| about **US**

The security that only a leader can offer

Golmar is a Spanish company founded in 1954, with presence in most international markets. Recognized as an outstanding market leader in the development of video door entry equipment, and in the offer of integrated electronic security solutions, it has a wide range of products to meet the needs of the residential and tertiary sectors.

+70
years

offering communication and security solutions

55
countries

a continuously expanding global presence, offering solutions tailored to the needs of each market

172
people

Golmar is a company that joins efforts to develop the most advanced systems and to offer an excellent service

1954

Golmar was founded in Barcelona as a family business, being its first product an intercom for offices. Four years later it presents a communication equipment for homes.

1978

The Domino telephone is awarded multiple design prizes. Market launch of the first video door entry system. Opening of branches in the most important cities in Spain.

1994

First Spanish company to develop a digital video door entry system, an unmistakable sign of its high degree of innovation. Three years later, the company moves to a modern 6,500m² building.

2001

Obtained ISO 9000:2000 certification. In 2004, in celebration of its 50th anniversary, it increased its international presence with the creation of two European subsidiaries.

a company in constant growth

2015

Thanks to the application of the latest technologies, Golmar develops 2-wire video door entry systems, which provide video to existing audio installations, and an innovative IP system with countless features.

2017

Incorporation of a domotic system via radio and launch of applications for smartphones that allow the management of the video door entry and access control among other systems.

2025

Golmar is preparing for the introduction of new developments coinciding with its 70th anniversary, at a time when systems integration and connectivity is a growing demand.

Our **VALUES**

One of our main objectives is to identify the needs of each project, offering solutions that best suit the requirements, with special attention to **design, performance and efficiency.**

Solutions and services

We pride ourselves on our exceptional customer service, providing comprehensive support at every stage of the project, from pre-sales consultations to assistance during and after installation.

Our expert and committed team of professionals is always ready to respond to any inquiry, offering quality guidance.

Our Clients

Our customers are our most valuable asset, and their satisfaction is the key to our success. We pay special attention to the needs of the different groups involved in the business, emphasizing the end-user experience.

Our commercial and prescription departments provide support to:

- Architects
- Engineering and consulting firms
- Interior designers
- Developers
- Construction companies
- Installers

Universal designs

Golmar develops products to suit everyone's needs. Accessibility and inclusion, especially for people with vision, hearing and mobility limitations, are prerequisites of our designs and an important part of our values.

The integration of inductive loop amplifiers for the hearing impaired, system status messages in different languages or cameras with extended viewing angles are some of the innovations incorporated in our equipment to welcome everyone.

At Golmar we constantly strive to improve and progress, to achieve excellence. An example of this is our responsibility to care for the environment; we have initiated a process of changing the packaging of all our products, using recyclable cardboard, vegetable-based inks and reducing the use of plastics to a minimum.

Our *leitmotiv*

From now on, each package of our products will convey a clear and universal message: "we take care of you, of your home", to give voice to our commitment to build sustainable homes and a healthy future.

our News

Sixty5 Code

CODED PANEL

A reference for two years in the market of advanced video intercom solutions. Now also available in **AISI316** stainless steel with mirror effect.

Page 71

Sixty5 Touch

TOUCH SCREEN DOOR PANEL

Its **IK10** protection rating makes it one of the most resistant panels in the residential communications sector. Three finishes and fully customisable graphic interface.

Page 67

supra

MODULAR PANEL

The new door panel that exceeds all expectations, with an IP65 watertightness rating that distinguishes it from other panels in the sector. **Wi-Fi programming** and automatic coding of pushbuttons are some of the technological innovations incorporated in this panel.

Page 59

clip

SURFACE MOUNTING PANEL WITH IP TECHNOLOGY

Ideal for villa installations and as a private call panel at the entrance of the house. It incorporates the **SmartPrompt** function that changes the colour of the call button depending on the system status.

Page 15

artis

NARROW DESIGN WITH WIDE FEATURES

With its extremely small dimensions, this aluminium panel is ideal for door profiles in small buildings with up to 5 flats. With all the advantages of G2+ technology with **2-wire installation**.

Page 90

edge

7" TOUCH SCREEN MONITOR

Complete renewal of the iPG+ range, with a new **intuitive and modular user interface** and the possibility of daisy-chain installation. Only 13 mm depth and an ingenious mounting system.

VIDEO DOOR ENTRY KITS
surface panel

CLIP panel

Graphite-colour die-cast aluminium housing

Black acrylic front panel

2 MPx CMOS camera with 150° wide-angle lens

Vandal resistance rating **IK07** and weatherproof **IP65**

Prompt messages and call button with "SmartPrompt" light indication of different system status

13.56MHz RFID proximity reader with Wiegand26 and RS485 outputs

Bottom head with space for illuminated card holder or laser engraving

Door opening via QR codes (models with Wi-Fi monitor)

Relay output for door activation

Use with 12VDC door lock

Compatible with PoE 48V switch and connection via RJ-45 connector, with the possibility of local 12Vdc power supply.

Wall installation with rainshield included

Dimensions: 70(W) x 170(H) x 27(D) mm.

EDGE monitors

Black or white ABS plastic housing

Tempered glass front

High-resolution 1024 x 600 px IPS touch screen in 16:9 aspect ratio

Customizable user interface and background image, available in 16 languages

Hands-free communication with high-efficiency hidden speaker

Selectable ring tones and programmable do not disturb function with light indication

Preview of the system's IP panels and cameras

Selectable opening of up to two doors per panel

Activation of auxiliary devices, such as staircase light (requires the use of an external relay unit)

Programmable automatic door opening function on call reception

Input for doorbell call button and output for auxiliary sounder

Communication with other units in the same apartment

Event-log and image capture of missed calls with voicemail function

Internal memory for recording up to 100 images and video on microSD card (not included), with automatic deletion after 30 days

8 alarm inputs and 2 programmable relay outputs (except model A)

Up to 6 units within the same apartment

48V PoE power supply, connection via RJ-45 connector, with the possibility of local power supply at 12Vdc.

Wall installation by means of RC-EDGE wall mounting bracket (not included) adaptable to universal enclosure

Dimensions with terminal connector: 179(W) x 116(H) x 21(D) mm

Optional:

 Integrated Wi-Fi module to forward calls to smartphone, by using the G2Call+ app

 Compatibility with Alexa and Google Home devices

 Cloud image memory

 Version with Android™ 12 operating system and two independent network LAN connectors (A models) allowing the installation of applications and control of other devices

ROCK panel

Curved front in graphite-colour die-cast aluminium

Vandal resistance index **IK09** and weathering **IP44**

2 MPx pan & tilt CMOS camera and 120° wide-angle lense

White LEDs of variable intensity depending on outdoor illumination

Double-wall sound grille to prevent access by sharp objects

Stainless steel call button

On-board acoustic signaling of call in progress

Input for analog CCTV camera connection

Relay outputs for activation of two doors

Use with 12VDC door lock

Dimensions:

Exterior: 144(W) x 144(H) mm.

Embedded: 131(W) x 131(H) x 45(D) mm.

**ART** monitors

Housing made of white ABS plastic

Acrylic front panel with 4.3" or 7" widescreen display

Illuminated capacitive push-buttons, with acoustic push confirmation

Touch screen on ART 7W/G2+ model

Hands-free communication

Selectable ring tones and do not disturb function with light indication

Preview of system panels

Selectable opening of up to two doors per panel

Activation of auxiliary devices, such as staircase light (requires the use of an external relay unit)

Automatic door opening function on call reception

Input for doorbell call button and output for auxiliary soulder

Intercommunication with other indoor units in the same apartment

Wall installation by means of wall mounting bracket (included) adaptable to universal box

Dimensions with terminal connector:

ART 4: 110(W) x 155(H) x 23(D) mm.

ART 7: 220(W) x 155(H) x 23(D) mm.

Optional:

 Integrated Wi-Fi module for call forwarding to cell phones via free G2Call+ app

 Compatibility with Alexa and Google Home devices

 Internal memory for recording up to 100 images and video on microSD card (not included)

 Cloud image memory

AUDIO DOOR ENTRY KITS

modular flush mounting panel

NEXA ALUMINIUM panel

Anodised aluminium front

Illuminated indicators and prompt messages of the different system status

Illuminated card holders and stainless steel covered call buttons

Relay outputs for activation of two doors

Use with 12VDC door lock

Dimensions:

1 and 2 apartment kits (1 module height)

Exterior: 128(W) x 153(H) mm.

Embedded: 99(W) x 133(H) x 56(D) mm.

Kits from 3 to 12 apartments (2 modules high)

Exterior: 128(W) x 256(H) mm.

Embedded: 99(W) x 238(H) x 56(D) mm.

Kits from 14 to 22 apartments (3 modules high)

Exterior: 128(W) x 358(H) mm.

Embedded: 99(W) x 328(H) x 56(D) mm.

T-ART LITE

Housing made of polished ABS plastic in white colour

Removable handset telephone cord with connectors

Capacitive push-buttons with acoustic push confirmation

Selectable ring tones and do not disturb function with light indication

Output for auxiliary call repeater

Input for doorbell call button

Dimensions with terminal connector: 86(W) x 154(H) x 31(D) mm.

ACCESS CONTROL KITS

KEYPAD

Anodised aluminium front

White backlit keypad with stainless steel covered push-buttons

Exit push-button inputs can be deactivated by programmable code

Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)

1.000 4-, 5- or 6-digit codes. Each code can be programmed to activate a combination of outputs

User codes and special codes can be changed without accessing programming mode

Programmable blocking feature for a period of time after entering several consecutive wrong codes

Relay outputs for activation of two doors and 12VDC panic output.

Module tamper alarm (tamper)

Dimensions:

Exterior: 128(W) x 153(H) mm.

Embedded: 99(W) x 133(H) x 56(D) mm.

PROXIMITY READER NFC

Anodised aluminium front

Light and acoustic indicators of operation

Programmable activation time (3 to 99 seconds)

Up to 2,000 user cards, stored in up to 32 user groups

Possibility of opening from an Android® phone with NFC technology using the OpenGo app

Relay outputs for activation of two doors

Panic output 12Vdc.

Module tamper alarm (tamper)

Dimensions:

Exterior: 128(W) x 153(H) mm.

