Different SOLUTIONS for CHASSIS FIXATION
Distintas SOLUCIONES de FIJACIÓN al CHASIS

PILAR MODULAR XL

RANCHER MODULAIRE XL

Our new MODULAR SLIDING PILLAR is the SOLUTION for customers who:

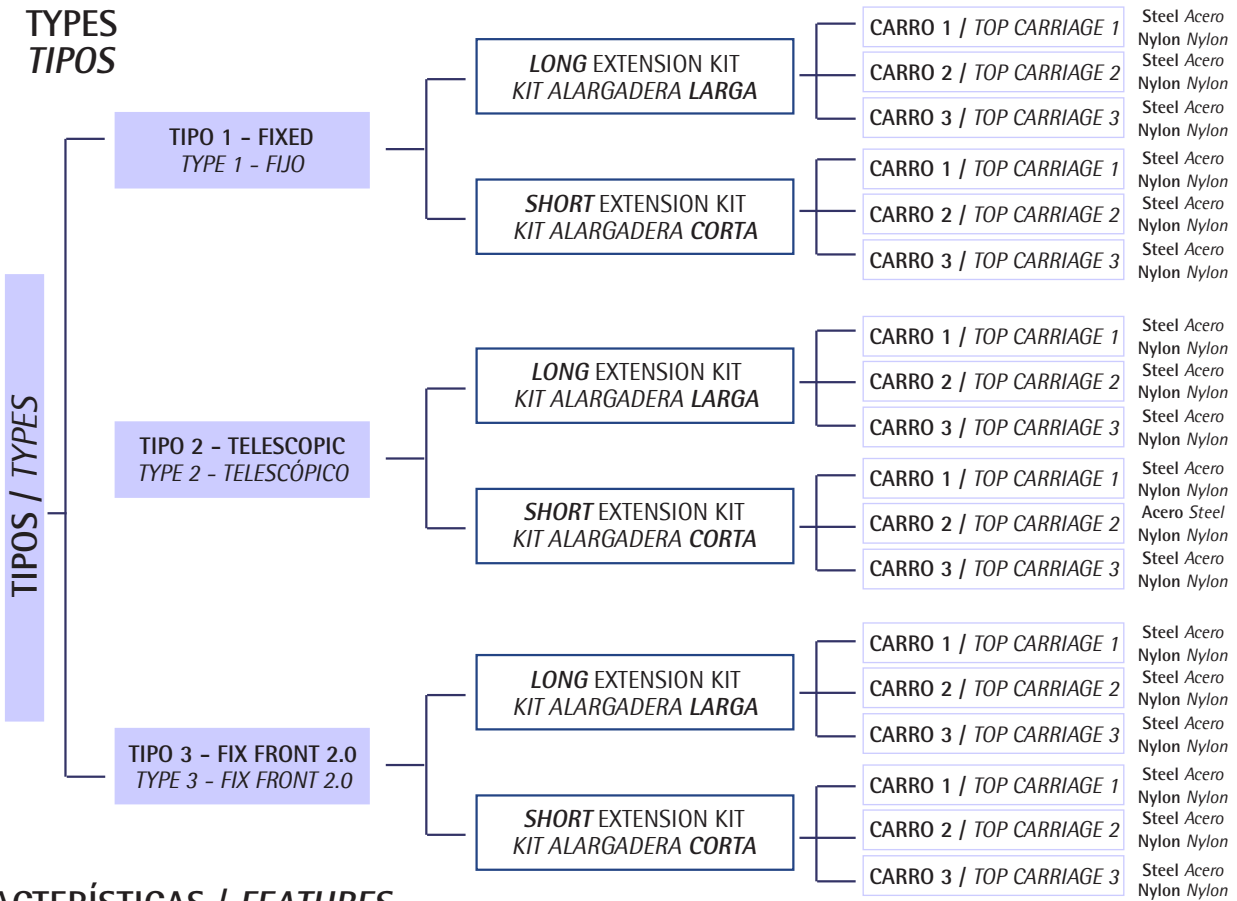

- Do not want to order big amounts per each set type.
- Cannot stock dozens of different sets permanently.
- Need flexibility and immediate service.

Nuestro nuevo PILAR MODULAR es la SOLUCIÓN para clientes que:

- No quieren pedir grandes cantidades por cada tipo de conjunto.
- No pueden almacenar grandes cantidades de sets diferentes de forma permanente.
- Necesitan flexibilidad y servicio inmediato.

MODULAR PILLAR / MODULAR RUNGE / PILAR MODULAR

One BODY + different PARTS*
(that can be combined to fit to most trailers and truck bodies)

- ✓ Adaptable to most commercial roofs in the market.
- ✓ Covers a height range from 2.400 mm to 3.300 mm.
- ✓ Optional: with or without elevation.
- ✓ Suitable for XL certified bodies.

Un Pilar + diferentes COMPONENTES*
(que se pueden combinar para adaptarse a la mayoría de los remolques y carrocerías de camiones)

- ✓ Adaptable a la mayoría de techos comerciales del mercado.
- ✓ Cubre un rango de altura desde 2.400 mm. hasta 3.300 mm.
- ✓ Opcional: con o sin elevación.
- ✓ Apto para carrocerías con certificación XL.

ADAPTABLE TO ANY BODY
ADAPTABLE A CUALQUIER CARROCERÍA

*These body and parts are standard and permanently available in our stock

*Tanto el pilar como los componentes son estándar y se encuentran disponibles permanentemente en nuestro stock.

(En caso de no ser de Edscha, Versus Omega, Autocar o Sesam enviar plano)

- 3.1 Ancho techo / Dachbreite: L1= _____
- 3.2 Ancho chasis / Chassisbreite: L2= _____
- 3.3 Offset: L3= _____

4. ROOF ELEVATION ELEVACIÓN DE TECHO:

- 4.1 Has the vehicle roof elevation? Please indicate elevation range in mm.
¿El vehículo tiene elevación de techo? (Por favor indique rango de alturas a cubrir)
Yes / Sí $H_2 =$ _____
No / No

4.2 Does the vehicle need to travel with elevated roof? Is a mechanical height fixing system needed in the pillar?
¿El vehículo necesita viajar con el techo elevado? ¿Necesita una fijación mecánica de la altura a diferentes niveles en el pilar?

