WHO KILLED HAILEY ROSE?

THE CASE

In 2017, the body of VidView star Hailey Rose was tragically found dead near the river. The police spent years trying to piece it together, but they could never connect the dots and make an arrest. The case has since gone cold, but investigators are certain they've overlooked something and are asking for your help to review the evidence one last time. Is there something in the surveillance videos that the police missed? Are the statements consistent with the interrogations? The family needs closure. Can you help them find the killer?
