Hastings Bath Collection

Design Without Limits

The design team at Hastings rethinks luxury spaces through the lens of flexible design systems. Bathroom design is intrinsically individual, meaning solutions must adapt dynamically to unique goals.

It is this shift of focus that empowers clients to seamlessly propel their ideas, outclass obstacles, and remove the conventional limitations and complexities of bathroom design. The result is human-centric spaces, made refreshingly simple.

Heritage Meets Modern Mastery

Founded in 1885 in Hastings-on-Hudson, New York, Hastings Bath Collection started as a manufacturer of asphalt and concrete. With exceptional quality, Hastings Tile & Bath became a leading provider of decorative architectural products, including the iconic hexagon pavers around Central Park. In the 1970s, the brand shifted from paving to bathroom design, introducing innovative Italian tile and bath concepts that transformed commercial and residential spaces with new materials, bold colors, and unmatched customization.

By the 1980s and 1990s, Hastings introduced stainless steel, polished chrome, frosted glass, and

curved forms, transforming modern bathroom design. Their innovative products redefined aesthetics and functionality, offering designers fresh opportunities to create dynamic, efficient spaces.

A defining moment for Hastings occurred when they partnered with VOLA, the renowned Danish brand behind Arne Jacobsen's iconic tap design introduced in 1968. In the 2000s, Hastings became the exclusive U.S. importer and distributor of VOLA fixtures. By the 2010s, they celebrated their 125th anniversary with the launch of the Chelsea collection, a comprehensive design system created by their in-house team. This collection unified faucets, tub fillers, bathtubs, pedestals,

mirrors, and vessels, offering designers a cohesive set of products that enhance the overall bathroom experience. In the 2020s, they expanded their VOLA partnership to Canada, and rebranded as Hastings Bath Collection later in 2023. The team at Hastings Bath Collection continues to seek out the finest materials and products from Europe, empowering designers to create cohesive, personalized spaces. As the brand enters its 140th year, its legacy remains built on flexibility, innovation, and a passion for unlocking creative potential in luxury bathroom design.

The Art of Modular Design

VANITIES —

In the realm of interior design, modular design emerges as a symphony of possibilities, where creativity flows freely and limitations fade away. Imagine crafting a vanity not from a rigid template, but from a collection of elements—each piece a note in a composition that is uniquely yours. Cabinets, drawers, open shelving, and countertops become your palette, with colors, textures, and accents like side panels and basin styles serving as your brushstrokes.

Here, the act of design is transformed from a quest for something merely “good enough” into a journey of self-expression. The modular approach liberates you from the confines of conventional choices, allowing you to create a vanity that not only fits your space but also resonates with your personal style.

At Hastings, design flexibility and the ability to create dynamic solutions is the driving force behind every collection.

EXPLORE AT [HASTINGSBATHCOLLECTION.COM](https://www.hastingsbathcollection.com)

Urban Collection

Unlocking possibilities and redefining the very fabric of personalization.

The Hastings Urban collection invites endless possibilities with its fully customizable, Italian-made bathroom vanities. A true masterpiece of design flexibility, it offers unmatched versatility, blending modularity and innovation to create tailored, one-of-a-kind spaces. With nearly limitless variations, Urban redefines personal expression.

Urban Standard Height

The Urban Collection is far from standard. Its modular design allows users to create vanity solutions that are both stunning and functional. Integrated grooves add depth and sophistication, whether matched with cabinetry or in contrasting finishes. With 58 finishes—glossy lacquers, wood textures, soft-touch surfaces, and brushed-metal looks—plus 9 materials and 173 colors, Urban offers limitless design possibilities.

OPEN SHELVING

Urban's open shelving is perfect for creating an elegant, minimalist look. Whether on the side or integrated into the front, they provide easy-access storage while keeping the look clean and modern.

BASIN STYLES

The collection offers a variety of basin styles from seamlessly integrated, sharply defined or striking above-counter vessel sinks. Choose the shape, size, and style that best matches the design aesthetic.

HANDLE OPTIONS

Choose from minimal mitered grooves, integrated handles, high-end hardware, or no handle at all. Play with orientation, size, style, and color contrast to blend with the theme.

Urban Duplex

The ability to mix materials to form multi-tone design is the basis of the forward-thinking Urban Series.

Combine dual-paneled drawers with open side shelves, grooved panels, and integrated open storage to craft a look uniquely tailored to the space. Create a waterfall effect by coordinating the cabinet and side panel color blocks with the countertop to create a visually stunning waterfall effect that seems to cascade elegantly over the edge.

SHELVING

A dual-paneled drawer front lets you personalize with two materials or colors. Closed, it forms a recessed groove; open, it reveals playful asymmetry with a modern touch.

Add open shelves to create depth and display decor. Stack for symmetry or stagger for a dynamic pattern. Match the cabinet for a seamless look or contrast for a pop of color.

Maximize storage with open side shelves visible from select angles. Match or complement the cabinet and countertop finishes. Place them where they make sense, like near the tub or entry.

MONOCHROME PALETTES

For the ultimate in minimalist simplicity, match the finishes of the countertop, cabinet fronts, side panels, and basin. Get the look of natural wood grain, stone texture, slate, or marble in every element with durable and beautiful HPL or enjoy the rich, luxurious colors of Fenix. This highly opaque finish is nonporous and resistant to scratches, heat, and abrasions.

Urban Freestanding

This Italian-made collection of freestanding vanity series leverages the modular approach to fuel creativity in the pursuit of ultimate design flexibility and personalized potential.

Take advantage of every inch, from the floor to the countertop, to maximize bathroom storage. Users can choose any combination of cabinets, drawers, open shelves, and open side shelves to meet both lifestyle and functional needs with style. Elevate the space by designing Urban Freestanding in a multi-level configuration to add visual depth and maximize storage.

MULTI-TIERED CONCEPTS

The tone-on-tone freestanding vanity offers refined simplicity, with matching elements like the countertop, groove finish, and cabinet fronts for a seamless monochromatic design. Add texture with elements like open shelves or double grooves.

BASIN POSSIBILITIES

Configurable for single or double basins, Urban Freestanding is ideal for small bathrooms and offers creative double-vanity solutions in larger spaces. Its multi-dimensional options eliminate design boundaries.

GROOVE DETAILING

Customize the groove detail with an underlying finish that creates depth, makes a bold statement, or accentuates a monochrome look. Use the same finish to add a little character and architectural nuance to the freestanding vanity.

Urban Low Height

This sleek, low-profile vanity collection offers endless possibilities for creating a clean, minimalist design with a touch of stylish flair. Urban Low Height can be aligned, staggered, offset or stacked, offering designers the freedom to craft and tailor unique modular vanity concepts for a one-of-a-kind look.

LOWER STORAGE OPTIONS

The slim nature of this vanity collection opens up creative and user-driven possibilities, including lower storage options below a streamlined countertop.

Offset elements to create a balanced look, highlight negative space, and create another usable storage surface, all within this versatile design solution. The functionality of lower storage is also perfect for designs that incorporate aging in place or for any homes that require ADA-compliant designs.

Urban Legstand

The Urban Legstand collection is a master class in functional flexibility. Its contemporary vibe is perfect for a minimalist, modern, classy coastal, or industrial-themed bathroom. With an option for a lower, open shelf or integrated drawers, this series delivers the open airy aesthetic that designers love. Its thick counter with integrated sink sits on sturdy metal legs, which are available in either matte anthracite or matte white.

FUNCTIONAL FLEXIBILITY

Urban Legstand plays with contrast by offering an open shelf to keep the space feeling light or providing a drawer option to keep items artfully concealed. When seen against the thick countertop, the visual is one of strength and style.

MATERIAL DIVERSITY

The material options, from realistic wood-look to vibrant colors and classic look of marble, offer design flexibility for any theme. The slightly rough texture of a concrete or stone-look countertop paired with soft-touch cabinet fronts adds a dynamic contrast.

ITALIAN DESIGN

Crafted in Italy by world-class designers blending artisanal expertise with modern ingenuity, each made-to-order piece reflects exceptional quality. From crisp corners to slim profiles, Urban Legstand's modular design ensures style and functionality, without limitations.

