Our 'Office Crew' are here to exclusively assist you to get the best out of our partnership so that your business can enjoy the success it truly deserves.

I find myself in current grateful mode and also want to say a big thank you to every single one of our customers who attended our Golf Day this year, without you it wouldn't be full of fun and competition.

I would like to convey my thanks to all of our suppliers who also contribute so much to making the day truly immersive AND last but not least, a really special thank you to everyone at **DWUK** who work extra hard to bring this brilliant day to fruition. ### Huge growth and investment in the RTD sector

Ready-to-drink beverages are taking the market by storm, boasting a remarkable 27% growth last year, according to the Distilled Spirits Council. This surge makes RTDs the fastest-growing spirits category by revenue. Millennials and Gen Z are leading the charge, drawn to the convenience of these trendy drinks.

Initially popular for casual outings like picnics or beach days, RTDs have now conquered new territory, becoming staples in bars, sports stadiums, airports, and hotels. Their presence on grocery and convenience store shelves ensures they are always within easy reach for consumers on the go.

But it's not just about convenience anymore. There's a growing emphasis on flavour. Early on, consumers accepted mediocre taste for the sake of portability. Now, the industry is raising the bar. While sales of hard seltzers and malt-based RTDs have dipped, those made with real spirits like vodka and tequila are hitting the sweet spot for today's discerning drinkers.

### New data reveals wine and spirits contribute £76bn to UK economy

The wine and spirits trade is pouring an astounding £76 billion into the UK economy, according to a new study by the Wine and Spirit Trade Association (WSTA). This impressive figure, based on 2022 data from Cibr, showcases significant growth over the past five years, up from less than £50 billion.

The UK's love affair with wine and spirits is evident. In 2022, the UK was the second-largest importer of wine globally, with a staggering 1.7 billion bottles. Meanwhile, it maintained its top spot as the world's largest spirits exporter, sending 1.8 billion bottles overseas.

This thriving industry isn't just about numbers; it's about people. In 2022, the wine and spirits sector supported 413,000 full-time jobs across the UK, with 219,000 in the spirits sector and 193,000 in the wine trade.

### The Rock's Teremana Tequila launches in UK

Teremana, the Tequila brand co-founded by Dwayne 'The Rock' Johnson, is now shaking up the UK market, available both on & off-trade. Crafted at Destilería Teremana De Agave in Jalisco by the Lopez family, who bring generations of agave growing and distilling expertise, Teremana promises authenticity and quality in every bottle. Since its launch in 2020, Teremana has taken the market by storm, selling a whopping one million nine-litre cases between April 2022 & April 2023.

Michael Cleary, managing director of Mast-Jägermeister UK, hailed the UK launch as a "significant milestone" for the company, celebrating its 10th anniversary as a dedicated subsidiary of Mast-Jägermeister SE. "Teremana Tequila is not just about craft and attention to detail; it's a brand with a compelling story and strong ethos," he said. "We're excited to leverage our experience and network to fully maximize Teremana's potential in the UK."

Of his appointment Scott Collins commented "I'm really looking forward to bringing my experience to the Board with founders Mick and Demis both being like-minded entrepreneurs. # DWUK SUSTAINABILITY SPOTLIGHT

## ecoSPIRITS

Imagine a world where enjoying your favourite premium spirits doesn't come at the cost of the environment. Thanks to ecoSPIRITS, founded in Singapore in 2018, this vision is becoming a reality. Recognizing the significant environmental impact of single-use glass bottles in the spirits and wine industry, the innovative minds behind ecoSPIRITS set out to develop a game-changing solution.

### THE MISSION

At the core of ecoSPIRITS' mission is the transition to circular packaging technology, aiming to eliminate single-use glass in the industry. Like many other FMCG industries, the global supply chain of the spirits and wine industry predominantly operates under the linear production model, a model that is increasingly associated with high levels of waste, pollution, and environmental degradation.

The circular economy is based on three principles: The first is to eliminate waste and pollution. The second is to circulate products and materials at their highest value, which means keeping materials in use, either as a product or, when that can no longer be used, as components or raw materials. And the third principle is to regenerate nature. By moving from a 'take-make-waste' linear economy to a circular economy, ecoSPIRITS supports natural processes and leaves more room for nature to thrive.

