

A Singularity University Program

# The Future is Better Than You Think

2023

# Welcome

Eleven years ago when I launched Abundance360, I committed to running this year-round leadership program for 25 years. Today A360 supports a global community of 500+ entrepreneurs, investors and CEOs in navigating the tsunami of change coming our way.

Abundance360 combines a 4-Day In-Person (or virtual) Summit every March in Los Angeles, followed by quarterly implementation and mastermind workshops. All our programs are focused on helping our members in leveraging Exponential Technologies to enable their Moonshots, create wealth and uplift humanity.

Converging exponential technologies - from AI and robotics, to blockchain and VR - are reinventing business models at an accelerating pace. And understanding how to navigate accelerating technology is critical for every entrepreneur and organization.

Most people fear the future. They fear what they don't understand and can't predict.

Abundance members are excited about the future, excited about harnessing the power of exponentials to power the change they want to create in the world.

My mission with A360 leadership program is to craft our member's mindsets and to help them train their neural net in 5 specific areas:

- (i) Understanding how to fully leverage artificial intelligence;
- (ii) Enabling an Abundance Mindset;
- (iii) Leveraging an Exponential Mindset;
- (iv) Maintaining a Longevity Mindset; and
- (v) Creating a Moonshot Mindset.

If you're seeking a community of change makers, looking to discover your Massively Transformative Purpose and working to execute on a Moonshot that inspires you from morning through night, then Abundance360 is the community and the platform for you.

Allow us to help you in navigating a world of accelerating change, and to support you in building a 10x business for a better tomorrow.

To your success,

# TechHub

The **TechHub** is a hands-on experience segment of the A360 Summit. The TechHub allows members to experience cutting edge (experiential) advanced technology in a hands-on format. The Tech Hub can be sponsor-branded.

**TechHub Companies:** Typically we curate a group of ~35 Tech companies in areas such as: AI, VR/AR, robotics, Sensors, Networks, 3D printing, biotech, cellular agriculture, and more. Exhibitors in this category show off their advanced technology products in an interactive and hands-on way. Ideal exhibitors have a product to sell, are raising funding, or are in need of strategic partners.

# Longevity Lounge

The Longevity Lounge is an experiential area in the A360 Summit TechHub where members can experience the latest technologies & breakthroughs in the areas of human health and longevity with an opportunity for selected health treatments, technologies demos and unique memberships. Longevity Lounge can be sponsor-branded.

Longevity Lounge Companies: Advanced diagnostics and therapeutics across all disease areas including cancer, neuro and cardiac; age-reversal, exercise and physiology, health and appearance.

Exhibitors in this area show off their advanced technology products in an interactive and hands-on way and have the opportunity to offer treatments (both gratis and paid), morning exercise or meditation classes. They have a product to sell, are raising funding, or are in need of strategic partners.
