**BUSINESS**

# INTRODUCING

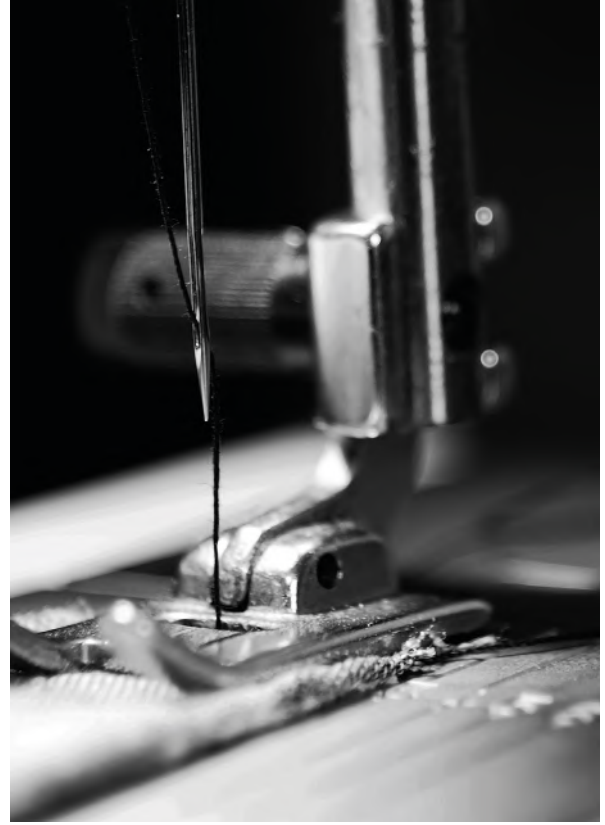

SUNWILL BUSINESS is one of the leading providers of corporate wear. With roots and a design heritage which shapes our collection, we have knowledge and expertise producing comfortable, elegant and functional business wear, with the perfect fit.

We provide a range of uniforms and tailor-made business wear solutions to suit specific wearing purposes. With a wealth of experience servicing different industries – being a trusted partner to companies within hospitality, administration and transport – we deliver the most comfortable business

wear with the right fit, the right fabric, the right details and the right style, to suit your requirements. We take pride in meeting your demands and we understand the importance of an efficient delivery performance. That is why we produce most of our collection in our factories in Europe, ensuring a seamless and timely process from initial order placement, to receiving the ready-to-wear uniforms. Moreover, we can deliver optimal turnaround times for any additional orders, to cater for your growing business needs.

It would be our pleasure to do business with you.

## PROUD TRADITIONS AND STRONG VALUES

4

Back in 1963, SUNWILL was founded as an exclusive tailor, producing exclusive men's trousers. In 1989, the family-owned company F. Engel acquired the ready-to-wear clothing business, which has, over the years, become known and loved for designing and producing unique men's trousers. Today the responsibility for continuing and further developing this tradition-rich men's fashion company lies with the 4th generation owners John and Lars Engel.

### **HIGH QUALITY, DURABILITY AND PERFECT FIT**

For many years SUNWILL has prided itself on specialising as a trouser tailor. The company has since expanded the brand to include ready-to-wear suits, and now also tuxedo and tail coat. Corporate wear continues to be an important branch of SUNWILL, and has become a significant part of the company's concept. The development is entirely the result of SUNWILL's continued focus on its core values: high

quality, durability and fit - down to the smallest detail. These are values that we take great pride in. We don't just produce clothes by the metre without thinking about its purpose. We go the extra mile and make clothes that focus 100% on achieving the perfect fit.

### **THE LEGACY CONTINUES**

John C. Engel's grandfather, Carl J. Engel, founded F. Engel with his brother Jacob and their father Friedrich Engel in 1927. Back then, the company produced work clothes in the new and durable material of denim. John is therefore 4th generation and practically born into the textile industry he so loves.

John C. Engel is humbled by his responsibility of continuing the family legacy into the future, alongside his brother Lars C. H. Engel and a host of talented employees.