- Yes / Sí
- No / No

5. VEHICLE INTERNAL HEIGHT (FROM CHASSIS UPPER EDGE TO ROOF PROFILE DOWN EDGE)
ALTURA INTERNA DEL VEHÍCULO (DESDE EL BORDE SUPERIOR DEL CHASIS HASTA EL BORDE INFERIOR DEL PERFIL DE TECHO)

- 5.1 Range of heights (mm.):
Rango de alturas a cubrir (mm.): min: _____ max: _____
- 5.2 One height (mm.):
Una altura (mm.): $H_3 =$ _____

6. TIMBERHOLDERS
CARTOLILLAS

- 6.1 To weld *Para soldar* to rivet *para remachar* 5.1 / 5.2 H_3
- 6.2 Reference _____ and N° of **big** timberholders per pillar (0 or 2) 0
Referencia _____ *y N° de cartolillas grandes por pilar (0 o 2)* 2
- 6.3 Reference _____ and N° of **small** timberholders per pillar _____
Referencia _____ *y N° de cartolillas pequeñas por pilar* _____
- 6.4 In case of needing them mounted, please indicate A, B and C measurements:
En caso de querer que se le suministren montadas indicar separación A, B y C:
 (mm.) A B C

- 6.5 Please give thickness of wooden or aluminium sideboard:
Indicar espesor de tabla o cartola (mm.):

e = _____

7. SIDE BOARD LOCKS
CIERRES DE CARTOLA

In case of needing indicate:
En caso de necesitarlos indicar:

- 7.1 Height of the pocket from chassis upper edge $H_4 =$ _____
Altura de la uña desde borde superior del chasis
- 7.2 Sideboard Lock Reference:
Referencia del cierre de cartola:
(ver catálogo/ siehe Katalog) _____

8. SURFACE TREATMENT
TRATAMIENTO SUPERFICIAL

- 8.1 KTL Cathaphoretic treatment (please indicate thickness in microns μ) _____
Cataforesis (indicar espesor en micras μ)
- 8.2 Acrylic painting (please indicate thickness in microns and color RAL code) _____
Pintura acrílica (indicar espesor en micras μ y color RAL)
- 8.3 Others (please describe) _____
Otros (Especificar)
- 8.4 Raw
Sin recubrimiento

ADALIFTER

✓ DOUBLE EFFECT / DOBLE EFECTO

2 times faster because it elevates both when the handle is pushed up and down.
2 veces más rápido al elevarse tanto al accionar la manilla hacia arriba como hacia abajo.

✓ HYDRAULIC / HYDRÁULICO

Perfect functioning both at high and low ambient temperature.
Perfecto funcionamiento tanto a baja como a alta temperatura ambiente.

✓ SYMMETRICAL SYSTEM / SIMÉTRICO

The same system can be installed at the left or right side of the truck body.
Fijación a la carrocería en ambos sentidos, sin necesidad de guardar mano izquierda o derecha.

✓ ELEVATION RANGE / RANGO DE ALTURAS

STANDARD (450mm. / 500mm.)
COAXIAL (450mm. / 500mm. / 600mm.)

✓ OIL CIRCUIT SEALED / CIRCUITO DE ACEITE SELLADO

Perfectly sealed oil circuit and manual purge valve.
Circuito de aceite perfectamente cerrado y con posibilidad de purgado manual.

✓ ROBUST / ROBUSTO

Successfully passed the most exigent tests required by our OEM customers
Superados los más exigentes test de vida exigidos por nuestros clientes OEM.

HYDROPNEUMATIC SYSTEM *SISTEMA HIDRONEUMATICO*

✓ Automatic Roof Elevation / *Elevación Automática de Techo*

✓ Robust and Durable / *Robusto y Durable*

HYDROPNEUMATIC SYSTEM

SISTEMA HIDRONEUMÁTICO

✓ FAST ELEVATION / RÁPIDA ELEVACIÓN

The roof is lifted in a quick and smooth way.
El techo se eleva de forma rápida y suave

✓ ELEVATION RANGE / RANGO DE ALTURAS

450mm. / 600mm. / 800mm. / 1.000mm.

✓ ROBUST / ROBUSTO

It is a very strong system which grants a perfect functionality for many years.
Es un sistema muy robusto que garantiza una perfecta funcionalidad durante muchos años.

✓ EASY & CONVENIENT / FÁCIL & CÓMODO

Just by pulling the handle, the system automatically elevates the roof.
Tan solo accionando el mando, el sistema eleva automáticamente el techo.

✓ SIMPLICITY / SENCILLEZ

It uses the compressed air supply of the truck itself. No any additional force supply needed.
Utiliza el suministro de aire comprimido del camion. No es necesario ningún motor o equipo adicional.

✓ PERFECT PERFORMANCE / FUNCIONAMIENTO PERFECTO

The system lifts the 4 corners of the roof at the same time, thanks to its high-powered output.
El sistema eleva las 4 esquinas del techo al mismo tiempo, gracias a su gran potencia de elevación.

✓ AVOID BREAKDOWNS / EVITA AVERÍAS

No movable electrical parts are required.
No son necesarios accesorios eléctricos adicionales.

FAST & EASY! / ¡RÁPIDO Y FÁCIL!

Control Kit / Kit de mandos

Simple and intuitive.
Simple e intuitivo.

INFORME DE ENSAYO
TEST REPORT
Nº de Informe: 19-0429A
Report number :

Materia: UNE-EN 12642:2006
Relativa a: FIJACION DE LA CARGA EN VEHICULOS DE CARRETERA
ESTRUCTURA DE CARROCERIA DE LOS VEHICULOS COMERCIALES
REQUISITOS MINIMOS
With regard to : SECURING OF CARGO ON ROAD VEHICLES
BODY STRUCTURE OF COMMERCIAL VEHICLES
MINIMUM REQUIREMENTS
Tipo de ensayo: APARTADO 5.3.4. RESISTENCIA DE LAS PAREDES LATERALES
Test type: SECTION 5.3.4 OF STRENGTH OF SIDE WALLS

PART 1.- GENERALIDADES
PART 1.- GENERALITIES

1.1.- SOLICITANTE: ADAICO TRUCK & TRAILER, S.L.U.
APPLICANT : POL. EMPRESARIAL BOROA, SECTOR UI-13 - 2: PARC. 4 - 2B4.
BOROA - AMOREBIETA - 48340 - BIZKAIA - ESPAÑA.

