Assortment Boxes

Assorted boxed consumables are the cornerstone of supply into Workshops and Garages.

There is a much needed desire to buy affordable assortments of product ranges, and in particular, those items that are new to range.

This is an ever growing, innovative program boasting 120 references encompassing Hardware, Fasteners, Electrical and small Component items.

Handy size top up packs are available for the majority of the range.

Boxes are made from durable Polypropylene not fragile Polystyrene that is prone to breakages.

Display stands help with organisation, storage and efficient handling

Fasteners

This section caters for the top-up packs for the assorted boxes and offers the depth of range of the hardware fixings and fasteners.

Where possible products are packaged in transparent impact resistant polypropylene boxes which incorporate euro slotted hanging tags for easy storage and display in the retail environment.

All references are clearly labelled indicating the part number, description, quantity and barcode.

Display stands are available to maximize visibility and can be tailored to suit customer needs as well as stock displays of fast moving lines.

A full application list is available for the sump plugs and washers in .pdf or excel format via our website www.pearl-automotive.co.uk or contact our sales office on 01268 756216

Stainless Steel Fasteners

As the Automotive aftermarket becomes more diverse, the desire to fulfil the fastener needs of peripheral markets such as Agricultural, Motorcycle and Marine becomes more apparent.

Our range of Stainless Steel fasteners and fixings offer the basic foundation to infiltrate these markets.

Stainless Steel products offer a more durable solution to areas exposed to wet weather and salt spray.

Bulbs and Lighting Products

Auto bulbs are one of the fastest moving fitted electrical components we offer.

Competitively priced for all levels of the market, we offer a selection of packaging options such as boxed in tens, single and twin pack carded.

Please note the exceptional range of PCB bulbs available suitable for the most up to date applications.

Displays racks are available for the carded bulbs.

A full application list is available via our website www.pearl-automotive.co.uk, or contact our sales office on 01268 756216

BLADES[®]

the definitive wiper blade range

EXACT FIT JOINTLESS AERO BLADES

HIGH QUALITY DIRECT REPLACEMENT JOINTLESS BLADES

Available In Sizes 14" To 32" and with 6 different OE-type connectors, this series offers a fast, quick & convenient direct replacement of the OE wiper blade - without the hassle or confusion of multiple connectors or fittings.

UNIVERSAL FIT JOINTLESS AERO BLADES

HIGH QUALITY 'RETRO-FIT' JOINTLESS BLADES

Available In Sizes 11" To 28", these allow upgrade from traditional metal frame wiper blades to modern, state-of-the-art jointless wiper blade technology.

EXACT FIT TRADITIONAL BLADES

SPECIFIC FIT TRADITIONAL STYLE BLADES

These high quality traditional style wiper blades replace the specific fit blades found on some vehicles, where a traditional universal wiper blade or our universal jointless wiper blades will not fit. This range also includes traditional wipers with an in-built washer spray jet.

REAR SCREEN WIPER BLADES

SPECIALLY DESIGNED EXACT FIT REAR SCREEN BLADES

In both plastic and jointless aero styles, with sizes from 9" to 20", this comprehensive programme offers direct fit replacements for the exact fit rear blades found on the vast majority of modern vehicles.

REAR BLADE & ARM SETS

EXACT FIT COMPLETE REAR BLADE WITH ARM SETS

The moulded plastic rear wiper arms found on many modern vehicles are prone to breaking, often falling victim to the cold weather when the blade is started on a frozen screen. These complete sets replace the full arm & blade unit, and the OE type design means the blade can quickly and easily be replaced in future.
