About Us

Our story

Although our story is old, our passion and excitement is as new as the first day... Our roots were established in 1952 in Ankara, as Tipi Mobilya A.Ş. Today, under the management of the third generation, known as Coastal Homes brand in Turkey and worldwide, we continue to move forward with increasing excitement and big goals. We opened our first store in Addressistanbul Home Decoration Center by taking the Turkey distributorship of a leading global brand in the field of home decoration in 2005. Furthermore, we wanted to give a new direction to our story and decided to produce furniture ourselves. We continued our production, which we first started in Gebze in 2008. In parallel with our growth capacity we continued with production facilities in Alemdağ and Tuzla Industrial Zone. Our team, which always acts with the vision of "producing stylishly designed and quality furniture at affordable prices, and delivering it to the user", has succeeded in keeping customer satisfaction at the highest level with our high taste, design understanding, quality and refined production. As a company that always adopts change for the better, the following years we have taken a brand new route in our story and decided to continue with completely domestic production. We launched our first collection at the end of 2009, following the curiosity of discovering through imagination. The high appreciation and sales success we achieved with our 2010 collection opened the exports opportunities for us. At the point we have reached today, we are proud to rewrite our own story, adding value to living spaces as one of the most successful representatives of 'natural' furniture and 'New England' style. As a very sought after and sold brand in markets such as England, Germany, Switzerland, Greece and Cyprus, we leave a mark from our own design perspective in many parts of the world. With our designs, we continue to touch people's lives in different parts of our country as well as in the world, and we continue to be with them in their best moments. Always in pursuit of new stories, on the trail of discovery...

Our Design Manifesto

"Nature is too generous to create the same thing identical to its previous..."

As Coastal Homes - guests at your home with our products, we are aware and responsible that we will witness your happiest, saddest, most enthusiastic and emotional moments. At this point, our "customer satisfaction" policy is primarily to tell our customers "what we cannot do". Since our products are produced from completely natural materials, there may be slight differences between the products we display in our stores and the products that come to life upon your order, because "Nature is too generous to create the same thing identical to its previous..." For us, this is a tremendous gift that nature offers us, and we produce our products with the awareness of this privilege. However, of course, there may be customers who do not prefer this difference, for this reason they will not be satisfied with the services we will provide. That's why we first tell you "what we can't do" so that our customers share their happiest moments at home for many years with the products they buy while remembering us. As a furniture brand that sees its customers as a valuable part of the Coastal Homes family, we would like to tell you one by one what we cannot do. If you accept, we are ready to share the most beautiful corner of your home with you and make you a part of our family.

Our Production Processes

Everything here is inspired by the simplicity of nature. So everything is exclusive, everything is unique and everything is special - just like you are... We, as Coastal Homes, manufacture our furniture for you so that it fits perfectly with your life and style. We determine every detail, from the color of your furniture to the type of material and design used, together with you. We can change the size, configuration, color and material of almost any design, not just our sofas or sideboards. Because our goal is to help you create a personal home that fits your style, budget and lifestyle. The most important thing is to help tell your own story in the most unique way...

Our Stores

We offer our unique products, which we produce individually for each person, to our users with nearly 20 sales points around the world. As the new generation furniture brand Coastal Homes, we work to provide the best shopping experience with our showrooms both in Turkey and abroad, and we aim to help each of our users create a personalized home suitable for their style, budget and lifestyle with our products and more.
