LOVE PRODUCTS

PRODUCTS FOR
EXTRAVAGANT PLEASURE!

JOYRIDE is a brand of **st** RUBBER

OUR PHILOSOPHY: UNIQUE & SPECIAL

Is it all a question of the material? Not only. But that's how it all started. When we decided to develop a brand that focuses exclusively on toys made of glass, we had several things in mind: First, the aesthetics. On the other hand, the added value of the material, which should not be despised.

Glass plays a far-reaching role in eroticism. How so, you ask? Well, then just think about a successful foreplay that doesn't just begin in bed, but at the table: with a carefully and passionately prepared menu. Of course, a fine drop should not be missing. The noble drop is not served in a thick juice glass, but in a noble crystal that is slowly brought to the lips. Maybe covered with a sugar rim too, maybe chilled out of the fridge. With JOYRIDE Premium GlassiX, ST RUBBER offers unique pieces, especially for lovers of elegant extravagance. Whether boldly cold fresh from the freezer or pleasantly warm as part of bathing fun - JOYRIDE Premium GlassiX seduces with its feel, look and a stylish extra portion of pleasure.

You see, glass can be very sexy.

An elegant, high-quality series of handmade glass toys (in which every piece is unique). Each product in the series has been crafted from special quality glass and will captivate you with its unique personality. Our glass toys are all hypoallergenic, odorless and completely hygienic. The unique details of each piece are simply a delight.

Enjoy complete satisfaction with JOYRIDE's high-quality innovative and ergonomic products. The surface of each piece is extremely hard and scratch-proof.

Use: Whether you like it icy cold or warm and snug, your glass toy is ready at any time at the temperature you want. Whether you chill it in the fridge or freezer or gently heat up in warm water before use - you'll never want to put your glass toy down again.