Urban 45

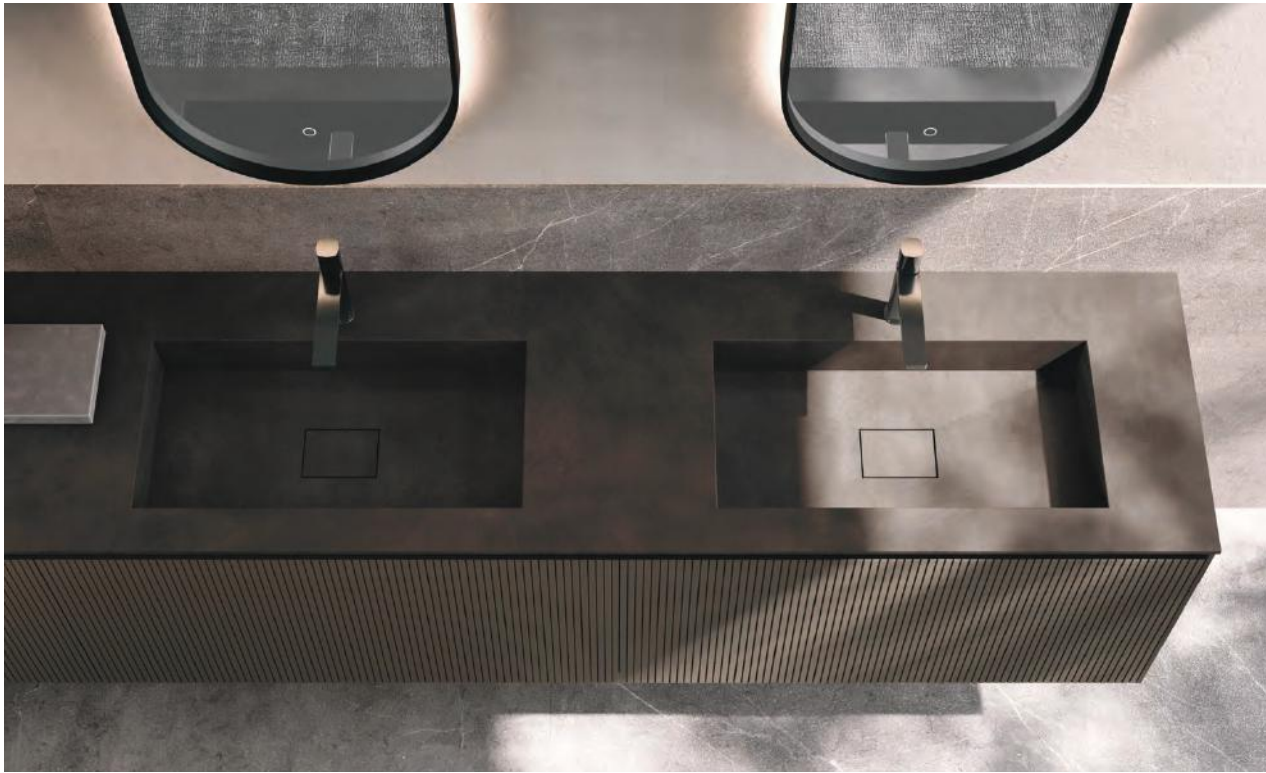

Urban 45 is defined by exceptional versatility and refined detail. Seamless mitered 45-degree corners, book-matched wood grain across drawer fronts, and optional fluting, specified vertically or horizontally, symmetrically or asymmetrically—allow for highly customized, design-forward vanities with striking visual continuity.

CONFIGURABLE DESIGN

Optional exquisite fluting in vertical/horizontal or symmetrical/asymmetrical orientations adds striking customization, while the collection offers standard, low-profile, and freestanding formats (including three-drawer options) with legstand models coming later this year—adapting effortlessly to diverse spatial needs with geometric clarity and thoughtful proportions.

FUNCTIONAL FINISHES

Stain-resistant solid-surface countertops in smooth matte, glossy shine, or naturally rough textures pair with a broad spectrum of colors and soft matte lacquer finishes on base/wall units and columns, ensuring seamless integration into any contemporary design theme while elevating both functionality and aesthetics.

SUSTAINABLE INNOVATION

Crafted with eco-conscious materials that reduce environmental impact, Urban 45 blends nature-inspired textures, timeless archetypes, and cutting-edge sourcing to create intentional, balanced, and enduring bathroom environments that prioritize tranquility, sophistication, and forward-thinking responsibility.

Monoliti

Modular versatility with a refined architectural presence.

Part of the highly versatile Urban 45 collection, Monoliti is a modular system of vanities, storage, and basins designed for near-limitless configuration. The stand-out feature is the deep and commanding trough sink. Offered in multiple widths, depths, and four distinct cabinet heights, Monoliti adapts seamlessly to a wide range of spatial and aesthetic needs—making it as flexible as it is refined.

DURABLE CONSTRUCTION

Monoliti basins are crafted in solid surface or porcelain, offering lasting durability, easy maintenance, and a refined architectural presence.

TAILORED CABINET DESIGN

Customizable finishes, fluted fronts, wood-look textures, and precise 45-degree mitered edges create layered, thoughtfully detailed cabinetry.

Atlas

Clean lines and purposeful structure for modern baths.

Designed as a refined architectural framework, Atlas leg stands and vanity frames form a confident foundation for modern bath spaces. Minimal yet purposeful, Atlas balances structure and flexibility, supporting a wide range of basin and vanity configurations with quiet precision.

DESIGN OPTIONS

Integrated towel bars can be specified on the left, right, or both sides, while an optional lower shelf adds functional storage without disrupting the clean silhouette.

FINISH OPTIONS

Atlas frames are offered in Matte Black for a crisp, contemporary look or Matte Creta, a warm brown finish that brings depth and softness to the space.

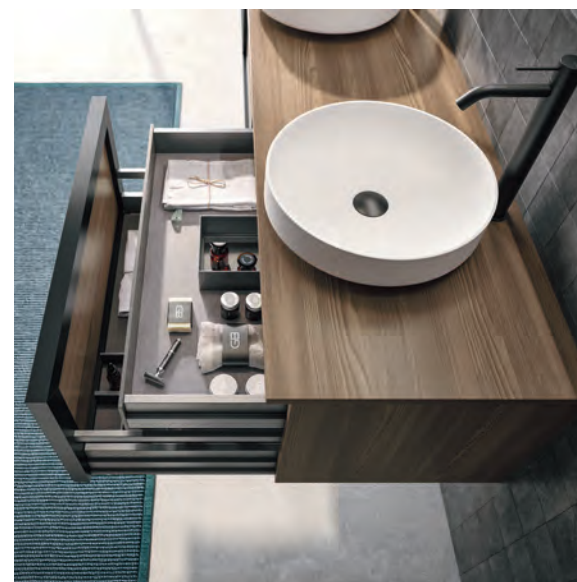

SIZING

Available in eight widths, Atlas accommodates a variety of layouts from compact powder rooms to expansive primary baths.

Class

A dynamic modular framework for creative outcomes.

The Class Vanity is a testament to Italian design and craftsmanship, embodying elite artistry and the creativity of leading designers. Its modern, minimal aesthetic is both modular and versatile, with configurations ranging from 23.6 inches to 86.6 inches, allowing seamless adaptation to any space.

Each detail of the Class Vanity is meticulously crafted, from the metal frame encasing the drawers to the luxurious materials like marble, stone, and glass. Available in 20 matte colors, it offers endless personalization, with robust finishes and coordinating storage solutions enhancing its timeless design.

NUANCED DETAILS

Matte metal frames encase each drawer and can be customized for striking contrast or a contemporary tone-on-tone effect.

Translucent smoked glass drawer fronts create a dramatic and sophisticated effect, especially when paired with the Class storage collection for design continuity and a high-touch feel.

STYLISH INTEGRATION

Cover and linear drain basins allow you to continue your countertop finish uninterrupted while concealing the drain. Alternatively, choose an elegantly shaped vessel sink that perches perfectly atop the counter for a dynamic effect that draws the eye.

AESTHETIC STORAGE

A coordinating wall-mounted storage solution or framed Uniko mirror in matching finish provides continuity of design. Single or side-by-side storage configurations ensure that your design isn't stymied by space constraints, and adds additional functionality.

MATERIAL DIVERSITY

Class is the chameleon of vanities! Its finishes and materials are easily tailored. Choose a matte metal frame with glass or lacquered fronts in 20 colors. Enhance your design with wood-look laminates, smoked or colored glass, or 15 porcelain finishes.

Lamè

Where visual appeal meets tactile delight.

Lamè is an inspired transitional vanity collection featuring five exclusive relief patterns, each offering a captivating blend of visual dynamism and tactile elegance. This high-design series allows for personalized configurations, enabling unique design solutions tailored to individual visions. By seamlessly combining modular elements with striking accent details, Lamè delivers a sophisticated balance of form and function.

Lamè is a testament to Italian ingenuity, where precision engineering meets the quiet refinement of handcrafted detail. By combining timeless techniques with modern materials, Lamè reimagines classic design for contemporary spaces, offering an elevated bathroom experience defined by innovation and elegance.

