TECH ACCESSORIES FOR LAPTOP, CHROMEBOOK & TABLET DEVICES

LEARNING

in a digital-first world

Over **90%** of **organisations** in the education sector have undergone or are undergoing a **digital transformation**.*

Among teachers and administrators, confidence in the education profession is on the rise**. Here are the current challenges they are facing:

- **Hybrid and remote education is on the rise***.** Although this increases access to education, educators must find and learn new technologies to facilitate this.
- **Attention spans are decreasing.** According to a recent Microsoft report, the average attention span has dropped from 12 seconds to 8. This has increased the need for engaging materials and seamless technology.
- **Teachers are focusing on their wellbeing.** 70% noted mental health concerns within the profession, with 65% expressing interest in finding ways to get more time for themselves during the day.**
- **Today's educators are looking out for the teachers of tomorrow.** Over half believe support for educator wellbeing and physical health will help recruit new teachers.**

9 in 10 decision makers working in the education sector believe that better technologies and accessories would increase the satisfaction of employees.*

A New Standard in Clean

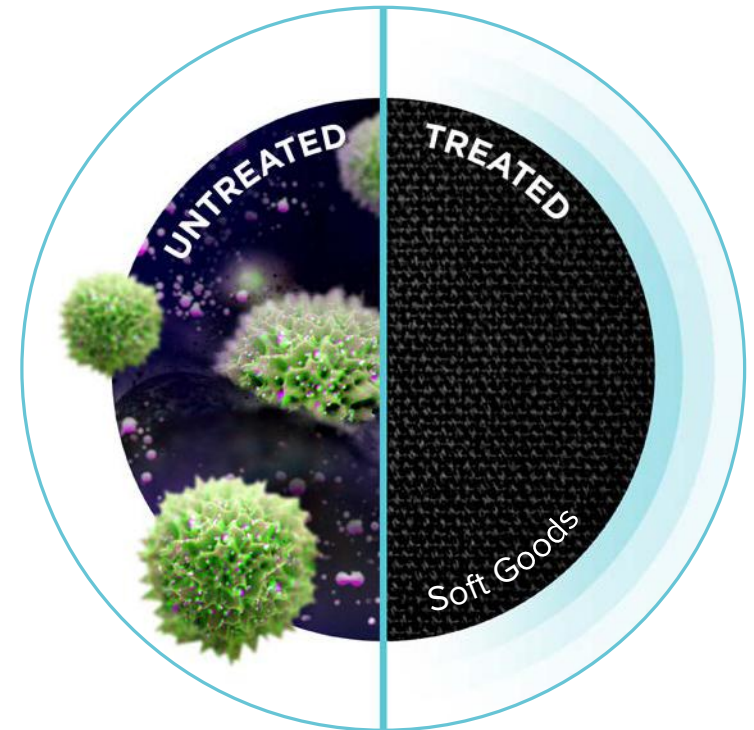

Work well anywhere with accessories featuring integrated **DefenseGuard™ antimicrobial protection** for a cleaner workspace. Proven to protect bags, cases, keyboards and mice against germs, it won't wear off or wash off and will remain effective for the lifetime of the product.

Independent laboratory testing to standards including JIS Z 2801 and ISO 22196:2011 demonstrated a **99.9% reduction** of Staphylococcus Aureus (Staph Infection) and Escherichia Coli (E. coli).

BPR and EPA compliant, silver antimicrobial agents have been infused into Targus DefenseGuard™ products to provide all-round protection, continuously neutralising bacterial threats to provide a durable, cleaner surface.

*Antimicrobial product protection is limited to the case or device itself.

Protecting Your Technology...

**MILITARY
STANDARD**

US MIL-STD-810G*

Every case features Military Standard drop protection

The MIL 810G 1.2m/4ft drop protection is a test standard set by the US Department of Defence and is generally accepted as the benchmark for ruggedised protection of mobile computers and equipment.

Tests include:

- 4ft/1.2m drop protection testing, 25 drops on concrete – no device damage
- Dust and water splash tests

POWER

At Targus we work tirelessly to ensure our power products meet the strictest quality control and tests so you can be assured that you and your devices are protected. Targus also uses the latest technologies to preserve your device battery health.

Quick Tip

We know that sometimes it is difficult to remember how much power or wattage the AC power adapter supplies to your laptop or smart device. Here's a rule of thumb:

- 5-20W – smartphones and tablets
- 45W – most 11.6 - 14 inch laptops
- 65W – most 14 - 15.6 inch laptops
- 90-100W – most 15.6+ inch laptops
