

BELID

CATALOGUE

A LAMP FOR TODAY, A LEGACY FOR TOMORROW

At Belid, every lamp is crafted in our own factory in Varberg, Sweden. Here, tradition and innovation meet in a process defined by precision, timeless design, and true craftsmanship.

A Belid lamp is made not only to illuminate today, but to remain a trusted part of your home or project for generations to come. This is our commitment – design that endures, and craftsmanship that becomes legacy.

Welcome to Belid

For more than 50 years, Belid has developed and produced high-quality lighting built on craftsmanship, knowledge, and a continuous pursuit of improvement. Our work combines tradition with innovation and reflects a lasting commitment to quality, design, and Scandinavian simplicity.

Our roots lie in the art of metalworking, where precision and care turn raw materials into lasting lighting. Over the years, our techniques have evolved, but the heart of our craft remains unchanged: creating lighting that combines Swedish design with enduring quality.

Skilled craftsmanship is born from decades of dedication and experience. Our passion for continuously mastering the craft is evident in every detail. What begins as a simple sheet of metal is transformed into timeless designs as it moves through our factory—from precise metalworking and meticulous painting to the final touches in our sewing studio.

From our first creations inspired by simple forms to today's contemporary collections, Belid represents a fusion of heritage and modern design. Every lamp is built with precision and care, combining design and durability for lighting that stands the test of time.

BUDDY

Design Joakim Fihn

The warm, diffused light creates a calm and inviting atmosphere. With its dome-shaped opal glass and solid base, Buddy introduces sculptural volume and delicate light. The lamp combines artisanal quality with a minimal figurative aesthetic.

DUAL

Available as table, wall, and floor lamps, Dual combines textile softness with clean, geometric form. The fabric shade diffuses light evenly for a warm, comfortable glow. The wall lamp is offered both with and without an integrated spotlight for additional, directional lighting. Updated by designer Joakim Fihn, the collection maintains its clear expression while meeting today's lighting needs.

HORISONT

Design Joakim Fihn

A classic with a modern twist - Horisont's design is inspired by both Belid's history and Varberg's coastal location. Horizontal lines allude to the astonishing horizon of the open sea, and together a whole is formed that is classic yet modern.

PRIMIUS

Primus represents Scandinavian design where function and form work in balance. The design is defined by the light that passes through its layered shades, creating both character and comfort. Originally introduced in the 1980s and now available in updated colours, Primus continues to offer timeless appeal through its clear expression and well-crafted proportions.

SINNE

Design Joakim Fihn

Based on a classic elliptical shape, Sinne sits close to the wall, giving it a slim and refined appearance. The form is defined by a subtle angularity that adds character, while the chamfered ends reveal the inner surface of the fixture. Sinne is available for both indoor and outdoor use.

VALENCIA

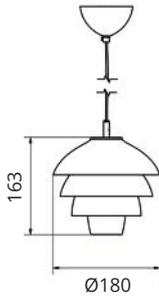

Design Joakim Fihn

Valencia draws inspiration from organic forms and the structure of grape clusters. The rounded top and softly glowing lamella shades create a refined expression with a warm, decorative light. Available as pendant, table, and floor lamps, Valencia combines sculptural design with everyday functionality.

VINCENT

Design Joakim Fihn

The Vincent floor lamp offers a distinct take on form and function. Its tilted silhouette gives the design a sense of movement and balance, creating character without distraction. With clean lines and a sculptural presence, Vincent adds quiet confidence to both private and professional interiors.