RELIEF PATTERNS

Lamè offers a selection of five distinct patterns—Plissé, Gessato, Oxford, Piquet, and Galles—allowing for seamless alignment with any luxury design aesthetic. These patterns can be integrated into both cabinet fronts and side panels. Available in configurations with one or two drawers, Lamè also provides an extensive range of finish options for both cabinets and countertops, ensuring flexibility in creating a tailored and sophisticated space.

LEG DETAILS

Lamè is available as a wall-mount vanity, but if you're looking for a floor-mounted design, Lamè's elegant legs taper alluringly to the floor. Leg and leg cap accents are available in silver, gold, or matte-colored lacquer to complement your aesthetic.

SIDE PANELS

Personalize the side panels to continue the pattern of the cabinets or provide streamlined edges with a smooth finish.

COUNTERTOP ACCENT

Available in either gold, silver, or matte lacquer to pair with handle and leg cap finishes, this optional feature adds architectural nuance and panache.

Mako

**Elegant beveled design, refined details,
and customizable opulent accents.**

This transitional bathroom vanity features elegant beveled drawers with refined detailing and optional opulent accents for both handles and legs. Created in Fano, Italy, Mako's modular framework allows for the customization of every element – from the cabinet arrangement to countertop and basin style to accent details and more. Configurations are available from 23.5 inches to 86.5 inches.

BASIN STYLES

Pair with an integrated sink or coordinate the exterior of a perfectly perched Plaza vessel sink— or two—with the cabinet finish below for a modern touch on this transitional bathroom vanity.

ACCENTED DETAILS

The Mako collection evokes an elevated feeling with optional gold or silver handles and legs, or choose matching lacquer for a contemporary tone-on-tone look.

DRAWER DETAILS

With a pillowed effect that looks soft enough to touch, the beveled drawers in this collection evoke luxury and exclusivity. Meticulous craftsmanship ensures each piece enhances any space.

MODULAR DESIGN

With our modular approach, this vanity solution can be scaled up or down and effortlessly configured to meld with your vision. Mix and match modular elements, align and adjoin different-sized cabinets, and curate a color scheme that complements any space.

Dot

Italian craftsmanship in solid ash,
tailored for your modern luxury.

Dot is Hastings first all-wood vanity collection, featuring rounded edges and splashes of color that evoke a playful, modern bathroom design. The Dot vanity is an Italian-crafted, solid ash wood vanity featuring 19 customizable colors and varied designs for luxury modern spaces. Dot offers two-door, two-drawer or one-drawer options and is available in two sizes, 31.5 inches and 39.3 inches.

Personalize Dot with tone-on-tone accents or opt for an eye-catching contrast with colored stained dots as handles. The collection offers a range of mirrors, wall storage solutions, and a robe/towel hook, all featuring the signature 'dot' that ties the aesthetic together.

Etoile

The Etoile solid ash wood vanity collection brings a fun splash of color for a modern bathroom design. Available in 19 colors, two sizes, with push-to-open drawers and optional fluted décor, it includes a color-matched lower storage shelf. Three sink options: integrated, vessel or semi-recessed. Coordinating wall storage and mirrors are also available. Sustainably sourced from controlled reforestation areas, the collection is crafted using eco-friendly processes that minimize material consumption and waste.

LACQUERED ASH WOOD

Cabinets are made from solid ash wood with a minimum seasoning of 18 months and a specialized vaporization process and drying cycle to reduce the internal humidity level, minimizing the risk of movement and settlement.

MODERN AESTHETIC

The clean lines, optional fluted drawer panel, and matte finish create a contemporary profile and provide ample open and concealed storage in a small footprint.

DIVERSE COLOR PALETTE

With a variety of 19 colors, you can complement any aesthetic—from beachy pastels, to warm neutral tones, to playfully vibrant hues.

Tricot

Fluted elegance, modular design,
seamless personalization.

Tricot is a flexible design system featuring four distinct fluted paneling sections. The series champions personalization with ample opportunities for customization of size, color, material, texturing and concept. Three of Tricot's fluted patterns, as well as the flat panel style, are hand-made of real oak veneer, providing a durable and natural modern look. Tricot is configurable from 23.5 inches to 86.5 inches in four relief patterns and three rich, real wood veneer tones.

FLUTED PATTERNS

Four drawer front relief patterns add depth to the bathroom vanity design. Available in three distinct patterns, Cannete, Gessato, and Twill, which offer three wood finishes each. The fourth fluted style, Loden, comes in 20 timeless colors with a matte finish.

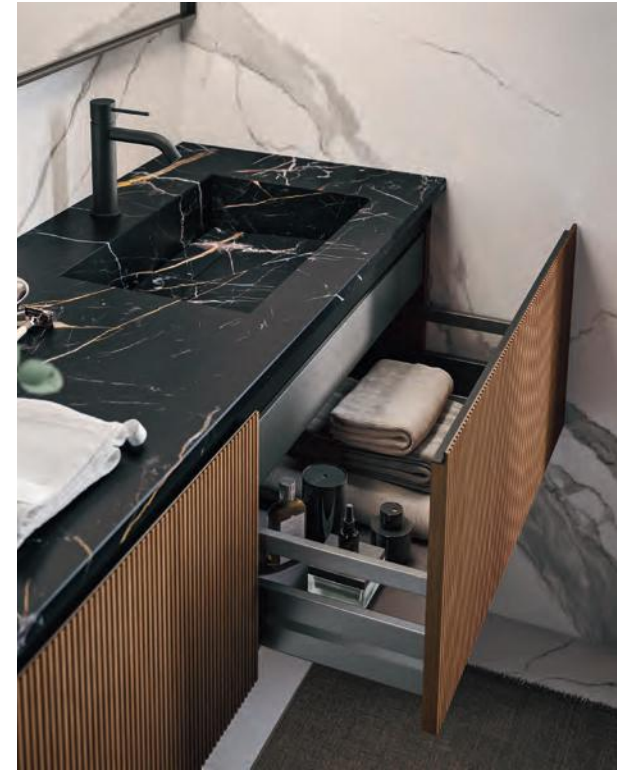

MONOCHROME COLORS

Create an exclusive tone-on-tone look when you pair matte lacquered cabinets with a matching matte solid-surface or glass countertop.

SHELF STORAGE

Add a thick textured countertop below the cabinets for extra storage that enhances Tricot's modern look.

DRAWER DETAILS

Soft-close drawers prevent an abrupt close, along with a metal drawer structure that provides sturdy and rigid support.

Elevated Organization

STORAGE _____

The careful balance of artistic design with supreme functionality is one that the artisans Hastings Bath Collection understand on a fundamental level. Crafting contemporary storage solutions that combine practicality with innovative Italian craftsmanship, Hastings offers the flexibility to meet the challenges of any space, empowering designers and homeowners to bring their ideas to life.

From sleek shelving units to modular configurations, each piece is designed to adapt to a variety of layouts and aesthetics, ensuring organization without compromising style.

EXPLORE AT [HASTINGSBATHCOLLECTION.COM](https://www.hastingsbathcollection.com)

Urban Kros

Urban Kros is a modular wall-mounted shelving system that combines sleek design with functional flexibility. With open shelves, angular back panels, and right or left configurations, Urban Kros allows for personalized arrangements, offering a variety of visually dynamic storage possibilities.

MODERN MATERIALS

Crafted with integrated metal side panels, angular back panels and shelves available in 100+ colors and patterns, including lacquered, 3D or HPL laminate, soft-touch, and brushed metal, Urban Kros offers customizable multi-tone designs. The variety of finishes and diverse material range allows for seamless integration with contemporary design schemes and the unique ability to deliver dynamic, multi-tone contrast.

Urban Look

Designed with minimalist aesthetics and modular flexibility, Urban Look is a versatile freestanding bathroom storage collection featuring a sleek metal frame and integrated shelves available in a range of finishes to complement any design.

ENDLESS POSSIBILITIES

Built for customization, this system supports creative arrangements to optimize space and suit individual needs. Draw from the expansive Urban storage for a cohesive look tailored to any space.

These wall-mounted shelves are available in two configurations—standard and an option with additional closed storage for enhanced functionality. With a wide range of finish options, including lacquered, laminate, wood, and brushed metallic textures, Urban Look Storage works effortlessly with your theme.

Urban Metal Cubes

Elevate your storage with Urban Metal Cubes, an Italian-crafted, modern luxury for open bathroom designs. These innovative cubes combine bold, functional semi-concealed shelving with angular, crisp detailing. Slim edges form striking color blocks from one angle and elegant cube-shaped shelves from another.

CONTEMPORARY FINISHES

Available in a variety of 5 metal finishes, mix and match to create multi-tonal accents or stagger, stack, and cluster cubes to fit any design vision. Incorporate double and triple height cubes for dynamic arrangements that maximize visual appeal.

