ABOUT THE EVENT

THE WELLNESS CODE 2024

Having navigated the challenges of the Covid-19 pandemic, Quantum University is thrilled to announce the return of our annual in-person events and student graduation ceremonies. Join us October 18 to 21, 2024 on the beautiful island of O'ahu, Hawai'i, as we commemorate a significant milestone in Quantum University's journey! In celebration of President and Founder Dr. Paul Drouin's incredible 50-year career in medicine, we extend a warm invitation to the highly anticipated live event, The Wellness Code 2024.

DR. PAUL DROUIN
PRESIDENT AND FOUNDER

The Wellness Code 2024 is more than just an event, it's a celebration of Dr. Paul Drouin's vision and Quantum University's commitment to advancing medical education with a new paradigm of healing, a commitment that evolves in perfect harmony with the ongoing advancements in technology.

Throughout the four-day event, we'll showcase how digital developments have revolutionized our approach to health and wellness.

You'll participate in a variety of presentations, immersive workshops, and experiences designed to enhance your understanding and confidence. Our experts will skillfully guide you through the practical application of techniques and tools taught in our degree programs.

Explore cutting-edge technologies that can deepen your understanding of your clients' health and wellness needs. Discover how to pioneer wellness programs that set new standards in holistic health practice, distinguishing you as a standout practitioner. Armed with these practical insights, you'll depart equipped to navigate real-world scenarios with ease.

Attendees will also have the opportunity to connect with our wonderful team at our event booths to learn more about our educational offers, supporting platforms, as well as products and devices. Our booths will feature Admission Advisors, Student Mentors, Alumni Services, and Student Services.

On the final day, the event will conclude with the Quantum University Student Graduation Ceremony for Fall 2024. Experience a formal ceremony followed by a celebratory evening to remember! Witness the triumphant moment as graduates, who have walked the path before you, are honored for their perseverance and success.

THE VENUE

THE HISTORIC ALOHA TOWER

Introducing the iconic Aloha Tower, the backdrop for The Wellness Code 2024. Dive into the history and charm of this historic venue as we embark on a journey of wellness and discovery together.

ALOHA TOWER

THE VENUE

Completed in 1926 and standing at 184-feet tall, Aloha Tower was the tallest building on the island for four decades, offering spectacular views of the harbor with its top floor housing an observatory and lookout station for harbor pilots. Its lighthouse served as a navigation landmark that could be seen from 15 miles at sea, while its clock was one of the largest in the United States.

In the days before air travel, all visitors to Hawai'i arrived by sailing ships until the first steamship arrived in the islands as early as the 1840s. "Steamer Days" or "Boat Days" celebrated the arrival of ships into Honolulu Harbor, gathering large crowds comprising of those welcoming passengers, curious onlookers and enterprising lei sellers.

Today kama'āina and visitors alike enjoy Aloha Tower Marketplace. Situated halfway between Honolulu's airport and Waikīkī, our landmark is an easy-to-reach, must-visit destination for aloha and history

SPEAKER LINE-UP

MEET THE EXPERTS

Prepare to be captivated by our lineup of dynamic speakers, each ready to share their knowledge and insights to help you thrive as a holistic health practitioner.

Journey through a wealth of knowledge guided by Dr. Paul Drouin, President of Quantum University, as he shares insights across six enlightening topics over two days.

Quantum AI, Connecting All The Dots: In Dr. Paul Drouin's presentation, you'll uncover the boundless potential of Quantum University's AI-Powered Mentor, Quantum AI. This cutting-edge technology, exclusive to Quantum University, seamlessly integrates consciousness with artificial intelligence, inviting you to explore the profound connection between consciousness and physical health through a personalized learning experience. Dr. Paul will demonstrate how Quantum AI can transform into your ultimate study companion, enabling swift access to information from your degree program and fostering a deeper understanding of the curriculum, skillfully connecting every piece of knowledge to ensure your journey to graduation is marked by unparalleled excellenc

The Biofield and it's Impact on Human Potential: Join us for an exploration into the biofield and its extraordinary impact on human potential. Delve into the interconnected web of energy that surrounds and shapes us, influencing not just our physical health, but also our minds, spirits, and consciousness. In this thought-provoking presentation, Dr. Paul Drouin will take you beyond the boundaries of conventional understanding, venturing into the realms of Quantum Physics and ancient wisdom. Uncover the mysteries of downward causation, quantum entanglement, and the profound relationship between consciousness and the biofield. Through captivating insights and real-world examples, we unveil the transformative potential of harnessing the biofield for optimal health and vitality. Whether you're a seasoned practitioner or a curious seeker, this presentation offers a fresh perspective and practical tools to unlock the boundless possibilities within yourself and others.

DR. PAUL DROUIN, M.D.

