Hi!

We are Flipboku

:)

Since launching in 2019 from our creative studio in Mallorca (Spain), Flipboku has reimagined the traditional flipbook — turning it into a powerful medium for storytelling, branding and artistic expression.

With nearly **80 published editions and over 50 custom collaborations** with museums, institutions, filmmakers, artists, and brands around the world, our flipbooks offer a unique way to bring your message to life — frame by frame.

Whether you're looking to create a collectible for your shop, a promotional piece for your campaign, or a one-of-a-kind art object, we'll guide you through the entire process — from concept to design, animation, printing and finishing — all done in-house.

The Flipbook Reinvented

Many of our projects feature our patented 6-in-1 format, which allows for **six animations in a single flipbook** — an ingenious optical illusion that captures attention and sparks curiosity.

We also offer advanced possibilities like coloring flipbooks and custom Augmented Reality integration to elevate your content and create lasting impact.

In this portfolio, you'll find examples of custom projects we've produced for a wide variety of clients. If you have an idea, we'll help you flip it into reality.

Smarter.
Cooler.
Fun.

Compact, interactive, and delightfully unexpected, it captures the spirit of your brand and turns key moments into a lasting keepsake your guests will truly value.

LoveFrom

We had the pleasure of collaborating with LoveFrom, the design studio founded by Jony Ive, on two beautifully crafted flipbooks.

The first was developed for Moncler, featuring a playful encounter between LoveFrom's Montgomery bear and Moncler's Monduck mascot — an imaginative celebration of creative partnership.

The second was a refined, limited edition created for LoveFrom's private holiday gathering, designed to serve as a unique and memorable keepsake for their guests.

LoveFrom,