Embedded: 99(W) x 133(H) x 56(D) mm.

supra

modular panel

- ▶ **Vandal-proof (IK08) and weather resistant (IP65) panel** with zamak frame and die-cast aluminium frame for high robustness. Available in natural aluminium or black colour.
- ▶ **Easy assembly and connection** by means of plug-in modules and connecting cables. Vertical tilting of the panel.
- ▶ **AISI316 stainless steel** modules, and push-button modules with white LEDs of variable intensity according to exterior lighting conditions. High resistance polycarbonate camera protection window.
- ▶ **2Mpx HD camera** with **150° wide angle** lens and **HDR sensor** for backlight compensation. **Ten zoom areas** allow the best viewing angle digitally selected.
- ▶ **Illuminated indicators and voice prompts**, of the different system status, facilitate access for visually and hearing impaired users. optional **Inductive amplifier module** for visitors with hearing aids.
- ▶ Push-button modules with **automatic assignment of call codes**.
- ▶ **Local programming** by the push-buttons on the panel **or via Wi-Fi** through the internal web server.
- ▶ **2 relay outputs for doors**, with independent inputs for remote activation.
- ▶ **Access control modules** via keypad, NFC proximity reader and 2SAFE, compatible with EASYGATE and iP-Opener access controls.
- ▶ "G2+" 2-wire non-polarised technologies and for direct replacement of Golmar "Plus" (3 + coaxial or 4 + twisted pair) and "Vista Plus/R5" (5-wire) video door entry panels.
(Check spare parts list)
- ▶ Ideal for the **replacement of Golmar Stadio panels** without the need to change the embedding box.
- ▶ Panel dimensions:

1 height	- 134(W) x 155(H) mm
2 heights	- 134(W) x 271(H) mm
3 heights	- 134(W) x 388(H) mm

To configure a door entry panel

- ▷ Choose a panel colour: aluminium (/AL) or black (/BK).
- ▷ Select a video module S1xxx or audio module S2xxx. Add an EL742 audio or EL732 video module according to the technology to be used.
- ▷ If a push-button panel is desired:
 - ▷ Add S3xxx push-button modules until the desired number of push-buttons is completed. Each push-button module must be accompanied by its corresponding EL706D electronic module.
- ▷ If a coded panel is desired, choose one of the following modules depending on the calling method:
 - ▷ S3302 numeric keypad, or
 - ▷ Display module with S3403 navigation buttons, or
 - ▷ The combination of the above.
- ▷ When using the display module it will also be possible to add the alphabetic keypad module S3303.
- ▷ Add informative window module S3001 if it is preferred in addition to the display module, so that the calling instructions, as well as the codes of the apartments can be found directly.
- ▷ It is also possible to use push-button modules in combination with coded panels to directly call specific apartments or guard units.
- ▷ If an access control system is required, select one from the pages 61 and 62.
- ▷ The maximum number of 1 height modules placed vertically is four, and eight in the case of half-height modules. The number of modules placed horizontally is unlimited.
- ▷ Select an embedding box and an S600x mounting frame according to the number of modules placed vertically.
- ▷ For panels with more than one horizontal module, order as many S600x embedding boxes and mounting frames as there are horizontal modules on the panel. Use UC cable tunnels and RAP-SUPRA cables to link them together (page 63).

Basic programming via local micro-switch and light and acoustic indicators **or via Wi-Fi** through internal web server (requires NFC/IN installer card)

Up to 2,000 user cards stored in up to 30 user groups

Smartphones with Android™ operating system and NFC technology can work with this access control using the OpenGo app available on Google's Play Store

Compatible with NFC/US cards and TAGNFC/US key fobs

2 relay outputs (NO, C, NC) for doors, with separate inputs for remote activation

Programmable activation time (3 to 99 seconds)

Tamper alarm and panic output

12VAC or 18 to 24VDC power supply. It is possible to use the power supply of the outdoor panel

TOUCH

vandal-resistant panel with
touch screen display

- ▶ **Technologies** "G2+" two-wire non-polarised or IP G+.
- ▶ **Vandal-resistant (IK10) and waterproof (IP65) panel** made of 6 mm thick anodised aluminium in natural or black colours, or polished AISI316 stainless steel with mirror finish.
- ▶ **2Mpx HD camera** with 130° wide **angle lens** and white LEDs of variable intensity depending on the outdoor lighting conditions.
- ▶ **7" TFT LCD touch screen** with 600 x 1024 px resolution, protected by 4 mm thick tempered glass.
- ▶ **Presence and illumination** sensors.
- ▶ **Inductive loop amplifier** for users with hearing aids.
- ▶ **Tamper alarm.**
- ▶ **Modular graphic interface** available in two designs: original and dark mode. Direct functions customizable according to user needs: direct call to concierge, push-button for deliveries, access control, agenda...
- ▶ **Local programming** through on-screen menus or through internal web server. **Remote** programming through the "Sixty5 cloud" portal, which allows editing access codes, proximity cards or agenda names.
- ▶ **Access control** via keypad and proximity reader, with antennas available in 125 KHz, 13,56 Mhz and 2SAFE (compatible with EASYGATE and iP-Opener access controls) and Wiegand26 output.
- ▶ Door opening with **double PIN+RFID security** (optional).
- ▶ **Customizable welcome image** and optional on-screen visitor display.
- ▶ **Voice prompts and on-screen messages** of the system status in different languages.
- ▶ **Several calling methods:** entry of the code of the apartment to be called, search in the agenda, virtual push-buttons panel mode, ... The "villa" mode allows you to make a direct call to an apartment by simply pressing the bell button.
- ▶ **2 relay outputs** for doors, with independent inputs for remote activation.
- ▶ **Daily backup** of user and configuration data on microSD card.
- ▶ Dimensions:
 - Exterior: 155(W) x 318(H) x 5(D) mm
 - Embedded: 132(W) x 308(H) x 46(D) mm

◀ A customised home page.

An easy and intuitive menu allows you to customize the home page, adapting the panel to the needs of each installation and user. From a simple call button for a single-family house, **up to 5 functions** including all the call and home access control options.

More ways to call.

Sixty5 Touch allows you to choose three different ways to make the call. Using an **on-screen keypad** to dial the apartment dial code number, either numeric or including letters. By choosing a contact from the **agenda**, which can also include information about the contact, such as a photograph, a company logo or even a personalized message. For more traditional users, the panel can display up to 32 **virtual push-buttons** on the screen, making it possible to call as if it were a conventional push-buttons panel.

▶ Remote management.

Connect the panel to the Internet to fully enjoy all the features that this panel offers. Now it will no longer necessary to go to the installation to change the name of an apartment, remove a name from the agenda or give access to open the door. Golmar's "Sixty5 Cloud" portal allows you to access the panel remotely, from any browser, in a simple and intuitive way.

Nexa

| modular panel

- ▶ **Anodised aluminium or AISI316 stainless steel** panel in natural colour.
- ▶ **Easy mounting and connection** by means of link cables.
- ▶ Information or camera display made of high-strength polycarbonate.
- ▶ Push-button modules with white LED lighting.
- ▶ **Access control modules** by means of keypad, NFC proximity reader and 2SAFE, compatible with EASYGATE and iP-Opener access controls.
- ▶ **Technologies** "G2+" 2-wire non-polarised, IP "G+" and analogue with 4+n installation.
- ▶ **In the modules with "G2+" or IP "G+" technology:**
 - ◆ **2Mpx HD pan and tilt camera** with **120° wide angle** lens and **HDR sensor** sensor for backlight compensation.
 - ◆ **Indicator lights and voice prompt messages of the different system** status facilitate access for visually and hearing impaired users. **Inductive amplifier module** optional for visitors with hearing aids.
 - ◆ **2 relay outputs** for doors, with independent inputs for remote activation.
 - ◆ Ideal for the **replacement of Golmar 90 Series** (aluminium panels with three height modules) **and Stadio Series** (stainless steel panels of any height) using the existing embedding box.

- ▶ Dimensions Nexa aluminium panel:

1 module	- 128(W) x 153(H) mm

Replacement
of Golmar panels

Series 90 and Stadio

To configure a door entry panel

► Select an N1xxx/AL, N2000/AL or NX1xxx module. Add an audio or video module according to the technology to be used.

► If a push-button panel is desired:

- Add N3xxx or NX3xxx push-button modules to obtain the desired number of push-buttons. Each push-button module must be accompanied by its corresponding electronics: EL610A for 4+n technology equipment or EL610D or EL606D for other technologies.

► If a coded panel is desired (only available for G2+ technology equipment), use a CD-NEXA/G2+ digital converter and choose one of the following modules depending on the calling method:

- N3301/AL or NX3301 numeric keypad
- Display module with navigation buttons N3403/AL or NX3403
- The combination of the above.

► When using the display module, it is also possible to add the alphabetic keypad module N3301A/AL or NX3301A.

► Add informative window modules N3002/AL or NX3002/AL if it is preferred in addition to the display, so that the call instructions as well as the apartment codes can be found directly.

► It is also possible to use push-button modules in combination with coded panels to directly call specific apartments or guard units.

► If an access control system is required, select one from the pages 78 and 79.

► The maximum number of modules placed vertically is four, while the number of modules placed horizontally is unlimited.

► Select an embedding box and an N600x/AL or NX600x mounting kit depending on the number of modules placed vertically.

► For panels with more than one horizontal module:

- For aluminium panels, order as many embedding boxes as there are horizontal modules on the panel. Use UC cable tunnels and N601x/AL mounting kits to connect them (pages 80 and 81).
- For stainless steel panels, order as many NX600x embedding boxes and mounting kits as there are horizontal modules on the panel. Use UC cable tunnels to link them (pages 80 and 81).
- Use a RAP-610A (4+N technology) or RAP-610D (all other technologies) cable to link the electronic modules of different embedding boxes.

