

A close-up photograph of industrial machinery, likely a suction cup assembly. The machine is primarily yellow and grey. A central grey component is being held or moved by two suction cups. The background is slightly blurred, showing more of the machinery. The overall lighting is somewhat dim, with a blueish tint.

SUCTION CUPS.

SUCTION CUPS MADE FOR HEAVY AND FAST LIFTING.

We are a leading manufacturer of rubber solutions for indoor and outdoor vacuum lifters and glazing robots. With our many years of experience and in-house production facilities, we are able to manufacture customized and top-quality vacuum solutions for heavy lifts for several industries.

Our vacuum solutions are moulded in high quality rubber and carefully customized to every application to ensure a maximum performance, reliability and durability regardless that you are lifting glass, granite or steel elements.

SOLUTION WITH YOUR
OWN BRAND LOGO.***

WE LOVE CUSTOMIZATION AND OPPORTUNITIES.

We know that our customers needs are different. In addition to customizing the design and type of the rubber, we are specialized in moulding on different cores. That means we can offer a suction cup where the core is made of **aluminium** or **galvanized steel**.

ALUMINIUM.

Choose a core made of aluminium if you want a premium and ultra light suction cup that always provide high performance and durability.

GALVANIZED STEEL.

Choose a core made of galvanized steel if you want a more economic and cheaper suction cup without compromising on performance and durability.

PACKAGING. LET US
MANAGE THAT.***

WE MAKE IT EASY FOR YOU TO BE A CUSTOMER.

We are a full-service manufacturer of customized rubber solutions. That means we offer to manage all the processes that will be a part of your vacuum solution. That means you not only buy a product but a complete solution, always with an ultra high service level.

In a vacuum solution aluminium or steel components are often necessary. We offer to manage the purchase of the steel components for your vacuum solutions to make your work easier.

After we have manufactured your products we offer to organize it in your own packaging to make the dispatching to your customers easier.