# TAILOR-MADE BUSINESS WEAR SOLUTIONS

No matter what role you play in a company, it is important to be presentable and well-dressed. And it is just as important that the employees feel comfortable in their clothes. Therefore, design, fit and functionality are three very important parameters when choosing business wear for your employees.

Every company has its own routines and work methods – and these place varying demands on the business wear.

## ADAPT OR DESIGN YOUR OWN CLOTHES

When we develop new models, we try to take into account a range of different needs and suit as many users as possible.

But there will always be some sectors and specific companies that need features our stocked items do not have.

It is important that business wear matches your needs, and we can therefore produce custom business wear in line with your wishes. Why compromise, when you can add exactly the features you need to make your business wear optimal?

The options for tailor-made solutions are many! Our references count everything from embroidery on the pilot's blazer to a transfer printed logo on the back pocket of a sales person.

# THE PERFECT HOSPITALITY UNIFORMS

Hospitality uniforms from SUNWILL are made for you to look sharp and professional all day without making any compromises when it comes to comfort and freedom of movement. No matter what your job functions are within the field of hospitality, we have the exact business wear you need for yourself and your employees.

## PERSONALISED STYLISH DESIGNS

Our blazers, vests, trousers, dresses and skirts ensure staff members maintain a smart and professional aesthetic in front of customers and clientele. When it comes to finding smart, stylish and practical hospitality uniforms for all roles within the sector, we have you covered here at SUNWILL.

8

## HIGH QUALITY AND PRESENTABLE BUSINESS WEAR

With professional office attire from SUNWILL you can rest assured that your employees present the organization in the most professional way. Office workwear from SUNWILL is made from fabrics that does not wrinkle so the staff will look sharp all day.

