

**TIMBERWOLF**

Where art meets timber.

# 01

***“AT THE END OF A TREE’S LIFE, IT IS  
THE JOB OF WOOD CRAFTERS, ARTISTS,  
AND FURNITURE MAKERS TO REVEAL  
THEIR STORY.”***

# OUR ROOTS

Founded in 2014 by couple Mike Wienold & Jess Mueller, Timberwolf was created to reflect our passions and values as woodworkers. With elevated design and thoughtful detail, Timberwolf partners with private clients, interior designers, hospitality groups, and general contractors to bring project design visions to life. We harbor a love for nature, an appreciation for thoughtful craftsmanship, and strong beliefs in sustainably sourced woodworking. Our collective goal has always been to narrate the story of every tree, granting it a new life. From tree to every table top we craft is a reflection of ourselves, and in turn our functional art pieces become a part of our client's story. We strive to discover the perfect fusion of functionality, minimalism, and luxury design while remaining mindful of our environmental impact at every step. Our pieces are inspired by natural elements, designed, and crafted in the Midwest—each detail purposeful, each slab selected mindfully.

**Our commitment to meticulous craftsmanship goes hand in hand with sustainable practices. Using certified sustainable lumber, eco-friendly finishes, and repurposing offcuts, we strive for the smallest environmental footprint. Our fundamental goal is to preserve the craft for future generations of woodworkers, fostering a more eco-conscious world.**

# WOOD

# RICHLITE

Richlite is a paper-based fiber composite material manufactured by Richlite Company. Richlite starts out as pulp and is turned into paper before being transformed into a beautiful, durable, weather-resistant material. This product can be used like wood for a variety of commercial or residential surfaces or design accents and is stain, water, scratch and heat resistant. Richlite surfaces come in a variety of colors and collections to suit all design tastes.

# GIVING BACK:

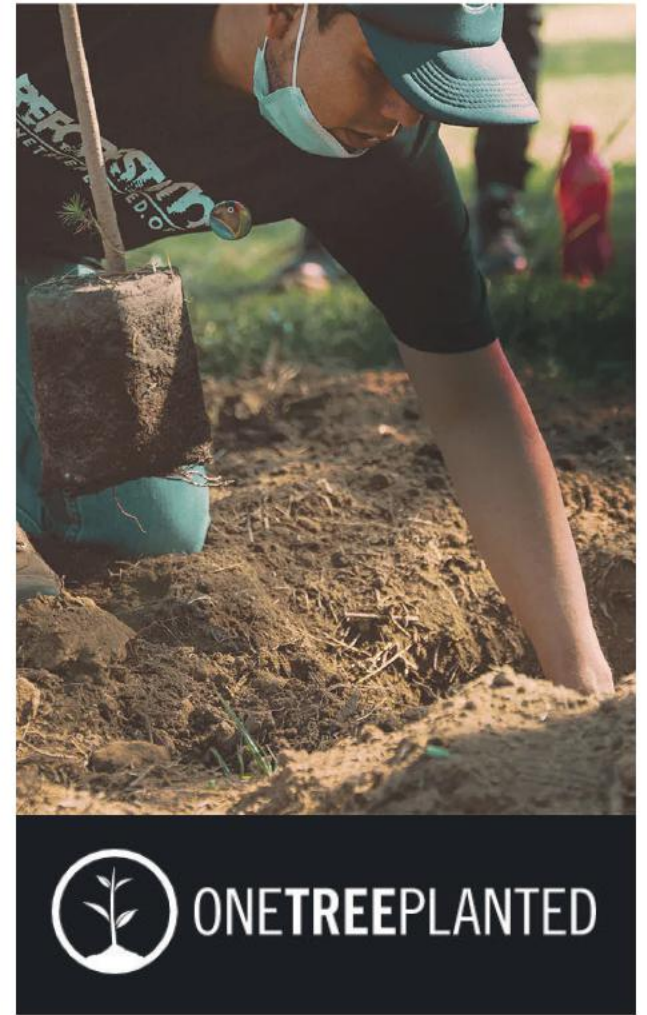

**THE WORK WE DO OUTSIDE THE SHOP IS JUST AS IMPORTANT AS THE WORK WE DO IN IT.**

We are passionate about giving back to the community and believe that even the smallest good deed can ignite change. By supporting the following organizations, we help provide a renewed sense of hope for those that need it most.

**As a company, we are committed to sustainable wood-working and offsetting our impact on the environment.**

Sustainability is the driving force our business from lumber sourcing and design to manufacturing. We solely work with slabs that have come from dying or fallen trees, never cut down for any other purpose then that. It is our goal to leave the smallest footprint so future generations of woodworkers can enjoy this craft. This is why we have partnered with **One Tree Planted** – for every project, we will be donating one tree to be replanted in the United States.

## MEET OUR ADOPTED WOLVES!
