TRANSPARENCY NOTE

Catalog printing date: December 2025.

The images on the pages (cover, 8-68, 73, 83, 87-142, 145, 150-208, 211, 213, 217-308, 312, 314, 317, 328, 334-336, 345, 349-351, 369, 374-376, 378, 383-385, 398-401, 407, 409, 413-415, 424-450, 458, 459, 461, 467, 471-497) were generated using artificial intelligence for illustrative purposes.

In accordance with **Regulation (EU) 2024/1689** on Artificial Intelligence, we are anticipating its application by clearly and visibly stating that these images are not actual photographs of the product, but rather digital representations. The final product may vary from the image shown.

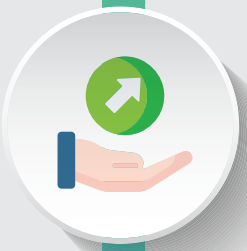

VALENTO

We're a top European maker of workwear, sportswear and promotional clothing.

MISSION

Our mission is to outfit groups and teams across every industry and sector.

VISION

Our vision is to be the leading provider of group clothing solutions through continuous improvement.

PROMISE

We promise a wide range of high-quality products, competitive pricing, and rapid delivery thanks to our extensive stock.

VALUES

Internally: Safety, respect, and collaboration are at the core of our company culture.

Externally: We are committed to respecting and supporting our reseller partners, while making a positive impact on society.

SUSTAINABILITY

We're deeply committed to sustainability. As stewards of our planet and its people, we're constantly seeking ways to make a positive impact. Our actions include:

- OekoTex certification
- Recycling
- Reduction of consumption
- Reduction of CO^2 emissions, and so on.

Why to buy VALENTO garments?

SAFETY

Millions of people rely on our garments daily. Our commitment to safety is unwavering. We maintain a vast stock of over 40 million garments, ensuring consistent color, quality, and size across our entire product line. Our textiles are Oeko-Tex Standard 100 certified, guaranteeing reliability. With over 25 years of experience and a strong reputation, we are a trusted leader in the industry.

AFFECT

By respecting and supporting our reseller partners, we foster strong business relationships. As a 100% European-designed brand, we offer unique and high-quality products.

COMFORT

Designed for group wear, our garments are easy to personalize and mark. Crafted with user comfort in mind, they offer a perfect fit for every team member. Enjoy a quick and hassle-free experience with our 24/7 online stock at valento.eu and lightning-fast delivery times.

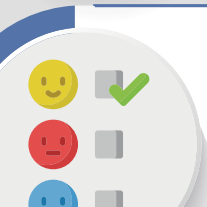

PRESENT

Boasting over 700 stylish products, we offer an extensive range to suit every taste. Our collection is continually evolving with new styles, colors, and sizes added monthly.

SAVING

One-Stop Shop, Exceptional Value: Discover a vast range of products under one trusted brand. Our high-quality garments are built to last, offering exceptional value for money. By controlling our entire production process, from thread to finished product, we eliminate unnecessary costs, ensuring competitive pricing.

PRIDE

Built to Endure: Our garments are engineered for optimal performance using the most durable fabrics and expert craftsmanship. We employ only the highest quality materials and precision stitching to create products that stand the test of time. As a leading European brand, VALENTO is synonymous with excellence and reliability.

LEGEND

COTTON

Textile fiber of vegetable origin, soft, comfortable and breathable.

POLYESTER

Textile fiber of synthetic origin resistant, durable and breathable.

ELASTANE

Textile fiber of synthetic origin that provides elasticity, flexibility and a better fit to the garments.

POLYAMIDE

Textile fiber of synthetic origin with very good resistance to traction, friction and washing.

ACRYLIC

Textile fiber of breathable synthetic origin, with good thermal retention and pleasant to the touch.

VISCOSE

Textile fiber made from vegetable cellulose, fresh, breathable and comfortable.

PAPER

Processed sheet of vegetable origin, dried and hardened.

