Strategic Plan

Journey to 2028

Thunderbolts are Stronger Together

Embrace the Journey!

INTRODUCTION

Northmont City Schools first created a strategic plan in the mid-1990s. The plan has always focused on ensuring an excellent education for all students, creating and implementing visionary ideas, and involving voices from around the Northmont community.

Our current strategic plan, called **Journey to 2028**, was created in 2023 with the help of community members, families, staff, and students. This plan reflects where the district wants to be in 2028 and will drive the work happening within each of the four strategies: Engagement & Communication; Teaching & Learning; Facilities; and Staff Wellness.

This plan is grounded in the beliefs, behaviors, and outcomes found in the Northmont Culture Playbook. You can see these ideas on the next page. As we “Journey to 2028”, this strategic plan will be our guiding light and help us make decisions that are in alignment with our mission, vision, and strategies.

We hope you join us along the way. Embrace the Journey!

Northmont City Schools

Culture is what we believe, how we behave, and the experiences our behavior produces for others. It is the foundation on which our education community is built. Below are the Beliefs, Behaviors, and Outcomes we expect at Northmont. As the Strategic Plan team worked on this plan, they kept these in mind and worked to ensure they are an intentional part of the plan.