For modules with large informative window

EL3002H 11503002

Inductive Loop Amplifier module
For hearing aids with "T" mode
Requires informative module with large informative window

CODED DISPLAY MODULES

Only with **G2+** technology

● **N3403/AL** 11883404

■ **NX3403** 11883405C

OLED display module
Backlit navigation and call button

● **N3301/AL** 11883301

■ **NX3301** 11883302C

Backlit numeric call keypad module
Includes access control function

● **N3301A/AL** 11885301

■ **NX3301A** 11886301C

Backlit alphabetic keypad module
Letters from A to L
Allows to assign one or more letters to the apartment call code
Requires N3403/AL and N3301A/AL or NX3403 and NX3301A modules

CD-NEXA/G2+ 12280615

Digital converter for coded panels

ACCESS CONTROL MODULE WITH KEYPAD

● **N3301/AL** 11883301

■ **NX3301** 11883302C

Stand-alone access control module with keypad

Keypad programming

Acoustic push-button confirmation tone
deactivatable and operation indicator lights

1.000 4-, 5- or 6-digit 4, 5 or 6 digit codes.
Each code can be programmed to activate a combination of outputs

User codes and special codes can be changed
without accessing programming mode

Programmable access control deactivation for
a period of time after consecutive wrong codes
are entered

2 relay outputs (NO, C, NC) for doors, with
independent inputs for remote activation
Programmable activation time (1 to 99 seconds)
and output mode (pulse or steady)

Tamper alarm and panic output

12V a.c. or 18 to 24V d.c. power supply. It is
possible to use the power supply of the outdoor
panel

ACCESS CONTROL MODULE WITH PROXIMITY READER

**EL4502/NFC**

11814502

Stand-alone access control module with 13,56MHz NFC reader

For modules with large informative window
2 relay outputs for doors

Basic programming via local microswitch and indicator lights

Up to 2,000 user cards stored in up to 30 user groups
Smartphones with Android™ operating system and NFC technology can work with this access control using the OpenGo app available on Google's Play Store

Compatible with NFC/US cards and TAGNFC/US key fobs
Relays (NO, C, NC) with independent inputs for remote activation

Programmable activation time (3 to 99 seconds)

Tamper alarm and panic output

12VAC or 18 to 24VDC power supply. It is possible to use the power supply of the outdoor panel

**EL4503/NFC**

11814503

Stand-alone access control module with 13,56MHz NFC reader

For modules with small informative window
1 relay output for doors

**NFC/US**

11812100

13,56MHz user card

**TAGNFC/US**

11812125

13,56MHz user key fob

DUAL ACCESS CONTROL MODULES

**N3000/BIO-N**

20700015

NX3000/BIO-N

20700016

Stand-alone access control module using fingerprint and 125KHz reader

Capacitive fingerprint sensor

Wiegand 26 output for connection to access control modules

Light and acoustic indicator of operation

Up to 899 user cards and 99 fingerprints

Optional access control deactivation after 10 consecutive wrong fingerprint entries

Compatible with PROKEY ID cards and TAGKEY ID key fobs

1 relay output (NO, C, NC) for door, with input for remote activation

Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)

Tamper alarm

12 or 18V d.c. power supply.

**N3000/CODEPROX-N**

20700017

NX3000/CODEPROX-N

20700018

Stand-alone access control module with numeric keypad and 125KHz reader

Wiegand 26 output for connection to access control modules

Light and acoustic indicator of operation

Up to 990 users between codes and cards

4, 5 or 6 digit codes

Optional locking of access control after entering 10 consecutive wrong codes

Compatible with PROKEY ID cards and TAGKEY ID key fobs

1 relay output (NO, C, NC) for door, with input for remote activation

Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)

Tamper alarm

12 or 18V d.c. power supply.

**PROKEY ID**

20710008

125KHz user card

**TAGKEY ID**

20710007

125KHz user key fob

Nexa | 615 replacement

Stadio Compact Series

Nexa 615: 128(W) x 240(H) mm

Replacement of Golmar Stadio Compact Series panels using existing embedding box

- ▶ Select a panel according to the number of push-buttons of the existing panel
- ▶ Add an EL606D electronic push-button module, an N615/AL replacement frame and an N6005/AL mounting kit
- ▶ If you are going to maintain the indoor units, select an audio or video module according to the existing technology. You will find them in the spare parts chapter (page 153)
- ▶ If you are only going to use the embedding box and wiring, add an audio or video module with 2-wire non-polarised "G2+" technology (page 76)

Nexa | CUSTOM

Custom panels

Because your building is unique, at Golmar we offer you the possibility of making customized panels. Based on the information you provide us, our design department will make you a personalized panel proposal.

Tailor-made

We adapt the design to the available space, using the existing embedding box or creating a new one. If the facade of your building does not have space, we can supply the panel mounted on a column.

High quality materials

We manufacture our panels in AISI 316 stainless steel, anodised aluminium, brass,... which guarantee their durability.

The push-buttons, always made of stainless steel, have an IP67 protection rating.

◀ Labeling

The label holders are illuminated and the name can be changed without opening the panel. If you prefer, we can engrave laser engraving on the panel, with paint filling, or on metal or acrylic panels.

Full colour ▶

Stainless steel or aluminium panels can be painted in any RAL colour.

NEW

artis

panel for door frames

- ▶ **Technology** "G2+" technology with two non-polarised wires.
- ▶ **Waterproof panel (IP54)** made of 2 mm thick anodised aluminium in natural colour.
- ▶ Flush mounting in door frames with a width of 67,5mm or more (uses the door frame as an embedding box).
- ▶ **2Mpx HD camera with 120° wide angle lens** and white LEDs of variable intensity depending on the exterior lighting conditions.
- ▶ **Voice prompt messages** of the different system status facilitate access to users with visual or hearing impairments.
- ▶ **Relay** with input for remote activation.

finishes

- ▶ "IPG+" digital installation with TCP/IP protocol
 - ▶ Compatible with GPON networks, SIP and ONVIF protocols, allowing integration in FTTH type networks, with IP cameras and VoIP devices
 - ▶ Housing made of polished ABS plastic, available in black or white colours
 - ▶ Tempered glass front
 - ▶ 7" IPS touch screen with high resolution 1024 x 600 px in 16:9 aspect ratio
 - ▶ Customisable user interface and wallpaper, available in 16 languages
 - ▶ Hands-free communication with high-efficiency hidden speaker
 - ▶ Selectable ring tones and programmable do not disturb function with light indication
 - ▶ Preview of all panels and IP cameras in the system
 - ▶ Selectable opening of up to two doors per panel
 - ▶ Activation of auxiliary devices, such as staircase light (requires the use of an external relay unit)
 - ▶ Programmable automatic door opening function on call reception
 - ▶ Input for door bell call button and output for auxiliary sounder
 - ▶ Communication with other units in the same apartment, building and concierge units
 - ▶ Event log and image capture of unanswered calls with voicemail function
 - ▶ Internal memory for recording up to 100 images and video on microSD card (not included), with automatic deletion after 30 days
 - ▶ Short text messaging service between system monitors
 - ▶ 8 alarm inputs and 2 programmable relay outputs (except IO and A models)
 - ▶ Up to 6 units within the same home
 - ▶ 48V PoE power supply, connection via RJ45 connector, with the possibility of local power supply at 12Vdc.
 - ▶ Wall installation by means of RC-EDGE mounting bracket (not included) adaptable to universal box
 - ▶ Dimensions with socket connector: 179(W) x 116(H) x 21(D) mm
- Optional:
-  Integrated Wi-Fi module (**W models**) to forward calls to the cell phone, by using the G2Call+ app
 -  Compatibility with Alexa and Google Home devices (**W models**)
 -  Cloud image memory (**W models**)
 -  Version with Android™ 12 operating system and two independent network cards (**A models**) allowing installation of apps and control of other devices
 -  RJ45 input and output connectors (**IO models**) for daisy-chain installation up to 20 monitors

All the control in your hands.

The Edge monitor allows on-screen functions to be customised to the needs of each user, facilitating usability and enhancing the experience. Thanks to the Android version, which also has two independent networks, the most demanding users will be able to access the control applications of other systems in the home.

Easier connections.

If the installation requires it, Edge is the only IP monitor on the market that incorporates an input and output connector for connecting up to 20 units in daisy-chain. The basic version uses a 90° connector, which makes it possible to dispense with a box in exposed cable installations.

Secure mounting.

With a simple twist, the Edge monitor is securely attached to the mounting bracket, preventing accidental drops when the monitor is unintentionally knocked from the sides or bottom.

CE-Art 7 | guard units

- ▶ Housing made of polished ABS plastic in white colour
- ▶ Acrylic front panel with 7" widescreen display in 16:9 format
- ▶ Touch screen with acoustic touch confirmation
- ▶ Private communication with handset or hands-free
- ▶ Handset with inductive amplifier for hearing aids
- ▶ Preview of system panels
- ▶ Selectable opening of up to two doors per panel
- ▶ Activation of auxiliary devices, such as staircase light
- ▶ Selectable ring tones and do not disturb function with light indication
- ▶ Automatic door opening function
- ▶ Input for door bell button and output for auxiliary sounder
- ▶ Intercommunication with other units in the building and other concierges via dialling code or selection from the agenda
- ▶ Virtual call keypad, which avoids the inconvenients of traditional keypads
- ▶ Event log, showing calls not attended by the guard unit
- ▶ Internal memory for recording up to 100 images and video on microSD card (not included), with automatic deletion after 30 days
- ▶ Call forwarding to another home in the concierge's absence
- ▶ Panel's call capture and day-night function
- ▶ Electronic lock to prevent unauthorized personnel from using the guard unit
- ▶ Integration with IP cameras installed in common areas (requires DQ-IPCAM-G2+ in case of systems with "G2+" technology)
- ▶ Up to 4 general guard units and 4 per building in "G2+" technology installations
- ▶ Up to 19 general guard units and 9 per building in installations with "IPG+" technology
- ▶ Wall installation by means of wall mounting bracket (included) adaptable to universal box
- ▶ Dimensions with terminal connector: 262(W) x 155(H) x 38(D) mm (including handset).

In guard units with "IPG+" technology:

- ▶ Integrated camera for video communication with indoor units
- ▶ Short text messaging and broadcasting service for emergencies
- ▶ Notification of alarms occurring in the apartments

Optionally in guard units with "G2+" technology:

- ▶ Integrated Wi-Fi module for call forwarding to smartphones via free G2Call+ app

Door openers

The main characteristics of the door openers are:

- ▷ Housing made of light alloy of 2mm. thickness
- ▷ Adjustable bolt up to 5mm
- ▷ Unlocking function on E models, which allows the door to be opened at any time by simply pushing on it

Three mechanical operating modes:

- ▷ Normal, which allows the door to be opened while holding down the door opening pushbutton. In systems with digital installation, the electric lock release is activated for a period of time with a single push.
- ▷ Normal inverse, the electric lock release is activated when the power supply is disconnected
- ▷ Automatic, which unlocks the electric lock release with a single press and locks again when the door is closed.

Open door detection contacts
Triple contact

Security

door openers

When the door is closed, a bolt goes through the door frame, preventing it from being forced open, e.g. by using a card. They are certified for emergency exits according to EN 179.