DENSITY

Indicates the value of the weight of the main fabric or the sum of several fabrics on a surface, expressed grams per square meter.

PCS X BOX

Value that indicates the number of units in a complete box in its original packaging.

ANTIBACTERIAL

Fabric with antibacterial finish that reduces the proliferation of bacteria and bad odors.

QUICK DRYING

Properties of a fabric that facilitate quick drying and perspiration thanks to its structure.

WATERPROOF

Properties of a tissue that block the passage of water and keep the body dry.

WATERPROOF GARMENT

Garment made of waterproof fabric and thermo-sealed seams that prevent water leaks.

WATER REPELLENT FABRIC

Properties of a fabric that make water slip on its surface and prevent it from penetrating it.

THERMAL

Fabric with high thermal retention that maintains body heat thanks to its interior structure.

EXTRA THERMIC

High thermal insulation fabric that keeps body warmth thanks its structure.

LOFT

Lightweight and padded fabric that provides thermal insulation thanks to its structure through channels.

11611-1

Garment certified as IPE category II based on EN ISO 11611 standard about Welding Protection Clothing.

11612

Garment certified as IPE category II based on EN ISO 11612 standard about Flame and Heat Protection Clothing.

14058-1

Certified garment as Personal Protective Equipment (PPE) according to Standard EN 14058 – Protective clothing against cold environments.

17353-B2

Certified garment as Personal Protective Equipment (PPE) according to Standard EN 17353 – Protective clothing – Enhanced visibility equipment for medium risk situations, type B2 for dark conditions.

17353-B3

Certified garment as Personal Protection Equipment (PPE) according to Standard EN 17353 – Protective clothing – Enhanced visibility equipment for medium risk situations, type B3 for dark conditions.

MICROFIBER

Fiber of synthetic origin lightweight, breathable, flexible, comfortable and versatile.

LOBULAR FIBRES

A fibre with a 4-channel structure optimized for efficient moisture wicking.

POLYPROPYLENE

Resistant, durable and recyclable material of synthetic origin.

PVC

Very versatile material of synthetic origin, good waterproof barrier.

PU

Material of synthetic origin, resistant, waterproof and breathable.

JUTE

Natural fibre extracted from the jute bush.

PCS X BAG

Value that indicates the number of units in a complete bag in its original packaging.

SOFTSHELL

Three-layer fabric, usually composed of two textile layers and an intermediate breathable membrane, with windproof effect and high thermal retention.

MONO-STRETCH

Elastic property of the fabric in the horizontal direction that favors mobility.

BI-STRETCH

Elastic property of the fabric, both horizontally and vertically, which promotes mobility.

WINDPROOF

Property of garments that retain body heat and slow the passage of wind.

HEAT-SEALED

Garments with seams covered with sheet that prevents water leaks and keeps the body dry in the rain.

SUBLIMATION

Garments suitable for marking by sublimation.

RIPSTOP

Fabric of quadrangular structure with thicker threads that increase its tensile strength and anti-tears.

PADDED

Padding added to the middle layer of the garment providing high thermal insulation.

20471-1

Certified garment as Personal Protective Equipment (PPE) according to EN 20471 Standard – High visibility clothing, class 1.

20471-1 BICOLOR

Certified garment as Personal Protection Equipment (PPE) according to EN 20471 Standard – High visibility clothing, class 1.

20471-2

Certified garment as Personal Protection Equipment (PPE) according to EN 20471 Standard – High visibility clothing, class 2.

20471-2 MONOCOLOR

Certified garment certified as Personal Protective Equipment (PPE) according to Standard EN 20471 – High visibility clothing, class 2.

20471-3 MONOCOLOR

Certified garment certified as Personal Protective Equipment (PPE) according to Standard EN 20471 – High visibility clothing, class 3.

343-1

Certified garment as Personal Protection Equipment (PPE) according to Standard EN 343 – Rain protection clothing.
