CASAMONTE

INTRODUCTION

Casamonte was founded on the belief that true artistry is a collaborative journey. Inspired by the timeless interplay of texture and design, Casamonte partners with distinguished artists and designers to craft surfaces that are both transformative and enduring. Through these partnerships, we have crafted collections that transcend trends, standing as timeless testaments to the power of design to inspire and connect. With every collection, we invite our customers to see their spaces not just as places, but as canvases for self-expression and stories waiting to be told.

VIRGINIA CASADO POLO

Virginia Casado Polo, a self-taught artist born in Buenos Aires, has always felt that everything in the universe is connected, even when those connections remain unseen. She grew up surrounded by sunflowers, wheat fields, and green expanses that imprinted her memory with colors and aromas, before moving as a teenager to Santa Rosa, La Pampa, where the vast skies revealed fiery sunsets of orange and red. In 2000 she settled in Miami, adding the luminous blues of the sea and the golden tropical light to her sensorial universe. Her artistic path took shape when she became a mother, opening herself fully to painting and embracing an intuitive process that values spontaneity over structure. Rounded forms, vibrant palettes, and organic compositions define her work, evoking fertility, balance, and transformation. Her wallcoverings translate this vision into symbolic, surrealist worlds—living surfaces where color, form, and imagination flow together in constant evolution.

JOYFUL WORLDS

Joyful Worlds is a vibrant collection of murals by Virginia Casado Polo x Casamonte that transforms walls into realms of joy, whimsy, and pure creative delight. Balloons with tender gazes, floating flowers, smiling creatures, and dreamlike figures fill these compositions with playful spontaneity and emotional warmth. Through expressive simplicity and a vivid palette, each mural invites viewers into an atmosphere where imagination soars—celebrating connection, tenderness, and the pure joy of living. Joyful Worlds offers a unique design narrative where color and form dance in continuous harmony, making any space feel alive, inviting, and artfully expressive.

NATURE FANTASY

In Nature Fantasy, Virginia explores the ecosystem from multiple perspectives, bringing to life imaginary creatures that reinterpret the day to day as acts of celebration.

Each scene suggests that life itself can become a shared dance. Inspired by small rituals of connection with the living world and the beauty of spontaneity, her visual language evokes the organic, the simple, and the essential. Flowers, movement, fantasy, and nature intertwine in a narrative that invites us to experience the joy of inhabiting the world with presence and gratitude. From a playful and poetic imagination, Virginia reminds us that connecting with nature is a profound form of celebrating existence.