Made of stainless steel and available for 35mm and 50mm doors

REFERENCE	CODE	VOLTAGE (POWER CONSUMPTION)	
		12Vac	12Vdc
CV-14 SEGUR 35	20600250	820mA	1.120mA
CV-14 SEGUR 50	20600251	820mA	1.120mA

Colmar

Power supplies

POWER SUPPLIES

FA-G2+

12240100

Power supply for G2+ systems
Up to 4 outdoor panels with 32 monitors or 128 audio units
30VDC/1.5A output with 110 and 240VAC power supply.
138(W) x 90(H) x 60(D) mm (8 DIN)

FA-ART 7W

12240170

Power supply
For monitors on systems with more than one ART 7W/G2+ monitor
24VDC/1A output with power supply between 100 and 240VAC.
55(W) x 84(H) x 54(D) mm (3 DIN)

HRF-12/1,25A

10900012

Power supply
For local powering of IPG+ devices
12VDC/1.25A output with power supply between 85 and 264VAC.
18(W) x 90(H) x 60(D) mm (1 DIN)

FA-DC48/G+

12340105

Power supply
For DCP-G+/48 injector
48VDC/2A output with power supply between 100 and 240VAC.
140(W) x 90(H) x 60(D) mm (8 DIN)

TRANSFORMERS

TF-104

20691040

Transformer
12VAC output with 230VAC / 18VA power supply. / 18VA.
52(W) x 90(H) x 60(D) mm (3 DIN)

48VDC POE SWITCHES

SW-104

31600238

4-port 10/100Mbps PoE switch
2 Uplink 10/100Mbps ports
1.6Gbps bandwidth
80W output power (max. 30W per port)
100 to 240VAC power supply.
190(W) x 32(H) x 130(D) mm

SW-108

31600239

8-Port PoE 10/100Mbps PoE Switch
2 Uplink 10/100Mbps ports
2Gbps bandwidth
150W output power (max. 30W per port)
100 to 240VAC power supply.
210(W) x 32(H) x 140(D) mm

SW-116

31600240

16-port PoE 10/100Mbps PoE switch
2 Uplink 10/100/1000Mbps ports
1 SFP 10/100/1000Mbps port
24Gbps bandwidth
300W output power (max. 30W per port)
100 to 240VAC power supply.
295(W) x 45(H) x 190(D) mm

SW-124

31600241

24-port PoE 10/100Mbps Switch
2 Uplink 10/1000Mbps ports
2 SFP 10/100/1000Mbps ports
20Gbps bandwidth
500W output power (max. 30W per port)
100 to 240VAC power supply.
440(W) x 45(H) x 290(D) mm

Accessories

RELAY UNITS

SAR-G2+

12258965

Relay unit for G2+ systems
For activation of external devices connected to the bus (staircase lights, door openers, ...)
Three-contact output relay
Input for remote activation push button
12VDC output.
Bus power supply
69(W) x 90(H) x 45(D) mm (4 DIN)

SAR-G+

12358965

Ethernet relay unit for IPG+ systems
For activation of external devices connected to the network (staircase lights, door openers, ...)
Three-contact output relay
Input for remote activation push button or alarm connection
12VDC output.
Power supply PoE 48VDC or local power supply at 12VDC.
69(W) x 90(H) x 45(D) mm (4 DIN)

SAR-12/24

11291012

Relay unit
12 to 24VAC or DC input.
For activation of external devices (staircase lights, door openers, ...)
Three-contact output relay
69(W) x 90(H) x 45(D) mm (4 DIN)

LCU-16/G+

12380616

Lift controller for IPG+ systems
Up to 16 floors expandable to 96 (using 6 units)
Wiegand input for external access control
210(W) x 100(H) x 30(D) mm (12 DIN)

EXPANSION ACCESSORIES

DPM-G2+

12258955

Switching unit for four door stations
For G2+ systems
69(W) x 90(H) x 45(D) mm (4 DIN)

DQ-IPCAM-G2+

12458990

16 IP camera connection unit
Control from G2+ monitors (except ART 4 XLite)
ONVIF protocol
140(W) x 90(H) x 30(D) mm (8 DIN)

RD-G2+

12258960

Digital repeater for G2+ systems
For system expansion in groups of 32 monitors
For indoor system buildings with general panels
For increasing the distance between devices
Requires FA-G2+ power supply
69(W) x 90(H) x 45(D) mm (4 DIN)

CABLES

RAP-GTWIN/HF

20160031A

Cable for installations with G2+ technology
2 x 1.00 mm conductor²
Outer diameter 6.6 mm
Sales unit: 100 m reel

RAP-GTWIN/HF 500M

20160033A

Cable for installations with G2+ technology
2 x 1.00 mm conductor²
Outer diameter 6.6 mm
Sales unit: 500 m reel

UTP-CAT6

31600300

Cable for installations with IPG+ technology
Outer diameter of 6 mm
Sales unit: 305 m reel

M-8C

20120080

Cable for 4+n installation branches
8 conductors of 0.20mm²
5 mm outer diameter
Sales unit: 100 m reel

INSULATING GEL

SEAL BIT +

20630001

Single component insulating gel
For protection of electrical and electronic components
Special for low temperatures
280 ml cartridge

SEAL BIT 2+

20630002

Two-component insulating gel
For protection of electrical and electronic components
Two 500 ml bottles to be mixed together

iP-Opener

| access control solutions

iP-Opener is a scalable system that allows you to create installations of any size. Powerful and modular, it uses the latest encryption technology to allow you to secure your doors with efficiency and simplicity.

iP-Opener is a networked access control solution, which connects to a remote cloud service (www.ip-opener.com), allowing you to manage the site, obtain logs and monitor all events in real time remotely. It is also possible to apply new configurations, add credentials or modify permissions to groups of users as if connected locally on the network. It has a facilities booking service module, which, through the resident's portal, allows the creation of restricted access

areas, depending on occupancy and availability, such as gyms, paddle tennis courts, sports areas... iP-Opener provides numerous functions such as: zone management, reflexes, anti-pass back, among others, that allow programming the logics and routines that the area may require. The powerful management software allows these and more functionalities, which are programmed in a simple and intuitive way.

Residential

iP-Opener fits perfectly into residential projects, from building complexes to BTR (build-to-rent) projects.

Healthcare

The iP-Opener range especially enhances security and access control in the sanitary sector, from assisted living homes, elderly housing, clinics to large hospitals.

Service sector

Secure and manage access in industries, offices, student campuses as well as in the hospitality sector, restaurants and hotels.

IP-OPENER CONTROLLERS

**GM-IPOP-1P**

20780200

GM-IPOP-2P-WIEG

20730002

GM-IPOP-4P

20780202

Three controller models:

- 1 non-expandable access (1P model) with 2SAFE protocol
- 2 accesses (model 2P-WIEG), expandable to 6, with Wiegand 26 protocol
- 4 accesses (model 4P), expandable to 6, with 2SAFE protocol

Remote programming and management through the iP-Opener Manager web environment

Network connection by TCP/IP or RS485

Verification by PIN, RFID, Bluetooth, QR, UHF or RF

Capacity for up to 100,000 users and storage of up to 20,000 events

48VDC/2A output relay(s) (NO, C, NC)

Input(s) for remote activation button(s)

Installation in metal cabinet (not included)

12VDC/1.5A power supply

198(W) x 90(H) x 34(D) mm (11DIN)

**GM-IPOP-EXP2P**

20780211

2 access expansion module

For GM-IPOP-4P controller

Plug-in installation on the controller

198(W) x 70(H) x 26(D) mm (11DIN)

**GM-IPOP-EXP4PW**

20730001

4 access expansion module

For controller GM-IPOP-2P-WIEG

Plug-in installation on the controller

198(W) x 70(H) x 26(D) mm (11DIN)

**GM-IPOP-EXP12E**

20780213

12-input expansion module

Plug-in installation on the controller

198(W) x 70(H) x 26(D) mm (11DIN)

**GM-IPOP-EXP12S**

20780212

12-output expansion module

48VDC/1A or 24VDC/5A output relays (NO, C, NC)

Plug-in installation on the controller

198(W) x 70(H) x 26(D) mm (11DIN)

**GM-IPOP-10E-RS485**

20730007

10-input expansion module

Installation via RS485 with the controller

200(W) x 90(H) x 34(D) mm (11DIN)

**GM-IPOP-10S-RS485**

20730004

10-outputs extension module

48VDC/1A or 24VDC/5A output relays (NO, C, NC)

Installation via RS485 with the controller

200(W) x 90(H) x 34(D) mm (11DIN)

ACCESSORIES FOR IP-OPENER CONTROLLERS

**GM-PSIPOP-S** 20700080

Metal cabinet with lock
Capacity for one controller, one expansion module and one BAT-7A battery
12Vdc/3.5A power supply included
Tamper alarm
200(W) x 230(H) x 82(D) mm

**GM-PSIPOP-M** 20700023

Metal cabinet with lock
Capacity for 2 controllers, 2 expansion modules and one BAT-7A battery
12Vdc/3.5A power supply included
Tamper alarm
456(W) x 342(H) x 100(D) mm

**GM-PSIPOP-G** 20780125

Metal cabinet with lock
Capacity for 4 controllers, 4 expansion modules and one BAT-7A battery
12Vdc/7A power supply included
Tamper alarm
456(W) x 505(H) x 100(D) mm

**RES-IPOP** 20710501

Module for activation of the booking management function

**BAT-7A** 21090070

12Vdc/7Ah rechargeable battery
Maintenance-free lead acid
Weight: 2.700gr
Without lockable metal cabinet
151(W) x 91(H) x 65(D) mm

EASYGATE CONTROLLERS

**EASYGATE** 20740440

Non-expandable 1-access controller with 2SAFE protocol
Only for proximity reader with 2SAFE protocol. BLE feature cannot be used.
Local management via master card or remote management via web environment
No internet connection required for remote management
Capacity for up to 2,000 users
Relay output (NO, C, NC)
12/24VAC or DC power supply.
70(W) x 75(H) x 19(D) mm

**EASYGATE-RF** 20730005

Non-expandable 2-access controller with 2SAFE protocol
Only for proximity reader with 2SAFE protocol. BLE feature cannot be used.
Built-in radio frequency receiver for GM-WEIPOP and GM-WEIPOP MF+ controllers
Local management via master card or remote management via web environment
No internet connection required for remote management
Capacity for up to 2,000 users
Output relays (NO, C, NC)
Inputs for remote activation button
12/24VAC or DC power supply.
120(W) x 100(H) x 45(D) mm

2SAFE DEVICES

**GM-SRIPOP**

20780205

Proximity reader 13,56MHz with 2SAFE protocol
 For iP-Opener and EASYGATE controllers
 Status indicator light
 Indoor wall installation
 78(W) x 78(H) x 18(D) mm
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers

**GM-IPOP 40**

20720004

13,56MHz proximity reader and Bluetooth with 2SAFE protocol
 Vandal-proof and waterproof housing
 For iP-Opener and EASYGATE controllers
 Status indicator lights
 Outdoor wall installation
 47(W) x 90(H) x 23(D) mm
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and remotes
 Bluetooth activation via K-APP mobile application (requires BLE points)

**GM-MRIPOP**

20780204

Proximity reader 13,56MHz with 2SAFE protocol
 For iP-Opener and EASYGATE controllers
 Status indicator light
 Indoor wall installation
 43(W) x 78(H) x 17(D) mm
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers