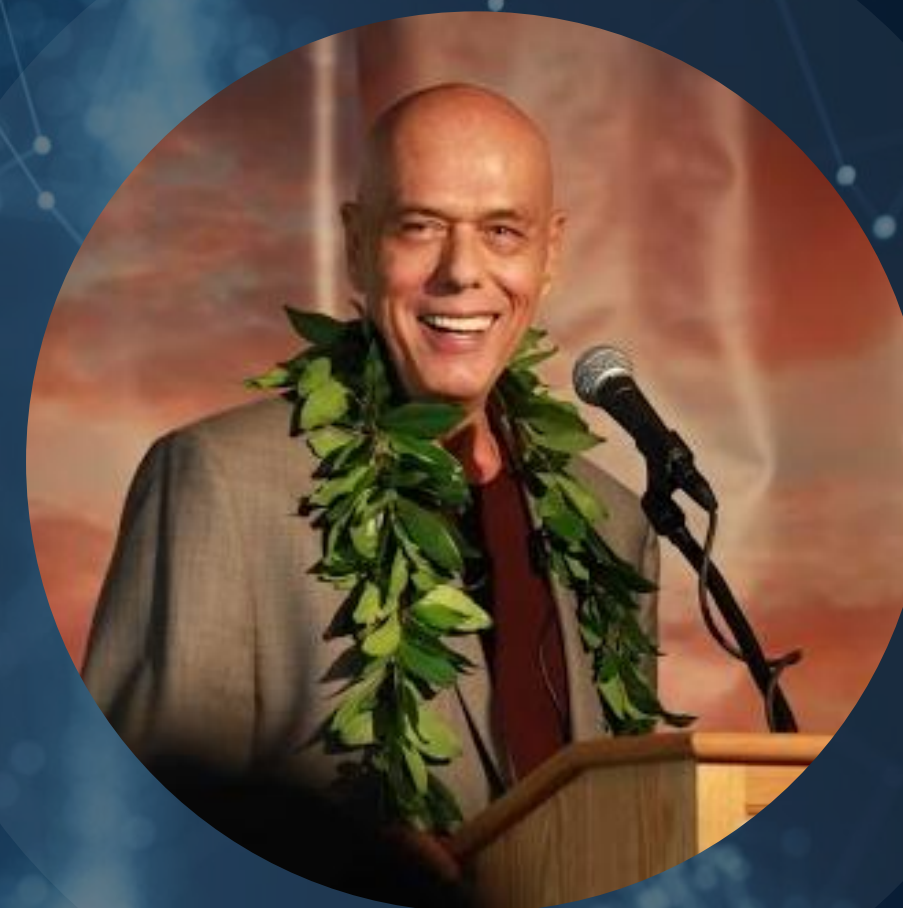

Doctor of Natural Medicine and Professor of Integrative Medicine, Acupuncturist, Homeopath, founder of Quantum University with a 50-year career in medicine.

Noosphere Healing Chamber: Uncover the power of the Noosphere Healing Chamber, a pioneering virtual platform where quantum physics meets collective consciousness to foster profound healing. Learn about the chamber's key features including quantum vacuum engineering for enhanced energy interactions, the utilization of collective intentions to influence physical realities, and the role of microtubules as biological quantum processors. We will also explore the application of quantum entanglement to achieve non-local healing effects.

Quantum Evaluation: Rooted in quantum physics and integrative medicine, the quantum evaluation assessment integrates self-assessment methods and holistic principles to guide individuals toward achieving optimal health. Our session will explore how this paradigm shift can foster enhanced well-being across mind, body, and spirit, providing a comprehensive framework for health practitioners to elevate their practice. Ideal for healthcare professionals, therapists, and wellness advocates, this presentation will offer insights into a more proactive and holistic approach to healthcare.

Q-AI & Homeopathy: Learn how to harness Quantum AI as your companion in creating personalized homeopathic protocols using TE-Homeopathics, infused with Vital Force Technology (VFT). These products harness subtle energy patterns to optimize health outcomes, aiding in reducing inflammation, supporting immune function, enhancing endocrine systems, and promoting detoxification, among other benefits. Gain the skills to effectively utilize Quantum AI as a dynamic tool to assist you in developing tailored protocols, ensuring optimal efficacy and holistic wellness outcomes.

Digital Biofeedback: This presentation will teach students how digital smartphone biofeedback revolutionizes health coaching by providing continuous lifestyle feedback, enabling real-time physiological insights. They'll learn to tailor interventions effectively using this data stream, aiding clients in altering negative behaviors and habits. We'll cover monitoring parameters like heart rate variability (HRV) and stress levels, making the coaching process dynamic and interactive, fostering a proactive journey towards wellness.

DR. PAUL DROUIN, M.D.

Doctor of Natural Medicine and Professor of Integrative Medicine, Acupuncturist, Homeopath, founder of Quantum University with a 50-year career in medicine.

Join Dr. Tara Deniz as she unravels three essential pillars for holistic health practitioners.

Quantum Hematology: This presentation will offer participants a unique and innovative approach for monitoring health. It emphasizes a blend of traditional health practices and modern technology, allowing practitioners to guide clients remotely by teaching them how to draw blood and examine it under a microscope. This process helps validate the effectiveness of consciousness-based programs and provides clients with tangible evidence of their health progress.

Introduction to Auriculotherapy: In this presentation, students will gain a comprehensive understanding of the fundamentals of auriculotherapy, including the intricate connections between specific ear points and various bodily systems, through interactive discussions and hands-on demonstrations. By incorporating auriculotherapy techniques into coaching practices, practitioners can effectively empower clients to manage stress, pain, weight, addiction, and other health issues.

Gas Discharge Visualization (GDV): This session will detail how GDV can preemptively detect imbalances in the biofield before they manifest into physical symptoms. The biofield represents the complex, multidimensional energy field surrounding the human body, fundamentally influencing our health and well-being. It integrates electromagnetic and subtle energies shaped by mental, emotional, and physical states. Understanding and assessing the biofield through GDV technology offers a revolutionary approach to health assessment.

By integrating these three aspects, holistic health practitioners can enhance their capabilities with innovative technology and enrich their programs to guide clients towards optimal health and wellness.