### HOW IT WORKS

So, how does ecoSPIRITS work its magic? The system begins by transporting spirits in bulk to local markets, where they are then processed into reusable 4.5L ecoTOTE™ containers. These ecoTOTEs are delivered to bars, restaurants, and hotels, where spirits are dispensed directly into reusable glass bottles or serving vessels using SmartPour™ technology. Once emptied, the ecoTOTEs are collected, sanitized, refilled, and sealed at ecoPLANT™ facilities, completely replacing traditional single-use glass bottles.

### BENEFITS TO YOU

For venue partners, ecoSPIRITS offers a plethora of advantages. Not only does it significantly reduce the carbon emissions associated with packaging and distribution, but it also eliminates over 95% of single-use packaging waste. The ecoTOTE packaging is easier to handle, more durable, and reduces storage space, leading to operational efficiency and cost savings.

In addition to these sustainable benefits, ecoSPIRITS goes the extra mile with its Forest Program. For every cycle of an ecoTOTE, a tree is planted, offsetting the carbon footprint of beverage operations and empowering venues to contribute to reforestation efforts. This program, verified through advanced technology, enables venues to build their own forest while enjoying eco-friendly spirits.

### ECOSPIRITS AROUND THE WORLD

The impact of ecoSPIRITS is already reverberating across the globe. With partnerships spanning 27 countries, including a landmark agreement with a well-known brand to distribute select spirits in ecoTOTE format, ecoSPIRITS is reshaping the industry landscape. Exciting collaborations with Carnival Cruise Line, Bacardi, Pernod Ricard, Remy Cointreau, and others further underscore the company's commitment to sustainability and innovation.

As ecoSPIRITS continues to expand its reach and influence, it is poised to revolutionize the spirits industry, proving that sustainability and exceptional taste can go hand in hand. Join the ecoSPIRITS movement and raise your glass to a greener, more sustainable future.

## RIOJA TRIP

APRIL 2024

In April, Sheridan Coopers Wine had the pleasure of taking some of our fantastic customers on an unforgettable journey to Rioja, where they experienced the exceptional Spanish wines at the renowned Bodegas Manzanos winery.

The team at Sheridan Coopers Wine took a trip to Rioja, for our customers to visit one of our partner wineries, Bodegas Manzanos.

Our team and guests were treated to unparalleled hospitality by the Manzanos team, who ensured every detail was perfect. The VIP tour of Bodegas Manzanos included breathtaking views of Rioja, offering a picturesque backdrop to a tutored tasting that showcased the true quality and craftsmanship behind these wines.

Exploring the main winery and vineyards was just the beginning. We also visited the historic birthplace of Manzanos, the oldest winery in Rioja, immersing ourselves in the rich history of this award-winning wine producer. This fascinating glimpse into their heritage deepened our appreciation for their exceptional wines.

To top off the visit, we embarked on the famous Tapas Trail, savouring delicious bites late into the evening. This perfect blend of education, enjoyment, and culinary delight made our trip to one of Europe's most celebrated winemaking regions truly memorable.

## VINEYARDS SPECIALLY DEVELOPED TO YIELD THE HIGHEST QUALITY GRAPES

Protected by the appellation Rioja, Bodegas Manzanos owns 250 hectares in D. O. Ca. Rioja and controls 700 hectares more, 50 hectares in D. O. Navarra and controls 525 hectares more. The company sums up a total of 1,525 hectares.

To ensure consistently high quality grapes, Manzanos has made a significant investment to transform the goblet-trained vineyard into trellises. The plantation in trellises is allowing us to obtain vineyards with a good physiological balance that produces grapes of great maturity and high ecological potential. This system has also allowed them to install drip irrigation in all their vineyards to ensure the water stability of the plants and favour a better quality grape.

The climatic conditions, with wet and cold winters and dry and hot summers, and rainfall of less than 300 litres per square metre, are optimal for vine health, harmonious maturity and quality viticulture, situated to obtain great wines.

## WINES THAT HIGHLIGHT THE CHARACTERISTICS OF TRULY GREAT SPANISH WINES

Bodegas Manzanos has vineyards in all the different sub-areas of the Rioja appellation. Each area and appellation have unique characteristics, largely influenced by the climate, land, and plants. The production and elaboration techniques, developed by Borja Ripa, the oenologist and technical director of Manzanos Wines, also play a crucial role.

This combination of factors determines the uniqueness of each wine. The diverse terrains, climates, and grape varieties allow us to create wines that showcase the potential and distinct characteristics of each sub-area.

