INTRODUCTION

Smart Lift and Mobility (SLM) World Scores Highly with a Triumphant Debut!

Introduction: The inaugural edition held at Bengaluru International Exhibition Centre from March 1-3, 2024 witnessed a steady flow of visitors at the international expo who also attended the engaging summit, while top brands were honoured at the prestigious awards and the 'global first' elevator safety run elevated awareness levels worldwide. When well-established pioneers envisage and implement yet another innovative concept, all eyes eagerly await the final creation. Smart Lift and Mobility (SLM) World 2024, a thoughtfully curated, multi-dimensional, integrated, comprehensive event, scored high on all fronts, making a triumphant debut from March 1-3, 2024 at BIEC, Bengaluru.

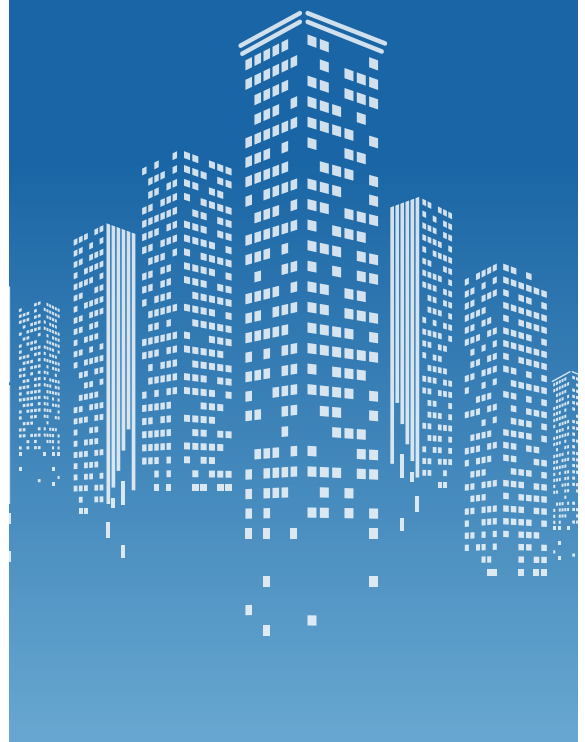

The emphasis was on accessibility, inclusivity and sustainability, providing an exclusive platform to view cutting-edge technologies, enrich knowledge and competencies, receive accolades for excellence, and participate in extensive campaigns to raise awareness about elevator safety, under one roof.

The venue was packed with dignitaries from across the globe for the auspicious lamp lighting ceremony reflecting the truly international nature and ambience of the three-day event, conceptualised by Virgo Communications & Exhibitions Pvt Ltd who had introduced the Vertical Transportation (VT) industry-focused expo and magazine concept in India.

Government officials that graced the inauguration included Ravi Subramanya, Member of Karnataka Legislative Assembly and Theethira Appachu, Chief Electrical Inspector, Government of Karnataka while the chief guests included Mareddy Shyam Kumar, President, NAREDCO Karnataka; V C Ravikumar, President, NAREDCO Mysuru; Amit Gosain, Chairman, (IEEMA) Indian Electrical and Electronics Manufacturers Association and Managing Director, KONE Elevators India, International invitees at the function included Massimo Bezzi, President, European Federation for Elevator Small and Medium-sized Enterprises (EFESME) and T Bruce MacKinnon, President/CEO, Elevator World.

**An Integrated Expo
for Building Access
and People Flow**

International invitees at the function included Massimo Bezzi, President, European Federation for Elevator Small and Medium-sized Enterprises (EFESME) and T Bruce MacKinnon, President/ CEO, Elevator World.

Addressing those gathered, Anitha Raghunath, Director, Virgo Communications and Exhibitions Pvt. Ltd., announced, "This is first of its kind, integrated exhibition-cum-conference for smart lift and mobility.

Our major idea of hosting this event is as per the market trend; now it's about technology advancement, it's about how we integrate various technological products into the building and move people swiftly in any kind of built environment. Today technological advancement has gone ahead and what a better place to host an event than in Bangalore, which is the IT capital of India.

We are proud to say that in these three days we are hosting four mega events." SLM World 2024 witnessed several noteworthy launches including the L'Avenir Elevator Heritage, a book compiled by VT Consultant Jagadish Kumar V, which was unveiled during the inauguration while PAPL Corp., in partnership with Ardelisys Technologies Pvt. Ltd., announced the launch of K A L A, an Internet of Things (IoT)-based, non-invasive elevator monitoring system on 2 March at the expo.

The three-day event, provided a rare opportunity to interface directly with representatives of leading national and international brands from the VT industry and related sectors providing elevators, escalators, travelators and home lifts, mobility solutions - stair, platform, special lifts, parking solutions, entrance access control systems, elevator doors – revolving, sliding, collapsible, swing, barriers – retractable, flap, boom barriers, mullions, turnstiles, access control and safety, biometric, RFID, BMS and IoT, lift components and accessories at the international expo booths.

