session, participants will be able to:

- Explain why social media training, use and support are critical to HCPs in vaccination advocacy
- Explain and utilize AIMS Announce-Inquire-Mirror-Secure
- Utilize other communication strategies when discussing vaccines to hesitant patients or through messaging via various modalities.

Presented by:

Todd Wolynn, CEO - Kids Plus Pediatrics, Cofounder Shots Heard Round the World, Sr. Advisor - Public Good Projects, CEO/ Cofounder/Sr. Advisor

3:15pm-3:30pm

## CLOSING & REFLECTIONS

### Raffle Winners Announced!

Must be present to win!

# VAXWELL NH COALITION

VaxWell NH Coalition is a statewide immunization coalition with the mission of reducing vaccine-preventable disease by increasing immunization rates.

## Our Objectives

### ✓ CONVENE

We connect individuals and organizations to share best practices and maximize resources.

### ✓ EDUCATE

We provide clear and accurate information to build awareness and acceptance of the value of immunization across the lifespan.

### ✓ ADVOCATE

We raise an intentionally independent and unbiased voice to advocate for equitable access to immunization.

## Why Join ?

### ✓ NETWORK

Network with like-minded Coalition members.

### ✓ ENGAGE

Engage with key decision-makers and thought leaders in NH.

### ✓ ACCESS

Access relevant and up-to-date vaccination and policy updates.

## MORNING KEYNOTE PRESENTER

### KAREN ERNST

#### Director

*Voices for Vaccines*

Karen Ernst is the Director of Voices for Vaccines. She is a nationally-respected expert in building vaccine confidence through peer-to-peer interactions. Prior to her vaccine work, Karen was a classroom teacher. She lives in St. Paul, Minnesota with her husband, boys, and cats.

## AFTERNOON KEYNOTE PRESENTER

### TODD WOLYNN

#### CEO/Cofounder/Sr. Advisor

*CEO - Kids Plus Pediatrics, Cofounder Shots Heard Round the World, Sr. Advisor - Public Good Projects*

Dr. Wolynn's is CEO of Kids Plus Pediatrics in Pittsburgh, PA. His work with vaccines extends over 27 years as a: Clinical Vaccine researcher (14yrs), Immunizing Pediatrician (27yrs), Vaccination Communication and Disinformation Researcher (5yrs) and Vaccination Advocate (27 yrs). In 2017 his practice was the victim of a global coordinated online attack triggered by a 90sec HPV PSA the practice posted on Social Media. The attack resulted in >10,000 attack posts to their Facebook page and a decimation of their online Reviews. Rather than retreat and take the post down Kids Plus fought back with: 1) Research 2) a Toolkit 3) a Digital Cavalry & 4) an Awareness Campaign. This work resulted in the founding of - Shots Heard Round the World - a nonprofit created to defend online vaccination advocates and to promote vaccinations.

# SESSION PRESENTERS

## **LAURA ANDERSON, APRN, FNP-C**

### **Health Coordinator**

*Concord School District - SAU 8*

Laura Anderson has a great passion for using her professional skills to bring superior care and healing to the people she serves. Her love for life and for medical care is evident when directing the District's medical services, when teaching and when providing direct care.

Laura received her Master's degree in Nursing from Rivier University in Nashua, NH in 2008. She also received her Bachelor's degree in Nursing from Rivier in 2001 and was inducted into the Rivier University Nursing Honor Society and Sigma Theta Tau International. She was honored to be listed in the 2001-2002 edition of The National Dean's List. Laura is a 1990 graduate of the Worcester City Hospital School of Nursing. She is certified as a Family Nurse Practitioner through the American Association of Nurse Practitioners. Prior to becoming the Health Coordinator for the Concord School District, Laura was the Medical Director and Nurse Practitioner for New England College, worked in private practice as a nurse practitioner and for the Family Health Center at Concord Hospital where she was also the Lead Provider for Refugee Care.

In 2009, Laura had the distinct honor of presenting on Alzheimer's disease at the American Association of Nurse Practitioner's National Conference in Nashville, Tennessee, and again in June, 2015 in New Orleans. Laura also presented at the Northeast Regional Nurse Practitioner Conference in NH in May 2010. She enjoys working with patients of all ages and has a special interest in Alzheimer's disease and young adult care. Prior to becoming a nurse practitioner, Laura held positions as a registered nurse in the operating room, quality assurance, wound care and hyperbaric medicine. Laura devotes herself to promoting wellness in the community and is excited to be helping the young adults she cares for lead healthy lives by tailoring their care to meet their individual needs.

Laura, her husband Peter and their two children Connor and Karl reside in the Concord area. Laura enjoys playing in the yard with Dozer, her Great Dane. Laura and Dozer are currently in training for certification as a therapy dog. She enjoys skiing with her family and is a member of the Pat's Peak Ski Patrol. She also enjoys snowshoeing, bicycling, sailing and camping. She has a special devotion to military veterans and finds great joy and inspiration in serving as a guardian to World War II and Korean War veterans through Honor Flight New England.

