COFFEE & BENCH LEGS

Coffee table legs can beautifully accent an intricately-designed room. They are also the perfect height to be used as bench legs. Although they are small, they make a big impact. Many of these stylish designs are available in taller versions so you can easily achieve a cohesive theme throughout your home.

DINING TABLE LEGS

Dining table legs are a subtle way to add continuity to the design of a home and no dining table is complete without the right set of legs. Though dining table legs may not be the first thing noticed by a person sitting to dine, they are indeed an integral part of the look and feel of the space.

PEDESTAL BASES

Pedestal tables are a delightful alternative to the standard four-legged table. Pedestal table designs can range in styles and sizes. They can even include more than one pedestal for additional support. These unfinished, ready-to-assemble pedestal kits are regaining popularity in modern design. Choose yours today!

CEILING MEDALLIONS

When designing your home, it is easy to overlook one of the biggest elements in the room - the ceiling! Adding an intricately-carved wooden medallion to your ceiling can bring the entire room together. These beautiful pieces add dimension and texture to your home without taking up a lot of space. Each medallion features a hole in the center allowing it to perfectly frame an existing light fixture.

7531 16" x 1"

This home has underwent a grand transformation due to the use of a beautifully carved ceiling medallion, perfectly fixated around an existing light fixture. This medallion was coated with white paint to match the rest of the interior design. The result was an elegant and modern look!

MATERIALS

- ♦ Cornwall Island Legs (part #131558) x4
- ♦ 5/4 x 96" Lumber (part #196654) x4
- ♦ 1" x 4" Pine lumber (part #34841) ♦ Safety equipment
- ♦ Wood glue ♦ Screwdriver ♦ Router table
- ♦ Clamps ♦ Power drill ♦ Writing utensil
- ♦ Ruler ♦ Drawer handles ♦ Nail gun

INSTRUCTIONS

1. Lay out your lumber on clamps, with the edge facing up. Begin gluing panels for the table base and drawer faces. Attach them together. Repeat this process until you have adhered all boards for your table base.
2. Tighten the clamps down on the glued boards. This will prevent warping or cupping as the boards dry. Repeat.
3. Next, while the panels are drying set up the router table. We used a 1/2" wide router cut and set our fence to allow for a 1" reveal on the front of the skirt board.
4. Begin cutting the mortise. Make sure you set up stop blocks to keep the skirting flush to the leg.
5. Then, rip the panels down to their final width. Cut them to their final length and plane them to the final thickness.
6. Go back to the router table to cut tenons for the panels. We did a 1/8" shoulder on one side and a 3/8" on the other.
7. Adjust the height and cut the 3/8" shoulder on the other side. Then, make a 3/8" cut on the bottom side of the skirt board. Round over the tenons.
8. Install pocket holes to the inside of the skirting.
9. Cut openings for the drawers by creating a pilot hole in the corner and using a jigsaw with a straight edge. Sand all the panels to 220 grit.
10. Assemble the table base by using wood glue first and then combining the tenon joint into the mortise. Insert screws into the pocket holes.
11. Create interior rails for the drawer slides. Carefully install screws through the pocket holes of the rails.
12. Create drawer boxes and assemble using wood glue and brad nails.
13. Install the drawer faces by pre-drilling four holes in the backside of the drawer. Align the backside to the face and attach with screws.
14. Install the drawer handles.
15. Add a small round-over on the edge of the drawer faces.
16. Install the drawer slides.
17. Make any desired adjustments to the table top and pre-finish both it and the table base. Attach it to the base using figure 8 fasteners.
18. Install the drawers into the slides and you are done!

ONLAYS & APPLIQUES

Modern design is often simple, but there are still ways to add unique character. Our stunning hand-carved onlays and appliques can be added to furniture and cabinetry for a custom touch. Apply a light stain or match the paint color to the rest of your décor for a modern take on a traditional design.

CUSTOM TABLE BASE KITS

Are you interested in ordering a custom table base kit from Osborne? These kits will include the legs, apron boards, and hardware to assemble your chosen table base type (4-sided or 3-sided). The legs and apron boards will come pre-milled with mortise and tenon joinery for easy assembly. The inner corner of the legs will be chamfered with a pre-installed threaded insert. Apron boards will be made of 4" x 1" boards (actual dimensions) and will include pocket holes along the inside top edge to easily attach them to your table top. For the 3-sided apron kits, the skirt boards that will attach to your existing structure will also include pocket holes on the inside ends of the apron boards for easy attachment.

Watch this video tutorial on how to assemble a table base kit!