**GM-IPOP 80**

20720005

13,56MHz proximity reader and Bluetooth with 2SAFE protocol
 Vandal-proof and waterproof housing
 For iP-Opener and EASYGATE controllers
 Status indicator lights
 Outdoor wall installation
 85(W) x 90(H) x 25(D) mm
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers
 Bluetooth activation via K-APP mobile application (requires BLE points)

**GM-ORIPOP**

20780214

Proximity reader 13,56MHz with 2SAFE protocol
 For iP-Opener and EASYGATE controllers
 Status indicator light
 Outdoor wall installation
 45(W) x 100(H) x 16(D) mm
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and remotes

**GM-IPOP CHAMP**

20720007

Proximity reader 13,56MHz with 2SAFE protocol
 For iP-Opener and EASYGATE controllers
 Status indicator light
 Embedded installation in front panels
 Diameter of fretwork: 25.5 mm
 43(Ø) x 7(D) mm
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers

**GM-IPOP 80D**

20720006

13,56MHz proximity reader and Bluetooth with 2SAFE protocol
 Illuminated keypad for PIN code access
 Vandal-proof and waterproof housing
 For iP-Opener and EASYGATE controllers
 Status indicator lights
 Outdoor wall installation
 85(W) x 90(H) x 25(D) mm
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers
 Bluetooth activation via K-APP mobile application (requires BLE points)

**GM-IPOP-SQ40**

20720022

13,56MHz proximity reader and Bluetooth with 2SAFE protocol

Vandal-proof and waterproof housing

For iP-Opener and EASYGATE controllers

Status indicator light

Embedded installation in front panels

Dimensions: 40(W) x 40(H) x 2(D) mm

60(W) x 60(H) x 16(D) mm

Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers

Bluetooth activation via K-APP mobile application (requires BLE points)

**GM-KR-IPOP**

20780215

Keypad for PIN code access with 2SAFE protocol

Vandal-proof and waterproof housing

For iP-Opener controllers

Status indicator light

Illuminated keypad with Braille marking

Installation via embedding box included

Embedded: 95(W) x 125(H) x 40(D) mm

External: 100(W) x 135(H) mm

**VIS-GM-KR-IPOP**

20700135

Keypad visor GM-KR-IPOP

**EL4500/2SAFE**

11814505

13,56MHz proximity reader and Bluetooth with 2SAFE protocol

For iP-Opener and EASYGATE controllers

Status indicator light

Installation in N3xx1/AL and NX3xx1 modules of Nexa panels

Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers

Bluetooth activation via K-APP mobile application (requires BLE points)

**S3501/2SAFE**

12583505

13,56MHz proximity reader and Bluetooth with 2SAFE protocol

For iP-Opener and EASYGATE controllers

Status indicator light

Installation on Supra panels (1/2 height)

Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and controllers

Bluetooth activation via K-APP mobile application (requires BLE points)

**GM-WRIPOP**

20780209

868MHz radio frequency receiver with 2SAFE protocol

For iP-Opener controllers

IP67 protection rating

Outdoor wall installation

91(W) x 155(H) x 34(D) mm

Compatible with GM-WEIPOP and GM-WEIPOP MF+ controls

**ANT-WRIPOP**

20700100

Passive external antenna for GM-WRIPOP receiver

NEW

WCONTROL

Single door controller with Wi-Fi connectivity

tuya

LOCAL MODE

- ▷ Card/key fob acquisition mode
- ▷ Data transfer between controllers

TUYA APP

- ▷ Remote opening
- ▷ User management
- ▷ Creation of single-use and temporary access codes
- ▷ Alarm notification, call button, ...
- ▷ Event monitoring

WCONTROL

20730010

Non-expandable 1-access controller with WIEGAND protocol

Wi-Fi connectivity

Status indicator lights

Requires internet connection for use through the TUYA app

Compatible with KEYBUS SE and BLE-S readers

Local activation via readers or remote activation via TUYA app

Capacity for up to 1,000 (local programming) or 500 users (remote programming via TUYA app)

Relay output (NO, C, NC)

Requires 12Vdc power supply.

48(W) x 91(H) x 20(D) mm

KIT-KEYBUSW

20700150

Access control kit with proximity reader and numeric keypad

20730010	WCONTROL controller for 1 access
20720001	Proximity reader with numeric keypad KEYBUS SE
10900012	HRF-12/1,25A power supply unit

KIT-BLESW

20700151

Access control kit with proximity reader

20730010	WCONTROL controller for 1 access
20720003	BLE-S proximity reader
11812100	3 NFC/US cards
11812125	3 TAGNFC/US key fobs
10900012	HRF-12/1,25A power supply unit

WIEGAND 26 DEVICES

**BIO-N**

20720012

Stand-alone access control by fingerprint and proximity reader 125KHz
 Capacitive fingerprint sensor
 Wiegand 26 output for connection to iP-OPENER controller
 Light and acoustic indicator of operation
 Up to 899 user cards and 99 fingerprints
 Optional access control deactivation after entering 10 consecutive wrong fingerprints
 1 relay output (NO, C, NC) for door, with input for remote activation
 Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)
 Tamper alarm
 Power supply by controller and 12 or 18VDC in stand-alone mode
 Compatible with PROKEY ID cards and TAGKEY ID key fobs
 IP66 protection rating
 Embedded installation through AP-1 box or wall mount installation through SBOX-PBL or SBOX-MT boxes
 Also available for Supra (page 62) and Nexa (page 79)
 86(W) x 86(H) x 25(D) mm

**CODEPROX-N**

20720011

Stand-alone access control via keypad and proximity reader 125KHz
 Wiegand 26 output for connection to iP-OPENER controller (fingerprint management excluded)
 Light and acoustic indicator of operation
 Up to 990 users between codes and cards
 Optional deactivation of access control after entering 10 consecutive wrong codes
 1 relay output (NO, C, NC) for door, with input for remote activation
 Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)
 Tamper alarm
 Power supply by controller and 12 or 18VDC in stand-alone mode
 Compatible with PROKEY ID cards and TAGKEY ID key fobs
 IP66 protection rating
 Embedded installation through AP-1 box or wall installation through SBOX-PBL or SBOX-MT boxes
 Also available for Supra (page 62) and Nexa (page 79)
 86(W) x 86(H) x 25(D) mm

**SBOX-PBL**

20700021

Plastic surface box
 For BIO-N and CODEPROX-N access controls
 88(W) x 88(H) x 30(D) mm

**SBOX-MT**

20700022

Metal surface box
 For BIO-N and CODEPROX-N access controls
 88(W) x 88(H) x 30(D) mm

**AP-1**

20363401

Embedding box
 For BIO-N and CODEPROX-N access controls
 81(W) x 81(H) x 60(D) mm

WIEGAND 26 DEVICES

**KEYBUS SE**

20720001

Stand-alone access control via keypad and dual proximity reader (125KHz and 13,56MHz)

Wiegand 26 output for connection to iP-OPENER and WCONTROL controllers

Light and acoustic indicator of operation

Up to 2,000 users

Optional access control lockout after entering 10 consecutive wrong codes or bad cards

1 relay output (NO, C, NC) for door, with input for remote activation

Programmable activation time (1 to 99 seconds)

Tamper alarm

Controller power supply and 12 to 24VDC in stand-alone mode

Compatible with Golmar 13,56MHz and 125KHz cards, keyfobs and keyfobs

IP68 protection rating

Outdoor wall installation

83(W) x 170(H) x 26(D) mm

**BLE-S**

20720003

Access control by dual proximity reader (125KHz and 13,56MHz)

Wiegand 26 output for connection to iP-OPENER and WCONTROL controllers

Light and acoustic indicator of operation

Powered by controller

Compatible with Golmar 13,56MHz and 125KHz cards, keyfobs and remotes

IP65 protection rating

Outdoor wall installation

48(W) x 100(H) x 23(D) mm

**BKEY SE**

20720021

Stand-alone access control by fingerprint and keypad

Optical fingerprint sensor

Wiegand 26 output for connection to iP-OPENER controller (fingerprint management excluded)

Light and acoustic indicator of operation

Up to 1.000 users per fingerprint and 1.000 per code

Optional access control deactivation after entering 10 consecutive wrong fingerprints

1 relay output (NO, C, NC) for door, with input for remote activation

Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)

Tamper alarm

Power supply by controller and 12Vdc in stand-alone mode

IP66 protection rating

Outdoor wall installation

58(W) x 137(H) x 26(D) mm

AIO-KEY

20720014

Stand-alone access control via keypad, fingerprint and dual proximity reader (125KHz and 13,56MHz)

Wi-Fi connectivity for remote activation via TUYA app (standalone mode only)

Wiegand 26 output for connection to iP-OPENER controller (fingerprint management excluded)

Light and acoustic indicator of operation

Up to 100 users per fingerprint, 888 per code or 500 with TUYA app

Optional access control lockout after entering 10 consecutive wrong codes or bad cards

1 relay output (NO, C, NC) for door, with input for remote activation

Programmable activation time (1 to 99 seconds)

Tamper alarm

Controller powered and 12 to 18Vdc in standalone mode

Compatible with Golmar 13,56MHz and 125KHz cards, keyfobs and remotes

IP66 protection rating

Outdoor wall installation

44(W) x 148(H) x 22(D) mm

GM-QRX3

20720051

Stand-alone access control by keypad, QR code and 13,56MHz proximity reader

Wiegand 26 output for connection to iP-OPENER controller

Light and acoustic indicator of operation

Power supply by controller and 12Vdc in stand-alone mode

Compatible with Golmar 13,56MHz cards, key fobs and remotes

IP66 protection rating

Outdoor wall installation

73(W) x 120(H) x 19(D) mm

GM-QRX2

20720050

Stand-alone access control using QR code and 13,56MHz proximity reader

Wiegand 26 output for connection to iP-OPENER controller

Light and acoustic indicator of operation

Power supply by controller and 12Vdc in stand-alone mode

Compatible with Golmar 13,56MHz cards, key fobs and remotes

Indoor wall installation

86(W) x 86(H) x 10(D) mm

CODEPROX-WL

20720015

Radio access control via keypad and proximity reader 13,56MHz

Receiver with Wiegand 26 output for connection to iP-OPENER controllers

20 m range in open field

Light and acoustic indicator of operation

Powered by controller (receiver) and 3 AAA batteries (transmitter, not included)

Compatible with Golmar cards, key fobs and 13,56MHz remotes

IP65 protection rating (transmitter)

Outdoor wall installation

55(W) x 134(H) x 20(D) mm

STAND-ALONE DEVICES

KEYPAD/P 20740429

KEYPAD/Z 20740428

Stand-alone access control via numeric keypad
IK10 vandal-resistant housing (Z model)
LED and acoustic operation indicators
Up to 100 user codes
2 relay outputs (NO, C, NC), with 1 input for remote activation
Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)
12/24VAC or DC power supply.
IP65 protection rating
Outdoor wall installation
83(W) x 120(H) x 36(D) mm

PROXEM 20720009

Stand-alone access control by proximity reader
125KHz
Light and acoustic indicator of operation
Up to 2,000 users
Optional deactivation of access control after entering 10 consecutive wrong codes
1 relay output (NO, C, NC) for door, with input for remote activation
Programmable activation time (1 to 99 seconds) and output mode (pulse or steady)
Power supply from 9 to 18Vdc.
Compatible with PROKEY ID cards and TAGKEY ID key fobs
IP66 protection rating
Outdoor wall installation
48(W) x 103(H) x 19(D) mm

STAND-ALONE RADIO DEVICES

**TRO**

20760308

1-channel expansion card
For REC and WAVE 500-2 receivers

**ACT**

20769030

Coverage extension antenna
For REC and WAVE 500-2 receivers

EMITTER CONTROLS

**GM-WEIPOP**

20780210

GM-WEIPOP MF+

20710025

4-channel transmitter at 868MHz
Proximity 13,56MHz MIFARE+ (MF+ model)
Push buttons with Braille marking and push button indicator lamp
Compatible with GM-WRIPOP receiver and 2SAFE protocol readers
Range up to 100 m in open field
Powered by CR2032 battery (included)
38(W) x 77(H) x 11(D) mm

Discover the latest version of our GM-WEIPOP MF+ transmitter with 13.56MHz RF and proximity technology, further enhancing the security and reliability of access control systems.