VIP buyers had access to a select, 'by invitation only' designated meeting zone; the 'Buy Elevator Lounge' to interface and network with global industry leaders and transact business in a conducive environment. The Buyer-Seller Meet was quite impactful with substantial interactions held over three days.

The Elevator Safety Run, conducted in collaboration with Elevator World, took place on March 2, 2024, marking a pioneering global initiative underscoring the critical significance of elevator safety. Virgo Communications & Exhibitions, the organizers, surpassed their objectives with over 1,500 attendees, both physically at the venue and virtually from around the globe, actively participating in the event.

That evening witnessed the SLM Awards presentation to noteworthy companies and brands at Jacaranda Hall, BIEC, celebrating pioneers in vertical transportation, real estate and architectural design who have integrated and maximized the latest technological advancements from conception to execution.

Participants also enhanced their knowledge by attending seminar sessions during the EWI Summit held concurrently under the same roof. They gained a better understanding of the updated trends and advanced technologies with topics that included 'Challenges for real estate industry in adapting more accessible, 'Customization of elevators to improve aesthetics grandeur,' 'Entrance access controls & security measures,' and emerged enlightened. 'Lift inspector training with Certification' was conducted on the final day along with 'Fundamentals of Elevators - Training for 4th year college students from Architecture / Engineering fields.'

Most importantly, real estate developers, architects, technology experts and consultants discussed ways to ensure integration of different aspects including VT, access control, mobility and sustainability at the planning stage itself and outlined strategies for further facilitating the process.

With SLM World 2024, Virgo elevated the credibility factor for its events even higher. Quality Council of India (QCI), National Accreditation Board for Certification Bodies (NABCB) and National Real Estate Development Council (NAREDCO) Karnataka, were among the associations supporting SLM World 2024 with Council of Architecture being the Knowledge Partners. SLM World 2024 also had a distinguished Advisory Panel comprising noteworthy dignitaries with innovative trade fair organisers Virgo Communications and Exhibitions at the helm, SLM World 2024 was a path-breaking event creating new business opportunities.

SESSIONS

DAY 1 - 1 MARCH - FRIDAY

02.00 PM - 2.10 PM	Welcome Address.
02.10 PM - 03.30 PM	Challenges for Real estate industry in adapting new VHT technologies.
03.35 PM - 04.45 PM	Design Neutrality.
04.50 PM - 05.10 PM	Sustainable stainless-steel solution with elevated surface finishes for higher aesthetics & longer service life.
05.15 PM - 05.30 PM	Closing Speech.

DAY 2 - 2 MARCH - SATURDAY

11.00 AM - 11.10 AM	Future trends in Building Mobility & People Flow Management.
11.15 AM - 12.30 PM	Sustainable Vertical growth.
12.30 PM - 01.00 PM	Legal aspects for India entry & establishment of business
01.00 PM - 02.00 PM	Lunch Break.
02.00 PM - 03.15 PM	Making building more accessible and inclusive with technology.
03.20 PM - 03.40 PM	Customization of elevators to improve aesthetics & create grandeur.
03.45 PM - 04.45 PM	Building access controls and security.
04.45 PM - 05.00 PM	Closing Speech.

DAY 3 - 3 MARCH - SUNDAY

11.00 AM - 01.00 PM	Lift inspector training with Certification.
02.00 PM - 04.00 PM	Fundamentals of Elevators - Training for 4th year college students (Architecture / Engineering).

WINNERS SPEAKS

"I thank Virgo and QCI for recognizing this feat. The 25.78-m², 16-t passenger elevator not only put KONE on the world map, but also the whole of India on the world map, as it is the world largest passenger elevator."

Rajesh Bywar, Director, New Building Solutions India and South Asia, KONE, on receiving the award for KONE India when it was recognized for the Most Innovative Elevator at Jio World Convention Centre in Mumbai.

"This is a unique project, and it's the tallest statue in the world. It was very difficult to design [the elevator system] within this statue, so a lot of effort was put forth by all. Our designer, Jagan, was directly involved. I would like to thank our partner, Otis, for supporting this unique project, as well as Johnson Lifts & Escalators and QCI and Virgo for making this happen. This is what we all wanted. Everybody needs to be together — the VT industry, construction teams and consultants. All of us must stand tall together to move forward in this country."

Balakrishnan R., Vice President and Head of MEP Design at Larsen & Toubro, on being conferred the Project of the Year 2022-2023 Award for the Statue of Unity.

"I thank my industry colleagues, Virgo and QCI. My father would have been 100 (years old) today (the day of the awards ceremony), and the company is 60 years old. The values instilled by K.J. John in everyone at Johnson Lifts drove it to its strong position today."

John K. John, Chairman and Managing Director, Johnson Lifts, while receiving the Lifetime Achievement Award honoring his father, the late Shri K. J. John, founder of Johnson Lifts on his behalf.

