# WHAT IS POWER INDIE WORLD?

CREATED BY FREQUENZWERK RECORDS BERLIN, IN 2023 WE STARTED ORGANIZING FESTIVALS AND CONCERTS WITH AND WE REALIZED THAT THE ARTISTS AND MUSICIANS NEEDED A SPACE WHERE THEY COULD SHOW THEIR ART IN A MORE REALISTIC AND FAMILIAR WAY, SINCE THE OPTIONS AND CONCEPTS THAT NOW EXIST IN COMMERCIAL PLATFORMS IS VERY DIFFICULT TO EMERGE SUCCESSFULLY AS AN INDEPENDENT ARTIST, FOR THIS REASON WE HAVE CREATED A MUSIC PLATFORM WHERE ALL THE CONCEPTS RELATED TO MUSIC PRODUCTION AND PROMOTION ARE FOUND, ORGANIZING CONCERTS, FESTIVALS, CREATING OUR OWN RECORDING STUDIO, CREATING WORKSHOPS, ALSO AN ONLINE RADIO STATION FOR INDEPENDENT MUSICIANS, ALSO WITH OUR OWN REHEARSALSPACES FOR OUR ARTISTS.

POWERINDIE.COM IS A WORLDWIDE MUSIC PLATFORM WHERE MUSICIANS CAN UPLOAD THEIR MUSIC AND APPLY IT TO VARIOUS EVENTS THAT WE ORGANIZE, ALSO IN OUR EVENTS WE INVITE VISUAL ARTISTS TO EXHIBIT THEIR ART, AND THUS MIX MUSIC WITH VISUALS IN AN EVENT, POWER INDIE WORLD IS COMPLETELY INDEPENDENT AND DEDICATED FOR ARTISTS AND MUSICIANS WHO NEED AN OPPORTUNITY TO PRESENT THEIR ART.

MUSIC NEW FACES

***LAST LAUGH.***

**LAST LAUGH.** describes her music as an homage to her teenage self. With lyric forward Rock-Pop sounds, she combines her old love for both, the Singer-Songwriter genre as well as the Pop Punk legends of her emo phase. In her songs she explores themes ranging from self-awareness and anxiety to anger, intimacy, the bittersweet feeling of past love, remembering somebody's birthday without having spoken to them in 5 years, and making fun of men. Together with her band, LAST LAUGH. sets out to bring a night full of anger, tears, and comedy to every live show.

LAST LAUGH.'s main inspirations are Paramore, Wolf Alice, Wet Leg and whatever fun gay Pop music she comes across.

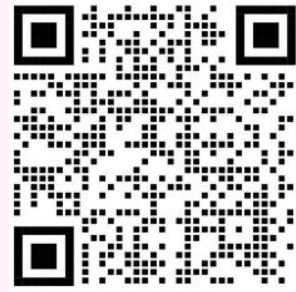

# DIRY MOPS

**Dirty Mops are dirty at their core, as they grew up listening to the Sonics, Nirvana, Rage Against the Machine, Sepultura and other distorted sounds. But someday they fell in love with the primitive surf-beat, bell-tone guitars and dripping spring reverb sounds of the surf godfathers Dick Dale, the Ventures and the Surfariis. After numerous shows in dirty locations and several lineup changes, their sound and energy were sculpted to a raw and intense vibration when the drummer Fabiano Ferronato and bass guitar player Luther Lebttag joined guitarist and singer Dgee in 2023. They created a unique style, stubbornly remaining unconventional and underground.**

# OOZ

**OOZ is a 6 piece band with members from South Africa, Hungary, Romania, Latvia and Germany, who are based in Berlin and Amsterdam. OOZ are self-acclaimed musical chameleons that genre bend with hints of punk, funk, grunge and experiment with odd-time signatures while creating contiguous grooves that keep the audience dancing and engaged. OOZ members as well do their own recordings and masterings in their own studio, under their independent label, Quantum Intermission. OOZ will be releasing a full debut album and live album later this year. you just need artists to make it happen.” (Written by Julian Melone)**

# SCAMPI

**SCAMPI is a Berlin-based 4-piece band taking influences from Alt-DnB / Acid Jazz and Indie. With fast beats, groovy basslines, synthesizers, a Sampler and enchanting vocals they create a driving, atmospheric, danceable experience. The upcoming band started playing live this summer, opening for acts like 'Purple Palace' in Madame Claude and latest the 'Power Indie Festival'.**