The main upgrade is its **MIFARE+ encryption**, which integrates the robust Crypto-1.AES 128, providing a **higher level of security against threats and unauthorized access.**

Like its previous version, it remains compatible with GM-WRIPOP RF receivers and readers with 2SAFE technology.

PROXIMITY CARDS AND KEY FOBs

**ISOPROX**

20750500

13,56MHz proximity card
MIFARE Classic technology
Without customization
Unit of sale: 6

**CARDDOOR MF+**

20710009

13,56MHz proximity card
MIFARE+ Technology
AES128 encryption with 2SAFE protocol
Unit of sale: 10

**ISOPROX-PER BN/1C**

20710002

13,56MHz proximity card
MIFARE Classic technology
Black and white personalization on one side
Sales unit: 100

**TAGDOOR MF+**

20780208

TAGDOOR MF+ BLUE

20710011

TAGDOOR MF+ RED

20710012

TAGDOOR MF+ GREEN

20710013

TAGDOOR MF+ ORANGE

20710014

TAGDOOR MF+ YELLOW

20710015

TAGDOOR MF+ WHITE

20710020

Proximity key fob 13,56MHz
MIFARE+ Technology
AES128 encryption with 2SAFE protocol
35(W) x 48(H) x 7(D) mm
Sales unit: 20

**ISOPROX-PER BN/2C**

20710004

13,56MHz proximity card
MIFARE Classic technology
Personalization in black and white on two sides
Sales unit: 100

**ISOPROX-PER COL/1C**

20710003

13,56MHz proximity card
MIFARE Classic technology
One-sided color personalization
Sales unit: 100

**TAGDOOR-4K-EV**

20710010

Proximity key fob 13,56MHz
MIFARE+ Technology
AES128 encryption with 2SAFE protocol
Allows up to 100 events to be stored in
EASYGATE controller
35(W) x 48(H) x 7(D) mm
Sales unit: 20

**ISOPROX-PER COL/2C**

20710005

13,56MHz proximity card
MIFARE Classic technology
Two-sided color personalization
Sales unit: 100

**KEYPROX SE**

20710016

Proximity key fob 13,56MHz
MIFARE Classic technology
35(W) x 48(H) x 7(D) mm
Sales unit: 20

**PULDOOR MF+**

20710001

13,56MHz proximity bracelet
MIFARE+ Technology
AES128 encryption with 2SAFE protocol
Special for sports activities
Sales unit: 100

PUNTOS BLE 20710510

Points for use of BLE function in iP-OPENER controllers
Allows access via smartphone
Requires K-APP App (available on Android and iOS)
Unit of sale: 50

NFC/US 11812100

13,56MHz proximity card
Customised with Golmar logo

TAGNFC/US 11812125

Proximity key fob 13,56MHz
Customised with Golmar logo
32(W) x 40(H) x 4(D) mm

PROKEY ID 20710008

125KHz proximity card
Customised with Golmar logo

TAGKEY ID 20710007

Proximity key fob 125KHz
Customised with Golmar logo
32(W) x 40(H) x 4(D) mm

NEOKEY 20760401

Proximity key fob 125KHz
Only for CITYPROX-7M reader
36(W) x 47(H) x 11(D) mm

CARD AND KEY FOB PROGRAMMERS

GM-USBIPOP 20780206

Card and key fob programmer
Connection to computer via USB port
Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and remotes
118(W) x 135(H) x 34(D) mm

GM-USB-125 20700130

Card and key fob programmer
Connection to computer via USB port
Compatible with PROKEY ID and TAGKEY ID cards and key fobs
97(W) x 63(H) x 14(D) mm

POWER SUPPLIES

TF-104 20691040

12VAC transformer
230VAC / 18VA power supply
52(W) x 90(H) x 60(D) mm (3 DIN)

HRF-12/1,25A 10900012

12VDC/1.25A power supply unit
Power supply between 85 and 264VAC.
18(W) x 90(H) x 60(D) mm (1 DIN)

PSU-121B 31690146

12VDC/1.3A power supply unit
Power supply between 88 and 264VAC.
51(W) x 28(H) x 63(D) mm

12VAC-DC-CONV 20700037

12VAC to 12VDC converter.
Input voltage between 10 and 28VAC.
Output voltage 12VDC/2A
46(W) x 32(H) x 19(D) mm

UHF IDENTIFICATION

**GM-UHF-LR**

20720041

Long range UHF antenna (902 - 928MHz)
 Wiegand 26 output for connection to iP-
 OPENER controllers
 Stable reading distance between 7 and 9 m
 Includes 12Vdc local power supply.
 IP65 protection rating
 Includes clamp and screws for pole mounting
 445(W) x 445(H) x 40(D) mm

**GM-UHF-WINDSHIELD**

20710043

Plastic UHF windshield label
 111(W) x 45(H) mm
 Unit of sale: 10

**GM-UHF-CARD**

20710040

UHF Card

**GM-UHF-PULDOOR**

20710044

UHF wristband
 Unit of sale: 10

**GM-UHF-LABEL**

20710041

UHF Plastic Tag
 74(W) x 22(H) mm
 Unit of sale: 10

**GM-USB-UHF**

20700101

UHF programmer / credential reader
 Connection to computer via USB port
 107(W) x 107(H) x 23(D) mm

**GM-UHF-LAUNDRY**

20710042

UHF plastic garment tag
 74(W) x 15(H) mm
 Unit of sale: 50

WIRELESS HANDLES

H100B8R-EU

20700044

Right hand wireless handle

**H100B8L-EU**

20700043

Left hand wireless handle

Wireless handles with 13,56MHz proximity reader
 IEEE 802.15.4 (2.4 GHz) radio standard with Aperio protocol and AES128 encryption
 Requires AH30 HUB hub
 Operation indicator light
 Powered by CR123A battery (included), with a life of 30 openings per day for 4 years
 Installation on wooden, steel and tubular interior doors with European (DIN) locks, as well as glass doors
 For door leaves from 35 to 80 mm thick with 7 or 8 mm shafts
 EN 1634 certified for fire doors
 Compatible with Golmar MIFARE Classic and MIFARE+ cards, key fobs and remotes

**HUB AH30**

20700040

Concentrator for up to 64 wireless handles with Aperio protocol
 Distance between handle and concentrator up to 25 m (82 ft)
 Connection to iP-OPENER controllers via RS485
 Indoor installation via universal embedding box (not included)
 82(W) x 82(H) x 37(D) mm

**500ZB-RD-USB**

20700042

USB adapter
 For pairing Aperio devices

**APERIO-IPOP**

20710517

License to use Aperio on iP-OPENER controllers
 Requires one license per controller

**500ZB-EXTANT**

20700041

Coverage extension antenna
 For HUB AH30 hub

PUSH BUTTONS AND SWITCHES

**DUALB-N**

20700125

Dual output push button (mechanical or proximity push)
Adjustable reading range from 3 to 20 cm
Indicator light
1 relay output (NO, C, NC)
12 to 24Vdc power supply in stand-alone mode
Indoor wall installation by means of PB-SBOX-SN surface box
40(W) x 115(H) x 33(D) mm

**TLB-SQ-SS**

20700027

Proximity exit push button
Stainless steel AISI304
Adjustable reading range from 5 to 15 cm
Indicator light
1 relay output (NO, C, NC)
12 to 24Vdc power supply in stand-alone mode
IP68 protection rating
Outdoor wall installation by means of surface box PB-SBOX-SQ
86(W) x 86(H) x 25(D) mm

**TLB-N**

20700005

Proximity exit push button
Adjustable reading range from 5 to 15 cm
Indicator light
1 relay output (NO, C, NC)
12 to 24Vdc power supply in stand-alone mode
Indoor wall installation by surface box PB-SBOX-N
70(W) x 115(H) x 24(D) mm

**PB-N**

20700003

Mechanical exit push button
Output contact NO, C
Installation on internal metal profiles
28(W) x 91(H) x 25(D) mm

**TLB-SQ**

20700006

Proximity exit push button
Adjustable reading range from 5 to 15 cm
Indicator light
1 relay output (NO, C, NC)
12 to 24Vdc power supply in stand-alone mode
Indoor wall installation by means of surface box PB-SBOX-SQ
86(W) x 86(H) x 24(D) mm

**PB-SQ**

20700004

Mechanical exit push button
Output contact NO, C
Indoor wall installation by means of surface box PB-SBOX-SQ
86(W) x 86(H) x 25(D) mm

**PB-N-SS**

20700026

Mechanical exit push button
Stainless steel AISI304
Output contact NO, C
Indoor wall installation by means of PB-SBOX-SN surface box
40(W) x 115(H) x 25(D) mm

**TLB-N-SS**

20700028

Proximity exit push button
Stainless steel AISI304
Adjustable reading range from 5 to 15 cm
Indicator light
1 relay output (NO, C, NC)
12 to 24Vdc power supply in stand-alone mode
IP68 protection rating
Outdoor wall-mounted installation using PB-SBOX-N surface-mounted box
70(W) x 115(H) x 24(D) mm

**PB-SQ-SS**

20700025

Mechanical exit push button
Stainless steel AISI304
Output contact NO, C
Indoor wall installation by means of surface box PB-SBOX-SQ
86(W) x 86(H) x 25(D) mm

