QUALITY POLICY

Consistent quality is always on top of our priority. It keeps our customers choosing Golden Sun Plastic for years. We stake our reputation on every product that will be delivered.

We continually invest in world class manufacturing machineries and our highly skilled machine operators, as these are our core strength in producing high quality flexible packaging.

It is within our core value to produce continuously and consistently "quality with affordability." This policy will be achieved by ensuring all finished goods produced, all raw materials procured, and production systems adhere to stringent quality standards.

Our advanced equipment and facilities ensure that we meet your standards.