Urban Cubes

Urban Cubes offer modular, wall-mounted storage that is designed to bring depth and character to any space. These sharp, geometric open cubes can be arranged horizontally and paired with other Urban storage elements to create an architectural accent with sleek storage functionality. Their open, minimalist design provides endless possibilities for a variety of arrangements, allowing users to customize layouts that suit their aesthetic and functional needs.

COORDINATED THEMES

These cubes are available in different depths and a wide spectrum of 100+ finishes, including lacquered, brushed metal, soft-touch, and laminate. Urban Cubes are also available in the same five materials as the rest of the Urban storage collection, offering an abundance of design freedom. Craft a multi-tone look by contrasting the back panel finish, or seamlessly blend a consistent color scheme across bathroom design elements.

Urban Horizontal

Urban Horizontal storage provides a sleek and versatile solution for modern bathroom organization. These flexible bathroom storage units feature cabinet doors that can be configured to open from the top or bottom to provide stylish concealed storage. With a slim, elegant profile and wall-mounted design, Urban Horizontal combines streamlined aesthetics with practical storage for the ultimate user experience.

HORIZONTAL DYNAMISM

Available in various sizes and configurations, these units offer flexibility with options for open shelving, integrated drawers, or both. Mix heights, widths, and depths to tailor solutions to your needs. Arrange horizontal cabinets or combine with Urban collection elements for personalized, cohesive storage.

COLORFUL CREATIVE FREEDOM

Urban Horizontal storage units come in 100+ premium finishes, including lacquered, 3D, brushed metal, soft-touch, and laminate. The wide variety ensures seamless integration with existing designs and matches the finishes of the entire Urban collection, including mirrors, vanities, and other storage solutions.

Urban Open & Closed Storage

Urban Open Shelf and Closed brings a clean, adaptable solution for modern bathroom storage. Crafted in Italy, this storage series is a smart design framework of open shelving and closed cabinetry. The modern design balances style, accessibility, and organization, making it a uniquely adaptable choice for contemporary interiors.

STORAGE FOR MODERN LIVING

The collection invites creativity and infinite possibilities with its open-ended approach. Stack, align, or combine multiple units to create unique storage layouts tailored to any space. The combination of open and concealed storage offers the option to showcase items while keeping others out of sight, and open shelving allows for the incorporation of creative, personalized design elements.

UNLOCK DESIGN POTENTIAL

Available in 100+ colors as well as lacquered, laminate, soft-touch, 3D, and brushed metal finishes, Urban Open Shelf and Closed storage effortlessly empowers a variety of design intentions. Create a cohesive, tone-on-tone aesthetic, or introduce bold contrast with a multi-tone look. Overcome obstacles, elevate usability and integrate seamlessly with the depths of the Urban Collection. Carry distinct Urban design elements throughout the entire collection, including hardware, groove finishes, and more.

Urban Cleo Wall Storage

Design challenges become opportunities with the versatility of Urban Storage. Crafted from modular elements and offered in a wide spectrum of finishes, the collection adapts effortlessly to any space—whether accommodating a slim wall in a compact bathroom or an irregular footprint. Urban Storage allows designers to create solutions tailored to the unique needs of each space.

CONTINUITY WITH COORDINATION

Pair Urban Storage with vanities and other elements from the Urban collection to create a seamlessly cohesive bathroom design.

VERSATILE CONCEPTS

Mix and match multiple Urban Storage pieces in endless personalized configurations—horizontal, vertical, symmetric, asymmetric, stacked, staggered, aligned, and beyond.

Open and Airy Functionality

PEDESTALS & CONSOLES _____

Consoles effortlessly blend function and elegance, providing a freestanding countertop or vanity surface supported by graceful legs or a sleek, stylish frame. They often incorporate practical storage options, such as open or enclosed shelving and drawers, adding both convenience and visual appeal to bathroom spaces. With their exposed plumbing and clean, refined lines, consoles exude a minimalist yet sophisticated charm. With an extensive selection of design solutions, they adapt easily to various aesthetics, making them a versatile choice for modern, traditional, and vintage-inspired bathroom designs alike.

Tuby Anime

The Tuby collection adds depth and dynamism to Hastings's console range with its various styles, concepts, and color palettes. Tuby offers individuals options to fit any space, aesthetic and footprint.

COLOR VERSATILITY

Available in 44 contemporary colors with a matching tone-on-tone lower shelf and color-matched drain cover, this piece is expertly designed and crafted in Italy.

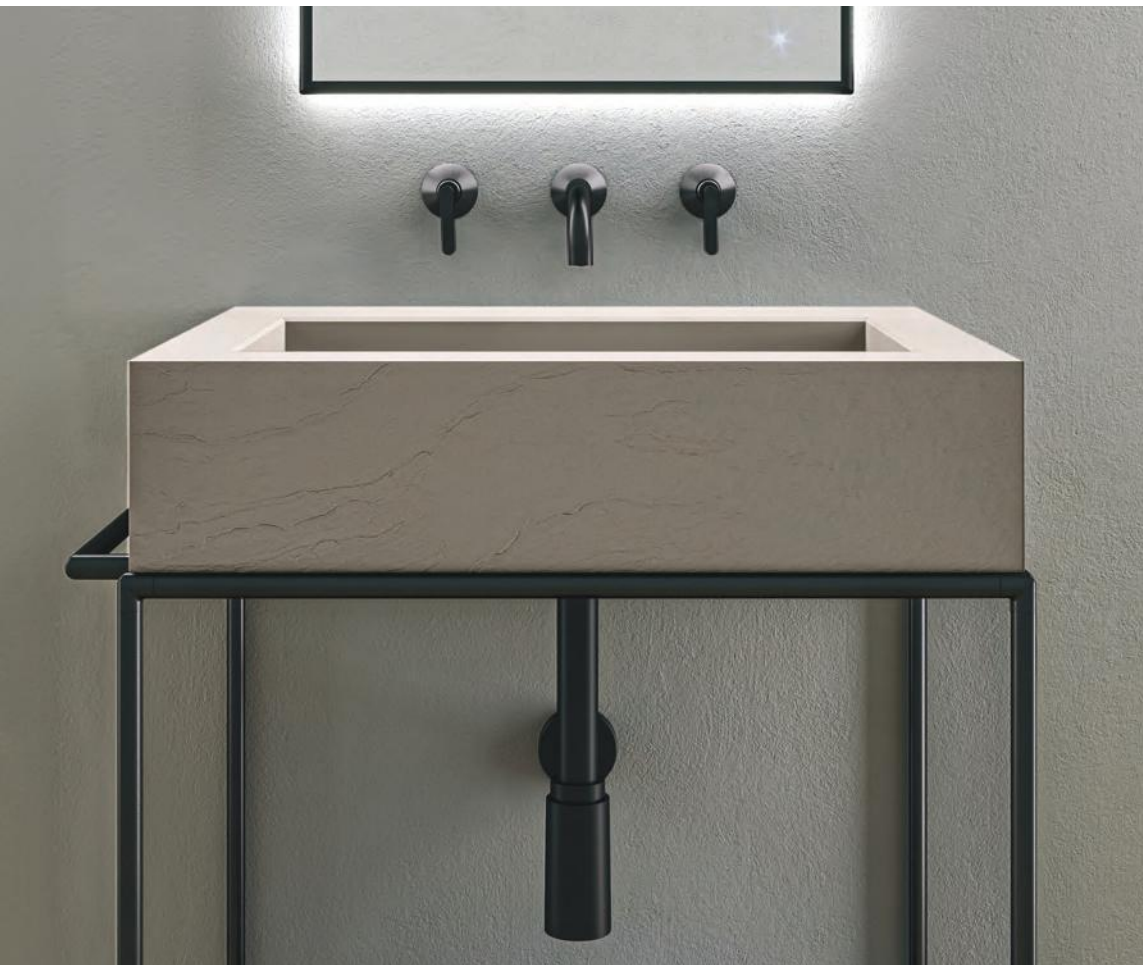

Tuby Anime Handwash

Sweet and petite, Tuby Anime Handwash optimizes style and functionality with side storage or faucet deck to optimize functionality.

SMALL BUT MIGHTY

Crafted from solid-surface materials, this collection is available in 44 contemporary colors, offering a modern and sleek aesthetic. Featuring a matching tone-on-tone lower shelf and a color-matched drain cover, with the drain included for convenience. Designed and meticulously crafted in Italy, this collection brings a touch of contemporary European styling to any space.

Tuby Telaio

An exclusively textured console available in integrated or vessel sink applications, Tuby Telaio provides both a visual and tactile experience. A matte black metal frame provides rigid structure and support and a striking outline that contrasts with the solid-surface finish. Tuby Telaio's solid-surface material is antibacterial and impact, UV, and stain-resistant. Contemporary design never felt so good.