---

## **KRISTIN BLAIR**

### **Vaccine Quality Specialist**

*NH Immunization Program | Vaccine Storage & Handling*

Kristin has worked with the New Hampshire Immunization Program for nearly 2 years where her focus was on the COVID-19 Emergency Response. Kristin recently accepted the role of Vaccine Quality Specialist with NHIP.

# SESSION PRESENTERS

## LENA BOULANGER

### **Vaccine Accountability Coordinator**

*NH Immunization Program | Vaccine Storage & Handling*

Lena is the Vaccine Accountability Coordinator for the NH Immunization Program managing vaccine purchase, distribution and accountability of state & federally funded child and adult vaccine. Lena has worked for the State of New Hampshire for 16 years and joined NHIP 13 years ago. Lena earned a BS in Business Administration from Granite State College and an MBA in Health Care Management at Southern NH University.

## BEN CHAN

### **NH State Epidemiologist**

*NH Department of Health and Human Services*

Dr. Chan is an infectious diseases physician and the State Epidemiologist for the NH Department of Health and Human Services. He provides infectious diseases, medical, and epidemiology subject matter expertise for NH's Division of Public Health Services where he has been involved in many different public health response activities to infectious disease and non-infectious disease health threats since 2014. Dr. Chan received his medical degree from the University of Vermont College of Medicine, and a Masters of Public Health (MPH) from The Dartmouth Institute for Health Policy & Clinical Practice. He is Board Certified in the fields of Internal Medicine, Infectious Disease, and Public Health & General Preventive Medicine.

## XAN GALLUP, RN, RRT

### **Public Health Nurse Specialist**

*NH Immunization Program*

Mrs. Gallup received her degree in Respiratory Therapy from the New Hampshire Vocational Technical College. After 20 years of treating patients with lung disease in all levels of care and contributing to the continuing education of Respiratory Therapists in Vermont and New Hampshire, she went on to get her RN in 2006. Mrs. Gallup has continued educating patients and healthcare staff during her years as a nurse. Mrs. Gallup now works as a Public Health Nurse Specialist for the NH Immunization Program in Concord.

## LORI JOHNSON

### **Quality Assurance Program Manager**

*NH Immunization Program | Vaccine Storage & Handling*

Lori has worked for the State of New Hampshire Immunization Program for nearly 20 years. Lori recently accepted the role of Quality Assurance Program Manager.

# SESSION PRESENTERS

## **STEPHANIE LOCKE, MS, NREMT-P**

### **Bureau Chief**

*NH Department of Health and Human Services,  
Division of Public Health Services*

## **ANNE LUCEY, RN**

### **Public Health Nurse Specialist**

*NH Immunization Program | Perinatal Hepatitis B Prevention Program*

Ms. Lucey received a Bachelor's degree in Economics from the University of Vermont in 1991. After working in the insurance industry for a few years, she pursued a career in nursing and graduated from Lawrence Memorial Hospital School of Nursing in 1998. Ms. Lucey worked as a staff nurse in Boston, MA until she moved to NH. She subsequently worked as a staff nurse in a pediatric office and as a resource nurse and vaccine coordinator at a Federally Qualified Health Center. Ms. Lucey has been working as a Public Health Nurse at the NH Immunization Program for the past 4 years. She enjoys answering questions about vaccines from provider practices, schools and other individuals in the community. Ms. Lucey has worked closely with the NH Regional Public Health Networks to help support and coordinate school-based immunization clinics. She also currently serves as the Perinatal Hepatitis B Prevention Program Coordinator for the state of NH.

## **RACHEL MOON**

### **Vaccine Accountability Specialist**

*NH Immunization Program | Vaccine Storage & Handling*

Rachel is the Vaccine Accountability Specialist for the New Hampshire Immunization Program. Prior to Rachel joining NHIP 2 years ago, she managed a community residence for individuals with severe and persistent mental illness for 5 years. Rachel earned her BA in Social Work and Counseling from Franklin Pierce University and her Master's Degree in Public Administration from the University of New Hampshire.

## MAUREEN MORRILL

### **NHIS Education & Training Coordinator**

*NHIS-New Hampshire Immunization Information System*

I came on board with the NHIS right at the start of the COVID vaccines being released and the CDC's VAMS launch to document the COVID vaccinations. I trained and onboarded providers and regional public health networks as we all learned how to evolve in the ever changing environment of a pandemic. We then had VINI, another COVID inspired system to document vaccinations, and at the same time, we launched the New Hampshire Immunization Information System. A state registry to hold all immunizations in one place, accessible by all New Hampshire providers who participate and contained all the VAMS and VINI vaccinations, as well as the state's VFC program vaccines. I supported and trained providers as they transitioned onto the NHIS and continue to do so with video and in person training. I love the connection I make when I work with people and the excitement that comes when someone who may have struggled really gets it and everything just clicks into place.