## ONLY THE BEST GRAPE VARIETIES ARE USED IN THE PRODUCTION OF MANZANOS WINES

Manzanos cultivates some of the most prestigious red wine grape varieties, including Tempranillo, Garnacha, Graciano, and Mazuelo. In addition to specialising in red grapes, Manzanos has won numerous awards for their white wines produced with Viura and Chardonnay grape varieties.

Tempranillo, the quintessentially native grape of the Rioja Designation, has given Rioja wines a unique identity. This grape has shown excellent adaptability to the local climate and soils, resulting in the production of high-quality wines. Tempranillo occupies more than 75% of the growing area and can produce long-ageing wines that are well-balanced in alcohol, colour, and acidity, with a smooth and fruity palate that evolves into a velvety texture as it ages.

Another native variety is Graciano, a minor grape but one that is gaining prominence in Rioja. Notably, Bodegas Manzanos owns 20% of all the Graciano hectares in the Rioja appellation. This variety is highly significant for Manzanos, complementing their most select Tempranillos in the Reservas and Gran Reservas by providing body, structure, aroma, and colour. They also produce single-variety wines from the most emblematic Graciano vineyards, such as the old vineyard of San Adrián, the oldest in the Rioja appellation.

The Garnacha and Mazuelo varieties, the other two red grapes cultivated by Manzanos, complement each other very well. Garnacha produces vigorous wines, while Mazuelo contributes acidity and low levels of oxidation, enhancing the overall quality and complexity of their wines.

## BRING THE TASTE OF SPAIN TO YOUR VENUE WITH THE EXPERTLY CREATED FINCA MANZANOS RANGE

Finca Manzanos is the brand created by the fourth generation of the Fernández de Manzanos family to name the first wines produced using the concept of gravity. This method involves utilising different underground floors of their new château-style winery for each stage of the winemaking process. Their goal was to offer a renewed style with unparalleled quality. The vineyards used are those surrounding the property where Bodegas Manzanos is built. Finca Manzanos remains their best definition of what a Rioja wine should be.

## Your Complete Guide

**1<sup>st</sup> August 2024** is National IPA Day

IPAs have a fascinating history that stretches back to the era of British global dominance. However, by the 1990s, they had fallen out of favour and were nearly impossible to find in Britain, where pubs were dominated by lagers, pilsners, bitters, and ciders. Then came a new wave of craft brewers who not only revived the IPA but also elevated it to a new level of popularity, making it a staple in the craft beer world.

### What does IPA stand for?

IPA stands for "India Pale Ale." Despite what the name might suggest, IPAs originated in England. According to legend, the beer was brewed with a high hop content to preserve it during the long journey from England to India. While there are various debates about the true origin of the IPA, this is the story generally accepted by the public. Since then, the style has been extensively experimented with and has branched out into many different sub-styles of IPAs.

### What's the difference between an IPA and other beers?

An IPA is always classified as a Pale Ale, but a Pale Ale isn't always an IPA. Pale ales are brewed primarily with pale malts, resulting in a medium body and a balanced flavour profile. Within the Pale Ale family, there are several types, including English Pale Ales, Blonde Ales, American Ales, and India Pale Ales (IPAs). IPAs, a distinct style within the pale ale family, are known for their higher hop content, giving them a stronger flavour. However, there's no standardised threshold at which a pale ale becomes an IPA; it's all up to the brewer.

In the 1990s, IPAs gained immense popularity among the craft brewing community in the UK and the USA. The term "IPA" now encompasses such a wide variety of beers that defining it strictly is challenging. You can find everything from alcohol-free IPAs to 13% ABV IPAs, with an array of flavours introduced by fruits, herbs, spices, and other ingredients. The diversity under the IPA umbrella showcases the creativity and innovation of craft brewers today.

### How strong are IPAs?

An IPA isn't inherently stronger than other beers. While some IPAs have higher alcohol content than average beers, others have lower. You can find IPAs with 0% ABV and others with up to 8.2% ABV.

The perception of IPAs as strong beers likely stems from their rise in popularity during the 2000s, a time when craft ales, generally stronger than typical lagers and bitters, were gaining appreciation.

It's important to check the ABV of the IPA you're considering. With such a wide range available, you might accidentally choose a potent party brew when all you want is something light for your customers to enjoy with their pizza—or the other way around, which could be quite a letdown.

# Made with Estrella Damm and Mediterranean lemons

In the 90's, it became very popular in many bars across Spain to order 'cerveza y limón' – beer with lemon, also known as a **"clara"**

People ordered it as a refreshing drink on very hot days in the Summer months, especially after sports or spending time on the beach. So in 2001, Damm decided to make the very first Mediterranean clara made in a brewery... introducing Damm Lemon.