TEXTURAL FINISHES

Smooth or textured solid-surface material is available in three textures (Juta, Well, and Trendy) and 44 rich matte colors, including neutral, muted, vibrant, pastel, and earth tones.

BASIN POSSIBILITIES

This piece pairs well with the textured finish of the Ciotola vessel collection, or it can be configured with an integrated basin with a textured countertop and smooth matte interior finish.

FUNCTIONAL FEATURES

A built-in lower shelf provides open storage, and an optional towel bar or two enhances the functionality of this petite console.

Allegro

The multiple award-winning Allegro is a distinctive and eclectic floor-mount basin console that boasts rustic allure and intricate Italian craftsmanship. This series is hallmarked by its bush-hammer textured exterior and smooth inner basin, giving a sculptured stone look. Allegro is highly tailorable and available in 18 metal legstand colors and 44 basin colors to allow for seamless integration into any design scheme.

ARCHITECTURAL DETAILS

Create a seamless effect with the included matching drain cover cap and drain. The integrated basin features sophisticated detailing, finely detailed radius corners, and intricately sloped edges. The console's smooth, matte interior finish provides an elegant contrast to its sculptured stone inspired exterior.

FUNCTIONAL FEATURES

An optional towel hook is available on the left, right, or both sides with a matte metallic stem and brass knob. The statement-driven matte metal frame with accented brass feet includes a matching lower shelf for extra storage.

RESISTANT MATERIAL

The Allegro console is completed with a gel-coated solid surface finish that is antibacterial and impact, UV, and stain-resistant with a soft-touch feel.

Vivace

A bush-hammer textured basin perched atop a Panka wooden bench to perfectly balance modern style with nature-inspired elements.

MODERN FINISHES

The textured solid-surface material is antibacterial and impact, UV, and stain-resistant, and available in 44 rich matte colors, including neutral, muted, vibrant, pastel, and earth tones. The wood bench is available in 6 lush finish choices.

CAPTIVATING DETAILS

The built-in countertop of the wood bench provides open storage, while a matching drain cover provides a contemporary seamless effect. With freedom to position the basin to the left, right, or centered on the wood bench.

Urban Kant

Urban Kant is a striking rectangular pedestal basin with exquisite detailing, crisp mitering, and diverse finish materials. Crafted from high-quality elements, this console blends functionality with modern elegance, adapting effortlessly to a wide variety of contemporary bathroom aesthetics.

CRISP DETAILING

35 extremely durable porcelain finishes create the look of real stone, marble, or concrete without the maintenance. Three HPL marble-look finishes are inert, impervious, and waterproof for style that stands the test of time. Matte white or black solid surface finishes can be easily repaired at home as needed. Mitered edges add architectural flair with clean lines and crisp edges that accentuate the simplicity of the monolithic form.

Gate

This petite pillar was designed in Italy to pack a stylistic punch in any contemporary bathroom. Crafted with versatility in mind, the Gate pedestal pairs sleek, angular lines with durable construction for a design that is both functional and striking. Available in matte white, this minimalist console offers a clean, contemporary aesthetic with an integrated basin, making it an ideal centerpiece for modern bathrooms.

VERSATILE ORIENTATIONS

This compelling design can be oriented in three different ways, with the faucet deck on the right, left, or rear of the pedestal sink.

FUNCTIONAL FEATURES

An optional towel hook or towel rail in 20 matte lacquer colors adds functionality and a colorful accent to the matte white pedestal.

Tulip Monolith

This solid-surface pedestal exudes modern sophistication, softened by sleek curves, a tapered base, and an optional towel bar. Its seamless design combines architectural confidence with refined elegance, for a striking contemporary statement. Available in 44 matte colors.

FUNCTIONAL FEATURES

Designed with an integrated deck, the Tulip Basin offers flexibility for either tapware installation or additional surface storage. Suitable for vessel or wall-mounted applications, it combines streamlined form with everyday functionality.

RESISTANT MATERIAL

Crafted from durable solid surface, the Tulip Basin resists scratches, stains, and daily wear, maintaining its smooth, matte finish and architectural integrity over time.

Surf

A subtly tapered pillar that adds a touch of dynamism to a minimalist space—this modern console combines practicality with a slim, minimalist profile for effortless style that does not compromise functionality.

SOLID-SURFACE BEAUTY

A display of Italian design distilled to its purest form. Surf is available in matte white, which gives rise to the elegantly sloped sides and adds a compelling visual effect to a simple space.

An optional towel hook, available in 20 matte lacquer colors, adds functionality and a colorful accent.

Axo

Axo surprises those who care to see things differently. The sophisticated teardrop shape exudes simple luxury to enhance the vibe in a powder room or small bathroom.

INTRIGUING SHAPE

Its sculptural teardrop form adds a refined focal point that naturally elevates smaller spaces. Choose the left or right version, or pair together for a mirroring effect. An optional towel hook, available in 20 matte lacquer finishes, adds a pop of color with functional flair.

Circo Joy

Circo Joy redefines the pedestal sink through softened geometry and sculptural simplicity. Its circular form brings fluidity and quiet elegance to contemporary bath design.

PURE CIRCULAR GEOMETRY

A seamless, floor-mounted circular basin creates a timeless sculptural form, enhanced by an optional side shelf in matte or Iroko wood and available in matte, bi-color, or full-color finishes with coordinated details for functional, expressive use.

Cuadra Joy

Cuadra Joy presents a bold, architectural interpretation of the pedestal sink, defined by strong lines and confident structure.

SCULPTURAL FLEXIBLE DESIGN

A monolithic square form rises seamlessly from floor to basin, with an optional left- or right-side shelf in matching finish or warm Iroko wood, and offered in matte white, bi-color, or full-color options with coordinated details for a tailored, modern look.

Fifties Lotus & Narciso

Inspired by the enduring appeal of mid-century design, the Fifties Collection introduces a fresh yet nostalgic aesthetic to the modern bath. Offered in a rich palette of colors; from soft pastels to bold, saturated hues, each piece features a handcrafted glass exterior paired with a matte white solid-surface basin that resists stains and scratches. Available as a freestanding pedestal with integrated sink (Narciso) or a two-piece pedestal sink (Lotus).

CRAFTED CONTOURS

The sleek silhouette is defined by continuous vertical fluting that lends each piece a sculptural presence, while the contrast between the smooth matte basin and the reflective exterior brings layers of depth and refinement.

HIGH-PERFORMANCE MATERIALS

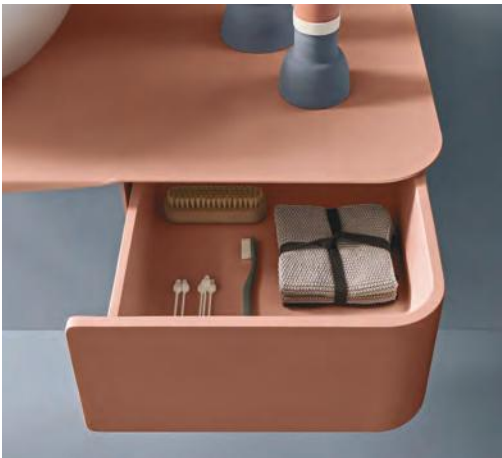

The matte solid surface interior is non-porous and designed to stand up to moisture, stains, and time. The fluted glass exterior is not only durable but also treated with a high-quality glaze to preserve its luminous finish for years to come.

DYNAMIC FINISHES

Fifties is available in 16 vintage-inspired glass colors, from pale greens and coral pinks to muted mustard and slate, each one reinforcing its mid-century soul while allowing designers to play with boldness or restraint.

Tulip Console

Striking a balance between precision and fluidity, this lacquered metal console features refined curves, bold modern lines, an integrated towel bar, and an optional storage drawer.

DESIGNED TO ADAPT

Crafted from durable, lacquered powder-coated metal, the Tulip Console resists stains and abrasion for easy cleaning. Available in 50+ colors with customizable shelves/drawers, towel bar, open shelving, and matching accessories for versatile storage.

Petra Console

Petra is a refined collection of toilets, sinks, tubs, tables and consoles whose rounded geometry and cylindrical forms bring quiet cohesion across each product. Unified by form yet versatile in expression, the collection is offered in a refined palette of matte and glossy ceramic colors.

FORM MEETS FINISH

Petra's soft cylindrical forms and balanced proportions are designed to work together. A broad selection of ceramic finishes allows for monochromatic harmony or subtle contrast, adding a personal touch without losing visual cohesion.

Duna Pedestal Basin

Duna reimagines the pedestal basin through soft minimalism—a smooth, organic form elevated on a sculpted base, customizable with a lacquered towel bar or coordinating stone-and-metal shelf.

