OMNITELE ON THE ROAD

TELEFORUM 30 IN MALTA

Pandemic restrictions are currently behind us and Omnitele team has had a chance to participate in couple of the events in June and therefore we are sharing the latest news from Teleforum event in Malta, which is the annual gathering of small state and island operators.

We also had a possibility to participate in very interesting Team Finland delegation to visit Türkiye together with Ville Skinnari, Minister for Development Cooperation and Foreign Trade for Finland and 19 other Finnish high-tech companies.

Teleforum 30 in Malta

Omnitele attended the Teleforum conference on June 9th and 10th in Malta. This session was the 30th instalment of the Teleforum as the annual conference of the Telecom Operators of Small States.

The Teleforum operators form a kind of micro cosmos of small independent operators that have established positions in their respected markets but that are facing the same challenges of the industry at large including falling ARPU and margins while having to accommodate increasing data traffic volumes.

TEAM FINLAND VISIT IN TURKIYE

Omnitele had an opportunity to participate in Team Finland visit in Türkiye as part of the ministerial visit of Finnish Minister for Development Cooperation and Foreign Trade Ville Skinnari in early June. The business delegation had 19 Finnish high-tech companies from various industries such as telecom, energy, steel, transport, and construction.

The aim of Minister Ville Skinnari's visit was to further strengthen the trade relations and to promote cooperation between the two countries especially in the fields of digitalisation and the green transition.