Since the most important part of a good clara is a good beer, Damm uses the award-winning Estrella Damm Mediterranean beer to make Damm Lemon. It is expertly mixed with juice\* from Mediterranean Primofiori lemons – a variety renowned for its smooth and thin peel and early harvest season, and a light touch of lime from the Caribbean to complete its aromatic profile and make it even more refreshing.

# SERVING UP SUCCESS: HOW TO ACE YOUR VENUE'S PREPARATION FOR WIMBLEDON

1<sup>ST</sup> – 14<sup>TH</sup> JULY 2024

To maximize revenue for your restaurant, pub, or bar, a certain SW19 lawn tennis tournament could be the ace up your sleeve.

This world-renowned tournament not only draws in massive crowds but also played a pivotal role in boosting London's post-pandemic recovery, injecting over £600 million into the capital's economy alongside other major events.

Here are some ways to prepare for some premium tennis entertainment. Embrace the excitement and let Wimbledon serve up a grand slam for your business!

## 🎯 ADJUST YOUR OPENING HOURS

Normally close shop at 22:00? For Wimbledon fortnight, you might want to rethink those hours. Matches can stretch late into the evening, like the epic 2012 Murray vs. Baghdatis clash that wrapped up at 23:02!

The same goes for earlier matches, with outside courts starting at 11:00 and Centre Court action kicking off at 13:30. If you don't show the matches your customers want to see in their entirety, they might head elsewhere – and getting them back could be a real challenge.

## 🎯 MAKE GOOD USE OF OUTDOOR SPACE

Summer is beer garden season, and Wimbledon is the perfect time to make good use of this space. Invest in outdoor televisions so customers can enjoy the Great British Weather whilst sipping on your serves.

## 🎯 ADVERTISING IS KEY

A robust marketing strategy is key, and Wimbledon fortnight is no exception. This ensures that customers can find your business and make it part of their plans. Social media is a great place to start—engage, promote, and interact with your current and potential customers.

### NEW ARRIVAL!

#### El Rayo Resposado Tequila 70CL

Perfect for Whisky lovers. A soft and warm spirit with notes of honeyed vanilla.

Our Reposado is a full bodied and layered tequila made from 100% blue agave. Rested in ex-whisky casks for 7 months, it has a golden caramel colour and a rich, nutty complexity. Notes of aromatic spices give way to flavours of cinnamon, fresh herbs and bitter orange.

### NEW ARRIVAL!

#### Discarded Banana Peel Rum 70CL

Perfect for sustainable sipping, our Discarded Banana Peel Rum is where we turn an icon of waste into an icon of taste! It's a fruity, sweet rum which features a base of Caribbean rum, before being blended with an extract made from banana peels. Flavours of banoffee pie and sticky toffee pudding, with the deep fruity milk chocolate raisins, accompanied by a crystallised ginger finish.

### NEW ARRIVAL!

#### Martini Vibrante 0.5% Red Vermouth 75CL

The same quality of wines, herbs, and botanicals are selected by master herbalists and sourced from our growers. After we slowly remove the alcohol from our wine, preserving the authentic characteristics, we infuse the flavours of our superior botanicals, including Artemisia and Bergamot. The result is an Aperitivo that's unmistakably MARTINI.

### NEW ARRIVAL!

#### Opihr Arabian Gin (Black Lemon) 70CL

The Opihr Gin Arabian Edition is part of a collection of gins that draw inspiration from ancient trade routes, where spices were traded by merchants around the world. This particular expression combines the classic Opihr recipe with a unique blend of Persian black lemons and Timut pepper. The result is a zesty, spicy, and fragrant gin that is highly praised for its exceptional taste.

### NEW ARRIVAL!

#### Glendalough Rosé Gin 70CL

This fresh, rose-petal gin was first made to honour our Head Distiller Ciaran "Rowdy" Rooney's mother Rose. Carefully-tended flowers from her rose garden are vapor distilled with wild roses and plants from the mountains around the distillery to make this an intensely floral gin. After distilling, the gin is then further infused with even more roses to deepen the flavours and give it its lovely pink hue.

Crafted with the perfect blend of white rum, zesty lime juice, aromatic mint leaves, a touch of sugar, and a splash of soda water, the Mojito is renowned for its invigorating taste and eye-catching presentation.

