

Flexible, Efficient, and Sustainable Warehousing Services

Empower Your Supply Chain with Precise, Tailored Solutions

Customizable Delivery and Fulfillment

Turtle offers a range of services including cross-docking, picking/packing, special marking, and controlled inventory ensuring timely and accurate order fulfillment while catering to on-demand and special delivery needs.

Efficient Storage and Handling

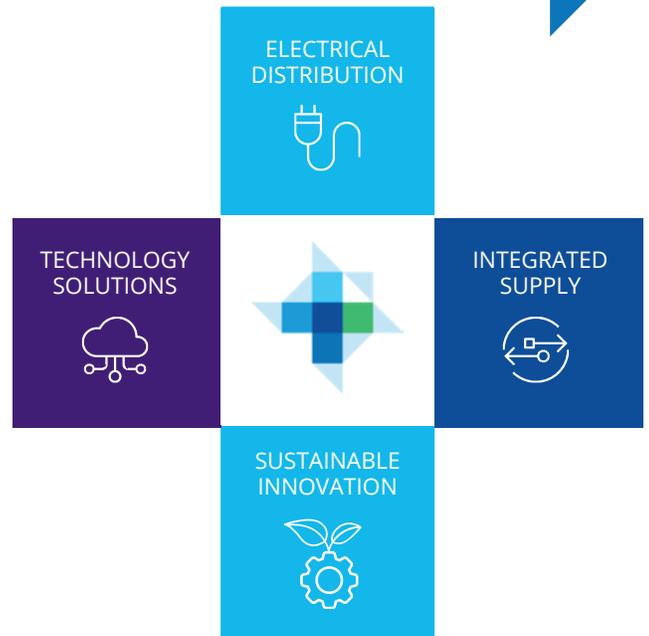

Turtle Relay Warehousing optimizes space and ensures precise inventory control through advanced technology and a flexible infrastructure. Our system supports seasonal distribution, product overflow, and fluctuating space requirements.

Sustainable Waste Management

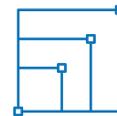

Committed to environmental responsibility, Turtle manages waste effectively, providing large-scale recycling and debris removal. We can help you minimize the environmental impact of your project while maintaining clean and safe job sites.

Smart, Sustainable Warehousing Solutions that Drive Value, Efficiency and Effectiveness

Enhanced Value-Added Solutions

Solutions include kitting and assembling products, managing recurring inventory, optimizing the unboxing experience, and handling returns or reverse logistics for seamless operations.

Efficient Recycling and Disposal

For large-scale projects, Turtle can handle all sizes and quantities of product crates and boxes, efficiently breaking them down and responsibly recycling the materials for you.

Pre-Fabrication Services

Reduce on-site labor cost, enhance safety, and improve efficiency on your next project with Turtle's pre-fab capabilities.

Dynamic Space Optimization

Turtle's warehousing capabilities can react to fluctuating inventory needs, allowing us to efficiently manage non-stock items and support diverse project requirements.

Efficient Inventory Handling

Turtle schedules and executes the inventory reception, ensuring all items are optimally sorted, managed, and maintained.

Streamlined Shipping Solutions

By negotiating discounted shipping rates and managing the picking, packing, and shipping processes, Turtle ensures cost-effective and timely delivery of products.

International Order Management

Turtle excels in handling international orders. Our three-tier review process ensures no room for error, making us a trusted partner for global logistics.

Our Related Offerings

Power Conditioning, Quality & Backup

Uninterruptible power supplies, power factor correction & automatic transfer switches

Components for Electrical & Mechanical Subsystems

Variable frequency drives, circuit breakers and fuses

Facility Power Distribution

Busway, transformers, panelboards, switchgear and floor-based power

Facility/power Monitoring & Management

Integrated facility systems, facility management software, remote monitoring meters & software

Monitoring Consoles

Network operations center consoles

White Space Power Distribution

Low voltage busway, floor-standing/wall-mount /enclosure power distribution units (PDUs)

Airflow & Thermal Management Solutions

Rack and aisle-based containment solutions

Racks & Enclosures

IT equipment racks, enclosures and colocation cages

Wire & Cable Management

Cable tray and modular wiring systems

Indoor & Outdoor Lighting

High efficiency LED luminaires and lighting controls
