

WORLD BLOCKCHAIN BANK

Launch a Global Crypto Payment Center in 72 Hours (FinCEN MSB Registered Infrastructure)

We are expanding the **World Blockchain Bank Commerce Partner™** network globally. We provide entrepreneurs with a complete, AI-native global payment center infrastructure that can be deployed in under 72 hours—with zero software development or infrastructure overhead.

The Business Opportunity:

Investment: \$1,000 (Complete Business-in-a-Box)

Revenue: Earn \$500 per new partner + \$0.25 per transaction

Infrastructure: Non-custodial, AI-native blockchain trust architecture

Compliance: Powered by a registered US FinCEN Money Services Business
(MSB No: 31000286291846)

Because our infrastructure is **100% non-custodial**, you own your payment addresses, protect your assets, and face zero institutional gatekeepers or transaction delays. You provide the gateway to your clients; our infrastructure handles the rest.

Merchants are able to save up to 98% with our \$0.50 flat transaction fee.

Review our **[8 Lines of Freedom Merchant Agreement](#)** on the next two pages.

WORLD BLOCKCHAIN BANK

DomainLink Merchant Agreement

www.domainlink.world

Service Overview:

By registering a **DomainLink Identity** for \$20/year, you enable your domain to receive payments directly through your own World Blockchain Bank wallet. You act as your own merchant account — **fully independent and in control of your own funds**.

Payments:

All payments sent to your **DomainLink Identity** are **peer-to-peer, final, and irreversible** once confirmed on the blockchain. Transactions settle instantly and directly between the payer and your wallet.

Fees:

A **flat network facilitation fee of \$0.50 per transaction** applies.
No percentages. No hidden charges.

Custody & Responsibility:

WBB does not hold, manage, or access your funds at any time.

You are solely responsible for your wallet, private keys, business operations, and compliance with any applicable laws. The platform operates as an identity-linked execution and settlement layer; regulatory infrastructure is selectively engaged where required.

WBB's Role:

WBB provides decentralized payment infrastructure (“the rails”) enabling blockchain transactions between independent parties. We do **not** directly act as a money services business, payment processor, or custodian.

No Chargebacks or Reversals:

Blockchain payments are immutable and irreversible.
WBB cannot reverse, intercept, or refund completed transactions.

Acknowledgement:

By using this service, you acknowledge that **freedom comes with full responsibility**.
WBB offers the tools — **you control the wallet**.

Welcome to **“8 LINES OF FREEDOM”**.

Regulatory Status:

DomainLink Identities, operating under World Blockchain Bank (WBB), is a registered Money Services Business (MSB) with the U.S. Department of the Treasury’s Financial Crimes Enforcement Network (FinCEN), Registration No. **31000286291846**, and holds D-U-N-S® No. **119413613**.

Although duly registered, WBB currently provides **non-custodial blockchain infrastructure only** and **does not directly engage in money transmission, payment processing, or custody of client funds**. All users remain fully responsible for their own wallets, transactions, and regulatory compliance.

THE WORLD BLOCKCHAIN BANK ADVANTAGE

**“Receive \$25 or \$10,000 — your fee is the same: \$0.50
No percentages. No surprises. No middlemen.”**

Why Merchants Love WBB

- Predictable costs.
- Huge savings on large-ticket items.
- No chargeback fraud.
- Instant settlement into your domain vault.
