Course Overview

The MSc Fintech (Economics and Financial Technology) is a cutting-edge programme at the nexus of finance, economics, and technology, designed for graduates with backgrounds in business, economics, finance, computer science, or engineering with knowledge of economics. Leveraging Galway's strong presence in finance and analytics, this Master's degree offers a **comprehensive education** in Fintech.

The programme addresses the urgent demand for professionals skilled in both economic theory and technical expertise. According to a recent FSI Report (September 2023), the Fintech sector is expected to see a 44% increase in employee numbers over the next three

years, highlighting the acute shortage of technical talent in this **booming industry**.

The curriculum blends theoretical foundations with applied subjects, covering vital areas such as the impact of financial technology on the economy, economic theory and econometrics, and the intersection of finance, technology, and data science. Core modules in financial technology and analytics are complemented by a variety of optional modules, **allowing students to tailor their studies** to their specific interests within Fintech.

Top 2%

Cutting-Edge *Fintech Expertise!*

The MSc Fintech (Economics and Financial Technology) aims to equip students with the ability to critically assess the economic impact of emerging financial instruments, markets, and technologies. Graduates will gain the **skills necessary to make significant and immediate contributions** to the Fintech industry.

Business Postgraduate Merit Scholarships

The J.E. Cairnes School of Business and Economics at University of Galway is dedicated to attracting top-tier students globally by offering generous scholarships for all postgraduate programmes, including the MSc Fintech. To qualify, candidates must have achieved a H1 (or international equivalent) in their primary degree.

Programme Overview

Exploring the MSc Fintech Economics and Financial Technology

Admission

Entry Requirements

To qualify for the MSc Fintech (Economics and Financial Technology) at the University of Galway, candidates typically need a H2.1 degree (NFQ Level 8 or equivalent) with intermediate-level Economics. However, those with a high H2.2 honours degree and a 2.1 average in relevant Economics modules in a business degree will also be considered.

Applicants with a single year of Economics and a 2.1 degree may need to complete an online preparatory course before registration. Additionally, candidates with a 2:1 or equivalent in Engineering, Computer Science, Mathematics, or Technology are welcome, provided they demonstrate their suitability through their personal statement, citing relevant experience. Those without an Economics background must take an online preparatory course before starting the programme.

Non-EU: €21,500
Student Levy: €140

"I'm teaching behavioral finance and economics and I'm really excited about teaching this course. We're going to be looking at the interaction between human psychology and economic decision making and how some of these fintech apps can improve services for customers but also we're going to be looking at the potential harms..."