1.2.- MUESTRA ENSAYADA:
TESTED SAMPLE

Marca: ADAICO

Mark:

Tipo o identificación: ADA SLIDER CLASSIC

Type or identification:

Descripción: Pared lateral compuesta por lonas correderas de PVC sobre perfil superior e inferior de aluminio con cierre de tensado delantero y trasero provistos de cerraduras de seguridad. Ver apartado 3.2
Description: Lateral wall composed of PVC sliding railings on upper and lower aluminum profile with front and rear tensioning device provided with safety locks. See section 3.2

PART 2.- CONCLUSIONES
PART 2.- CONCLUSIONS

La PARED LATERAL objeto de este informe CUMPLE / ~~NO CUMPLE~~ con los requisitos relativos a la resistencia de estructuras de carrocería reforzada CODIGO XL ensayada de acuerdo al apartado 5.3.4. de la norma UNE-EN 12642:2006, habiendo superado con éxito los siguientes requisitos:
The SIDE WALL gathered in this report FULFILLS / ~~DOES NOT FULFILL~~ this requirement for strength reinforced body structures XL CODE tested according to paragraph 5.3.4. of the EN 12642:2006 standard, having passed the following conditions:

Componente	Requisito ensayo	Carga útil autorizada (P)	Carga de ensayo
Component	Test Requirement XL Code	Authorized Payload (P)	Load Test
Pared lateral	0,4 P	10.000 daN	4.000 daN
Side Wall			

Así mismo de conformidad con el apartado 4 de la norma UNE-EN 12642:2006, la PARED LATERAL objeto de este informe se considera adecuada para su utilización en carrocerías reforzadas código XL. According to paragraph 4 of the UNE-EN 12642:2006 standard, the SIDE WALL gathered in this report is suitable for using with reinforced body structures code XL.

Edition 1 / 4

✓ **FAST CURTAIN OPENING**
RÁPIDA APERTURA DE LONAS

The patented horizontal profile allows an smooth sliding and avoids blockages.
Perfil horizontal patentado que evita bloqueos y permite un deslizamiento suave.

✓ **TELESCOPIC ALUMINUM DOORS**
PUERTAS DE ALUMINIO TELESCÓPICAS

Unique system to ensure absence of problems when the truck box is subjected to torsions (Ex. up on the sidewalk)
Sistema único para asegurar la apertura fácil cuando la caja del camión está sometida a torsiones (Ej. Subido a una acera).

✓ **ALWAYS PERFECT ADVERTISING**
PUBLICIDAD SIEMPRE PERFECTA

The door locks acts as a tensioner, ensuring that the curtain is always offering the best image as possible.
Cierre de puerta que actua como tensor, para contar con una lona que ofrezca siempre la mejor imagen.

✓ **PROTECTION AGAINST BUMPS**
PROTECCIÓN ANTI-GOLPES

The main function of the lower PVC profile is to protect the horizontal aluminum track from continuous bumps from the forklift during the loading/unloading process.
El perfil de PVC inferior cumple la función principal de proteger al perfil de aluminio de los continuos golpes en los procesos de carga y descarga.

✓ **FAST AND EASY CURTAIN FOLDING**
PLEGADO FÁCIL Y RÁPIDO

The patented outfolding system allows a perfect folding and a correct sliding of the curtain across its way.
El sistema outfolding (patentado) permite un perfecto plegado y un correcto deslizamiento de la lona a lo largo de su recorrido.

✓ **HEIGHT ADJUSTABLE DOOR LOCKS**
CIERRE AJUSTABLE EN ALTURA

The locks are designed to allow fixing at any height, at customer's wish.
Cierre diseñado de tal manera que permite ser atornillado a cualquier altura, en función de la necesidad del cliente.

✓ Instructions for choosing curtains: GRAMMAGE & DIMENSIONS
Instrucciones para la elección de lona: GRAMAJE Y DIMENSIONES

Recommended Curtain: Panamá 900 grs. provide with the top rollers, buckles, and unfolding system already assembled.
Lona recomendada: Panamá 900 grs. Servidas con los carros superiores, hebillas y el sistema outfolding ya montados.

La longitud de la lona se mide desde este extremo
It measures the length of the curtain from this point

DETALLE A

Macarrón de PVC debe ser 135 mm mas corta que la altura de la lona
The PVC rod must be 135mm shorter than the curtain height

LENGTH OF THE CURTAIN = L (inner) - 400 mm.
Ejemplo = 5.000 mm. (A) - 400 mm. = 4.600 mm.
HEIGHT OF THE CURTAIN = H (inner) + 125 mm.
Ejemplo = 2.200 mm. (B) + 125 mm. = 2.325 mm.

LONGITUD DE LONA = L (interior) - 400 mm.
Ejemplo = 5.000 mm. (A) - 400 mm. = 4.600 mm.

ALTURA DE LONA = H (interior) + 125 mm.
Ejemplo = 2.200 mm. (B) + 125 mm. = 2.325 mm.m.

73R-011168

Material: Polypropylene, Nylon, Polycarbonate.
Production Process: injection moulding.
TUV Certification: tested for resistance to water and dust ingress (IP59K).
VCA Homologation: the product is approved as lateral protection system (ECE-R73.01).

Material: Polipropileno, Nylon, Policarbonato
Proceso fabricación: Moldeo por inyección.
Certificación TUV: Prueba de estanqueidad superada (IP59K).
Homologación VCA: Cumple la normativa ECE-R73.01 como sistema de protección lateral.

- Inspection window with "OR" seal for a better water resistance
Visor de inspección con junta "OR" para mayor estanqueidad
- Fire extinguisher holding kit composed of: PVC clamping spring with 4 attachment points and nylon clamping ring available in 2 sizes (Ø 150/170 mm, Ø170/190 mm)
Kit de bloqueo extintor compuesto por: correa de sujeción en pvc con 4 puntos de enganche y anillo de bloqueo en nylon en dos medidas (Ø 150/170 mm, Ø 170/190 mm)
- Innovative labyrinth system against water and dust ingress (IP59K, TÜV)
Sistema laberinto innovador para mayor estanqueidad al agua y polvos (IP59K, TÜV)
- Lockable to ensure maximum security
Cerradura con candado (no incluido) para garantizar mayor seguridad

ADAMANT

Material: Polypropylene, Nylon, Polycarbonate.

