# Is 'My Home' Secure?

Yes, the security of your personal information is just as important to us as it is to you; for more information about how we use your data please refer to our Privacy Policy which can be found on our website.

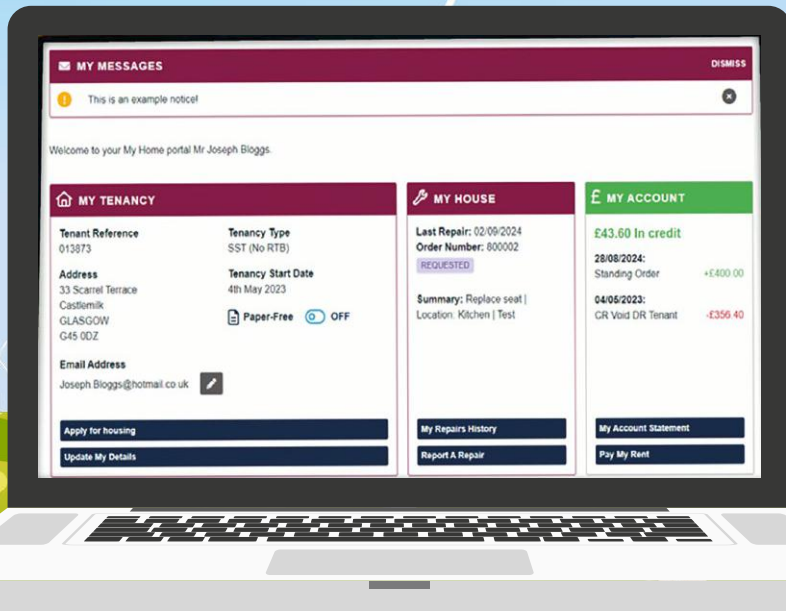

Here are some FAQs:

- **What if someone hacks into your systems –** would they be able to take my rent money or end my tenancy? No – we don't hold any payment or bank details in 'My Home', and all passwords are encrypted. Even if they managed to get in, we need your actual signature to end a tenancy – it can't be completed online.
- **Could someone register as me?** No – there can only be one login for each account. The registration process asks for personal tenancy details only the tenant and our staff should know.
- **Has anyone ever logged in and got the wrong person's information?** No, never.
- **Can anyone else access my account?** Only if you give them your details. If you think someone else has your login details, you can change them at any time.
- **If my name is on the internet, could people stalk me?** The only person who can see your name on 'My Home' is you.