## JACQUELINE RAMIREZ

### **NHIS HL7 Onboarding Coordinator**

*NHIS-New Hampshire Immunization Information System*

## ELIZABETH TALBOT

### **Deputy State Epidemiologist & Professor**

*NH Department of Health and Human Services, and Professor, Dartmouth Department of Medicine, Infectious Diseases and International Health*

Dr. Talbot is an infectious diseases and tropical medicine-trained internist, who has had extensive experience in international and domestic infectious disease control through outbreak investigation, clinical projects, research, and consultation. She trained at Duke University and with the Epidemic Intelligence Service during which she was stationed in Botswana with the CDC then at the World Health Organization in Geneva before coming to Dartmouth where she is a Professor of Medicine in the Section of Infectious Diseases and International Health at the Geisel Medical School at Dartmouth. Since 2003, Dr. Talbot has been New Hampshire's Deputy State Epidemiologist.

# SESSION PRESENTERS

**RYAN TANNIAN, PHARMD, RPH, MBA**

**Bureau Chief, Bureau of Infectious Disease Control**

*NH Department of Health and Human Services, Division of Public Health Services, Bureau of Infectious Disease Control*

**JOELLEN WOLICKI**

**Nurse Educator**

*Centers for Disease Control and Prevention*

## THANK YOU TO THIS YEAR'S VIRTUAL EXHIBITORS!

Don't forget to join us at the Exhibitor Showcase!

**10:00-10:30 | 11:30-12:30 | 1:45-2:15**

Join at least 2 tables at the morning and afternoon Showcases and 3 during Lunch to be entered into a raffle each time! Winners announced at 3:15 - right after Dr. Wolynn's presentation. You must be present to win!

### CHILDHOOD LEAD POISONING PREVENTION PROGRAM

### MODERNA

[www.modernatx.com](http://www.modernatx.com)

In 11 years since its inception, Moderna has transformed from a science research-stage company advancing programs in the field of messenger RNA (mRNA), to an enterprise with a diverse clinical portfolio of vaccines and therapeutics across six modalities, a broad intellectual property portfolio in areas including mRNA and lipid nanoparticle formulation, and an integrated manufacturing plant that allows for both clinical and commercial production at scale and at unprecedented speed. Moderna maintains alliances with a broad range of domestic and overseas government and commercial collaborators, which has allowed for the pursuit of both groundbreaking science and rapid scaling of manufacturing. Most recently, Moderna's capabilities have come together to allow the authorized use of one of the earliest and most-effective vaccines against the COVID-19 pandemic.

Moderna's mRNA platform builds on continuous advances in basic and applied mRNA science, delivery technology and manufacturing, and has allowed the development of therapeutics and vaccines for infectious diseases, immuno-oncology, rare diseases, cardiovascular diseases and auto-immune diseases. Today, 40 development programs are underway across these therapeutic areas, with over 13 programs having entered the clinic. Moderna has been named a top biopharmaceutical employer by Science for the past six years. To learn more, visit [www.modernatx.com](http://www.modernatx.com).

## New Hampshire Chapter

INCORPORATED IN NEW HAMPSHIRE

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN

## NHAAP

[www.nhaap.org/](http://www.nhaap.org/)

NHAAP was formed to: To attain optimal physical, mental, and social health and well being for all infants, children, adolescents, and young adults in New Hampshire. To unite the physicians delivering this care in a representative organization. To further the policies and objectives of the American Academy of Pediatrics.

## NH PUBLIC HEALTH ASSOCIATION - VAXWELL NH COALITION

[www.vaxwellnh.org/](http://www.vaxwellnh.org/)

VaxWell is a coalition of the NHPHA whose mission is to reduce vaccine-preventable disease by increasing immunization rates in the State of New Hampshire.

## SANOFI

[www.sanofi.com/en/your-health/vaccines](http://www.sanofi.com/en/your-health/vaccines)

Sanofi's global vaccines business unit partners with the public health, medical and scientific communities to improve access to life-protecting vaccines and increase vaccination coverage, while striving to develop new and improved vaccines to enhance health and well-being.

## CONGRATULATIONS TO 2022 OUR AWARDEES!

### 2022 Tricia McGuire Award

*Jasmin Johnson*

### Excellence in Vaccine Management: Pediatrics

*Savannah Ritter and Molly Dunholter*

### Excellence in Vaccine Education

*Coos County*

### Excellence in Pediatric Immunizations

*Partners in Pediatrics and Daniel Hollander*

### Excellence in Vaccine Education in Social Media

*Dr. Sue Tanski*