Production Process: injection moulding.

TUV Certification: the product has been tested for resistance to water and dust ingress (IP59K), accelerated weathering, flammability, compression and resistance to fuel and lubricating oil. The product functionality has not been compromised.

VCA Homologation: the product is approved as lateral protection system (ECE-R73.01).

Material: Polipropileno, Nylon, Policarbonato.

Proceso fabricación: Moldeo por inyección.

Certificación TUV: El producto ha sido sometido a varias pruebas: resistencia al agua y polvo (IP59K), envejecimiento acelerado, inflamabilidad, compresión y resistencia a hidrocarburos y aceites lubricantes. La funcionalidad del producto no ha sido comprometida.

Homologación VCA: Cumple la normativa ECE-R73.01 como sistema de protección lateral.

Orientación estándar de los tableros - construcción recomendada

- Spacing between screws 150–300 mm near to the joint and elsewhere 300–400 mm.
- The distance from the edge of the screw head to the panel edge is minimum 10 mm.
- Acid proof screws to be used
- Protect the screw-heads after installation with sealing compound

- Distancia entre tornillos 150 a 300 mm. cerca de la articulación y en otros lugares 300 a 400 mm.
- La distancia desde el borde de la cabeza del tornillo hasta el borde del panel es 10 mm mínimo.
- Utilizar tornillos a prueba de ácido.
- Proteger las cabezas de tornillos después de la instalación con un compuesto de sellado.

¿WHY 2 TUBE DIAMETERS 100 OR 120 MM?

Our Bumpers are approved for N2 (G) and N3 (G) vehicles.
-N2 (G) corresponds to heavy vehicles up to 12T.
-N3 (G) corresponds to heavy vehicles over 12T.
-The letter G includes vehicles classified as "all-terrain", that is, heavy vehicles that can travel on roads and in quarries.

N2 (G) heavy vehicles up to 12T:

- N2 < 8T: 100 mm tube (not N2 (G) in < 8T)
- N2 > 8T: 120 mm tube.
- N2 (G) > 8T: 100 mm tube.

N3 (G) from 12T:

- N3: 120 mm tube
- N3 (G): 100 mm tube

¿POR QUÉ 2 DIÁMETROS DE TUBO 100 O 120 MM?

Nuestros Paragolpes están homologados para vehículos N2 (G) y N3 (G).
-N2 (G) corresponde a vehículos pesados de hasta 12T.
-N3 (G) corresponde a vehículos pesados de más de 12T.
-La letra G incluye vehículos clasificados como "todoterreno", es decir, vehículos pesados que pueden circular por carretera y en canteras.

N2 (G) vehículos pesados de hasta 12T:

- N2 < 8T: tubo de 100 mm (no de N2 (G) en < 8T)
- N2 > 8T: tubo de 120 mm.
- N2 (G) > 8T: tubo de 100 mm.

N3 (G) a partir de 12T:

- N3: tubo de 120 mm
- N3 (G): tubo de 100 mm

LATERAL PROTECTION / PROTECCIÓN LATERAL

TECHNICAL FITTINGS INSTRUCTIONS RELATED TO LATERAL PROTECTION, according to R73 reglement.

The vehicles belonging to N2, N3, O3 and O4 classes must be built and equipped, in order to offer the road users (pedestrians, cyclist...) an efficient protection against the risk of falling under a lateral part of the vehicle and slipping under the wheels.

PRESCRIPCIONES TECNICAS RELATIVAS A LA PROTECCION LATERAL, según el reglamento R73.

Los vehículos de las categorías N2, N3, O3 y O4 deben estar construidos y equipados de forma que ofrezcan a los usuarios de la carretera (peatones, ciclistas, etc.), una protección eficaz contra el riesgo de caer bajo una parte lateral del vehículo y pasar bajo las ruedas.

ADATENSIONER

CURTAIN ACCESSORIES / PLANEN-ZUBEHÖR / ACCESORIOS DE LONAS

✓ **Slotted Drive Version**
(left & right)
Versión Adaptador Ranura
(izda & dcha)

✓ **Square Drive Version**
(left & right)
Versión Adaptador Cuadrado
(izda & dcha)

✓ **Antitheft System**
Sistema antirrobo

The design of the ADA-SAFETENSIONER, once closed, prevents any type of external manipulation that allows the slack of curtain, avoiding the access to interior of trailer.

El diseño del ADA-SAFETENSIONER, una vez cerrado, evita cualquier tipo de manipulación externa que permita el destensado de la lona, evitando así el acceso al interior del remolque.

✓ Durability & Robustness Durabilidad & Robustez

- Saline fog chamber test: DIN EN ISO 9227
- Material: Zinc Nickel + Inorganic zinc laminated
- Test de Niebla Salina: DIN EN ISO 9227
- Material: Zinc Niquel + Zinc laminar inorgánico

Test: > 100.000 cycles

BENEFITS / VENTAJAS

- ✓ Efficient and safe fastening.
Sujeción eficaz y segura.
- ✓ Standard & structural rivets.
Remaches estándar y estructurales.
- ✓ Rivet nuts.
Tuercas remachables.
- ✓ Fine finishing.
Acabados finos.
- ✓ Multiple applications for the Commercial Vehicle.
Múltiples aplicaciones para Vehículo Industrial.
- ✓ Cordless, pneumatic and manual Rivet Tools.
Remachadoras a batería, neumáticas y manuales.
- ✓ ADAICO QUALITY guaranteed.
Calidad garantizada por ADAICO.

ADAPLY

The ADAPLY rivet is a riveted joint system. It fixes the board to the chassis, and also offers great resistance to traction and shear.

El remache ADAPLY es un sistema de unión remachada. Fija el tablero con el chasis, y además, ofrece una gran resistencia a la tracción y cizallamiento.

ADVANTAGES/FEATURES

- ✓ Durable and indivisible fixation.
- ✓ Improves other conventional joining systems.
- ✓ Quick installation in chain work systems.
- ✓ Car countersunk head on truck floor without pre-countersunk hole.
- ✓ Great resistance to traction and shear.
- ✓ Wide riveting range.

