TRAINING OVERVIEW

FeRFA Training

Nurturing the next generation of talent

At FeRFA, we believe in nurturing talent and enhancing skills through our comprehensive training programmes. From Specialist Applied-skills Programmes (SAPs) and advanced NVQs, to shorter CPD courses, our Training & Development Programmes are designed to equip industry professionals with the tools they need for success, ensuring a robust future for the resin flooring industry.

Specialist Applied-Skills Programmes (SAPs)

- In-Situ Resin Flooring
- Surface Preparation

Our flagship SAPs provide comprehensive training that leads to NVQ Level 2 Diplomas, equipping participants with the necessary qualifications to obtain a CSCS Blue Worker Card and secure eligibility to work on construction sites across the UK.

WHAT TO EXPECT

The **FeRFA NVQ Level 2 Diploma to prepare and profile substrates** is designed to equip candidates with the skills and knowledge necessary to excel in the resin flooring industry. The course offers hands-on experience with various resin flooring materials, insights into industry best practices, and opportunities for career progression.

Key Components:

- **Hands-On Training:** Candidates gain practical surface preparation experience using equipment and tools on different surfaces.
- **Industry Insights:** Learn about the latest advancements surface preparation techniques.
- **Career Development:** Achieve a recognised qualification and progress towards advanced roles and further education.
- **Health and Safety:** Comprehensive training in health and safety regulations specific to the construction industry.

Course Structure:

The course is divided into several modules, each focusing on a critical aspect of applying the correct method of surface preparation. Training sessions are structured to provide a balanced mix of theoretical knowledge and practical skills. The FeRFA SAP schemes deliver training over **an 18-month period**, requiring trainees to attend a programme of training (theory and practical) at the FeRFA Approved Training Organisation. Employers or sole traders must submit candidates and support their development in accordance with the training modules, providing evidence of practical training for all enrolled candidates.

Benefits for Candidates

By completing the NVQ Level 2 Diploma, candidates will:

- Gain a recognised industry and construction qualification.
- Develop practical skills and knowledge applicable to real-world scenarios.
- Enhance their employability and career prospects within the resin flooring sector.
- Receive ongoing support from FeRFA, including access to resources and industry events.

Benefits for Employers

Investing in employee training through the FeRFA NVQ Level 2 Diploma offers several advantages:

- Upskill your workforce, leading to improved quality of workmanship.
- Demonstrate a commitment to professional development and industry standards.
- Enhance your company's reputation for employing skilled and certified professionals.
- Benefit from improved staff morale and retention rates.

MODULES & LEARNING OUTCOMES

Module 1: Induction to the NVQ

- 1/2 Day

Module 2: Induction / Employment Rights

- 1/2 Day

Module 3: Generic Health & Safety

- 1 Day

Module 4: Introduction to Surface Preparation

- 1 Day

Module 5: Work practice & project planning

- 1 Day

Module 6: Emergency First Aid at Work

- 1/2 Day

Module 7: Asbestos Awareness

- 1/2 Day

Module 8: Manual Handling

- 1/2 Day

Module 9: Abrasive & Diamond Wheels

- 1/2 Day

Module 10: Shotblasting

- 3 Days

Module 11: Planing

- 2 Days

Module 12: Grinding

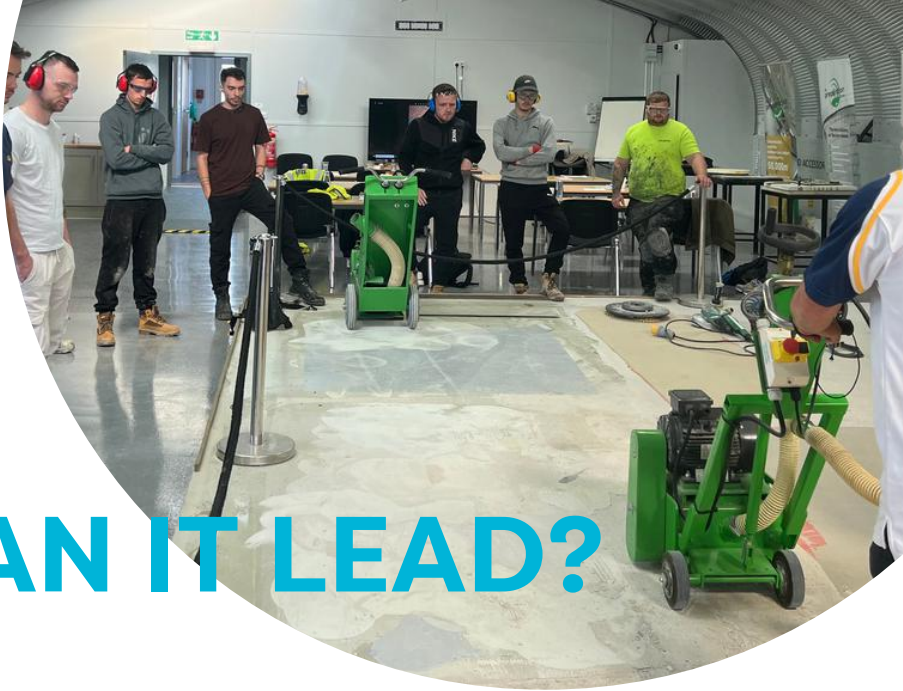

- 2 Days

Module 13: Polishing

- 2 Days

Module 14: Multi-Stripping

- 2 Days

WHERE CAN IT LEAD?

Career Progression

Upon successful completion of the NVQ Level 2 Diploma, candidates can advance their careers by pursuing higher qualifications and specialised roles within the industry. FeRFA supports continued professional development through additional training programmes and resources.

Further Qualifications:
