HOW TO USE THE CATALOGUE

The Jonluca Neal Sales Catalogue is published four times a year. This allows increased time to plan purchases and in store promotions. Our catalogue not only demonstrates the range of products we offer, but acts as a sales tool for you! We have included plenty of information to help sales; including product attributes and background on each brand's story. We also have included a catalogue legend on page TBD, to help read the catalogue. In addition to our catalogue, we will continue to send out deals that have been customized to maximize your sales during specially themed months. We suggest using preferred pricing to conduct in-store features.

Due to the catalogue being published four (4) times a year, prices are subject to change.

COMEBACK SNACKS

Comeback Snacks is a specialty popcorn company that challenges the status quo. After being sentenced to a four-year jail term stemming from her battle with addiction, Founder Emily O'Brien set out on the mission to get clean, transform herself, and make her time in jail as meaningful as possible. Having fostered an entrepreneurial career before her sentence, Emily birthed the idea for Comeback Snacks to create snack foods, starting with unique popcorn flavours inspired by the ones she found and curated in prison. Aware of the hardships of being incarcerated, Emily is driven to help remove the stigma surrounding people with prior convictions, as well as give them opportunities for reintegration through training, empowerment and education.

EBY MANOR

Guernsey cow milk is naturally higher in Beta-Carotene, Omega 3, calcium and A2 protein (the lesser known A protein), so the cows don't need specially formulated feed to achieve these nutritional benefits. It's pure and wholesome...naturally.

These natural advantages simply create the creamiest, best tasting and nutritious dairy product we have ever tasted.

ELIAS HONEY

Imagine a world without bees. There would be no fruit, veggies, and certainly no honey! In fact, with most of the food we eat we can pretty much guarantee a bee had something to do with it.

That's why we work closely with our farmers and beekeepers to ensure good beekeeping practices are followed. We want to see our hives not just survive—but thrive

ICELANDIC GLACIAL WATER

ICELANDIC Glacial is the Super-Premium Natural Spring Water from Iceland's legendary Ölfus Spring. Naturally balanced, environmentally kind, exceptionally pure. Home to glaciers, spouting geysers, volcanoes and raging rivers, Iceland is one of the world's cleanest ecosystems. The water is slowly and naturally filtered through layers of volcanic rock, thereby producing a natural spring water so pure that nothing is added or taken away.

LAIKI

The secret to Laiki's taste is black and red rice from Thailand. Black and red rice pack more nutrients and flavour than white or brown rice. By keeping the ingredients to a minimum, all the flavour you get in every crunchy bite comes from the wholegrain rice itself. Laiki® Rice Crackers are the labour of love: a love of food, a love of snacking, and a love for sharing this with all of you.

LEVEL GROUND

Our mission is to trade fairly and directly with small-scale producers in developing countries, and to market their products in North America, offering our customers ethical consumer choices. Since 1997, we've been all about connection.

It started with small-scale coffee farmers in Colombia, and it's grown to a community of like-minded people connected by the belief that our choices matter.

ORANGINA

It's here. The original all-natural sparkling citrus refresher from France — Orangina. A unique mix of real citrus juices, pulp from mandarin oranges and fine bubbles has made Orangina a beloved brand around the world. Just shake, pop, and sip to enjoy it au naturel, or mix it into a cocktail. Magnifique! Either way, Orangina is just the subtly sweet citrus sunshine you need to shake up the everyday — every day.

PACIFIC FOODS

Pacific makes foods that are clean and simple, using only natural and organic grains, meats and veggies. Preservatives and their packaging have never met. That's because the packages Pacific uses allow even the most perishable foods to stay fresh and tasty without chemicals or preservatives. They also require no refrigeration, which saves on energy, too. At Pacific, their ingredients are held to some pretty high standards. Long before there were USDA Organic labels, Pacific began tracing the origin of every natural and organic ingredient used in their foods.

Sobrii means “sober” in Latin.

Sobrii
0-SPIRITS

By removing the alcohol, Sobrii 0-Spirits offer a way for health-conscious adults or the sober curious, to enjoy cocktails without compromising on taste or social experience. We’re proud to support responsible drinking, and we think “non-alcohol” should be just as celebrated as “with alcohol”.

SPROUD

Sproud was born in 2018, the founders Maria, Christopher, and Nicklaus, are three people with very dynamic backgrounds. It took the team over nine months to develop the taste they were looking for, as they wanted to develop a Non Dairy beverage with the lowest possible carbon footprint, and the taste would mimic Milk. So Sproud chose pea, as it's 360 degree carbon neutral.

You will get a tasty, functional and a healthier plant-based milk, lower in calories, sugar wise, and you are drinking a product which strives to be carbon neutral.