Whether you're basking in the sunshine of a bustling beer garden or dancing the night away in a lively bar, the Mojito's delightful fusion of sweet, citrusy, and minty flavours promises to elevate any occasion. But why stop at the classic recipe? This refreshing cocktail offers endless possibilities for creativity and innovation. Ready to take your Mojito game to the next level?

## ICED GREEN TEA MOJITO

- 8 fresh mint leaves
- 1 tbsp freshly squeezed lime juice
- 120ml of freshly brewed green tea cooled to room temperature
- 30ml white rum
- 1 tbsp granulated white sugar or more to taste
- 1 handful of raspberries

Fill a tall glass halfway with ice. Add in mint leaves and using a cocktail stirrer, muddle the mint leaves slightly until the flavours are released. Add in lime juice. Add in tea, rum and sugar. Stir until mixed and sugar is dissolved. Add in fresh berries if desired. Serve chilled.

## STRAWBERRY-KIWI FROZEN MOJITOS

- 80g chopped strawberries, frozen
- 90g chopped kiwi, frozen
- 10ml simple syrup
- 4 fresh mint leaves
- 30ml rum
- 280g crushed ice
- Strawberry and kiwi slices, to garnish
- Mint leaves, to garnish

Split syrup, mint, ice and rum into two. Blend strawberries with the first half. Blend kiwis with the second half. Layer into glass and garnish.

## COCONUT LIME MOJITO SHOOTERS WITH BLUEBERRY (Serves 15)

- 1 can full fat coconut milk
- 180g frozen blueberries
- 60g sugar
- 2 tbsp water
- 120g condensed milk
- 60g mint leaves
- 120ml lime juice
- 80ml rum

Refrigerate the coconut milk for several hours until the cream separates from the water. Scoop out the thickened top layer and discard the water. While the coconut milk is chilling, make the blueberry syrup by cooking blueberries, sugar, and water in a saucepan until syrupy. Strain and chill the syrup. Whisk the thickened coconut milk with sweetened condensed milk. Muddle mint, lime, and rum together, then strain and discard the mint. Distribute the blueberry syrup into shot glasses, top with the coconut lime mojito mixture, and gently stir for an ombre effect. Store in the refrigerator until ready to serve.

# SIMPLE SUMMER SPRITZ SIPS

A spritz is a sparkling wine-based cocktail made with prosecco or dry white wine, a bitter liqueur, soda water, and a touch of citrus. While it's delightful year-round, summer is undoubtedly peak spritz season.

Light, lower in ABV than a cocktail, and effortlessly drinkable, spritzes are a refreshing way to prepare your palate for the delicious food and drink to come.

Originating in Veneto, Italy—the home of prosecco—the spritz has an interesting history. In the 1800s, Austrians visiting Italy would dilute Italian wines with a "spritz" (German for "splash") of soda water to lighten them to their taste. Over time, the wine gave way to prosecco, and Italians began adding fortified wines and liqueurs. By the 1950s, the Aperol Spritz, created by the brothers behind Aperol, burst onto the scene and has been a staple of aperitivo hour ever since.

## Limoncello Basil Spritz

- 45ml Isolabella Limoncello
- 60ml chilled dry sparkling wine
- 30ml chilled soda water
- 55g sugar
- 5 basil leaves
- 2 lemon wheels, basil sprig, to garnish

Make basil syrup by placing sugar and 50ml water in a small saucepan. Bring to boil and stir until sugar dissolves. Remove from heat and add basil leaves. Set aside and steep for 30 minutes. - 30ml Cawston Press Grapefruit Juice
- 15ml Campari

- Thyme sprig, ruby red grapefruit slice, to garnish

Fill a large wine glass halfway with ice. Add the gin, juice and Campari. Top with sparkling wine and a splash of soda. Stir gently. Smack thyme between your palms, and garnish with sprig and grapefruit slice.

## Hugo Spritz

- 15ml St-Germain Elderflower Liqueur
- 120ml prosecco
- 30ml soda water
- 1 mint sprig
- Mint sprig, lemon wheel, to garnish

Add the liqueur and mint sprig to a wine glass. Gently muddle and allow to sit for 3 minutes. Add ice, prosecco and soda water. Stir gently to combine. Garnish with mint sprig and lemon wheel.

## Blood Orange Af Spritz

- 60ml Fever-Tree Ginger Beer
- 15ml Little Mixers Lemon Juice
- Sliced blood orange, sliced ginger, mint, to garnish
