Tai Chi Wheel

The Tai Chi Wheel is an innovative piece of outdoor fitness equipment inspired by the ancient principles of Tai Chi, a practice rooted in balance, fluidity, and grace. This device allows users to engage in gentle rotational exercises, mirroring the circular motions found in many Tai Chi forms. Its design emphasizes the harmonious movement of the arms, promoting joint flexibility and enhancing upper body coordination. Perfect for individuals seeking a meditative and low-impact exercise.

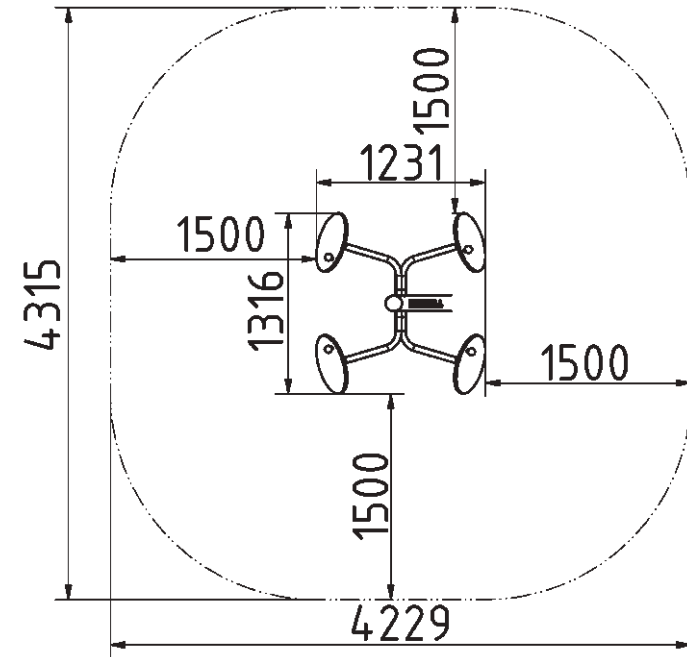

Attributes

Product code	1-1-316
Certificate	EN 16630
Age group	14 + years
Capacity	2 people
Max. weight load	130 kg
Type	Recreational
Difficulty level	Easy

Installation information

Number of installers (concrete)	At least 2 people
Total installation time (concrete)	45-90 min.
Number of installers (equipment)	At least 2 people
Total installation time (equipment)	90-120 min.
Excavation volume	0.5 m ³
Concrete volume	0.5 m ³
Size of the base structure	0,8 x 0,8 x 0,8 m
Anchoring options	In-ground or surface
<small>In combined structures, the volume of concrete required varies.</small>	

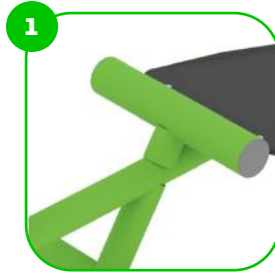

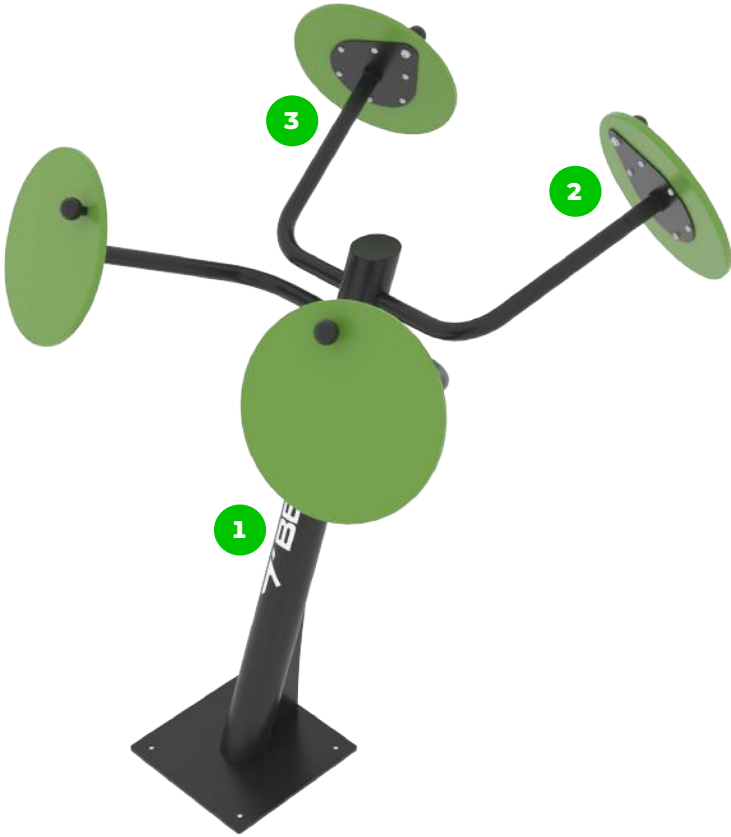

Technical specification

Safety surface area	Around 1,5 m radius
Net weight	62 kg
Material	S235
Critic fall height	-
Color options	
<small>For more color options, discuss with your sales representative.</small>	

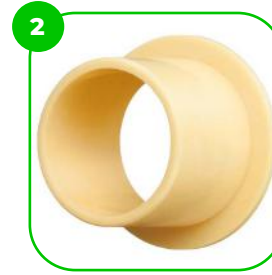

Warranty

Structure	25-15 years
Steel	5-10 years
Paint	2 years
Plastic	5-10 years
Rubber	1-3 years
Moving parts	2 years
<small>Detailed information in the warranty document</small>	

Material specification

The element is made of high quality S235 steel, which has been cleaned via sandblasting. A corrosion resistant powder coating finish is then applied. Also available with galvanized surface for even greater protection and longevity!

The device is fitted with composite bearings that are weather-resistant. The bearing does not require regular maintenance.

The connecting elements are fastened with vandal-proof stainless steel screws and nuts.