"I thank Virgo, QCI and their partners. Sattva Knowledge Park ensures that the specially-abled people have a positive experience."

Bhadresh S., General Manager and Head of Mechanical, Electrical and Plumbing (MEP), Sattva Group, on being recognized in the Best Specially-abled Friendly Elevator System category along with KONE Elevator India Pvt. Ltd. for the Sattva Knowledge Park project.

ELEVATOR SAFETY RUN

“

“Uplifting Elevator Safety Awareness Together,”
Initiated from India

In the contemporary landscape, elevators and mobility solutions have evolved into indispensable elements propelling real estate and infrastructure development. These devices, utilized by millions each day, seamlessly facilitate the movement of people within buildings, enhancing convenience and efficiency. Consequently, ensuring the safety of these products is of utmost significance.

TESTIMONIALS

VENKATRAMAN

SMART LIFT AND MOBILITY WORLD EXPO 2024 is a very good platform to meet and network with new customers. We received very good response.

BALAMURALI KALAIMANI

SMART LIFT AND MOBILITY WORLD EXPO 2024 is one of the good platform to promote our products in diversified locations.

JOHSON

As business was not as usual during Covid & Post Covid, we were exploring various options to give a boost to our sagging business. At this juncture, we got an opportunity to participate in "Smart Lift & Mobility World 2024" expo exhibited by Virgo Communication in Bangalore. Fortunately the foot falls in our stall were genuine and we could get in touch with individuals, builders, consultants and architects were looking for vertical transportation equipment in their upcoming projects.

We could launch our new & unique home lift with a live elevator which had huge attraction and many had appreciated the product. We could get few elevator orders at the Expo and over 1000 units of home elevators requirements were registered to be converted. Overall, it was a great expo and the effort put in by Virgo Communication were fabulous.

Finally to say, we could get connected with vendors across the country and overseas through this Expo.

TESTIMONIALS

PHILIP

Totally blown away with the response this platform really helped us to reach many new customers in India.

MILAN PATEL

We are very happy with the response we got from SLM world 2024 .This platform helped us to network with customers across south India.

SULTAN IBRAHIM

We received good response from many OEM's SLM world helped us to meet many new customers.

AMANDA

SLM world had given us the opportunity to showcase our product in India. We got an opportunity to meet and network with many new customers in India. We love to continue in associating with SLM WORLD.

MARCO SANTEL

We had a great experience, we were able to meet a lot of new customers. SLM World response helped us to expand our business in India.

TESTIMONIALS

◀ UMA MAHESHWARI

HEAD -DESIGN, CORNERSTONE PROPERTIES

Smart Lift and Mobility World Expo 2024 was a great experience! As an architect and design head, it opened up new avenues for me. I was able to see and experience cutting-edge innovations and latest technology in vertical transportation. I am now looking forward to integrating these new updates in my upcoming projects. Now, the technology needed to make user-centric and intelligent environment is accessible. Thank you SLM World for making it happen!

◀ AR ABHAY PUROHIT

PRESIDENT, COUNCIL OF ARCHITECTURE

Smart Lift and Mobility World Expo 2024 was a remarkable showcase of innovation and foresight. I am impressed with the solutions offered to combat the challenges of urban mobility and accessibility. I commend the organisers for their dedication in starting a dialogue on smart lift & mobility, for bringing together experts and visionaries from around the world on a common platform. The Council of Architecture India (COA) is happy to support SLM World Expo 2024.

◀ JUUHI RAJPUT

FOUNDER, ALLIANCE FOR INCLUSION AND ACCESSIBILITY

Attending the Smart lift and Mobility World Expo 2024 has been an incredibly enlightening experience for me. As the founder of an organisation dedicated to promoting inclusion, I am thrilled to see the strides taken towards creating a more accessible and equitable world for all. The solutions, technologies, and innovations on display underscored the commitment of the exhibiting companies in making mobility more versatile and inclusive. I would like to congratulate the organisers for putting together an expo of such magnitude.

TESTIMONIALS

◀ BHADRESH SHIVASHANKAR

GENERAL MANAGER & HEAD-MEP, SALARPURIA SATTVA

Attending the Smart lift and Mobility World Expo 2024 was an eye-opener! As someone deeply involved in the field of infrastructure and sustainability, this expo provided me with invaluable insights into the latest advancements in mobility solutions. I was happy to see the growing use of Artificial Intelligence, Machine Learning, digital transportation, sustainability, carbon footprint mapping etc. While the elevators are notching up in technology and design, this expo was a much-needed stepping stone the industry needed to grow sustainably.

◀ RAVI KUMAR

PRESIDENT, NAREDCO (MYSURU CHAPTER)

As the President of the Mysuru Chapter of NAREDCO - National Real Estate Development Council, I am honoured to share my enthusiastic endorsement of the Smart Lift and Mobility World Expo 2024. This transformative event has brought together key stakeholders and industry leaders to explore the latest advancements in mobility and accessibility.