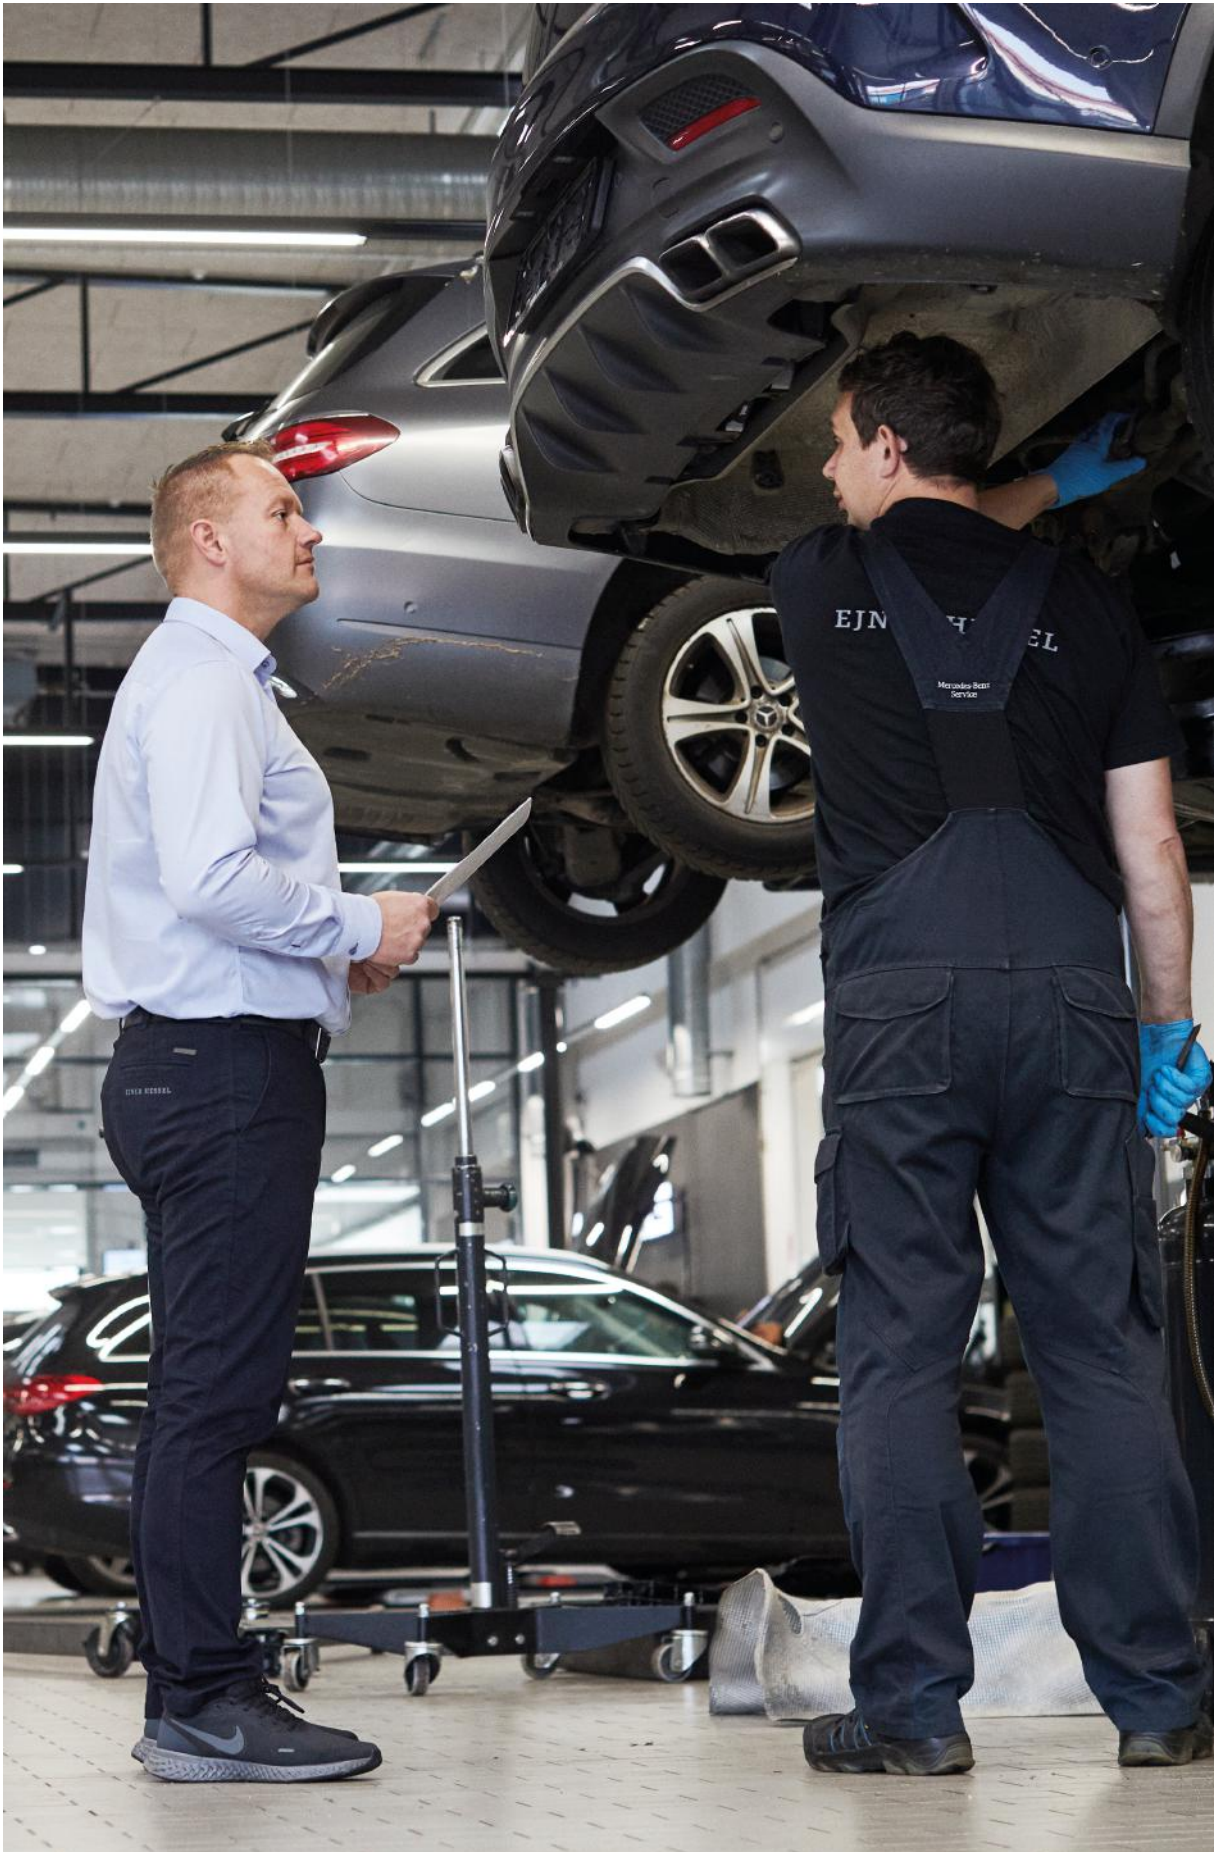

### OFFICE ATTIRE FOR ANY PROFESSIONAL BUSINESS

Office attire from SUNWILL dresses you and your employees for any professional situation and provides the highest level of comfort and freedom of movement.

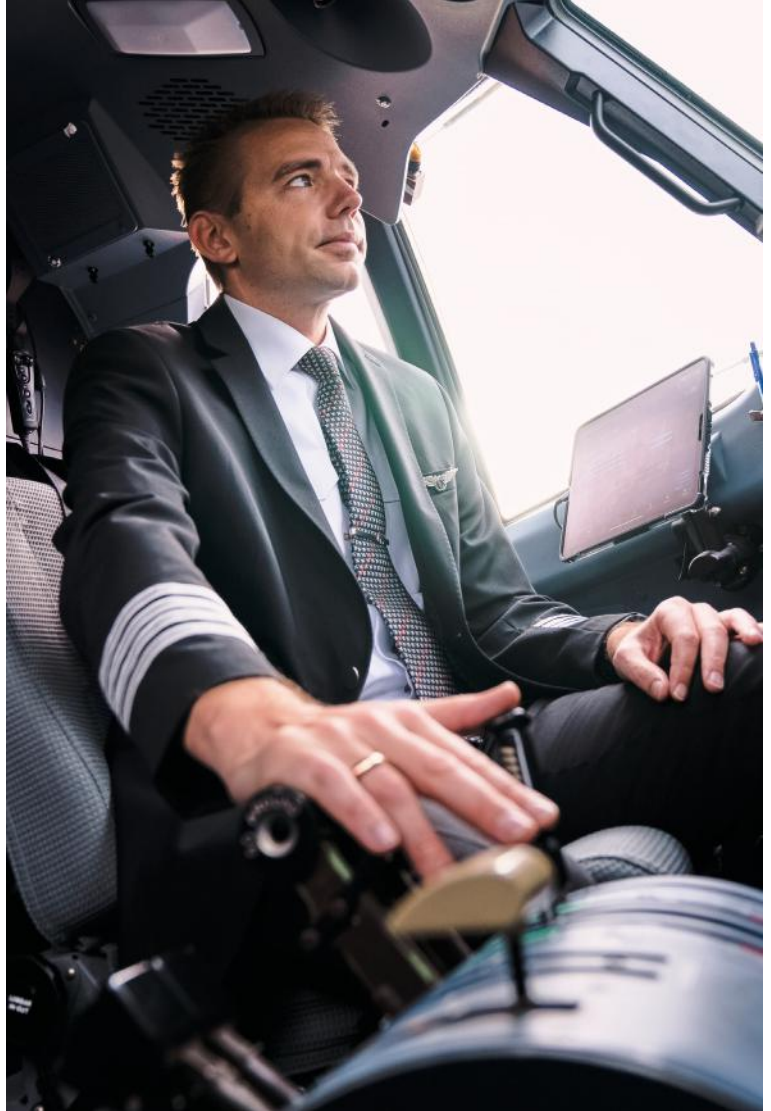

# WE MAKE YOU LOOK PROFESSIONAL

In a sales situation you always want to present your company and your employees in the most professional way. SUNWILL has a long history delivering professional business wear for car sale companies, and many of our costumers has used our attire for decades.