FORM & FLEXIBILITY

The Duna basin's slender rim curves outward and widens at the base, creating an elegant interplay of light and shadow that echoes the Duna bath. Designed without faucet holes or overflow, it allows flexible placement and plumbing—ideal alone or paired with the Duna pedestal, lacquered towel bar, and coordinating side table for a fully cohesive composition.

SOPHISTICATED HUES

The pedestal is available in nine colors across four premium materials—stone, two types of marble, and a highly durable resin composite. A perfect, personalized, tactile expression of luxury. Resin finishes can also be customized with NCS or RAL colors for design continuity.

Crafted for Style and Durability

COUNTERTOPS _____

Countertop materials must balance both aesthetics and usability, as they endure the most wear and tear in a bathroom. Hastings Bath Collection addresses this need with every design, offering a range of high-quality materials including glass, porcelain, solid surface, Fenix, rough-cut oak, and high performance laminates providing designers with versatile solutions to create both functional and beautiful spaces.

EXPLORE AT [HASTINGSBATHCOLLECTION.COM](https://www.hastingsbathcollection.com)

Urban Rough-Cut

Envision a wood countertop without the risk of splinters or damage caused by water or humidity. Urban rough-cut countertops give you the best of both worlds: the look and feel of a classic natural material with the durability and luxurious texture of modern methods. The result is a rustic luxe aesthetic that complements contemporary, coastal, spa-like, and warm, welcoming design motifs.

LIVE-EDGE STYLE

Urban Rough-cut delivers the natural look of a live-edge bathroom countertop with the durability of modern materials providing an elevated rustic aesthetic crafted to endure. Made from real oak trees, each live-edge countertop features an exclusive, rustic design.

EXPERT DETAILING

From ensuring seamless connections, to the option of 10 stains to complement designs, the Urban Rough-Cut brings the warmth of wood into a room that is traditionally designed with harder, colder surface elements such as tile, marble, brass and porcelain.

THE PROCESS

Real oak wood is applied over a marine-grade substrate. The countertop is then stained and sealed for protection. Each countertop is hand-crafted and as such, each is unique.

High-Pressure Laminate

High-Pressure Laminate (HPL) countertops offer an innovative and durable solution that reimagines the look and feel of natural materials like wood, stone, and marble. Meticulously crafted, these countertops deliver luxurious aesthetics, customizable configurations, and outstanding performance tailored to contemporary design schemes.

CUSTOMIZATION

With 12 color possibilities, including neutrals and vivid tones, HPL countertops are compatible with a wide range of design ideas and come in finishes that resemble wood, stone, and marble.

MODULAR AND PRACTICAL

HPL countertops offer flexible sizing options and can be configured for a range of applications—from floating designs to integrated basins for fully customizable and versatile installations.

Fenix

At the intersection of elegant design and innovation, lies Fenix. Scratch-resistant and crafted in Italy from an innovative modern material, these countertops are available in 9 rich, contemporary colors. Fenix boasts an array of qualities that make it incredibly low maintenance, ensuring a lifetime of fabulous, enduring design.

DURABLE LUXURY

Available in 9 colors, Fenix incorporates innovative nanotechnology to ensure its durability. The countertop surfaces are scratch-resistant, anti-bacterial, fingerprint-resistant, and self-healing, meaning minor scratches can be removed with heat. This proprietary material is well-suited for high-traffic spaces like bathrooms and kitchens.

MODULAR APPROACH

Fenix countertops can be customized to suit any space and paired with luxury vanities and storage solutions to craft a bathroom design that is completely personalized. Create a floating countertop that supports ADA-compliant design, or utilize the modular approach to create a multi-tiered countertop to maximize storage and create visual intrigue.

VERSATILE AND ADAPTABLE

Enhance Fenix countertop with an integrated basin that blends seamlessly into the soft-touch surface or a vessel that perches on the countertop in a matching or contrasting finish.

Porcelain

Elevate the bath with a durable porcelain countertop that echoes the luxurious look of natural stone or marble. Porcelain is a non-porous material that allows for a stylish, modern look without the hassle of stains that get stuck beneath other surfaces. With their versatility, durability, and extensive color palettes, these countertops provide a sophisticated solution for luxurious, yet practical bathroom design.

EXCEPTIONAL RESILIENCE

Porcelain countertops are scratch-resistant, waterproof, and non-porous, ensuring effortless maintenance and long-lasting beauty. Unlike traditional stone surfaces, these modern solutions require no sealing and maintain their finish over time, even in high-use areas. Available in 38 rich finishes, including Aosta Green Marble Lucidato, and Ossido Nero, that effortlessly complement a variety of design styles, from modern to rustic or industrial.

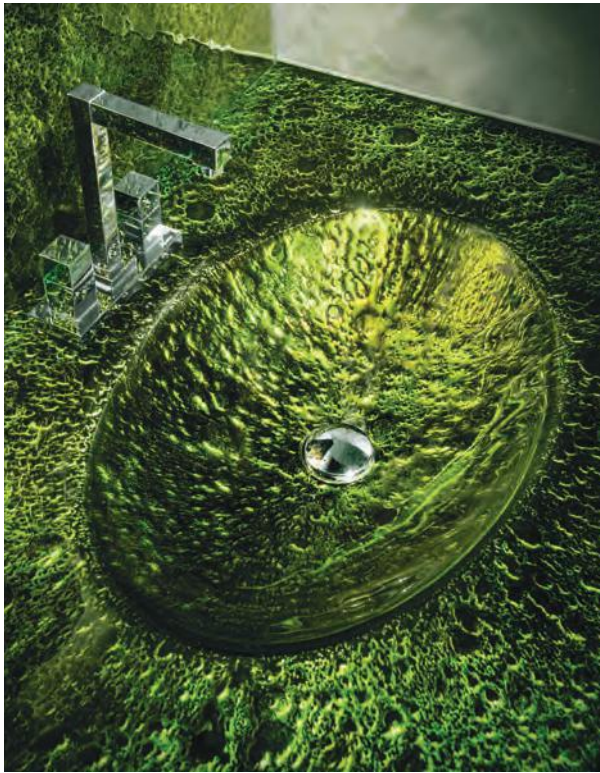

ENDLESS POSSIBILITIES

These solutions can be custom-cut to your specifications from 23.6 inches to 114.2 inches, offering unparalleled flexibility. Pair porcelain countertops with an integrated basin for a seamless and contemporary look, or add a striking vessel sink to create contrast and elevate the design. The modular design allows for endless possibilities—from minimalist floating countertops to multi-tiered, functional storage enhancements.

Vetro

Vetro glass countertops offer a luxurious and innovative approach to bathroom design. With customizable sizes, vibrant, tactile color options and incredible durability, these countertops create a bold and unique statement in any contemporary bathroom space.

UNLOCK DESIGN FREEDOM

Vetro countertops are fully customizable to fit any bathroom layout. Choose from over 90 colors, including beach tones, metallics, and phosphorescent finishes. A translucent texturing process adds depth, dimension, and tactile appeal with smooth or textured options.

DESIGNED FOR DURABILITY

Engineered to withstand the demands of daily use, Vetro countertops are twice-fired during production for enhanced strength and resistance to damage. Despite their delicate, molten-glass appearance, these surfaces are robust and long-lasting, making them ideal for high-traffic areas.

ARTISANALLY SCULPTED

Crafted in Italy's Siena region, Vetro countertops reflect timeless European artistry. CNC-cut glass is kiln-molded, textured, and hand-finished to achieve bespoke dimensions and exquisite details, ensuring each piece is truly one-of-a-kind.

Solid Surface

Urban Solid Surface countertops combine modern luxury and performance with an extensive range of colors and textures. The collection offers a variety of design possibilities, from minimalist to vibrant styles, allowing seamless integration into any aesthetic.

