# Dear Friends & Partners,

**With grateful hearts, we invite you to celebrate all that God is doing through Reclaim.**

This past year has been one of **growth, transformation, and renewed purpose.** From the launch of our new name to the deepening of our global impact, 2024 marked a pivotal moment in our journey.

Formerly IDEAS, we are now **RECLAIM**—a name that reflects our calling to walk alongside communities as they reclaim dignity, hope, and life in the face of marginalization and injustice. Though the name is new, **our mission, vision, and core values remain unchanged.** For nearly 30 years, we've partnered globally to bring holistic transformation through initiatives in agriculture, education, health, disability services, and anti-human trafficking.

Together in 2024, we reached over **17,000 people in 14 countries** through **30 innovative programs** led by **50 dedicated Reclaim Associates.** Through these efforts, communities and individuals are experiencing their God-given dignity, restoring their hope, and renewing their lives!

**This Impact Report is a testament to God's faithfulness and the power of your partnership.** Your prayers, generosity, and belief in our mission, vision, and core values have made this work possible.

**Thank you for walking with us!** We look forward to continuing this journey together—building communities where every person is seen, valued, and given the opportunity to flourish.

With Gratitude,

# HOW WE WORK.

**Community Development  
is the foundation for all our work.**

**We start by listening.** Our associates partner with local people to identify resources and address obstacles that impact the community. We also seek out and amplify the voices of the marginalized. With outstretched hands and humble hearts, we design programs to respect local communities and encourage people to pursue the values of God's kingdom as we work together toward lasting transformation.

**ANTI-HUMAN  
TRAFFICKING**

A woman with dark, curly hair and a gentle smile stands behind a young boy. She is wearing a black patterned cardigan over a red top and a gold necklace. The boy, with short dark hair, is also smiling and wearing a white shirt with a black pattern. They are positioned in front of a lush, green, out-of-focus background, possibly a garden or park. A yellow circle with the number 689 is located to the left of the woman's head.

**689**

**INDIVIDUALS  
LIBERATED**

At-risk youth and young adults were rescued or repatriated to their home countries, connected with holistic after-care and resources, or received human trafficking prevention training.

*Caring for survivors + at-risk*

# ANTI-HUMAN TRAFFICKING

**Reclaim's strategic focus on anti-human trafficking runs through all our programs.**

We combine the strengths of our community development, health and wellness, education, and agricultural programs to integrate methods that mitigate risks for individuals vulnerable to or victimized by human trafficking. We implement best practices for trauma-informed care and intentionally work to address the injustices of trafficking and care for those at risk, so they feel valued, seen, loved, protected, and empowered to experience abundant life.

**STUDENTS  
INSTRUCTED**

Students in marginalized communities are charting a new path toward a brighter future through educational services and resources.

*Nurturing holistic development*

# EDUCATION

**Reclaim education programs focus on individuals and communities on the margins of society like refugees, students with disabilities, and those without access to adequate education.**

Through teaching English as a second language (TESOL), music education, librarian and teacher training, academic tutoring, literacy programs, and special education services, we nurture holistic flourishing that impacts communities and helps people develop the fullness of their God-given potential.

### PATIENTS SERVED

Access to healthcare + health education is elevating quality of life for refugees and impoverished communities and creating opportunities for young men and women to pursue medical careers.

*Making a healthier life possible*

# HEALTH + WELLNESS

**Reclaim health and wellness programs provide access to high-quality healthcare services, health education, and medical equipment to elevate the quality of life in the communities we serve.**

Our professionals bring together evidence-based expertise, excellent medical equipment, and proven best practices with an understanding of challenges faced by local communities to demonstrate love and promote holistic, sustainable flourishing.

**FARMERS EQUIPPED**

Farmers, their families, and communities are increasing crop yields, developing job skills for sustainable incomes, and improving quality of life through hands-on agricultural training.

*Better soil. Better information. Better crops.*

# AGRICULTURE

**Reclaim agricultural programs provide training in regionally appropriate soil rejuvenation methods to lift small-holder farmers above bare-minimum subsistence levels and help them thrive.**

We provide participatory extension programs, working side-by-side with farmers to identify more fruitful crop varieties and management methods. As we discover techniques to improve yields and provide greater sustainability together, we equip farmers to teach others in an organic, dynamic process with long-term, wide-ranging impact.

**INDIVIDUALS  
EMPOWERED**

Adults + children are able to attend school, work, and engage in their communities because of whole-person care and custom-fit wheelchairs.

*Replacing limitations with hope*

# DISABILITY SERVICES

**Reclaim's strategic focus on disability runs through all our programs. We work to identify and remove societal and relational barriers that exclude persons with disabilities.**

Our programs are designed for people of diverse abilities and provide tools, like custom-fit wheelchairs, awareness training, and accessible technology, that help individuals and families navigate obstacles caused by disability.

We strive to create an environment where all people are valued, loved, heard, and included so that we all flourish and experience the fullness of our God-given dignity together.

## FAMILIES HAVE ACCESS TO CLEAN WATER

Two impoverished villages have access to safe drinking water & proper sanitation through the construction of 48 latrines & 14 deep tube wells.

*"I don't need to walk so far to get safe water, it is right there beside my house. My daughters and I are not bathing in the pond anymore. We no longer have skin problems. My daughters always had diarrhea and no appetite. Now with this good water their health has improved and they have a much better appetite. I am so happy!"*