## **FUNCTIONAL BUSINESS WEAR**

Most of our clothes for salespersons are made from fabric with stretch in it, which provides the highest level of comfort and ensures that the fabric does not wrinkle, even after a long day on the job.

12

## DURABLE UNIFORMS THAT FIT WELL

No matter if your aviation company needs pilot clothing or clothing for the cabin or ground crew, SUNWILL can deliver the attire you need. Aviation attire from SUNWILL is made from durable materials, which makes it perfect for aviation employees to use no matter if the employees work as pilots, stewardesses or luggage workers.

### WRINKLE FREE UNIFORMS FOR WORKERS IN THE AVIATION INDUSTRY

SUNWILL attire for aviation industry workers is made from fabrics that does not wrinkle so the staff, no matter what they do in the company, present the company in the most professional way.

# PROFESSIONAL UNIFORMS TO LOOK SHARP ALL DAY

Above all, bus driver uniforms from SUNWILL are made for bus drivers to look professional and to provide the highest level of possibility of movement for the driver who is wearing it. The bus driver uniform from SUNWILL is made from wrinkle-less fabric that maintains a professional, sharp look all day long.

## COMFORTABLE UNIFORMS FOR DAILY SATISFACTION

Most of our clothes for bus drivers are made from fabric with stretch in it, which provides the highest level of comfort and ensures that the fabric does not wrinkle, even after a long day on the job.

16

Trousers 1804-2722-125

— TRAVELLER — ALWAYS FRESHLY IRONED

17

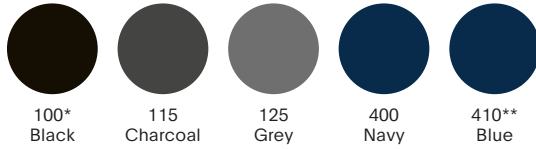

# TRAVELLER — ALWAYS FRESHLY IRONED

By using a special fabric, these clothes are less likely to crease, even after sitting for many hours. The fabric corrects itself and looks almost freshly ironed. Traveller is most suitable for frequent travellers – or those who need to be presentable and crease-free all day long. The Traveller range consists of many pieces and styles, and contains business attire for both men and women.

39

## **EXTREME FLEXIBILITY — FREEDOM ON A WHOLE NEW LEVEL!**

Workwear in a whole new dimension. Extremely stretchy and resilient - a feeling of freedom. When it comes to workwear, it is important to feel comfortable. The unique composition of three stretchy textiles gives the Extreme Flexibility series incredible elasticity and dimensional stability.

Although the Extreme Flexibility series is very stretchy, the fit is perfect. The elastic textiles retract to their original position after being worn, so that you are still well dressed even after a long day.

— COLOUR SAFE / WATER AND DIRT REPELLENT

# COLOUR SAFE / WATER AND DIRT REPELLENT — FOR EXTRA DURABILITY

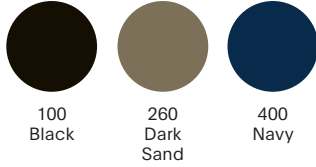

57

Business wear needs to be more than just comfortable and presentable, it also needs to be durable and tolerate extra wear. The colour safe technology is a special colour method that makes colours more durable. The fabric is prepared and treated before it is coloured, which binds the colours to the material. This method results in extremely durable colours, which don't fade or turn grey – even after multiple washes.