PB-SETA-N 20700030

Mushroom-type mechanical exit push button
Stainless steel AISI304
Output contact NO, C, NC
Indoor wall installation by surface box PB-SBOX-N
70(W) x 115(H) x 25(D) mm

KS-SQ 20700010

Mechanical key switch
Including 2 keys
Output contact NO, C, NC
Indoor wall installation by means of surface box PB-SBOX-SQ
86(W) x 86(H) x 30(D) mm

PB-SETA-SQ 20700029

Mushroom-type mechanical exit push button
Stainless steel AISI304
Output contact NO, C, NC
Indoor wall installation by means of surface box PB-SBOX-SQ
86(W) x 86(H) x 25(D) mm

PB-SBOX-SN 20700032

Metal surface-mounted box for exit push button
45(W) x 115(H) x 28(D) mm

PB-SBOX-SQ 20700034

Metal surface-mounted box for exit push button
86(W) x 86(H) x 28(D) mm

PB-SBOX-N 20700033

Metal surface-mounted box for exit push button
70(W) x 115(H) x 28(D) mm

GM-PEV-EM-SE 20700031

Mechanical evacuation push button with interlocking device
Key-operated reset
Trip indication pop-up tab
Output contact NO, C, NC
Indoor wall installation
92(W) x 97(H) x 59(D) mm

HES-125 20700007

HES-1356 20700008

Proximity card switch
Compatible with Golmar 125KHz (HES-125) and 13,56MHz (HES-1356) cards
Switching at 230VAC.
Indoor flush-mount installation via universal box (not included)
86(W) x 86(H) x 35(D) mm

Reference	Code	Description
ALT-NEXA	19950127	Nexa panel loudspeaker. 8 ohms / 40 mm
ALT-STADIO	19950126	Loudspeaker for Stadio panels. 8 ohms / 2"
AUR-ART 4TH/G2+	19950153	Handset for ART monitors and central concierge units
AUR-T-ART/G2+	19950151	Handset for T-ART telephones
AUR-TK/H	19920179	Handset for Tekna monitors with 3.5" display. Textured finish
AUR-TK/SLIM	19950146	Handset for Tekna S monitors with 4.3" screen. Polished finish
AUR/T-500	19950150	Pack of 2 handsets for 500 series phones. Textured finish
BORNAS-G2+	19950167	Set of 3 removable connection terminals. For DIN devices with G2+ technology
BORNAS-GB2	19950118	Set of 5 removable connection terminals. For DIN devices with GB2+ technology
CAB-NEXA	19950100	Upper and lower closing headers for Nexa panel
CAR-TK/PLUS	19950136	Housing for Tekna and Platea Plus monitors with 3.5" display
CORD-ART/G2+	19950152	Telephone cord for ART telephones, monitors and guard units
CORD-ART RJ11	19929940	Telephone cord for all series of telephones and monitors (except ART models)
CRT-NEXA/G2+	19950148	Camera mask covers for Nexa panel (2 units). G2+ and G+ technologies
CRT-NX632	19950130	Camera mask covers for Nexa panel (3 units). Plus, Vista Plus, GB2 and GTwin technologies
EL502	11798502	DC/AC converter module for Stadio panels
EL562	11780562	Twisted pair video receiver module for Tekna Plus and Platea Plus monitors. Sales unit: 5
EL562S	11780564	Twisted pair video receiver module for Tekna S Plus monitor. Sales unit: 5
FA-22/122/372	19950144	Power supply for Surf video kits
LAMP 24ST	19921546	Push-button illumination bulb for Stadio panels. 24V/3W. Sales unit: 25
LTG-BNX	19950133	Digital module connection cable for Nexa panels. Length: 500 mm.
MIC-60	19921550	Microphone with rubber holder for 60 Series panels
MIKRA-SPARE	19950099	Front housing for Mikra panel
PUL-NEXA D	19950102	Double push-button with label holder for Nexa panels
PUL-NEXA S	19950101	Single push-button with label holder for Nexa panels
PUL-ROCK INOX	19950111	Single push-button with label holder for Rock Inox panels
PUL-S90 N	19921568	Individual black push-button with label holder for Series 90 panels
PUL-STADIO D	19921565	Double push-button with label-holder for Stadio panels
PUL-STADIO S	19921571	Single push-button with label holder for Stadio panels
R-1000/AL	19981000	Stadio panel video grille module. Without push-buttons
R-1001/AL	19981001	Stadio panel video grille module. Without push-buttons. Informative window module
R-1110/AL	19981110	Stadio panel video grille module. 1 push-button
R-1111/AL	19981111	Stadio compact video module with closing headers. 1 push-button
R-1121/AL	19981121	Stadio compact video module with closing headers. 2 individual push-buttons
R-1150/AL	19981150	Stadio compact video module with closing headers. 5 single push-buttons
R-1220/AL	19981220	Stadio panel video grille module. 2 push-buttons
R-2000/AL	19982000	Stadio panel audio grille module. Without push-buttons
R-2001/AL	19982001	Stadio panel audio grille module. Without push-buttons. Informative window module
R-2110/AL	19982110	Stadio panel audio grille module. 1 push-button
R-2130/AL	19982130	Stadio compact audio module with closing headers. 3 individual push-buttons
R-2150/AL	19982150	Stadio compact audio module with closing headers. 5 single push-buttons
R-2210/AL	19982210	Stadio compact audio module with closing headers. 10 double push-buttons
R-2220/AL	19982220	Stadio panel audio grille module. 2 push-buttons

Reference	Code	Description
R-2260/AL	19982260	Stadio compact audio module with closing headers. 6 double push-buttons
R-3000/AL	19983000	Stadio panel blind module
R-3001/AL	19983001	Stadio panel small informative window module
R-3002/AL	19983002	Large Stadio panel informative window module
R-3110/AL	19983110	Module 1 push-button Stadio panel
R-3111/AL	19983111	Module 1 push-button Stadio panel. Informative window module
R-3120/AL	19983120	Module of 2 single push-buttons Stadio panel
R-3130/AL	19983130	Module of 3 individual push-buttons Stadio panel
R-3131/AL	19983131	Module of 3 individual push-buttons Stadio panel. Informative window module
R-3140/AL	19983140	Module of 4 individual push-buttons Stadio panel
R-3150/AL	19983150	Module of 5 individual push-buttons Stadio panel
R-3210/AL	19983210	Module of 10 double push-buttons Stadio panel
R-3220/AL	19983220	Module of 2 double push-buttons Stadio panel
R-3221/AL	19983221	Module of 2 double push-buttons Stadio panel. Informative window module
R-3240/AL	19983240	Module of 4 double push-buttons Stadio panel
R-3241/AL	19983241	Module of 4 double push-buttons Stadio panel. Informative window module
R-3260/AL	19983260	Module of 6 double push-buttons Stadio panel
R-3280/AL	19983280	Module of 8 double push-buttons Stadio panel
R-3403/AL	19953403	Coded module Stadio panel
R-600/AL	19980600	Upper and lower header for Stadio panels
R-A-490	19950163	Power supply for Series 90 digital systems
R-ACC-SUPRA	19950154	Screws, strips, hinge, screwdriver, retaining tabs and rear/front rubbers for Supra panels
R-CAM-GB2	19980162	Outdoor colour camera with 2-wire installation. GB2 technology
R-CAR-SOUL	19925401	Front housing for 1 push-button Soul panel
R-CAR-SOUL/B	19925401B	Front housing for 1-button Soul panel. Black colour
R-CD-NEXA/BT	19998195	Radio programmer for Nexa coded panels
R-CD-Plus/4N	19958196	Digital converter from Plus to 4+n technology
R-CETK-590 Plus	19969715	Central guard unit. Plus technology
R-D2L-GB2	19950162	Two-output video distributor. GB2 technology
R-D4L-PLUS	19988994	Four-output video distributor via coaxial cable. Plus and 90 Series Technologies
R-D4L-PLUS/RJ45	19988996	Four-output video distributor over twisted pair with RJ45 connection. DIN 4. Plus technology
R-D4L-R5	19958995	Four-output video distributor. Vista Plus Technology (R5)
R-D4L-R5R	19959001	Four-output video distributor. Reduced size. Vista Plus Technology (R5)
R-DP-CAM-GB2	19980261	Converter for external analog camera connection to EL642/GB2A audio modules. GB2 technology
R-DP-GB2A	19960162A	Switching unit for four panels (DIN 4). GB2 technology
R-EL3422/GB2	19903424	Display module for Nexa coded panels. GB2 technology
R-EL500/R5	19950505	Microprocessor module for Stadio push-button panels. Vista Plus Technology (R5)
R-EL500/V2PLUS	19950502	Microprocessor module for Stadio push-button panels. V2Plus technology
R-EL500TE	19950500A	Microprocessor module for Stadio push-button panels. Plus technology
R-EL512	19991512	Relay module for Stadio panels
R-EL516SE	19980526	Push-button encoder module for Stadio panels. Plus, Vista Plus(R5) and V2Plus technologies
R-EL531	19950531	Sound module with colour camera for Stadio panels. Plus, Vista Plus(R5) and V2Plus technologies
R-EL540	19950540	Sound module for Stadio panels. Plus, Vista Plus(R5) and V2Plus technologies