VENTAJAS/CARACTERÍSTICAS

- ✓ Fijación duradera e indivisible.
- ✓ Mejora otros sistema de unión convencionales.
- ✓ Rápida instalación en sistemas de trabajo en cadena.
- ✓ Auto avellanado de la cabeza en el suelo del camión sin agujero previo avellanado.
- ✓ Gran resistencia a la rotura por tracción y/o cizallamiento.
- ✓ Amplio rango de remachado.

BENEFITS / VENTAJAS

- ✓ The highest cutting speed in the market.
La mayor velocidad de corte del mercado.
- ✓ Time saving.
Ahorro tiempo de trabajo.
- ✓ Fine finishing.
Acabados finos.
- ✓ Multiple applications for the commercial vehicle (Steel, aluminium, polyester,...).
Múltiples aplicaciones para vehículo industrial (acero, aluminio, poliéster,...).
- ✓ Excellent ergonomomy (low vibration)
Excelente ergonomía (menor vibración).
- ✓ Available in diameters 115, 125 & 180 mm.
Disponibles en diámetros 115, 125 y 180 mm.
- ✓ ADAICO QUALITY guaranteed.
Calidad garantizada por ADAICO.

Applications Aplicaciones

Handy shears suitable for curves to cut and edge thin sheets
Cizalla manejable y apta en curvas para cortar y cantear chapas de poco grosor

ADAFLEX

Characteristics:

ADAFLEX is a mono-component elastomeric sealer based on polyurethane. It has high elasticity, good resistance to tearing and to the weather. After application, it polymerizes with the moisture from the air to form a flexible joint.

Características:

ADAFLEX es un sellador elastomérico monocomponente a base de poliuretano. Tiene alta elasticidad, buena resistencia al desgarro y a la intemperie. Después de la aplicación, polimeriza con la humedad del aire para formar una junta flexible.

Application:

ADAFLEX is recommended for joining and sealing in the field of industrial bodywork. It adheres without primer on the most common surfaces: anodized aluminum, lacquered metal, polyester, glass, etc. However, due to the great variety of surfaces and installation conditions, it is necessary to carry out preliminary tests on difficult materials (especially non-ferrous metals or lacquers and other plastic supports such as PVC, PMMA or ABS), where abrasion or the use of a primer will improve adhesion.

Aplicación:

ADAFLEX se recomienda para unir y sellar en el campo de la carrocería industrial. Se adhiere sin imprimación sobre las superficies más comunes: aluminio anodizado, metal lacado, poliéster, vidrio, etc. Sin embargo, debido a la gran variedad de superficies y condiciones de instalación, es necesario llevar a cabo pruebas preliminares en materiales difíciles (especialmente en metales no ferrosos o lacados y otros soportes de plástico como PVC, PMMA o ABS), donde la abrasión o el uso de una imprimación mejorarán la adhesión.

Specifications / Especificaciones:

Density at 20 ° C: Black: 1,15 ± 0,02 / Others: 1.16 ± 0.02
 Layer formation time at 23 ° C and 50% RH: approx. 50 min
 Crosslinking speed: at 23 ° C and 50% RH:> 3 mm / 24 h
 Shore A hardness (internal method IT-20 according to ISO 868 - 3 seconds): approx. 40
 Resistance to temperature: -40 to + 80 ° C
 Resistance to diluted acids and bases: Medium
 Resistance to UV rays: Good
 Resistance to water and salt spray: Excellent
 Compatibility with paints on polymerized mastic:
 - Water: Yes
 - Acrylics: necessary tests
 Specific data: Tear strength (ISO 34): approx. 8.5 N / mm.
 Module 100% (ISO 37): approx. 0.3 MPa
 Break module (ISO 37): approx. 1.4 MPa
 Breakage elongation (ISO 37): > 600%

Densidad a 20°C: Negro: 1,15 ± 0,02 / Otros: 1,16 ± 0,02
 Tiempo de formación de la capa a 23 ° C y 50 % HR: aprox. 50 min
 Velocidad de reticulación: a 23 ° C y 50 % HR: > 3 mm/24 h
 Dureza Shore A (método interno IT-20 según norma ISO 868 - 3 segundos): aprox. 40
 Resistencia a la temperatura: -40 à +80°C
 Resistencia a los ácidos y bases diluido: Media
 Resistencia a los rayos UV: Buena
 Resistencia al agua y niebla salina: Excelente
 Compatibilidad con pinturas sobre masilla polimerizada:
 - Al agua: Sí
 - Acrílicas: pruebas necesarias
 Datos específicos: Resistencia al desgarre (ISO 34): aprox. 8.5 N / mm.
 Módulo 100% (ISO 37): aprox. 0.3 MPa
 Módulo rotura (ISO 37): aprox. 1.4 MPa
 Alargamiento rotura (ISO 37): > 600%

ADAICO Label (according to Norm EN12195-2)

Etiqueta ADAICO (según Norma EN12195-2)

According to the EN 12195-2 Norm, tension straps must be provided with a label with specifications shown on it. This label must be attached to both the ratchet parts. For polyester tension straps, the label must be blue.

Según la norma EN 12195-2, las cintas de amarre deben ir provistas de una etiqueta con las especificaciones del fabricante. Debe estar cosida en ambas partes del dispositivo tensor. Para cintas tensoras de poliéster, la etiqueta debe ser azul.

NEW

New Coating

Nuevo Recubrimiento **AZM**

- ✓ High resistance against corrosion (1.000h saline fog test)
- ✓ Material: steel with AZM coating **AZM** (aluminum-zinc-magnesium)
- ✓ Price savings against stainless steel
- ✓ Optimal for isothermic vehicles and ideal for environments exposed to chlorides and ammonia
- ✓ Alta resistencia a la corrosión (1.000h. test de niebla salina)
- ✓ Material: acero con recubrimiento **AZM** (aluminio-zinc-magnesio)
- ✓ Ahorro de Precio frente al acero Inox
- ✓ Idóneo para vehículos isoterms y entornos con exposición a cloruros y amoniacos

Checkpoint - Visual nut indicator (Bag 10 units)
Checkpoint - Sichtnussanzeige (Beutel 10 Einheiten)
Checkpoint - Indicador visual de tuerca (Bolsa 10 unidades)

Ref	Kg	Mat	Col	A	Lot	Pack
6201546	0.05		Black	32	1	10
6201548	0.05		Yellow	32	1	10

Visual indicator of loose nut and overheating | Advantages: Cost savings and inspection times | Other optional measures
Indicador visual de tuerca aflojada y de sobrecalentamiento | Ventajas: Ahorro de costos y de tiempos de inspección |
Otras medidas opcionales

Si se colocan correctamente, los puntos de control solo pueden estar fuera de alineación hasta 3.75°, ya que si (en el punto de ajuste) la tuerca está alineada más allá de los 3.75°, el punto de control se puede girar y colocar en el siguiente conjunto de dientes.

