yourChoice

A NEW STEP WITH CUSTOMISED GIFTS

Bringing personalisation to the next level. The yourChoice product programs allow you to create a unique product in just a few simple steps. Essential products in small quantities and short lead-times.

Ex-factory, produced based on your wishes. In this presentation you find a summary of the countless options to manufacture items in your (mix of) colours, in an own shape and with the most striking prints.

RESPONSIBLE COLLECTION

This collection of daily enjoyable functional items is carefully assessed to increase brand-awareness whilst assuring a respectful use of materials and a longer-lasting product. Ensuring that our actions incorporate these beliefs means rethinking every step of the product development process and our entire operation. Integrating sustainability in the material selection, production, personalisation and packaging methods are examined and potential improvements are continuously implemented. We are committed to conduct business in a responsible and trustworthy manner.

More sustainable materials. Whenever possible, and whilst focussing upon functionality and quality, the More Than Gifts collection is, where relevant, gradually upgraded or substituted with newer and more sustainable materials. This means selecting high quality materials that are recycled or lend themselves to recycling, materials derived from renewable sources and ethically sourced. The centrepiece of this is supporting our suppliers in implementing innovative processes to produce more sustainable materials.

Reduce waste. In the way we interact with our environment, unnecessary waste is no longer an option. Replacing disposable products made of non-renewable resources by reusable products or biodegradable materials is an important step forward. Also rethinking the way we pack and distribute goods give opportunities to reduce waste. As of 2018 we started to streamline box sizes and packaging methods in order to reduce the amount of polybags and cardboard used. Ongoing individual item packaging is being evaluated and streamlined to offer a smarter solution.

MORE SUSTAINABLE MATERIALS

Whenever possible we offer the option to choose a sustainable material, meaning that they are recycled or materials derived from renewable sources.

Why Wheat Straw?

Wheat-straw is mainly an agricultural waste product that remains after grain or juice is extracted from the crops. Wheat straw is recently being used as filler for thermoplastic composites as polypropylene or ABS. It is a valuable environmental friendly resource that, while upgrading the outlook of many reusable products, helps to reduce the amount of plastics used while reusing natural resources.

Why RPET?

PET is the most common type of plastic, mostly used for packaging and beverages disposable bottles/containers. A large part of the solid waste in the world is attributed to this packaging. Recycled PET is known as RPET, and it is the most widely recycled plastic in the world. The use of recycled PET by giving a new life to an already made product in place of virgin resin results in reduced environmental impact..

Why Bamboo?

Bamboo is one of the fastest growing plants (grass) and it can replenish itself within a year with a minimum water need and without need of fertilisers to boost its growth. Since bamboo is naturally pest-resistant there is no usage of pesticides. Bamboo is a very renewable resource, strong and durable. It absorbs more CO₂ from the air and releases more oxygen which improves the air quality. Bamboo is 100% natural and biodegradable.

Cotton

Bags made of cotton are durable, easily washable and help to reduce pollution. Organic cotton is similar to cotton with the difference being it is naturally grown without the use of any pesticides, herbicides, fertilizers, or any other chemicals. The number of organic cotton farms is increasing quickly however still accounts for a very small part of overall cotton production worldwide.

RECYCLED PRE-CONSUMER COTTON COMES FROM THE WASTE THAT IS PRODUCED IN THE MANUFACTURING PROCESS OF COTTON GARMENTS AND BAGS. THE SCRAPS, YARN ETC ARE COLLECTED AND RE-USED.

FULLY CUSTOMISED COTTON BAGS

Choose from different natural materials such as cotton, organic cotton and the newly introduced recycled pre-consumer cotton. Have your design printed from edge-to-edge to maximise the impact of your message.

Delivery time from 8 weeks

The most popular models are available in **various grammages** and can be **allover screen- or digitally printed**.

A large part of the solid waste in the world is attributed to PET plastic. Which is why we give a new life to the plastic.

RPET

PET is the most common type of plastic, mostly used for packaging and disposable bottles/containers. A large part of the solid waste in the world is attributed to this packaging. Recycled PET also known as RPET, is the most widely recycled plastic in the world. The use of recycled PET, by giving a new life to an already made product in place of virgin resin, results in reduced environmental impact.

RECYCLED PET ALSO KNOWN AS RPET, IS THE MOST WIDELY RECYCLED PLASTIC IN THE WORLD.

FULLY CUSTOMISED SHOPPING BAGS

Minimise the impact on the environment and choose from a range of models, and materials, such as Paper, PP-woven, RPET or non-woven to maximise the impact of your message. Entirely reusable, your environmentally friendly bag has never been so trendy.