To avoid stains forming on the clothes, we add a special water and dirt repellent finish on selected pieces. This finish acts as a special layer that prevents liquid from penetrating the fibres. Any spillages on the clothes will just glide off without leaving any visible marks.

— SUPER STRETCH JEANS - FOR BETTER COMFORT

67

## SUPER STRETCH JEANS — FOR BETTER COMFORT

A nice pair of jeans is the perfect attire for a more casual look. However, the problem with many jeans is that the fabric can seem stiff and inflexible, which is hardly optimal if your job requires you to sit for long periods of time.

The Super Stretch fabric contains larger quantities of elastic fibres than other stretchy fabric. The elastic fibres woven into the fabric make it extra flexible, so that it follows the body's movements. As well as providing supreme comfort, super stretch clothing stands out by its ability to return to its original shape, and thus keeping its shape for longer.

# SUNWILL TAKES A POSITION ON A GREENER FUTURE

## LOGISTICS/TRANSPORTATION

To ensure that we work on lowering our environmental impact we monitor all our logistics data to ensure we optimize our shipments, receive CO<sub>2</sub> data and avoid airfreight as much as possible. By using ocean freight, having our own production facility in Europe and working with our logistics suppliers on our third-party suppliers, we have a very low CO<sub>2</sub> emission on transportation.

## PACKAGING AND MATERIALS

We want to reduce waste both inhouse, in the production loop, and with the customers. We have reduced our packaging on shipping goods, but also on the clothes. We want to ensure that we look at our efforts to reduce packaging materials and increase the recycled plastic content in our polybags and shipping bags from 80% to 100%. Our cardboard packaging is FSC certified, it's being marked according to waste due diligence directives in the EU and we removed excess elements, that were just old habits and looked for greener alternatives to conventional materials.

## BSCI MEMBER

We base our compliance programme on the BSCI Code of Conduct, which comprises eleven principles for running an ethical and socially responsible business.

## F. ENGEL IS MEMBER OF BC

We are proud members of Better Cotton. We are committed to sourcing 10% of our cotton as "more sustainable cotton" by 2024.

## LIFETIME GARMENT

Before we send our clothes to production, we subject them to rip, pull, wear, colour and washing tests to ensure that we produce workwear with a high quality, so the clothing will have a longer lifetime.

## AUTOMATED WAREHOUSE

Our robotic warehouse improves the workplace efficiency of any working day, requiring less running and lifting. Extremely energy efficient, it can run 24 hours a day without the need for light or heat.

## RE:TURN

At SUNWILL, we offer a takeback solution called RE:TURN, as part of our environmental strategy. With RE:TURN, your company can hand in used clothing and give new life to the valuable raw materials that the clothes are made of.

# PHILOSOPHY AND SUSTAINABLE ACTIVITIES

From the very beginning, SUNWILL has been about making high quality clothing for the well-dressed man. We believe that the road to a more sustainable wardrobe starts with good, timeless design in a quality that lasts season after season.

We offer customers an alternative to rapidly changing trends and fast fashion - something that is often associated with overproduction in factories far from the consumer.

At SUNWILL, fit and functionality is of high priority, and we take pride in designing clothes that can be used for multiple occasions simply by changing accessories and shirts. With durable quality and good design, you do not have to fill the

wardrobe with clothes that you do not really need. A pair of jeans, a pair of trousers or a blazer that fits well and is made from durable materials is far more powerful - environmentally - than using a small number of recycled fibers in one garment.

By adding smart, yet elegant details, we strive to ensure that the majority of SUNWILL's products last longer by choosing high quality materials and strive for a production that is as environmentally friendly as possible. Therefore, we continuously work to ensure that materials and clothing are produced responsibly with respect for the environment and the people involved.

# RE:TURN

## TURN OLD INTO NEW...

Simply return used clothing to any of our RE:TURN boxes to turn old into new.

Help us take away pressure on our planet, turn old into new, reduce emissions, save water and let nothing go to waste.

Simply return and turn old into new.
