

FARM & RANCH RESOURCE MANAGEMENT

# *Farm & Ranch Resource Management*

In-field experience around the community is at the core of this program. Gain practical skills and learn the foundations of any agriculture-related degree. Hands-on opportunities such as feed efficiency trials, local meat processing, bull testing, crop studies, and more, are essential in this field of study.

Farm & Ranch Management develops basic analytical skills for livestock production, water resources, and grazing and forage management. Learn about the importance of crop rotation, soil science, and livestock nutrition.

Utilize key business concepts such as strategic planning, analyzing financial feasibility, cash flow, marketing, and human resource management that are essential to managing or operating an ag-related business.
