

Intelliarts to Attend ONS 2024: Unveiling the Future of Renewable Energy Technology

August, 2024 — Intelliarts, a trusted partner in technology consulting and software engineering services, is thrilled to announce its participation in the Offshore Northern Seas (ONS) 2024. Held in August 26-29 in Stavanger, Norway, the ONS Conference and Exhibition is one of the world's most anticipated events in the energy industry, focusing on the latest technologies and innovations to shape the future of energy.

With extensive experience in machine learning and software engineering, Intelliarts will present its subject-matter expertise in developing full-cycle data-driven software solutions, particularly in renewable energy. We welcome attendees to **visit us at Scale-Ups area in Hall 4 at 9:30-13:30 on the 28th of August, 2024** to see our presentation about Intelliarts' expertise in areas such as demand forecasting, energy consumption optimization, smart grid solutions, and others.

[Let's schedule a quick meeting](#) with our expert at ONS 2024 on August 26-29 to discuss your specific needs and explore tailored renewable energy solutions.

Highlights of Intelliarts' offerings at ONS 2024 include:

- **EV charging management** to gain remote control over EV charging points, manage their lifecycle, and improve access and performance of charging stations

- **EV fleet management** to automate EV fleet monitoring, from standard tasks like maintenance, repairs, and cost tracking to route optimization and management of charging schedules and load needs
- **Predictive maintenance** to identify and resolve potential issues before they cause downtimes and system failures
- **Energy demand forecasting** to predict energy needs based on past data and tap into opportunities for cost saving and efficient energy consumption
- **Smart grid solutions** to manage and mitigate energy consumption during peak demands and reduce electricity rates, as well as to enhance grid performance and reliability
- **Power management systems** that help to monitor and report energy use in real time and identify areas for improvement to maximize energy efficiency and optimize costs
- **Dynamic pricing solutions** to adapt to market changes and automatically adjust prices based on real-time supply

Intelliarts genuinely cares about us and our product. There really is a sense of shared mission, success, and sacrifice within our teams.

Jawad Laraqui
CEO, DDMR

Meet our experts

[Yuliia Zabudska](#)

Renewable Energy Expert

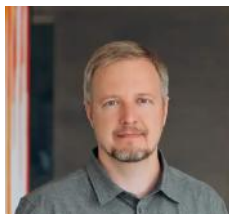

With over 7 years of experience in renewable energy, Yuliia drives business growth by implementing high-quality technical solutions. Her expertise spans power management systems, EV charging, smart grid solutions, and EV fleet management.

[Oleksandr Stefanovskyi](#)

Head of R&D

Having a strong background in data science and software engineering, Oleksandr is heading the Intelliarts cross-functional R&D team. He gravitates toward data-heavy projects and follows the principles of CRISP-DM methodology.

[Alexander Barinov](#)

Managing Partner

Alexander is a managing partner at Intelliarts who has been guiding the company's strategic direction and supervising day-to-day activities for almost 20 years. He's enthusiastic about data science and ML with vast experience in software engineering.

[Dmytro Kozlovskyi](#)
Strategic Partner

From a full-stack developer to a director of engineering to a strategic partner, Dmytro is a tech-savvy person with extensive knowledge in both the IT industry and business. At Intelliarts, he empowers engineering teams and drives business growth through new services and sales initiatives.

About Intelliarts

Intelliarts is a trusted partner in technology consulting and software engineering services, driving digital transformation for businesses across the EU and US. With deep expertise in AI, data engineering, and machine learning, Intelliarts specializes in building full-cycle data-driven software tailored to the unique needs of industries such as renewable energy, manufacturing, insurance, and digital marketing.

Visit us at ONS 2024

Join Intelliarts at Scale-Ups area in Hall 4 to explore how our custom solutions can empower your business to achieve greater efficiency, sustainability, and growth. Our team of experts will be available to discuss your specific challenges and demonstrate how Intelliarts can help you unlock the full potential of renewable energy.