Reference	Code	Description
R-EL551	19930551	Sound module for Stadio panels. 4+n technology with electronic call. Several access doors
R-EL555	19980555	Sound module for Stadio panels. 4+n technology with electronic call or buzzer. One access door
R-EL560	19980560	Twisted pair video transmitter module for EL500 modules of Stadio panels. Plus technology
R-EL564	19998564	Coaxial to twisted pair video converter
R-EL620/2PLUS	19918620	Sound module for Nexa panels. 2Plus technology
R-EL632/GB2B	19930162B	Sound module with colour camera for Nexa panels. GB2 technology
R-EL632/PLUS	19917632	Sound module with colour camera for Nexa panels. Plus technology
R-EL632/R5	19915632	Sound module with colour camera for Nexa panels. Vista Plus Technology (R5)
R-EL642/PLUS	19917642	Sound module for Nexa panels. Plus technology
R-EL642/R5	19915642	Sound module for Nexa panels. Vista Plus Technology (R5)
R-EL732/PLUS-R5	19980635	Sound module with colour camera for Supra panels. Plus and Vista Plus technologies (R5)
R-FA-GB2/B	19940162B	Power supply. GB2 technology
R-FA-PLUS/C	19905107A	Power supply. Plus and Vista Plus technologies (R5)
R-FA-V2PLUS	19950164	Power supply. V2Plus technology
R-M-IP-GB2	19970362	Image memory module for Vesta 2SE monitors. GB2 technology
R-N3301/GB2	19903301	Keypad module for Nexa Aluminum coded panels. GB2 technology
R-N3401/GB2	19903401	Navigation and RFID reader module for Nexa Aluminum coded panels. GB2 technology
R-NHEA GB2	19920140	Nhea hands-free indoor unit. GB2 technology
R-NHEA PLUS SE	19900140	Nhea hands-free indoor unit. Plus technology
R-NX3301/GB2	19903302	Keypad module for Nexa Inox coded panels. GB2 technology
R-NX3401/GB2	19903402	Navigation module and RFID reader for Nexa Inox coded panels. GB2 technology
R-PENTHA GB2	19910241	Pentha hands-free monitor with 7" touch screen. GB2 technology
R-PVS-295 GRF COL	19939506A	Rock video panel with colour camera with 1 push-button. Plus technology
R-RD-GB2/A	19950262A	Digital repeater. GB2 technology
R-RD-PLUS/UNO TE	19998210	Digital repeater. Plus technology
R-S-45	19990045	Call repeater. V2Plus technology
R-SAR-GB2	19990100	Digital relay unit. GB2 technology
R-SOUL-4.3/LITE	19925505	Soul video panel with 1 push-button. G2+ technology
R-SU-R5	19990021	Relay unit for connection of second camera and door opener. Only for "SU-R5" monitors and telephones
R-SU3-PLUS	19905130	Three-panel switching unit. Plus technology
R-SZENA PLUS SE	19984026	Szena hands-free monitor with 3.5" display. Plus technology
R-T-530/R5	19905530	Replacement for the T-730/R5 telephone. Vista Plus Technology (R5)
R-T-540 PLUS SE	19905545	Replacement T-740 Plus and T-940 Plus phones. Plus technology
R-T-540 UNO SE	19905540	Replacement T-740 Uno and T-940 Uno phones. Plus technology
R-T-562	19920162	Digital telephone. GB2 technology
R-T-5720	19905720	Replacement for T-7720 phone. 2Plus technology
R-T-5822VD	19905533	Replacement of T-7720 and T-7822 VD phones. 2Plus and V2Plus technologies
R-TEKNA-HF R5	19942510	Tekna hands-free monitor with 4.3" screen. Vista Plus Technology (R5)
R-TEKNA-S PLUS	19942126	Replacement of Shiner, Platea and Tekna monitors. Plus technology
R-TEKNA-S R5	19942525	Replacement of Platea and Tekna monitors. Vista Plus Technology (R5)
R-VESTA2 SE GB2	19910139B	Vesta hands-free monitor with 4.3" screen. GB2 technology
R-VESTA7 SE GB2	19910140A	Vesta hands-free monitor with 7" screen. GB2 technology
RCTK-PLUS	11742080	Tekna monitor connection strip

Reference	Code	Description
SET-GB2	19995039	Wall mounting screws, installation connectors and cable with special functions for monitors with GB2 technology
SET-ROCK	19950124	Vandal-proof locking screws in different colours, special key, push-button and display for Rock panels
T-590VD	19950590	Replacement of T-840 and T-790VD telephones. 90 Series Technology
TEKNA 90 TE	19950142	Replacement of Shiner and Platea monitors. 90 Series Technology
TM-500N	20761050	User expansion card for REC receiver
TOR-CODE INOX	19950110	Fixing screws and screwdriver tip for coded Rock Inox panels
TOR-NEXA AL	19950125	Fixing screws and module separator for Nexa Aluminum panels
TOR-NEXA INOX	19950104	Fixing screws and screwdriver tip for Nexa Inox panels
VIS-90A	19921590	Informative window module for 90 Series panels
VIS-90V	19921591	Camera window for 90 Series panels
VIS-NEXA	19950103	Camera window for Nexa panels
VIS-ROCK INOX	19950112	Camera window for Rock Inox panels
VIS-ST	19950134	Camera window for Stadio panels. Includes adhesive gasket
VIS-STGR	19950131	Large informative window for Stadio panels
VIS-STIND	19950132	Small informative window for Stadio panels

Create your project

MAKE IT HAPPEN IN ONE CLICK

A simple and functional tool to design, visualise your project and obtain an estimate in a quick and accessible way.

Create your project

The easy and practical tool to create your project and get an offer in a simple and visual way

Create an account

Create Your Project is an intuitive tool for configuring residential door entry and video door entry projects, allowing to customise door panels, accessories and indoor units.

Registered users can download a PDF quote with images, diagram and links to products.

In addition, Golmar customers can modify the quotation, adapt it in Excel and send it directly to our systems for its management.

Choose technology

Our systems are adapted to your installation in the most efficient way possible.

Choose from all our products

We offer a wide range of products to meet the needs of all users.

Visualise your project

Take a preview of the installation you want to implement

Get a detailed quotation

So you have an idea of the total cost of your installation - no surprises!

Drag & drop system

With the drag & drop system in Create Your Project, you can easily drag and drop the modules you need. Explore our wide range of options and customise your door panel quickly and easily, ensuring that each component fits your needs perfectly.

All solutions in one place.

Visit our redesigned support website, where you will find answers to your questions and solutions for your projects. Access product documentation and manuals, manage repairs and request quotes easily with our new **Create Your Project** tool.

GENERAL CONDITIONS OF SALE

These general conditions of sale (*) apply strictly to all sales of products made by GOLMAR Sistemas de Comunicación, SA (hereinafter GOLMAR), except for any other specific written agreement with the customer.

PRICES, PAYMENTS

Prices are listed in the current official price list and are per unit and in euros. They are for sale to the public and do not include VAT, shipping, or other taxes, fees, or charges.

Payments shall be made to GOLMAR within the agreed terms and for the amounts agreed. Failure or delay in payment of any sum owed to GOLMAR may result in the application of the provisions of Law 3/2004, of December 29, to the suspension of the execution of other pending orders and, after 60 days have elapsed without any amount owed being paid, to the termination of any existing contractual relationship between the parties.

DELIVERIES AND AVAILABILITY

Product availability is immediate from the central warehouse, except in exceptional circumstances, under pre-order conditions, or with a delivery time "to be consulted". Delivery times are always approximate, and penalties for late delivery are not applicable.

SHIPPING

Freight charges for non-urgent shipments to the Peninsula and Balearic Islands will be paid for full delivery notes with a minimum amount of 600€.

For shipments to the Canary Islands, the minimum amount is 1,200€.

In both cases, they will be handled by a transport agency chosen by GOLMAR.

In cases where the merchandise travels at the customer's expense and risk, shipping, insurance, and other costs inherent to the shipment of the goods are the customer's responsibility.

RETURNS

All product returns must always be authorized in advance by GOLMAR. Returns due to causes beyond GOLMAR's control will be subject to a 15% depreciation of their purchase value.

Before returning products, it is essential to submit a "Return Request" to GOLMAR, stating the reasons for the return and the details of the associated invoice.

"Return Requests" are not accepted after 30 calendar days from the date of purchase.

Once this request has been accepted in writing, the customer may return the products. These products must be in perfect condition and available for sale with their original boxes and intact packaging, with shipping costs to be paid by the customer.

Returns of used, discontinued, special, custom-made, or non-original products will not be accepted. Special products are defined as those not included in the current rates.

CLAIMS

The customer agrees to review the quantity, correspondence, and integrity of the products received in each shipment within a maximum of five days from the delivery date. After this period, no claims will be accepted for the aforementioned reasons.

RESERVATIONS

A retention of title is established for products purchased by a customer in favor of GOLMAR until full payment has been made. The risks inherent in the products supplied will be transferred to the customer upon delivery by GOLMAR.

Any payment by check and/or promissory note is for payment purposes only. Ownership of the products will transfer to the customer upon full settlement of the debt.

The delivery of a check and/or the simultaneous establishment of a financial relationship is not considered redeemable. Payments will always be considered to cover outstanding invoices.

SAMPLES

GOLMAR does not provide products as samples or for testing. Any delivery of products will be considered a sale, meriting a commitment to pay under the conditions agreed upon delivery, and in accordance with current legislation.

JURISDICTION

In the event of a dispute between the parties regarding the fulfilment and execution of these conditions, the Courts and Tribunals of Barcelona shall have sole jurisdiction, with Spanish law applying. The parties expressly waive their own jurisdiction and rights if they differ from the above.

(*) GOLMAR reserves the right to modify these general conditions of sale, as well as the prices and technical and aesthetic characteristics of the products without prior notice.

WARRANTY

GOLMAR will respond to the lack of conformity of its products from the date of its sales invoice for a period of 3 years, if it is verified that it is a consequence of a defective component or manufacturing fault, provided that it is notified without delay after its appearance and complying with the terms set out in current legislation.

Products processed as warranties that do not comply with the provisions of this section and GOLMAR's general sales conditions will be considered out of warranty.

The warranty consists of the repair or replacement of the elements that have been found to be defective, either due to material or manufacturing defects. GOLMAR will respond to all warranty claims from its customers and in the cases provided for in Article 125 of Royal Decree-Law 1/2007.

The warranty does not cover deficiencies, damages or breakdowns caused to the products by: improper or negligent use, impacts, vandalism, repairs or manipulations not carried out by GOLMAR or by Technical Services authorized by GOLMAR, causes beyond the design or manufacture of the product (for example, power supply failures), incorrect installation or start-up of the equipment or carried out in places not suitable for the correct operation of the equipment, failure to follow the instructions in the product manuals, adverse environmental conditions, chemical or electrochemical effects or by contact with inappropriate substances, scratches or scrapes that do not affect normal operation, inadequate or non-performed maintenance of the equipment or installations, damage during transport or during unpacking not attributable to the manufacturer, use of the product with accessories or other products of a type, condition or standards not specified by GOLMAR, or absence or illegibility of the serial number label.

The liability of GOLMAR and its employees, subcontractors and suppliers for claims arising from the performance or non-performance of their contractual obligations shall not exceed the basic contractual price in the aggregate and shall not in any event include damages arising from loss of profits, revenue, production or use, capital costs, downtime costs, delays and claims of the Buyer's customers, loss of anticipated savings, or any other special, indirect or consequential damages.

Digital services and continuity of service: For all digital services associated with a product supplied by GOLMAR, the warranty and service continuity period for its customers is 3 years from the date of the sales invoice. GOLMAR will provide at least 6 months' notice in the event of closure or interruption of service, maintaining the warranty described above. Substantial changes to the contractual terms of service will be notified at least 3 months in advance.

Note:

Components and products replaced during the warranty period will remain the property of GOLMAR.

GOLMAR is not responsible for the data or information in any electronic format stored in the products or components, nor for their preservation, integrity, or restoration, during the time or process of repair or replacement of products and/or components.

The validity of the warranty is subject to the existence and correspondence of the purchase invoice.