If fitted correctly, Checkpoints can be only up to 3.75° out of alignment, since if (at the point of fitment) the nut is aligned past 3.75° the Checkpoint can be rotated and fitted on the next tooth-set.

SALES CONDITIONS

1- Conclusion of the contract.

Any purchase order of products implies unreserved adherence to the present general conditions of sale, completed or adapted by our special conditions, which would cancel any contrary clause that may appear in the purchase orders, purchase conditions or any other commercial documents.

2- Payment.

Unless otherwise agreed, invoices are payable on the due date indicated on the invoice.

In case of delay in the payment, the seller may suspend all orders in progress.

Any sum not paid at maturity shown on the invoice will automatically entails the application of expenses and interest, notwithstanding the compensation for damages that could be claimed.

3- Deliveries.

Delivery times are always given as an indication. They cannot constitute a commitment nor create grounds for penalties or damages in case of delay on the scheduled dates.

Delivery times are indicated according to the availability of supply and according to the amount of the order.

In case of anomalies in transport (open packages, beaten or missing packages), they must be indicated in the carrier's delivery note.

4- Acceptance of the goods.

The Buyer shall be deemed to have accepted Goods 24 hours after delivery to the Buyer.

After acceptance the Buyer shall not be entitled to reject Goods which are in accordance with the contract.

5- Sellers Clause excluding liability for delay in delivery

The Seller shall not be liable for any loss or damage whatever due to failure by the Seller to deliver the Goods (or any of them) promptly or at all.

Notwithstanding that the Seller may have delayed or failed to deliver the Goods (or any of them) promptly the Buyer shall be bound to accept delivery and to pay for the Goods in full.

6- Seller's retention of property

The Goods shall be at the Buyer's risk as from delivery

In spite of delivery having been made, property in the Goods shall not pass from the Seller until:

- the Buyer shall have paid the Price plus VAT in full; and
- no other sums whatever shall be due from the Buyer to the Seller

7- Warranty

The seller will take care of the execution of the order and the quality of the products. In case of defect recognized by the seller, the obligation of the latter will be limited to the replacement or the reimbursement of the defective quantities, without any other indemnity.

The warranty does not cover defects and damages resulting from storage, handling, transport or use in abnormal or non-conforming conditions with the nature, the prescriptions, and the suitability for use of the product.

8- RETURN MATERIAL PROCEDURE:

In the event of a non-conformity or return, the next procedure will be followed, as long as the goods have been bought neither as a clearance item, nor in a period of more than two years and are not discontinued:

1º. - An authorization to return any kind of material has to be requested to the Head Offices of ADAICO TRUCK AND TRAILER S.L. by email: export@adaico.com or fax: +34948314341

2º.- It is indispensable to indicate the article number, the amount, date of sale (providing order number or invoice number) and the reason for return (identified defect).

Return Authorization shall be made in written form. That means that no request done by telephone or in a commercial visit will be considered.

Any material WITHOUT prior AUTHORIZATION WILL NOT BE ACCEPTED BY THE WAREHOUSE and will be immediately rejected.

No return will be allowed if the mentioned requirements are not properly met.

9- Possible product return cases:

9.1.-PRODUCT WITH MANUFACTURING DEFECT:

After receiving the completed and accepted authorization request for returning the goods, the shipment of the defective material will be carried out only by the forwarder designated by ADAICO TRUCK AND TRAILER S.L. and carriage forward.

9.2.- DAMAGED MATERIAL DURING ITS TRANSPORT:

Any damaged or lost material must be notified to the forwarder and also to ADAICO within the next 24 hours. In the opposite case ADAICO will not credit any kind of broken or lost material outside our facilities. That is why we kindly ask you to inspect the goods at the time of reception. If it is not feasible please write down the following remark before signing the delivery note: INSPECTION PENDING. This is not valid as a claim for damage or lost without the subsequent telephonic notification within the next 24 hours.

9.3.- MATERIAL IN GOOD CONDITIONS:

Material in good conditions or with proper functioning will not be accepted since the orders are binding purchases and it should be understood as such.

In case of acceptance due to the customer requirements, the product will be depreciated in at least 20% of its price, as handling expenses.

Return shall be carried out through the transport company indicated by our customer service.

10- General exclusion of Seller's liability for indirect loss

The Seller shall be under no liability whatever to the Buyer for any indirect loss and/or expense (including loss of profit) suffered by the Buyer arising out of a breach by the Seller of this contract.

11- General limitation of Seller's liability

In the event of any breach of this contract by the Seller, the remedies of the Buyer shall be limited to damages on its own products. Under no circumstances shall the liability of the Seller exceed the Price of the Goods.

12- Proper law of contract.

The parties submit to the exclusive jurisdiction of the courts of Pamplona, Spain.

VERKAUFSBEDINGUNGEN

1- Vertragsabschluss.

Jede Bestellung von Produkten schließt die uneingeschränkte Einhaltung der vorliegenden allgemeinen Verkaufsbedingungen ein, die durch unsere besonderen Bedingungen ergänzt oder vervollständigt werden, und schließt jede anderslautende Klausel aus Bestellungen wie Einkaufsbedingungen oder sonstigen Handelsvorschriften aus.

2- Zahlung.

Soweit nicht anders vereinbart, sind Rechnungen auf bis zu dem in der Rechnung angegebenen Fälligkeitsdatum zahlbar.

Im Falle einer Zahlungsverzögerung kann der Verkäufer alle laufenden Aufträge aussetzen.