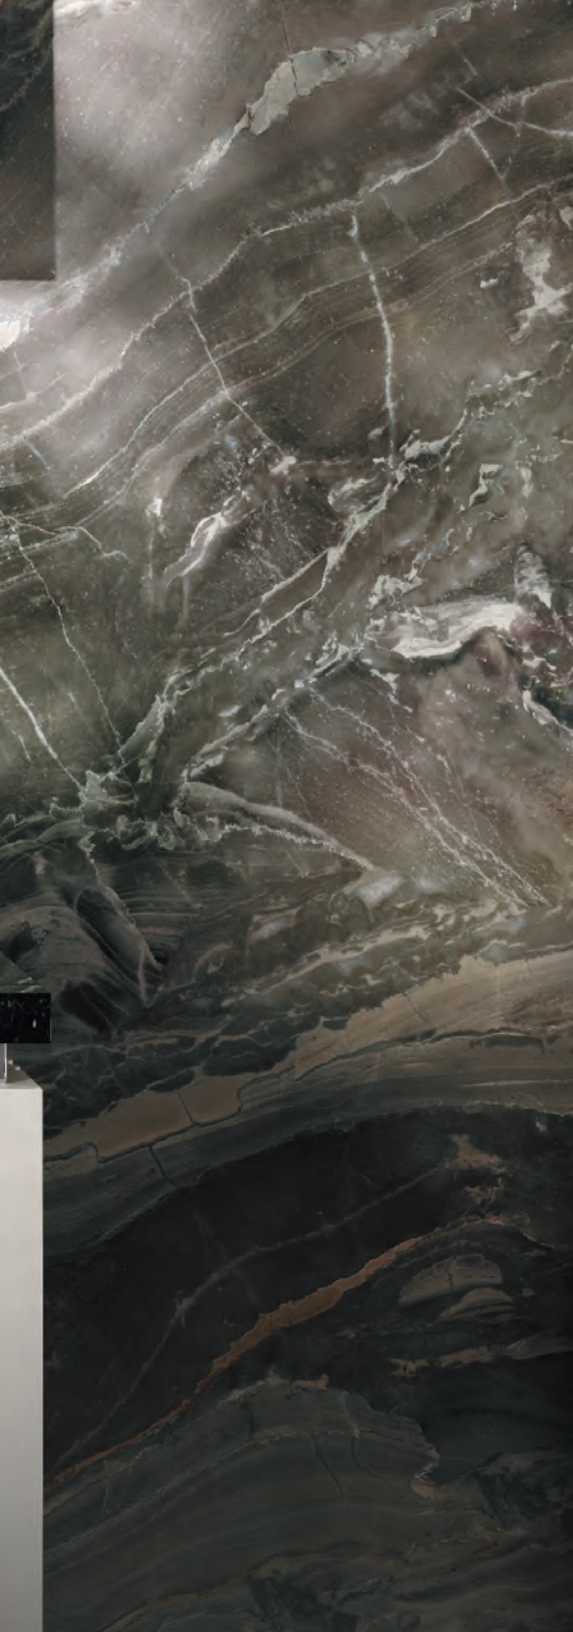

PERSONALIZED DESIGN

With 80 colors, four textured effects, and matte and gloss finishes, these countertops offer exceptional flexibility, meeting diverse design needs and personal style preferences.

MODULAR APPLICATIONS

Urban Solid Surface countertops are available in customizable sizes and profiles, perfect for wall-hung, floating, or vanity configurations. Integrated or vessel basins can be added for further customization.

Artful Bath Centerpieces

VESSELS & BASINS _____

Vessel sinks are the epitome of modern elegance, combining sculptural beauty with practical functionality. Sitting gracefully atop the countertop, these statement pieces draw the eye with their bold designs, varied materials, and unique finishes. Whether crafted from sleek porcelain, natural stone, or hand-blown glass, vessel sinks add a touch of luxury and artistry, transforming everyday bathrooms into sophisticated retreats.

Ciotola

Handcrafted in Italy, Ciotola is a stunning basin series with a personalized textured finish and contemporary vibe. The vessels have a matte textured exterior, while the interior remains smooth to the touch.

TACTILE TEXTURE

The Gel-coated solid-surface vessel is both sturdy and beautiful, available in 3 textures and 44 colors to propel any aesthetic in the bathroom.

Urban Modo

The Urban Modo vessel combines exquisite Italian design with modern functionality, offering a sleek above-counter style that features sharp, mitered edges for an eye-catching look. Manufactured just north of Venice, these thoughtfully crafted vessels make a bold statement while providing exceptional durability and versatility.

CUSTOMIZABLE DETAILS

Urban Modo is available in 3 materials and 43 finishes, capturing diverse looks from marble and stone to cement and concrete textures. Add a unique, personalized design element with an optional drain cover tray, available in HPL and Fenix finishes.

Urban Morris

The Urban Morris vessel delivers a sleek, contemporary look with thin vertical edges, soft rounded corners, and subtle curves. Crafted in Italy, this solid-surface design elevates bathroom spaces with its modern minimalism and clean, functional appeal.

DURABLE DESIGN

Made from solid-surface material, Urban Morris is durable and easy to maintain. Its minimalist profile and smooth edges create a timeless aesthetic, seamlessly fitting modern bathroom designs.

An optional drain cover, available in HPL or Fenix finishes, coordinates with countertops, adding depth and enhancing the design. Urban Morris comes in one material and two colors, offering a refined solution for contemporary bathrooms.

Art

A captivating marriage of artistry and functionality, the Art vessel features an elegantly fluted relief pattern and gracefully sloped edges. Made from durable glazed white ceramic, it is designed to be both visually striking and highly practical. Its versatile design makes it a seamless addition to modern and transitional bathroom spaces alike.

Diamond

The Diamond vessel sink exudes luxury with its plush diamond pattern, crisp detailing, and delicately sloped edges. A striking centerpiece for the modern bathroom, this glazed ceramic sink effortlessly combines bold texture with refined minimalism, delivering a balance of visual impact and functionality.

Frame

The Frame Vessel is a modern above-counter basin with a slim edge and rounded radius corners, offering a minimalist profile ideal for contemporary bathroom designs. Crafted in Italy from durable matte white solid-surface material, Frame marries clean lines with practical elegance

Plaza

The Plaza vessel sink combines a slim, rectangular profile with the option of a bold, bi-color finish. The striking contrast between crisp, white interior and vibrant, customizable exterior offers a uniquely captivating, modern look.

Chester

The Chester basin delivers modern functionality neatly packaged in minimalist aesthetics. This matte white, solid-surface design is Italian-crafted and offers three modular accessories in 20 vibrant colors, allowing for a fully customizable look.

DYNAMIC DETAIL

Featuring an integrated diagonal faucet deck, Chester combines contemporary edge with everyday functionality. Paired with its matte white finish and accessory options, this piece makes the perfect addition to transitional and modern bathroom designs.

Elevate Chester with optional accessories, including; towel hooks, towel bars, or lower suspended shelves. Incorporate accessories in a luxurious matte white for a seamless tone-on-tone effect, or in one of 20 stunning hues.

Play

Featuring a unique asymmetrical design with a faucet deck positioned on the left or right, Play is the perfect understated statement basin. Finished in a luxurious matte white, this solid-surface basin is customizable with optional accessories, each available in a wide range of captivating finishes.

OFFSET FAUCET DECK

The Play Basin accommodates side or wall-mounted faucets for versatile design. Its slim profile, smooth curves, and unique faucet deck inspire creativity.

Customize with modular accessories, including a towel hook, bar or shelf in matte white, or add color with 20 finishes.

Flut Tondo

Flut Tondo features a softly flared rim that blooms outward from a delicate concave exterior. This round ceramic vessel basin evokes sculptural calm and organic movement—a graceful centerpiece for elevated bath environments.

Flut Quadro

A softened square vessel with gentle edges and a graceful outward flare, Flut Quadro brings sculptural presence and refined detailing to the bathroom. Its wide lip and subtle curvature transform a clean geometric form into a quietly luxurious centerpiece.

Flut 65 | 80

Expressively sculpted and exceptionally versatile, the Flut 65 and 80 basins feature a concave ceramic body that gently flares into a refined top edge. These elongated rectangular forms offer a sculptural presence whether wall-mounted or countertop-rested. Designed with optional faucet hole configurations and integrated overflow, they seamlessly combine style and functionality in modern bath environments.

Fifties Ninfea

Part of the award-winning Fifties Collection, Ninfea features a softly sculpted form with a matte white solid surface interior and fluted glass exterior. Inspired by mid-century design, it blends vivid color with durable, stain- and scratch-resistant performance.

EXPRESSIVE FLUTED DESIGN

Fluted glass in 16 retro-inspired finishes pairs with a matte white solid surface interior for a compact, sculptural vessel with durable, hygienic performance.

Duna Vessel

The Duna vessel distills the essence of soft minimalism, pairing tactile surfaces with gentle geometry. Its smooth, organic form stands beautifully as a standalone statement or integrates seamlessly with the Duna pedestal and a curated suite of coordinating accessories—including lacquered towel bars, matching side tables, and a stone-and-metal shelf.

DURABLE DESIGN

Duna's gently flared rim and flat-bottomed vessel design offer flexible placement without faucet holes or overflow, integrating seamlessly with the Duna pedestal, lacquered towel bars, and matching side tables. Available in nine colors across stone, marble, and durable resin composite—with NCS and RAL customization options; each material is treated for longevity, with the resin version featuring a non-porous gel coat resistant to stains and wear.

Ritual Meets Design

BATHTUBS —

Hastings' bathtub collections are defined by sculptural clarity and material integrity. From softly contoured soaking forms to bold architectural statements, each design reflects a distinctly European sensibility where proportion, texture, and restraint work in harmony. Crafted in premium materials and available in curated finishes, these bathtubs transform the bath into a place of restoration, ritual, and enduring design.