# BUZZTERDS

**Buzzterds are a three-piece alternative rock band from Berlin, founded in 2019. The band's sound is bound to no musical boundaries and combines influences from punk rock to power pop. Buzzterds draw not only from their many years of musical experience from various music projects, but above all from their life experience. Their music comes from the heart. This is reflected in the emotional and profound lyrics, which are embedded in a sea of sounds. Buzzterds are sometimes driving and sometimes slow, but always very recognizable. In 2022 they released their first EP: "Bringing Back Innocence". Inspired by the positive feedback from their ever-growing fan base, they return to the studio to finally finish their first LP in autumn 2023: "Leaving Innocence". Buzzterds' goal is not exactly modest: They want to conquer the rock stages, out of conviction, out of joy and, above all, out of love for good music.**

# Who killed james

**Power Trio Rock Blues Band of Brazilians living in Berlin, formed in 2022 we do some gigs in the city and were finalists in the Emergenza 2023 band Contest. Now we released our singles recorded at G7 Studio Berlin. Our sound is inspired by great artists like Jared James Nichols, Tyler Bryant & the Shakedown, Larkin Poe, The Cold Stares, Marcus King, Thin Lizzy, and Jimi Hendrix.**

# Vanessa Neuber

Born and raised in a Brazilian city on the banks of the Itajaí-Açu River, Vanessa delves into various artistic forms. In addition to being a visual artist, she is a designer, illustrator, teacher, poet, Reiki master, harmony agent, and a messenger who proclaims art as an omnipresent gift. Graduated in Fashion Design, with post-graduate degrees in Art History and Analytical Psychology with an emphasis on Mythology, Tales, and Arts, her studies as a visual artist began spontaneously and self-taught. Her first solo exhibition, titled "Sopros de Felicidade" (Breaths of Art Happiness), took place in 2010 at the Blumenau Art Museum. Following several smaller exhibitions, she held her second solo exhibition, titled "Máscaras

Voadoras" (Flying Masks), in 2016 at the Angelim Hall in Blumenau. In 2019, one of her works, titled "Aviso de Gatilho: POESIA" (Trigger Warning: POETRY), was part of the collective exhibition "Intersecções com a Paisagem" (Intersections with the Landscape) at the 14th Curitiba Biennial / Polo SC. In 2021, she held two exhibitions: the virtual collective show "Sangue Luz Sombra" (Blood Light Shadow) and the solo exhibition "A Lei da Polaridade me faz Dançar" (The Law of Polarity Makes Me Dance). In 2016, Vanessa created the therapeutic art project Colagem Sensitiva (Sensitive Collage), an intuitive experience providing an opportunity to slow down amidst internal and worldly chaos, look within, and dive deeper into one's unique creative universe through a meditative process. The project saw over 25 editions across various regions of Brazil. As a poet, she has published two books: "Personagens que você matou, mas ainda não sabe / Algumas pistas ou poemas perdidos" (Characters You Killed but Don't Know Yet / Some Clues or Lost Poems) (2017) and "Paraísos Orgânicos em Artérias Expostas" (Organic Paradises in Exposed Arteries) (2019), launched in Blumenau, Florianópolis, São Paulo, and Montevideo. These works led to the creation of the label Neuber Arte e Publicações Independentes (Neuber Art and Independent Publications). By the end of 2019, her work had been selected to participate in 15 art fairs and markets. The poetics of her work reflect a mystical essence and a questioning of the status quo, addressing themes such as philosophy, psychology, mythology, hermeticism, astrology, nature, and feminism. Her fascination with mystery and the inexplicable permeates all of her artistic production, materialized in the form of collages, assemblages, and artist's books. Currently residing in Berlin, she continues to write her story in Europe."

# Riikka Korpela

I have a Bachelor's degree in Visual Arts from Satakunta University of Applied Sciences. I studied printmaking, but even then, I began incorporating photography techniques into my artwork. I like to document my surroundings, from street views to shop window displays, and transform them into surreal landscapes inhabited by unreal creatures. Living in Berlin, I capture its unique essence, and I also take photos when I travel, integrating diverse environments into my work. Utilizing bright colors and strong contrasts, my artwork immerses viewers in a psychedelic experience, inviting them to explore worlds of vibrant, dreamlike energy. Each piece serves as a journey to another realm, where the ordinary transcends into the extraordinary. I actively challenge conventional perspectives, aiming to reveal the hidden beauty in everyday life. Importantly, I don't use AI in my works; I first photograph my subjects and then manually create digital paintings using photo editors. My work has been exhibited all over the world, including Berlin, Helsinki, London, and New York City.