Eine Summe, die nicht auf Fälligkeit gezahlt wird, bringt automatisch Aufwendungen und Zinsen mit sich, ungeachtet der Schadensersatzklage die geltend gemacht wird.

3- Lieferungen.

Lieferzeiten sind immer rein Informativ angegeben. Sie können keine Verpflichtung darstellen und im Falle einer Verspätung zu den geplanten Terminen keine Strafen oder Schadensersatzansprüche begründen.

Die Lieferzeiten sind nach der Verfügbarkeit der Lieferung und nach dem Betrag der Bestellung angegeben.

Bei Anomalien im Transport (offene Pakete, angeschlagen oder fehlende Pakete) sind diese im Lieferschein des Frachtführers anzugeben.

4- Annahme der Ware.

Der Käufer ist verpflichtet, die Ware 24 Stunden nach Ablieferung zu akzeptieren.

Nach Abnahme ist der Käufer nicht berechtigt, Waren, die dem Vertrag entsprechen, zurückzuweisen.

5- Verkäufer-Klausel ohne Haftung für Lieferverzug.

Der Verkäufer haftet nicht für irgendwelche Verluste oder Schäden, die auf das Versäumnis des Verkäufers zurückzuführen sind, die Waren (oder einige von ihnen) unverzüglich oder gar nicht zu liefern.

Unbeschadet der Tatsache, dass der Verkäufer die Waren (oder einige von ihnen) verzögert versendet oder versäumt hat zu versenden, ist der Käufer verpflichtet, die Lieferung zu akzeptieren und die Ware vollständig zu bezahlen.

6- Eigentumsvorbehalt des Verkäufers.

Die Ware geht ab Lieferung auf Gefahr des Käufers über.

Trotz erfolgter Lieferung besteht solange das Eigentum an der Ware nicht beim Käufer bis:

- der Käufer den Preis zuzüglich der gesetzlichen Mehrwertsteuer vollständig bezahlt hat, und
- durch den Käufer keine weiteren Beträge an den Verkäufer offen sind.

7- Garantie.

Der Verkäufer achtet auf Ausführung der Bestellung und die Qualität seiner Produkte. Im Falle eines vom Verkäufer anerkannten Mangels ist die Verpflichtung des letzteren auf den Ersatz oder die Erstattung der mangelhaften Mengen ohne sonstige Entschädigung beschränkt.

Die Gewährleistung erstreckt sich nicht auf Mängel und Schäden, die durch Lagerung, Handhabung, Transport oder Verwendung bei anomalen oder nichtkonformen Bedingungen in der Art, die den Vorschriften und der Gebrauchstauglichkeit des Produkts entgegen entstehen.

8- Warenrückgabe-Verfahren.

Im Falle einer Nichtkonformität oder Rücksendung von Waren wird das folgende Verfahren eingehalten, solange die Ware weder als Freigabeposten noch in einem Zeitraum von mehr als ununterbrochen zwei Jahren gekauft wurde:

1º. – Von der Hauptverwaltung von ADAICO TRUCK AND TRAILER S.L. ist eine Genehmigung zur Rückgabe jeglicher Art von Material erforderlich. Per Email durch: export@adaico.com oder Fax: +34 948 314341

2º.- Es ist unentbehrlich, die Artikelnummer, den Betrag, das Kaufdatum, die Bestellnummer (oder die Rechnungsnummer) und den Grund für die Rücksendung (identifizierter Mangel) anzugeben.

Die Meldung zur Rücksendung hat schriftlich zu erfolgen. Das bedeutet, dass rein telefonischer Kontakt oder auch persönliches Erscheinen nicht akzeptiert wird.

Jede Rücksendung von Material OHNE vorherige AUTORISIERUNG WIRD NICHT VOM WARENEINGANG ANGENOMMEN und sofort abgelehnt.

Es wird keine Rückgabe gewährt, wenn die genannten Anforderungen nicht ordnungsgemäß erfüllt sind.

9- Mögliche Fälle von Rücksendungen:

9.1.-PRODUKT MIT HERSTELLUNGSFEHLER:

Nach Erhalt der ausgefüllten und anerkannten Genehmigungsanforderung für die Rücksendung der Ware erfolgt die Versendung des defekten Materials nur durch den von ADAICO TRUCK AND TRAILER S.L. genehmigten Spediteurs.

9.2.-Transportschäden:

Beschädigtes oder verlorenes Material muss dem Spediteur und auch ADAICO innerhalb der nächsten 24 Stunden mitgeteilt werden. Im umgekehrten Fall wird ADAICO keine Art von beschädigtem oder verlorenem Material außerhalb unserer Verantwortung akzeptieren. Deshalb bitten wir Sie, die Ware zum Zeitpunkt des Wareneingangs zu kontrollieren. Wenn es nicht möglich ist, notieren Sie bitte die folgende Bemerkung, bevor Sie den Lieferschein unterschreiben: ÜBERPRÜFUNG STEHT NOCH AUS. Dies gilt nicht als Schadensersatzanspruch ohne vorherige telefonische Mitteilung innerhalb der nächsten 24 Stunden.

9.3.- MATERIAL IN GUTEM ZUSTAND:

Eine Rücksendung von Material in gutem Zustand oder mit ordnungsgemäßen Funktionen wird nicht akzeptiert, da die Aufträge bindende Käufe und es als solche zu verstehen sind.

Im Falle dennoch der Annahme aufgrund von Kundenforderungen wird das Produkt in mindestens 20% seines Preises als Abwicklungskosten abgeschrieben.

Die Rücksendung erfolgt durch das von unserem Kundendienst angegebene Transportunternehmen.

10. Allgemeiner Ausschluss der Haftung des Verkäufers für indirekten Schaden.

Der Verkäufer haftet dem Käufer nicht für indirekte Verluste und / oder Aufwendungen (einschließlich Verlust des Gewinns), die dem Käufer entstanden sind, die sich aus einer Verletzung des Verkäufers dieses Vertrages ergeben.

11 - Allgemeine Beschränkung der Haftung des Verkäufers

Im Falle einer Verletzung dieses Vertrages durch den Verkäufer sind die Abhilfemaßnahmen des Käufers auf Schäden an eigenen Produkten beschränkt. Die Haftung des Verkäufers übersteigt unter keinen Umständen den Preis der Ware.