EXPLORE AT [HASTINGSBATHCOLLECTION.COM](https://www.hastingsbathcollection.com)

Duna

The Duna tub balances a sculpted form with immersive function. Its long, low profile and subtly squared rim deliver a minimalist statement that's as grounding as it is graceful. Designed and crafted in Spain, the tub is offered in five stylish tones; full or bicolor, with custom RAL/NCS colors available on request.

BESPOKE ELEMENTS

The softened cubic lip echoes the geometry of the Duna basin, creating a sense of visual continuity throughout the space.

INTELLIGENT FEATURES

Crafted from a proprietary vinyl ester resin composite, the Duna tub features a hygienic gel coat that is non-porous, anti-slip, stain and fingerprint-resistant, making it easy to maintain and designed for long-term performance.

RESISTANT MATERIALS

Complete the Duna experience with a coordinating Iroko wood shelf that rests seamlessly along the tub edge, an ergonomic linen headrest for added comfort, and matching pedestal feet available in wood or resin, each designed to enhance both the aesthetic and function of the tub.

Duna Ofuro

Duna Ofuro distills the voluminous elegance of the original Duna, shorter in length yet taller in stature. Its deep basin and integrated ledge seat invite an immersive, grounding soak that transforms daily bathing into a ritual of deliberate stillness and comfort.

CORK STEP

A minimalist step block made from sustainably harvested black cork—thermally insulating, moisture-resistant, and naturally refined for modern bathing rituals. 1 material and 1 color available.

TUB SHELF

An optional Iroko wood shelf mounts along the rim of the Duna tub, offering a warm contrast to the resin finish and a convenient surface for essentials without compromising the tub's minimal aesthetic.

CIMA PUFF

Cima Puff is a sustainably crafted, upholstered stool designed to enhance the comfort and ambiance of spa-inspired spaces. Soft, durable, and circular in form. 1 material and 4 colors available.

Sorrento

The Sorrento is a sleek solid-surface freestanding tub featuring a smooth oval soaking well and integrated deck with the result being a refined, sculptural addition to any modern bathroom. Made to order in Italy, Sorrento is available in matte white or any of 44 signature matte hues.

CRAFTED TO PERFORM

The Sorrento's silky-touch, non-porous solid-surface construction is resistant to thermal shock, UV exposure, and staining, it's anti-bacterial, waterproof, and easy to clean. A color-matched drain and integrated overflow are included.

Catino

Catino is a sleek and streamlined, oblong-shaped luxury bathtub crafted in Italy using a combination of modern technology and handcrafting techniques. Catino's solid-surface gel-coated material, available in 44 matte or glossy finishes, has a soft-touch feel that is antibacterial and resistant to UVA rays, impact, and stains.

CRAFTED PERFORMANCE & COLOR

Italian-made using advanced gel-coated solid surface with a soft-touch, antibacterial finish resistant to UVA rays, impact, and stains, and available in 44 matte or glossy colors ranging from subtle pastels to vibrant contemporary hues.

Petra Tub

Petra is a large round freestanding soaking tub that makes an unmistakable statement. At 63 inches in diameter, its generous, circular form invites deep relaxation while anchoring the bathroom with a bold, sculptural presence. Made to order in Italy, it is available in glossy white, matte white, or a full exterior color from a curated ceramic palette.

BOLD ROUND FORM

Petra's generous circular silhouette is as striking as it is functional, offering a deep, immersive soak in a tub that doubles as a true design centerpiece.

COLOR & ACCESSORIES

Petra's exterior can be specified in matte or glossy finishes to complement any bathroom palette, while the white interior maintains a clean soaking environment. Coordinating Pouf bath-side seat and Tavolo ceramic bath table, are available in matching colors.

Essential by Design

TOILETS

Hastings' toilet collections are defined by clean geometry, refined proportions, and thoughtful performance. Designed with a distinctly European sensibility, each piece balances minimal form with advanced functionality. Whether wall-hung or floor-mounted, these designs integrate seamlessly into contemporary bath environments, offering both visual clarity and everyday efficiency.

EXPLORE AT [HASTINGSBATHCOLLECTION.COM](https://www.hastingsbathcollection.com)

Petra Toilet

Petra extends the collection's softened cylindrical aesthetic to a refined, modern toilet design. Available in wall-hung or floor-mount configurations, it offers a cohesive look across glossy white, matte finishes, and the full Petra ceramic palette.

FINISH & PERFORMANCE

Offered in gloss or matte white, black, or full ceramic colors, Petra features a USA-compliant Eco-Clean dual flush, Geberit compatibility, and a soft-close, quick-release seat for easy maintenance.

Like

Like's softly rounded contours meet a defined base, creating a silhouette that feels both modern and grounded. It brings refined balance to contemporary spaces, uniting quiet elegance with intuitive, performance-led function.

REFINED PERFORMANCE

Available in 16 gloss and matte ceramic finishes, with a softly curved profile, Eco Clean 1.2/0.8 GPF flushing, soft-close quick-release seat, and durable glazed ceramic for quiet, low-maintenance use.

Hit

Hit features a softly rounded silhouette that brings a sense of lightness and composure to modern bath spaces. Available in both wall-hung and floor-standing designs, this stylish toilet balances elegant form with engineered function.

ELEVATED, AIRY DESIGN

Offered in 16 matte and gloss ceramic options, with soft contours and wall-hung or floor-mount configurations, crafted in durable high-performance ceramic with silent, low-maintenance performance.

Reflections of Refined Living

MIRRORS _____

A mirror is more than a functional object, it's a defining element of the space it inhabits. Hastings' collection of luxury bathroom mirrors brings together exceptional Italian craftsmanship, innovative features, and timeless design to create pieces that are as striking as they are purposeful. From integrated LED illumination and anti-fog technology to bold frameless silhouettes and refined backlit designs, each mirror is thoughtfully conceived to elevate the modern bathroom into something truly extraordinary.

EXPLORE OUR FULL COLLECTION OF MIRRORS AT [HASTINGSBATHCOLLECTION.COM](https://www.hastingsbathcollection.com)

Tableau Mirror

Tableau is a bold Italian-designed mirror cabinet featuring a razor-thin metal frame with a sharp, abstract profile. Available in six materials and over 100 colors, it offers exceptional customization for any space. Three adjustable internal shelves and staggered open shelving provide seamless storage, while an optional overhead LED lamp adds both ambiance and function making Tableau as purposeful as it is striking.

ABSTRACT MODERN FORM

Tableau's geometric silhouette delivers a bold, architectural presence, balancing angular lines with reflective planes for a striking visual impact.

EFFORTLESS MINIMALISM

A slim metal frame and razor-thin profile create a refined, clutter-free look that remains visually light and space-efficient—seamlessly integrating storage without sacrificing elegance.

TAILORED ITALIAN CRAFTSMANSHIP

Designed and crafted in Italy, Tableau offers exceptional quality with over 100 colors and six materials to choose from, allowing contrasting finishes to highlight the cabinet's layered geometry and complement any space.

Hex Mirrors & Storage

In celebration of its 140th anniversary, Hastings introduces a hexagonal mirror and shelving collection inspired by the brand's iconic paving heritage. The hex form is reinterpreted through refined craftsmanship and integrated LED perimeter lighting; bold geometry and timeless design as a fitting homage to Hastings' enduring legacy.

FRAMELESS GEOMETRY

The Urban Hexagon collection celebrates clean architectural form through its iconic hexagonal silhouette. The original frameless design highlights a luminous LED halo, while the Plus version introduces a matte metal frame and floating glass for added depth and dimension.

REFINED ILLUMINATION

Hardwired for wall switch operation, both mirrors deliver consistent LED backlighting in natural white (4000K), with warm white (3000K) available upon request. Designed without unnecessary controls, the collection maintains a minimalist approach that prioritizes pure form and effortless performance.

CUSTOMIZABLE CRAFTSMANSHIP

Built with UL-certified components and 110V electrical standards, the collection ensures reliable everyday use. The Plus version offers five curated matte metal finishes and customizable back panels, allowing designers to introduce layered contrast and tailored architectural impact.

Ponente Mirror

A show-stopping built-in luxury round mirror which teases the eye and blends seamlessly into a vanity or countertop, creating a customized architectural look. Soft backlighting enhances the minimalist design, adding a spa-like glow.

ARCHITECTURAL BACKLIT DESIGN

A clean circular silhouette with a slim, sculpted profile sits flush within vanities or countertops, while radiating LED backlighting casts a soft ambient glow. Ultra-minimal yet innovative, this Italian-designed and crafted mirror blends seamlessly into its surroundings without sacrificing presence or refinement.
