2kW Heater

The Original R10 Insulation System

Setting new industry standards for energy efficiency and performance. Our proprietary R10 hot tub insulation has been recognised by industry expert WhatSpa and the UK Pool & Spa Awards for its outstanding performance, earning multiple awards for its innovative design, energy efficiency and sustainability. Fully TUV certified and approved.

Tamper-proof control overlay

Minimise the risk of accidents or spa misuse by your guests. Our tamper-proof control overlays limit the user's access to sensitive spa settings, whilst ensuring jets and lighting control options remain available. They protect against liability and ensure regulatory compliance, contributing to a safe and enjoyable hot tub experience for the guests while safeguarding the property owner's investment.