12- Ordnungsgemäßes Vertragsrecht

Die Parteien unterwerfen sich der ausschließlichen Zuständigkeit der Gerichte von Pamplona, Spanien.

CONDICIONES DE VENTA

1- Conclusión del contrato.

Cualquier orden de compra implica la adhesión incondicional al presente contrato de condiciones generales de venta, completado o adaptado por nuestras condiciones especiales, que cancelarían cualquier cláusula contraria que pudiera aparecer en las órdenes de compra, condiciones de compra o cualquier otro documento comercial.

2- Pago.

A menos que se acuerde otra cosa, las facturas son pagaderas en la fecha de vencimiento indicada en la factura.

En caso de retraso en el pago, el vendedor se reserva el derecho a suspender el resto de pedidos en curso.

Cualquier suma indicada en la factura que no sea pagada al vencimiento, conllevará automáticamente la aplicación de intereses y gastos sin perjuicio de la compensación por daños que pudiera ser reclamada.

3- Envíos.

Los plazos de entrega se ofrecen a modo de indicación. No constituyen compromiso ni constituyen motivo de penalización o perjuicio en caso de retraso en las fechas programadas.

Los plazos de entrega se indican de acuerdo a la disponibilidad y al importe del pedido.

En caso de anomalías en el transporte (paquetes abiertos, golpeados o desaparecidos), hay que hacerlo constar en la nota de entrega del transportista.

4- Aceptación de la mercancía.

Se considerará que el Comprador ha aceptado el material transcurridas 24 horas después de la entrega del mismo.

Tras la aceptación, el Comprador no tendrá derecho a rechazar la mercancía que esté de acuerdo al contrato.

5- Cláusula del vendedor excluyendo responsabilidad por demora en la entrega

El vendedor no será responsable por ningún daño o perjuicio derivado del incumplimiento de entregar el material (o parte del mismo) en la fecha requerida.

Sin perjuicio de que el vendedor se haya retrasado o no haya cumplido con la entrega de la mercancía en la fecha solicitada, el Comprador deberá aceptar el envío y pagar el material íntegramente.

6- Reserva de propiedad del vendedor

La mercancía estará bajo responsabilidad del comprador desde la entrega.

A pesar de haber realizado el envío, la propiedad del material no se transfiere del Vendedor hasta:

- que el Comprador haya pagado el precio + impuestos íntegramente; y
- que otras cantidades no sean debidas por parte del comprador al vendedor

7- Garantía

El Vendedor se encargará de la ejecución del pedido y de la Calidad de los productos. En caso de defecto reconocido por el Vendedor, la obligación de éste estará limitada al reemplazo o reembolso de la cantidad defectuosa, sin ninguna otra indemnización.

La garantía no cubre defectos y daños resultantes del almacenamiento, manipulación, transporte o uso en condiciones anormales o no conformes con la naturaleza, las prescripciones y la idoneidad para el uso del producto.

8- Procedimiento de devolución de material

Cuando se produzca una No Conformidad o Devolución por parte del cliente, se deberá proceder de la siguiente manera, siempre y cuando la mercancía no haya sido comprada en liquidación, ni en un plazo de superior a dos años y no se encuentre descatalogada:

1º.- Se deberá solicitar autorización para devolver cualquier clase de material a las oficinas centrales de ADAICO TRUCK AND TRAILER S.L. por email

- Nacional: ventas@adaico.com

- Internacional: export@adaico.com

o por fax (+34 948 314 341)

2º.- Será imprescindible indicar la referencia del producto, la cantidad, fecha de venta (aportando nr. de pedido y/o Factura) y el motivo de la devolución (defecto).

La autorización de la devolución se hará siempre por escrito a la oficina, es decir, no se considerará como conforme ninguna aceptación realizada telefónicamente ni en la visita comercial.

Cualquier material devuelto SIN AUTORIZACION previa NO SE ACEPTARA POR PARTE DE NUESTRO ALMACEN y quedará automáticamente rechazado.

No se procederá a autorizar ninguna devolución que no cumpla estos requisitos adecuadamente.

9- Posibles casos de devolución:

9.1.- MATERIAL CON DEFECTO DE FÁBRICACION:

Tras la solicitud de autorización de devolución perfectamente cumplimentada y aceptada, el envío del material deberá producirse a portes debidos, es decir, a cargo de ADAICO TRUCK AND TRAILER S.L. únicamente por la agencia de transporte que se designe en la aceptación de devolución.

9.2.- MATERIAL DAÑADO POR EL TRANSPORTE:

Cualquier material dañado o perdido deberá ser notificado tanto al transporte como a ADAICO en el momento de su entrega. En caso contrario ADAICO no se hará cargo del abono de ningún tipo de material dañado o perdido fuera de nuestras instalaciones, por lo que les rogamos revisen toda la mercancía en el momento de la recepción. Cuando no sea posible la revisión de la mercancía antes de firmar en el talón del transporte, por favor indiquen en observaciones del talón de entrega: PENDIENTE DE REVISIÓN, lo cual no indica, en ningún caso, que sea válido como reclamación por rotura o pérdida sin su posterior notificación telefónica o por email dentro de las 24h posteriores a su entrega.

9.3.- MATERIAL EN BUEN ESTADO:

No se aceptará la devolución de material en buen estado o uso correcto, ya que las compras se realizan en firme y como tal deben entenderse.

En caso de aceptación por exigencia del cliente se depreciará un mínimo del 20% en concepto de gastos de manipulación. La devolución de material debe efectuarse por el medio de transporte que indique nuestro departamento de atención al cliente.

10 – Exclusión general de la responsabilidad del Vendedor por pérdidas indirectas.

El vendedor no será responsable ante el comprador por ningún gasto o perjuicio indirecto (inclusive la pérdida de beneficios) sufridas por el comprador como consecuencia de un incumplimiento de este contrato.

11- Limitación general de responsabilidad del vendedor.

En caso de incumplimiento de contrato por parte del vendedor, los recursos del comprador se limitarán a los daños en sus propios productos. Bajo ninguna circunstancia excederá la responsabilidad del vendedor el precio de los productos.

12- Ley que rige el presente contrato.

Las partes se someten a la jurisdicción exclusiva de los tribunales de Pamplona, España.
